HSD DATA BOOK INTRODUCTION

Section 1

INTRODUCTION

The New Mexico Human Services Department (HSD) is pleased to present the State of New Mexico Data Book, a summary of social, economic, and health statistics of our state. The Data Book presents, in one reference document, a diversity of information and is designed to facilitate comparisons of national, state, and county-level data. The Data Book contains various sections, representing the types of information most frequently requested by a broad range of stakeholders. Section 1 includes the Table of Contents, Letter from the Secretary, HSD Mission Statement and a guide to using this Data Book.

SECTION 2A | 2A) DEMOGRAPHIC DATA U.S. & NEW MEXICO

Explanation of Key Terms for Maps	10
U.S. Resident Population by State as of July 2018	11
New Mexico Resident Population by County as of July 2018	12
New Mexico Resident Population as a Percentage of Total by County as of July 2018	13
New Mexico Native American Resident Population by County as of July 2018	14
New Mexico Children (0-4 Years) Resident Population by County as of July 2018	15
U.S. Per Capita Personal Income by State as of 2018	16
New Mexico Per Capita Personal Income by County as of 2018	17
New Mexico Percent Change in Per Capita Personal Income by County, 2017 to 2018	18
U.S. Real Median Household Income by State as of 2018	19
New Mexico Median Household Income by County as of 2017	20
U.S. Living Wage: Single Adult, No Children as of 2018	21
New Mexico Living Wage: Single Adult, No Children as of 2018	22
U.S. Living Wage: Single Adult, Two Children as of 2018	23
New Mexico Living Wage: Single Adult, Two Children as of 2018	24
U.S. Living Wage: Two Adults, Two Children as of 2018	25
New Mexico Living Wage: Two Adults, Two Children as of 2018	26
U.S. Single Parent Households with Children as a Percentage of Households with Children by State as of 2017	27
New Mexico Single Parent Households with Children as a Percentage of Children as a Percentage of Households with Children	28
U.S. Unemployment Rate by State as of September 2019	29
New Mexico Unemployment Rate by County as of September 2019	30
U.S. Poverty Rate by State as of 2017	31
New Mexico Poverty Rate by County as of 2017	32
U.S. Poverty Rate of Minors (Under 18 Years) by State as of 2017	33
New Mexico Poverty Rate of Minors (Under 18 Years) by County as of 2017	34
Children (0-4 Years) Living in Poverty in New Mexico as of 2017	35
New Mexico Poverty Rate of Children (0-4 Years) by County as of 2017	36
U.S. Number of Food Insecure Children by State in 2017	37
New Mexico Number of Food Insecure Children by County as of 2017	38

TABLE OF CONTENTS

Child Food Insecurity Rate by U.S. State as of 2017	39
New Mexico Child Food Insecurity Rate by County as of 2017	40
New Mexico Drug Overdose Deaths by County, 2016-2018	41
New Mexico Suicide Deaths by County, 2013-2017	42
SECTION 2B 2B) PROGRAM ENROLLMENT	43
Explanation of Key Terms for Maps	44
Program Enrollment Chart as of October 2019	45
Brief Overview of Centennial Care Programs	46
Ratio of Federal Dollars to State Dollars for Traditional Medicaid in Fiscal Year (FY) 2021	47
Ratio of Federal Dollars to State Dollars for Medicaid Expansion in FY 2021	48
Ratio of Federal Dollars to State Dollars for Children’s Health Insurance Program (CHIP) in FY 2021	49
FY 2020 Medicaid Budget Pro-rated by County	50
FY 2020-21 Medicaid General Fund Need Change Pro-rated by County	51
FY 2020-21 Incremental Medicaid Budget Pro-rated by County	52
Medicaid & CHIP Enrollment (Comprehensive Coverage Only) as a Percentage of Population by State as of August 2019	53
New Mexico Medicaid & CHIP Enrollment by County as of October 2019	54
New Mexico Medicaid & CHIP Enrollment as a Percentage of Population by County as of October 2019	55
New Mexico Medicaid & CHIP Enrollment of Native Americans by County as of October 2019	56
New Mexico Medicaid & CHIP Enrollment of Native Americans as a Percentage of Total Enrollment by County as of October 2019	57
U.S. Supplemental Nutrition Assistance Program Enrollment as a Percentage of Population by State as of August 2019	58
New Mexico Supplemental Nutritional Assistance Program Enrollment by County as of October 2019	59
New Mexico Supplemental Nutrition Assistance Program Enrollment as a Percentage of Population by County as of October 2019	60
New Mexico Supplemental Nutritional Assistance Program Enrollment of Native Americans by County as of October 2019	61
New Mexico Supplemental Nutritional Assistance Program Enrollment of Native Americans as a Percentage of Total by County	62

Section 1

THANK YOU FOR WORKING WITH US!

Dear Legislator, colleague, key partner, or friend,

This Data Book is the first edition published by the Human Services Department (HSD) in recent history. Our department's mission is:

To transform lives. Working with our partners, we design and deliver innovative, high quality health and human services that improve security and promote independence for New Mexicans in their communities.

We have over 40 different offices statewide, and we feel that the phrase "in their communities" is critically important to the people we serve. Through a variety of programs described herein, we are deeply honored to serve over half of all New Mexicans.

As a policy maker or one who partners with us in this service, we seek here to provide you with national data that compares New Mexico to other states. But, more importantly, this Data Book is designed to provide county level information that is already used by HSD and can be used by you to identify our state's areas of greatest need.

The Pew Foundation has published extensive data on evidence-based policy making. New Mexico ranks highly in the United States as a state that has focused on data and evidence-based interventions over the past 20 years. Pew outlines five key components that each require evidence: program assessment, budget development, implementation oversight, outcome monitoring, and targeted evaluation. At HSD we place a very high priority on using data to identify key priorities, track our progress, and prove the effectiveness of the investments that the Legislature makes in our department and its programs every year.

We do not believe that New Mexico is a "poor state." We believe that our state is built on strong communities, our state's great beauty, and the abundance of our natural resources. However, we do acknowledge that New Mexico is at or near the wrong end of the list for average income, food insecurity, and childhood poverty. In the pages that follow, you can easily identify the "hot spots" of need in our state.

While no one likes to see New Mexico at the wrong end of these national lists, our very low average income results in our state having one of the very highest federal match rates in the country. This provides us with a great opportunity to leverage our financial resources and return between \$3.50 and \$9.00 of federal funds for each general fund dollar spent. (Some programs match 22:1; see the Heat and Eat program Factsheet.) This wise investment of state dollars multiplies greatly with federal funds to indeed "transform lives."

We thank you for your confidence in HSD and hope that you will find that this Data Book contains an abundance of information that can be used to drive evidenced based policy and legislation.

Sincerely, and on behalf of all 1736 Human Service Department employees,

David R. Scrase M.D.
Cabinet Secretary
New Mexico Human Services Department

OUR MISSION

To transform lives. Working with our partners, we design and deliver innovative, high quality health and human services that improve the security and promote independence for New Mexicans in their communities.

GOALS

We help NEW MEXICANS

1. Improve the value and range of services we provide to ensure that every qualified New Mexican receives timely and accurate benefits.

We communicate EFFECTIVELY

2. Create effective, transparent communication to enhance the public trust.

We make access EASIER

3. Successfully implement technology to give customers and staff the best and most convenient access to services and information.

We support EACH OTHER

4. Promote an environment of mutual respect, trust and open communication to grow and reach our professional goals.

GUIDE TO USING THIS | DATA BOOK

INFORMATION AT YOUR FINGERTIPS

The New Mexico Human Services Department (HSD) is pleased to present the State of New Mexico Data Book, a summary of social, economic, and health statistics of our state. The Data Book presents, in one reference document, a diversity of information and is designed to facilitate comparisons of national, state, and county-level data.

The Data Book contains various sections, representing the types of information most frequently requested by a broad range of stakeholders:

U.S. & NEW MEXICO DEMOGRAPHIC MAPS

This section provides information and statistics across a range of demographic, health, and socioeconomic indicators. U.S. maps are broken out by state, and New Mexico maps are presented at county-level. A text box on the bottom right of each table provides information important for correct interpretation of the table. In many tables, details will not add exactly to the totals and subtotals shown because of rounding.

HSD PROGRAM ENROLLMENT MAPS

HSD serves nearly half of New Mexican residents. Program Enrollment Maps illustrate the number of people served by major HSD programs as well total program expenditures by county. Additionally, HSD recognizes and affirms the State of New Mexico's government-to-government relationship with its 23 sovereign Pueblos, Nations and Tribal neighbors; and, therefore, has included a series of program enrollment maps among Native Americans.

FISCAL YEAR 2021 BUDGET REQUEST FACTSHEETS

Each of those highlight 11 significant budget requests in a clear and concise format by summarizing the request, proposed funding, and benefits to New Mexico. The Fiscal Year (FY) 2021 HSD budget request is \$7.782 billion, with a 15.72 percent (\$1.225 billion) request from the state general fund. Nearly 85 percent of HSD's budget is funded by federal matching funds from a variety of programs. For every additional dollar of new general fund, HSD will earn ~\$2.52 in additional federal funds. Over the last several years, HSD has managed its programs with little to no new general fund appropriations. The fiscal year FY 2021 request reflect the administration's efforts to invest in these critical and important programs.

COUNTY FACTSHEETS

This section provides comparable information and statistics across a range of demographic and socioeconomic indicators, as well as information related to HSD field offices, program enrollment and funding. Also included is details related to local health providers such as nursing facilities, hospitals, and Federally Qualified Health Centers (FQHCs).

DATA BOOK

Every effort is made to ensure the accuracy of the data presented in the Data Book. However, the Data Book relies on various sources for national and state reporting, with the most recent reporting year often varying. Nevertheless, HSD has used data from the most recent year available.

U.S. & NEW MEXICO DATA MAPS

Section 2A

U.S. & NEW MEXICO DATA

This section provides information and statistics across a range of demographic, health, and socioeconomic indicators. U.S. maps are broken out by state, and New Mexico maps are presented at county-level. A text box on the bottom right of each table provides information important for correct interpretation of the table. In many tables, details will not add exactly to the totals and subtotals shown because of rounding.

EXPLANATION OF KEY TERMS FOR MAPS

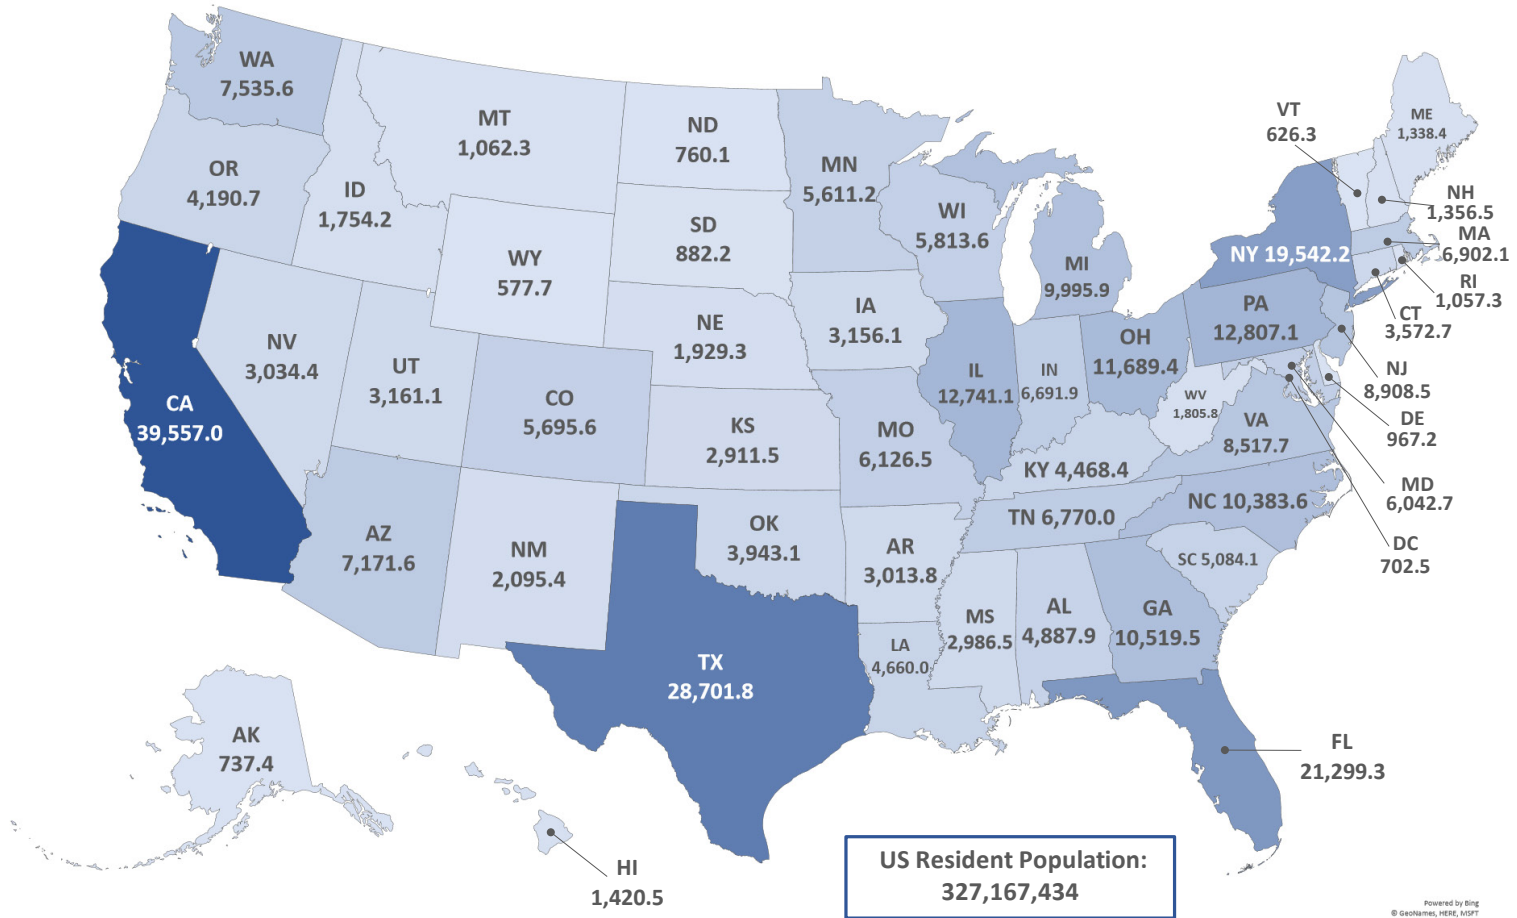

Provide information and statistics across a range of demographic, health, and socioeconomic indicators for the U.S. and New Mexico. U.S. maps are broken out by state and New Mexico maps are presented at county-level. A text box on the bottom right of each table provides information important for correct interpretation of the table.

Demographic Data U.S. and New Mexico

Page #	Map Name	Numerator	Denominator	Description
12	U.S. Resident Population by State as of July 2018	Number of residents	N/A	
13	Resident Population by County as of July 2018	Number of residents	N/A	
14	Resident Population as a Percentage of Total by County as of July 2018	Resident Population in County	Resident Population in State	
15	Native American Resident Population by County as of July 2018	Number of residents who are Native American	N/A	
16	Children (0-4 Years) Resident Population by County as of July 2018	Number of residents who are children (0-4) years	N/A	
17	Per Capita Personal Income by State as of 2018	Personal Income in State	Resident Population in State	Income that people get from wages and salaries, Social Security and other government benefits, dividends and interest, business ownership, and other sources. These statistics can offer clues to Americans' financial health and future consumer spending. Per capita personal income is total personal income divided by the number of residents in a specific geographic area.
18	Per Capita Personal Income by County as of 2018	Personal Income in County	Resident Population in County	
19	Percent Change in Per Capita Personal Income by County 2017-2018	N/A	N/A	
20	Real Median Household Income by State as of 2018	N/A	N/A	The real median income splits the income distribution into two halves – half the households earn less than the median and half the households earn more. The median is not affected by extreme highs and lows in reported incomes.
21	Median Household Income by County as of 2017	N/A	N/A	
22	Living Wage: Single Adult, No Children as of 2018	Living Wage: Single Adult, No Children	N/A	
23	Living Wage: Single Adult, No Children as of 2018	Living Wage: Single Adult, No Children	N/A	
24	Living Wage: Single Adult, Two Children as of 2018	Living Wage: Single Adult, Two Children	N/A	Living wage is an alternative measure of basic needs, drawing upon geographically specific expenditure data related to an individual's/family's likely minimum food, childcare, health insurance, housing, transportation, and other basic necessities (clothing, personal care items) costs. Living wage draws on these cost elements and the rough effects of income and payroll taxes to determine the minimum employment earnings necessary to meet basic needs while also maintaining self-sufficiency.
25	Living Wage: Single Adult, Two Children as of 2018	Living Wage: Single Adult, Two Children	N/A	
26	Living Wage: Two Adults, Two Children as of 2018	Living Wage: Two Adults, Two Children	N/A	
27	Living Wage: Two Adults, Two Children as of 2018	Living Wage: Two Adults, Two Children	N/A	
28	Single Parent Household with Children as a Percentage of Households with Children by State as of 2017	Number of Single Parent Households with Children in State	Number of Households with Children in State	
29	Single Parent Households with Children as a Percentage of Households with Children by County as of 2017	Number of Single Parent Households with Children in County	Number of Households with Children in County	
30	Unemployment Rate by State as of September 2019	Number of Unemployed Persons in State	Labor Force in State	The unemployment rate represents the number of unemployed people as a percentage of the labor force (the labor force is the sum of the employed and unemployed who are seeking employment). I does not include those not seeking employment.
31	Unemployment Rate by County as of September 2019	Number of Unemployed Persons in County	Labor Force in County	
32	Poverty Rate by State as of 2017	Number of Persons Living Below the Poverty Level in State	Resident Population in State	
33	Poverty Rate by County as of 2017	Number of Persons Living Below the Poverty Level in County	Resident Population in County	
34	Poverty Rate of Minors (Under 18 Years) by State as of 2017	Number of Minors (Under 18 Years) Living Below the Poverty Level in State	Resident Population of Minors (Under 18 Years) in State	
35	Poverty Rate of Minors (Under 18 Years) by County as of 2017	Number of Minors (Under 18 Years) Living Below the Poverty Level in County	Resident Population of Minors (Under 18 Years) in County	The poverty rate is the ratio of the number of people (in a given age group) whose income falls below the poverty line; taken as half the median household income of the total population.
36	Children (0-4 Years) Living in Poverty in New Mexico as of 2017	Number of Children (0-4 Years) Living Below the Poverty Level	N/A	
37	Poverty Rate of Children (0-4 Years) by County as of 2017	Number of Children (0-4 Years) Living Below the Poverty Level in County	Resident Population of Children (0-4 Years) in County	
38	Number of Food Insecure Children by State in 2017	Number of children who are food insecure	N/A	
39	Number of Food Insecure Children by County as of 2017	Number of children who are food insecure	N/A	
40	Child Food Insecurity Rate by State as of 2017	Number of Food Insecure Children in State	Resident Population of Children in State	U.S. Department of Agriculture defines food insecurity as a lack of consistent access to enough food for an active, healthy life.
41	Child Food Insecurity Rate by County as of 2017	Number of Food Insecure Children in County	Resident Population of Children in County	
42	Drug Overdose Deaths by County, 2016-2018	Number of Drug Overdose Deaths	100,000 Persons	
43	Suicide Deaths by County, 2013-2017	Number of Deaths by Suicide	100,000 Persons

HSD PROGRAM ENROLLMENT

Section 2B

HSD PROGRAM ENROLLMENT

HSD serves nearly half of New Mexican residents. Program Enrollment Maps illustrate the number of people served by major HSD programs as well total program expenditures by county. Additionally, HSD recognizes and affirms the State of New Mexico's government-to-government relationship with its 23 sovereign Pueblos, Nations and Tribal neighbors; and, therefore, has included a series of program enrollment maps among Native Americans.

EXPLANATION OF KEY TERMS FOR MAP

Illustrate the number of people served by major HSD programs as well total program expenditures by county. Additionally, HSD recognizes and affirms the State of New Mexico’s government-to-government relationship with its 23 sovereign Pueblos, Nations and Tribal neighbors; and, therefore, has included a series of program enrollment maps among Native Americans.

Program Enrollment			
Page #	Numerator	Denominator	Description
46	Number of program enrollment across program(s)	Total Enrollment	The Human Services Department administers many programs, e.g., Medicaid, TANF (CASH), SNAP, LIHEAP, etc. A New Mexican resident can qualify for one or more programs.
48	Federal medical assistance percentage (FMAP)	The state share of the medical assistance percentage (= 1 -	A joint federal and state program that helps with medical costs for some people with lower incomes and limited resources. The ratio is calculated as FMAP divided by (1-FMAP).
49	The increased federal medical assistance percentage for Group VIII (90% for FY 2021).	The state share of the medical assistance percentage for Group VIII (10% for FY 2021).	The Affordable Care Act allows states to expand Medicaid eligibility to uninsured adults and children whose incomes are at or below 138% of the federal poverty level (FPL). The ratio is calculated as the increased FMAP for Group VIII divided by 10% (=1 - increased FMAP for Group VIII).
50	Enhanced federal medical assistance percentage (EFMAP).	The state share of medical assistance percentage for CHIP.	Public insurance program that provides low-cost health coverage to children in families that earn too much money to qualify for Medicaid but not enough to buy private insurance. In some states, CHIP covers pregnant women. The ratio is calculated as EFMAP divided by (1 - EFMAP).
51	County Medicaid enrollment	Total Medicaid enrollment	This is a high level assumption on the pro-rated FY 2020 Medicaid Budget distribution by county based on County Medicaid enrollment. The enrollment comes from the September 2019 Monthly Eligibility Report; the total budget is from the September 2019 data Medicaid Budget Projection. The pro-rated Medicaid budget by county is calculated as Total Budget multiplied by the ratio of County Medicaid enrollment to Total Medicaid enrollment.
52			
53			
54	Number of Persons Enrolled in Medicaid and CHIP by State	Resident Population in State	
55			
56			
57	N/A	N/A	
58	Number of Native Americans Enrolled in Medicaid in County	Resident Population of Native Americans in County	
59	Number of Persons Enrolled in SNAP in State	Resident Population in State	Provides nutrition benefits to supplement the food budget of needy families so they can purchase healthy food and move towards self-sufficiency.
60	N/A	N/A	
61	Number of Persons Enrolled in SNAP in County	Resident Population in County	
62	N/A	N/A	
63	Number of Native Americans Enrolled in SNAP in County	Resident Population of Native Americans in County	
64	N/A	N/A	
65	Number of Persons Enrolled in Cash in County	Resident Population in County	The Cash Assistance program includes Temporary Assistance for Needy Families (TANF) program, Education Works, General Assistance, Refugee Cash Assistance, State Supplement for Residential Care, Diversion, and others. The Temporary Assistance for Needy Families (TANF) program provides grant funds to states and territories to provide families with financial assistance and related support services such as childcare assistance, job preparation, and work assistance.
66	N/A	N/A	
67	Number of Native Americans Enrolled in Cash in County	Resident Population of Native Americans in County	
68	N/A	N/A	
69	Number of Persons Enrolled in LIHEAP in County	Resident Population in County	The Low Income Home Energy Assistance Program (LIHEAP) assists eligible lower-income households with their heating and cooling energy costs, bill payment assistance, energy crisis assistance, weatherization and energy-related home repairs.
70	N/A	N/A	
71	Number of Native Americans Enrolled in LIHEAP in County	Resident Population of Native Americans in County	
72	N/A	N/A	
73	N/A	N/A	
74	N/A	N/A	YES-NM is New Mexico’s self-service portal, where applicants may apply for public assistance benefits, report changes, renew benefits, and check benefits.
75	N/A	N/A	
76	N/A	N/A	Heat and Eat describes a streamlining practice that many states use to determine Supplemental Nutrition Assistance Program (SNAP) benefit levels for eligible households. In calculating a household’s monthly SNAP benefits, certain deductions from income are allowed, including the “excess shelter deduction,” of which utility costs are a factor. A household may receive a higher SNAP benefit if the family qualifies for more deductions. States may use a “standard utility allowance” (SUA), an average of the state’s utility costs, instead of collecting an applicant’s utility bill. Under previous law, receipt of any amount of LIHEAP benefits could qualify a household for the SUA, increasing the likelihood that they would qualify for the “excess shelter deduction,” and therefore a higher SNAP benefit.
77	N/A	N/A	
78	N/A	N/A	All child support collections received and processed by the State Disbursement Unit as administered in the New Mexico Child Support Enforcement System (CSES), including monies collected for payment processing only cases and the Navajo Nation Cases in the NM CSES.

TOTAL	>1,000,000	\$1,225,078.90

Program Enrollment as of October 2019

NEW MEXICO MEDICAID PROGRAM –CENTENNIAL CARE 2.0

Centennial Care entered its sixth year in 2019 with a transition from Centennial Care 1.0 to Centennial Care 2.0 and has effectuated a modernized healthcare delivery system in New Mexico that focuses on improved access to care, integrated care, care coordination, and quality of services using its four guiding principles:

- To create a comprehensive service delivery system that provides the full array of benefits and services.
- To encourage personal responsibility, so that members become more active participants in their health and more efficient users of the health care system;
- To advance Payment Reform strategies that reward improved outcomes rather than for the quantity of services delivered.
- To simplify the administration of the program for providers and members.

Managed Care Organizations (MCOs)

HSD conducted a procurement resulting in the selection of the following MCOs to provide services to Medicaid members beginning January 1, 2019:

- Blue Cross/Blue Shield of New Mexico
- Presbyterian Health Plan
- Western Sky Community Care

Waiver Renewal

HSD identified opportunities for targeted improvements and modifications that will continue to advance the original principles of Centennial Care through its next iteration. The following changes have been approved by the Centers for Medicare and Medicaid Services (CMS):

1. Increase annual limit for Community Benefit Respite for people with long term care needs from 100 to 300 hours;
2. Continuous Nursing Facility Level of Care for some Community Benefit eligible members;
3. Nutritional Counseling added to Agency-Based Community Benefit (ABCB);
4. Start-up goods, up to \$2,000 for new Self-Directed Community Benefit (SDCB) members;
5. Annual limits on certain SDCB services for new members entering SDCB on or after 1/1/19 (existing SDCB members are grandfathered);
6. SDCB Non-Medical Transportation reimbursement limited to mileage and bus/taxi passes;

7. Expanded models for care coordination, including for justice-involved individuals;
8. Implementation of Home Visiting pilot in counties (Bernalillo, Curry, and Roosevelt) that focuses on pre-natal, post-partum and early childhood development;
9. Expanded Behavioral Health Services (Pre-Tenancy and Tenancy Support Services for members with Serious Mental Illness (SMI) – effective 7/1/19; Screening, Brief Intervention, and Referral to Treatment (SBIRT); Adult Residential Treatment Centers for members with Substance Use Disorders (SUD); and Expanded inpatient SUD services);
10. Limit Family Planning Category to members through age 50 who do not have other full coverage (Individuals under age 65 who only have Medicare can continue to receive Family Planning Coverage).

Native American Collaboration

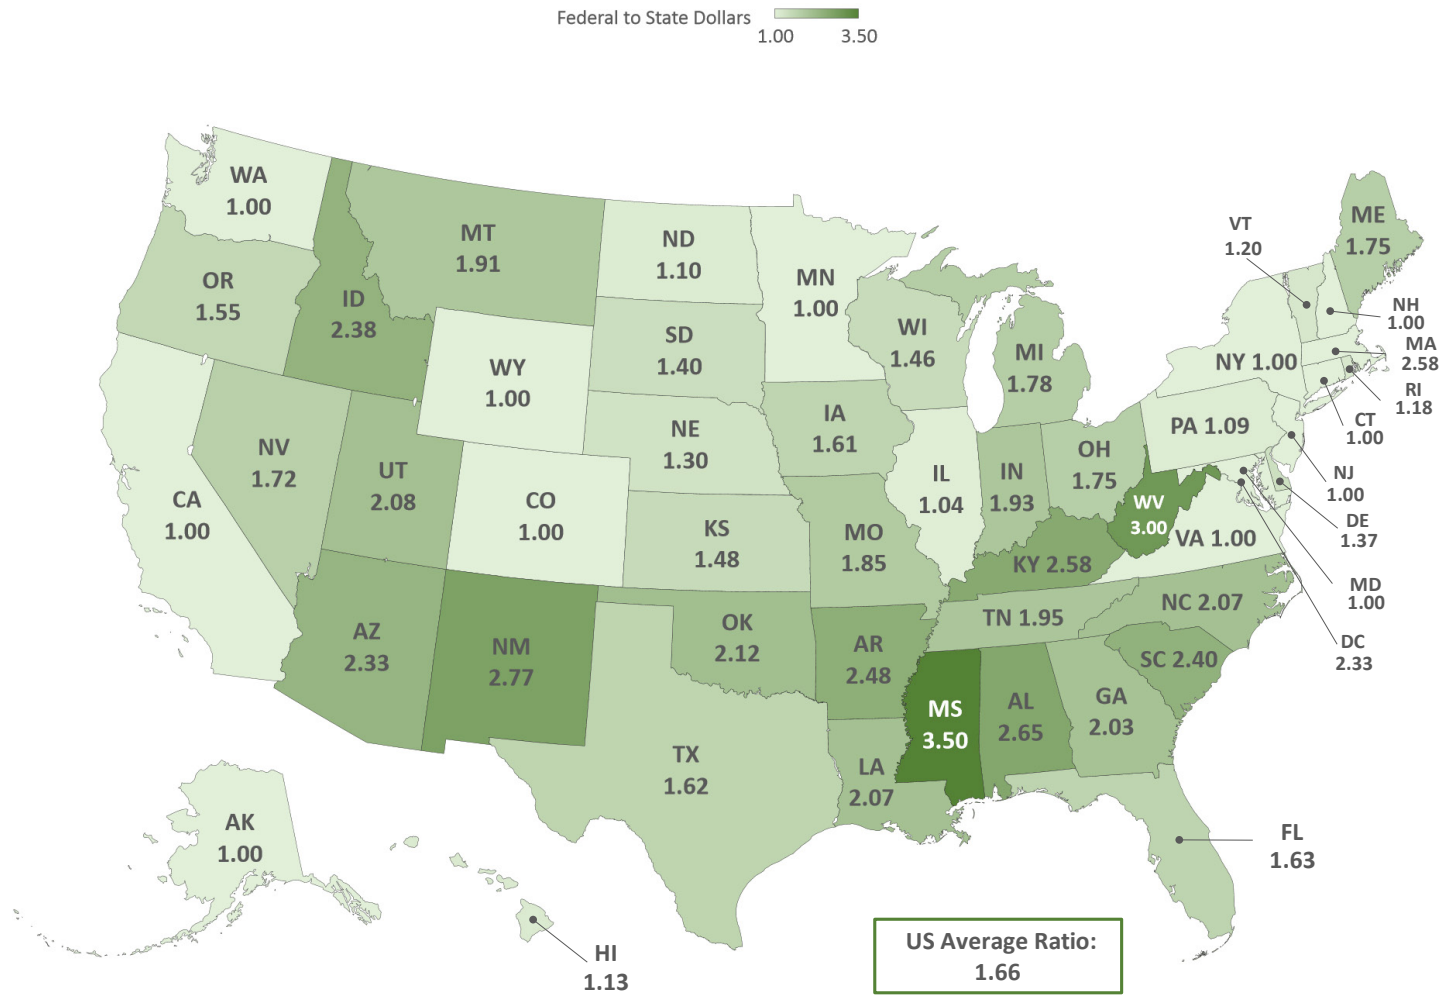

The State-Tribal Collaboration Act codified an effective government-to-government communication and collaboration between state and Tribal governments. The Act provides the framework for the state and Tribes to work together to develop successful programs and services to benefit New Mexico's Native American citizens. Part of the Act requires HSD to train state employees in cultural competency and to submit an annual report to the Governor's office on the agency's implementation of the Act, as well as the programs and services HSD provides for Native Americans.

The Native American Technical Advisory Committee (NATAC) was established in September 2012 as a subcommittee of the Medicaid Advisory Committee to give the Tribes, Pueblos, and Nations an opportunity to meet with the New Mexico Medicaid Director on a quarterly basis. The focus of these meetings is to continue discussion regarding Medicaid, including Centennial Care 2.0, the 1115 Waiver Renewal negotiations with the Centers for Medicare and Medicaid Services (CMS), and to continue discussions regarding implementation of the CMS guidance regarding services "received through an IHS facility".

HSD continues to work with IHS/Tribal 638 facilities to develop the process for 100% Federal Medical Assistance Percentages (FMAP) for services received through an IHS/Tribal 638 facility and furnished to Medicaid eligible Native Americans. Efforts include signed Care Coordination Agreements (CCA) between:

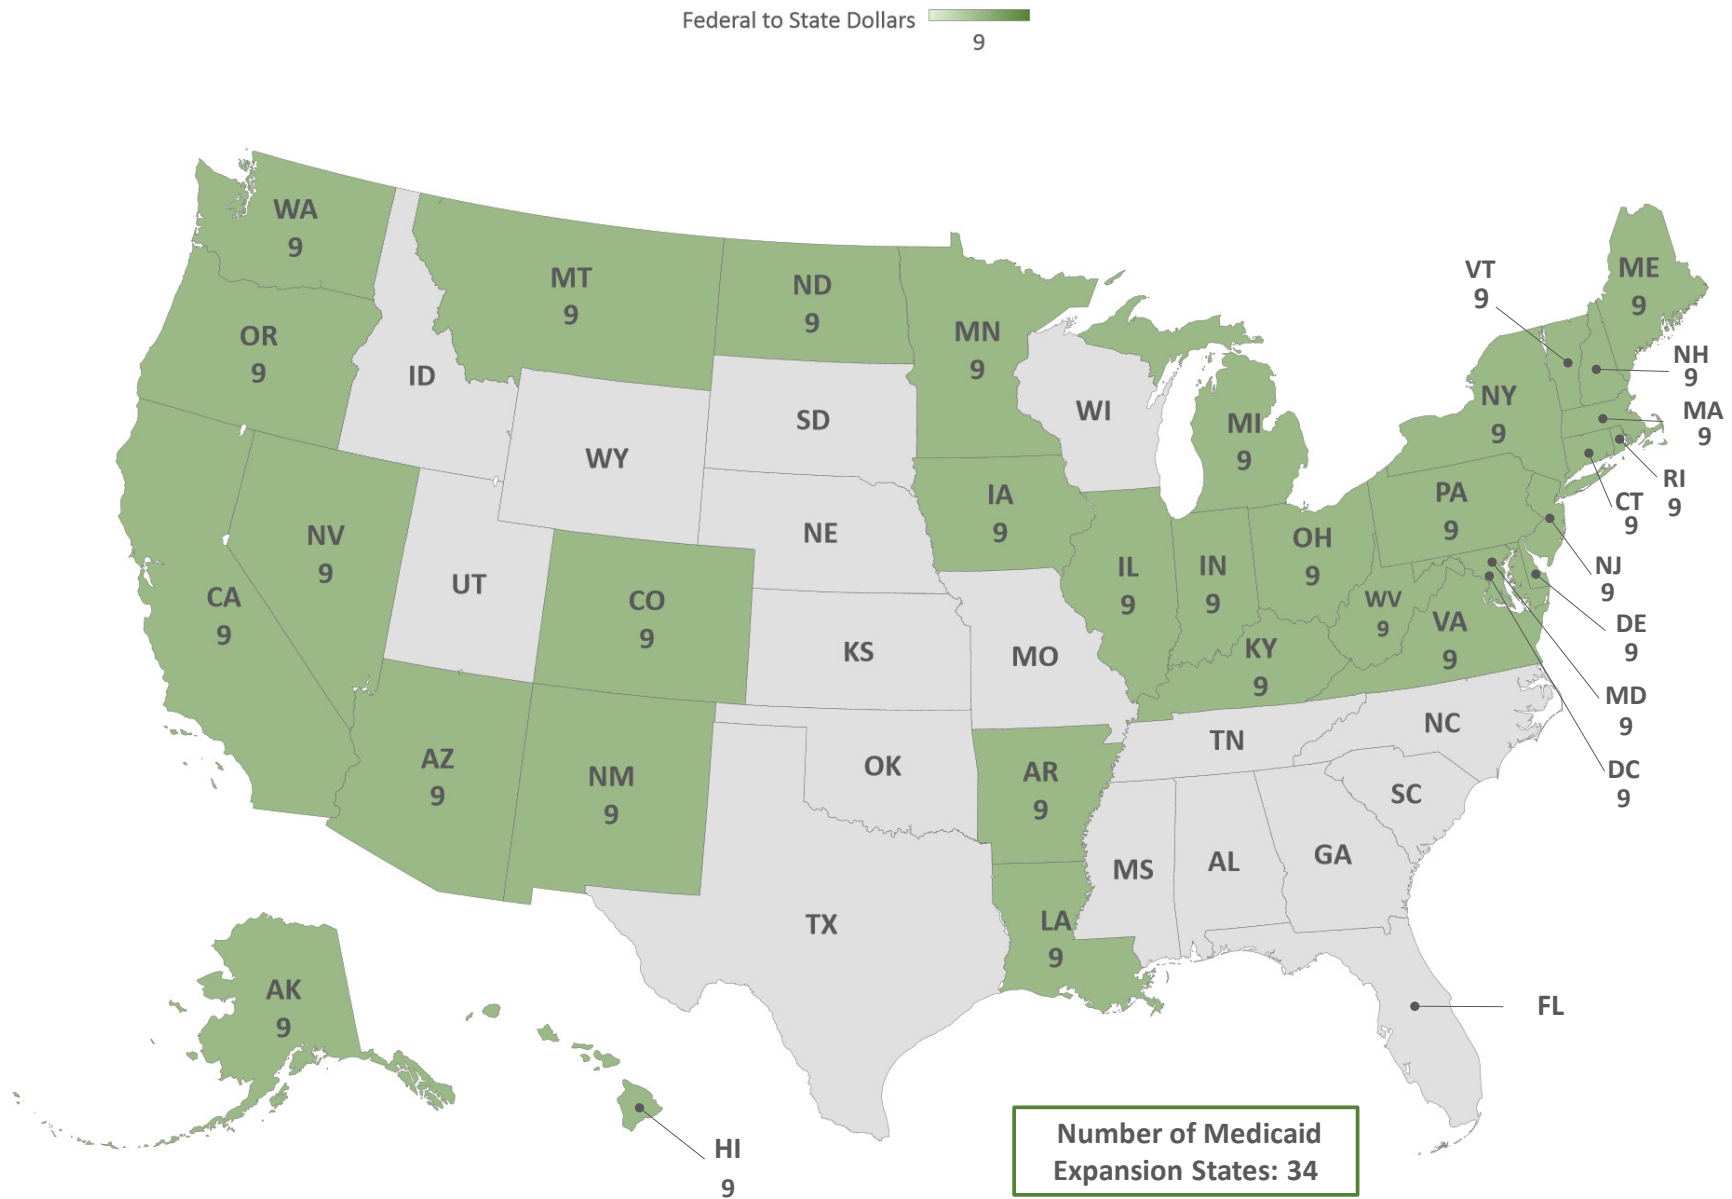

- UNMH and Albuquerque Area Indian Health Service (AAIHS).
- Presbyterian Health Services and AAIHS.
- UNMH and Navajo Area Indian Health Service.

Source: New Mexico Human Services Department, Medical Assistance Division calculation based on capitation rates. The estimate are rounded to thousand dollars and reflects the financial impact for CY2020. The totals may differ due to rounding. Changes on hospitals include Hospital Fee Increase, Not-for-Profit Hospitals Directed Payment, For-Profit Hospitals Directed Payment, Native Americans Hospitals Directed Payment, and Safety Net Care Pool Hospital Fee Increase. This is a projected Medicaid Expenditure distributed by In-State Hospitals with the county it's located in.

FISCAL YEAR 2021 BUDGET REQUEST FACTSHEETS

Section 3

FISCAL YEAR 2021 BUDGET REQUEST FACTSHEETS

Highlight 11 significant HSD budget requests in a clear and concise format by summarizing the request, proposed funding, and benefits to New Mexico.

Medicaid Program Budget

What is the Medicaid program budget?

The FY 2021 Medicaid program budget is projected to be \$6.5 billion, with a projected enrollment of 850,000 New Mexico residents. Most of the total cost is paid by the federal government. Medicaid provides health coverage to eligible low-income adults, children, people who are pregnant, elderly individuals, and people with disabilities. Because New Mexico is a lower income state, its federal match rate is the third highest in the country.

FY 2021 Incremental Budget Request: \$1,082,500.0 (\$1.1 billion)

\$1,082,500.0 (\$1.1 billion) general fund (GF), which represents an increase of \$62.8 over FY 2020. The Medical Assistance Division has completed a subsequent projection for FY 2021. The revised FY 2021 request is now \$1,100,900.0 (\$1.1 Billion) or \$81.8 over FY 2020 appropriation levels, for an increase of \$18.4 over the September request. Most of the change is due to the inclusion of the Health Insurance Providers Fee.

Financial Benefits to New Mexico

For every \$22 general fund spent on Medicaid, the federal government provides \$78. For every \$1 New Mexico puts into the Medicaid program, the federal government provides \$3.54.

Benefits to New Mexicans

The Medicaid program infuses more than \$6.5 billion annually into the state economy and has been the main source of economic growth since the expansion of Medicaid to low-income adults in 2014. Medicaid expansion has added \$6 billion in new federal funding and more than 10,000 jobs. Before Medicaid expansion, New Mexico had one of the highest uninsured rates at more than 20%. In 2018, the uninsured rate was 9.5%. The Medicaid program also represents a substantial portion of income for health care providers across New Mexico, especially in rural and frontier areas.

Frequently Asked Questions

Q. How many New Mexicans are enrolled in the Medicaid program?

A. Enrollment is nearly 840,000. 264,000 (31%) are covered in the Affordable Care Act expansion. 365,000 (43% are children) and 475,000 (57%) are adults.

Q. How many people are enrolled in Medicaid Managed Care?

A. 684,000 (more than 80%) are enrolled in Medicaid Managed Care.

Q. What is the average cost of a Medicaid recipient?

A. The average cost of a Medicaid managed care recipient is about \$521 per-member per-month (pmpm) (\$106 pmpm general fund).

Notes:

1. Negative general fund is a decrease in need while positive general fund is an increase in need.
2. The general fund need for SB 246 Health Care Quality Surcharge is provided by the Health Care and Disability Health Care Facility Funds.
3. The general fund need for this program is provided by Department of Health (DOH).
4. Only revenues that have changed are included.
5. Changes in FY 2020 and FY 2021 budget projections since the budget request are included in these three lines. No other comparison lines have been updated. HIPF has also been added back to FY 2020 budget.

Updated: Dec. 2019

Medicaid Provider Rates

Why are Medicaid Provider Rates important?

New Mexico Medicaid covers more than 840,000 New Mexicans – or about 40% of the state’s total population. New Mexico has the second highest Medicaid penetration rate in the country.

- New Mexico’s health care providers see a larger ratio of Medicaid patients compared to other states. Payment for services to Medicaid patients represents a substantial portion of their overall income.
- Low Medicaid reimbursement diminishes the willingness of providers to treat Medicaid patients and drives providers away from New Mexico.
- Raising Medicaid reimbursement opens up provider networks, attracts providers from other states, and reduces cost pressures on other payors.

Incremental Budget Request:

HSD requests \$11.0 for provider rate increases in its FY 2021 budget, to be leveraged for a total of \$55.0.

General Fund and Federal Fund (FY 2020, 2021, Difference)

	FY 2020	FY 2021	Difference
General Fund	\$68.6	\$11.0	\$0
Federal Fund	\$261.0	\$44.0	\$0

How do Medicaid Provider Rate Increases work?

It is a multi-step process for evaluating and determining the need for rate increases. National and other rate-setting standards are considered such as:

- Medicare rates, Consumer Price Index (CPI), Resource-Based Relative Value Scale (RBRVS), Market basket analysis, and rates in neighboring states like Colorado, Arizona, Texas and Oklahoma.

- It involves an analysis of New Mexico Medicaid rate history and current status of rates relative to the standards above.
 - Goal of moving to 90% of Medicare as benchmark.
 - Provider cost considerations (i.e., provider-specific taxes, rate of inflation).
- Outliers in rate-setting may be considered to address high-priority policy issues (i.e., incentivizing Long-Acting Reversible Contraception (LARC)).

Financial Benefits to New Mexico

For every dollar spent on Medicaid provider rate increases, New Mexico receives \$3.54 from the federal government.

Benefits to New Mexicans

- More behavioral health providers.
- More primary care providers.
- More providers in rural and frontier parts of the state.
- Faster appointments for Medicaid beneficiaries.
- Improved access to care for Medicaid beneficiaries.
- Reductions in cost to other payors and New Mexicans.
- High return on investment for every dollar spent.
- Improved economy through reinvestment in health care systems, delivery and infrastructure.
- Higher incomes for New Mexico’s health care providers.
- Improved retention of New Mexico’s health care providers.

Frequently Asked Questions

Q. Are the Medicaid managed care organizations (MCOs) required to pay the same rate as the Medicaid fee schedule?

A. No. Medicaid MCOs have flexibility to go higher or lower than the Medicaid fee schedule with their contracted payments to providers. The department may require the MCOs to align with or exceed the Medicaid fee schedule to address certain access issues. The MCOs have more flexibility than the department in rate-setting to distinguish between rural/urban providers.

Medicaid Provider Rates

Frequently Asked Questions

Q. How does the department ensure that the MCOs actually pay providers for rate increases as intended?

A. With every rate increase, HSD issues a Letter of Direction to the MCOs that specifies the amount, scope and type of the increase, with detailed instructions about how the increase should be implemented. The MCOs must report back to the department biweekly on implementation progress, including updates on provider contracting issues and execution in their IT systems. HSD also requires the MCOs to comply with financial reporting requirements so that the department can monitor that dollars are passed to providers as directed.

Q. What is the return on investment?

A. For every dollar spent on Medicaid provider rate increases, New Mexico receives \$3.54 from the federal government.

FY 2020 Provider Rate Increases

Description	General Fund Cost	Total Investment
Effective 7/1/19		
Increases for primary care providers, hospitals, dentists, Personal Care Service (PCS) providers, community pharmacies, and other long-term services and supports. Reimbursement for new services.	\$47.4 million	\$228.7 million
Effective 10/1/19		
Rate increases for BH providers, FQHCs, and not-for-profit community hospitals. Reimbursement for new services.	\$16.2 million	\$78.5 million
Effective 1/1/20		
Additional increases and new services planned for January 1, 2020	\$5 million	\$22.4 million
Total FY 2020 investment in provider network	\$68.6 million GF	\$329.6 million

Maintaining Provider Network: Historic NM Medicaid Provider Rates vs. CPI (Medical) Inflated Rates

- A 1 percentage point increase in NM Medicaid provider payment rates requires \$10 million in general fund dollars.
- It would cost \$110 million in General Fund dollars to move from our current payment rate of 89% of Medicare to 100% of Medicare.

Notes:
 1. Medicaid expenditures are taken from the MCO encounter data and are incurred from January 1, 2018 through December 31, 2018 with paid runout through June 30, 2019.
 2. Data excludes fee for service claims, members not eligible on date of service, duplicate claims, and zero paid claims.

MMISR

What is MMISR?

Medicaid Management Information System Replacement (MMISR) is a multi-year project to implement a new modular management information system for Medicaid that serves multiple health and human services agencies.

Serving over 1 million
New Mexicans

Serving over 76,000
Providers

Total Request: \$2,363.4, \$590.7 GF

\$221,000.0 project with 9:1 Medicaid match (\$4,100.0 GF/\$36,100.0 federal funds). In FY 20 all MMISR positions are term and funded with special appropriations. Funding for these positions was not part of the base request in FY 20. The MMISR term positions are requested at 75 percent federal funding, but will likely qualify for 90 percent federal funding for design, development, installation and enhancement of the MMISR.

Permanent state employees vs. contractors

Contractors
\$11.236 Million
\$2.8M in General Fund

State Employees
\$2.363 Million
\$591K in General Fund

Why does the Medicaid MMISR need permanent staff?

The MMISR positions are classified as term which has made it impossible to successfully recruit and retain qualified individuals for these positions. Utilizing contractors in lieu of permanent state employees cost five times more.

Permanent state employees will improve HSD's ability to:

- Measure behavioral health and primary care provider network and service capacity.
- Expand and track value-based purchasing in the Medicaid program.
- Measure provider and MCO quality and service delivery.
- Create effective provider payment structures.
- Measure service delivery and healthcare outcomes.
- Help members to participate in their care.
- Use analytics to drive better program management, public reporting, and accountability to HSD stakeholders.

Financial Benefits to New Mexicans

For every general fund dollar spent adding these staff, HSD receives \$3 to \$9 in federal match.

MMISR

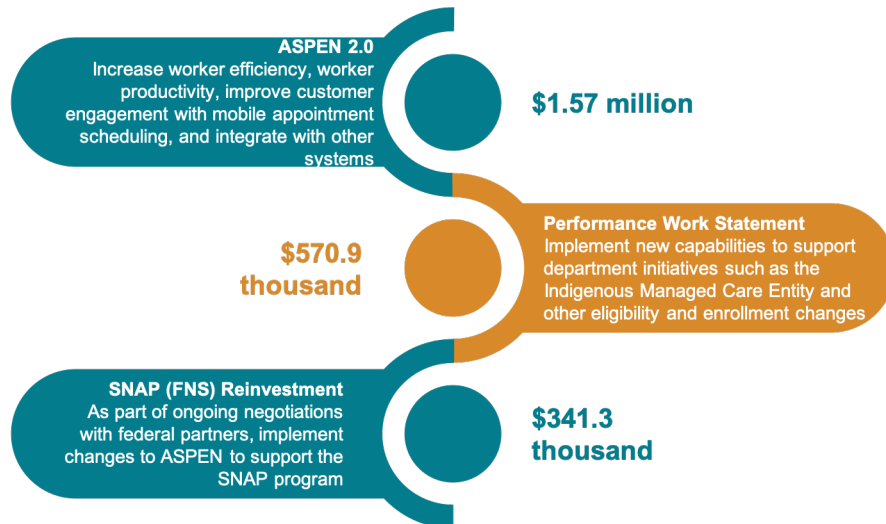

HHS 2020 MMISR KEY MILESTONES

Automated System Program and Eligibility Network (ASPEN)

What is the FY 2021 funding request for the ASPEN integrated eligibility system?

HSD is requesting an additional \$2.49 million in general fund in FY 2021 for the ASPEN system to facilitate enhancements to the state's integrated eligibility software that will impact both state employees and benefit recipients.

Incremental budget request:

FY21 ASPEN General Fund Request	FY 2021 Request Amount
ASPEN 2.0	\$1,572,480
Performance Work Statement	\$570,900
Food and Nutrition Services Reinvestment	\$341,300
Base Contract	\$3,888,400
FY 21 Total	\$6,373,200

General Fund and Federal Fund (FY 2020, 2021, Difference)

	FY 2020	FY 2021	Difference
General Fund	\$3,888,400	\$6,373,200	\$2,484,800
Federal Fund	\$8,002,800	\$12,741,700	\$4,738,900

In previous fiscal years, the department has supplemented ASPEN funding to meet changing program needs. For FY21, the department is rightsizing its general fund request to improve operations and benefit more New Mexicans than ever before.

Financial Benefits to New Mexico

There is a 67% federal match for all general fund expenditures designated for the ASPEN integrated eligibility software based on a federally approved cost allocation methodology.

Benefits to New Mexicans

As part of our agreement with our federal partners at the Food and Nutrition Services (FNS), HSD is reinvesting in the eligibility system that provides SNAP benefits. This reinvestment is being made in lieu of having to pay back significantly more dollars to FNS and will not only allow the state to avoid the expenditure associated with the debt but will also provide enhanced benefit delivery services for applicants/recipients.

How does the FY 2021 funding request for ASPEN work?

The ASPEN system provides for eligibility and enrollment of more than 825,000 New Mexicans in Medicaid, 450,000 in SNAP, and 29,600 with cash assistance. On average, it cost \$1.80 per person per month to support the ASPEN system. The federal government pays \$1.20 of that \$1.80.

Child Support Modernization

What is Child Support Modernization?

Child Support modernization is necessary to implement new federal regulations directing the Child Support Enforcement Division (CSED) program redesign, which began in 2013. The work focuses on several areas:

1. Business process assessment and redesign.
2. Statute and regulation assessment and revision.
3. Staff development assessment and redesign.
4. Computer system (CSES) mainframe replacement.

FY 2021 Incremental Budget Request: \$530.9

Major Initiatives = \$446.5 General Fund	FY21 Request
Decision Support Tool: Move staff to data driven process	\$136.00
STEPup Program: Partnership with Dept. of Workforce Solutions to employ unemployed child support payors	\$228.50
Child Support Rebranding Campaign: Marketing strategy to communicate new approach	\$82.0

General Fund and Federal Fund (FY 2020, 2021, Difference)

	FY 2020	FY 2021	Difference
General Fund	\$7,927.1	\$8,458.0	\$530.9
Federal Fund	\$20,927.6	\$21,901.4	\$973.8

Benefits to New Mexicans

Child support is an important source of income for many families. CSED collected \$137.5M in Child Support in FY 2019. The living wage for a family with one parent and two children is approximately \$4,676 per month. Public assistance recipients in New Mexico average a monthly income of \$822.48. TANF, SNAP, LIHEAP, and Medicaid are crucial in assisting parents with survival, but as their earning capacity increases benefits drop off.

Financial Benefits to New Mexico

Modernization efforts in the Rio Rancho pilot office increased child support collections by 5.2%, since the pilot began in Summer 2019. If all 14 Child Support Offices realize the same 5.2% collections improvement, the \$530.9 in GF investment will result in an additional \$7,470 in child support collections.

Phase	Description	FY
Phase 1	Rio Rancho Pilot launch new reporting/case assessment tools	2019
Phase 2	STEPup Kickoff; Change Management; ABQ & Farmington Pilot	2020
Phase 3	State-wide process and STEPup implementation with Rebranding	2021
Phase 4	Lean Six-Sigma model and system replacement kick-off	2022

Frequently Asked Questions

Q. Will shifting the focus from legal enforcement to employment let non-paying child support payors off the hook?

A. No. The work requirements in child support orders require compliance. If non-compliance occurs, further legal enforcement will be initiated, as it has in the past.

Q. Will Child Support Modernization reduce the amount of child support that I am currently receiving?

A. Possibly, but each family's situation is different. Under new federal regulations, CSED must use the actual income of both parties based on reliable evidence. In calculating the monthly support amount, child support staff will no longer be able to impute income, and this could reduce the monthly court ordered support amount.

Intervention Demonstration Project

What is the Intervention Demonstration Project (IDP)?

IDP increases access to behavioral health services for individuals while incarcerated, that improve re-entry support, and expand connections to housing supports.

Incremental Budget Request: \$4 million

General Fund and Federal Fund (FY 2020, 2021, Difference)

	FY 2020	FY 2021	Difference
General Fund	\$2.5 million (non-recurring)	\$4 million	\$1.5 million

How does the Intervention Demonstration Project work?

Using epidemiological data and other source data including alcohol use mortality rates, drug overdose deaths, suicide rates, incarcerations and housing options, Behavioral Health Support Division selected five counties: Grant, San Juan, San Miguel, Sierra and Valencia to pilot grant funded services for incarcerated individuals.

There are two validated models for the justice involved, the Sequential Intercept Model (SIM) and the Stepping Up Initiative. The IDP requires:

- Behavioral health services be provided within a local county jail/detention center.
- Concurrently, targeted interventions and transitional services are offered and provided to these same individuals upon reentry to the community including addressing:
 - Housing needs for those who might otherwise be homeless.
 - Barriers to education, employment, transportation options and other characteristics related to connectivity to services at the time of release.
 - Supports for a path to recovery.

Benefits to New Mexicans

- IDP can support communities in increasing public safety by reducing recidivism and putting more people on a path to recovery.
- Research shows individuals with behavioral health needs enter the criminal justice system at a greater frequency, and for longer periods of time, than people in the same community without behavioral health disorders.
- The five counties participating in this project have reported that 40-50% of their inmate/detainee population has behavioral health needs or diagnoses and require behavioral health treatment.

Frequently Asked Questions

Q. What evidence based practices are being applied?

A. Cognitive Based Therapy (CBT) has been proven to be most effective in addressing behaviors that may help to reduce re-incarceration and recidivism. Other therapies include: Moral Reconciliation Therapy (MRT), Community Reinforcement and Family Training (CRAFT), Motivational Interviewing.

Q. What are some of the barriers being faced?

A. Finding appropriate behavioral health providers, diagnostic approaches, suitable housing options and transportation services, as well as maintaining security within the facility while providing direct intervention services.

Q. How many individuals are being served? ?

A. Currently, average participation among the five counties is 23 individuals and is anticipated to grow.

Q. What specific substances are being addressed?

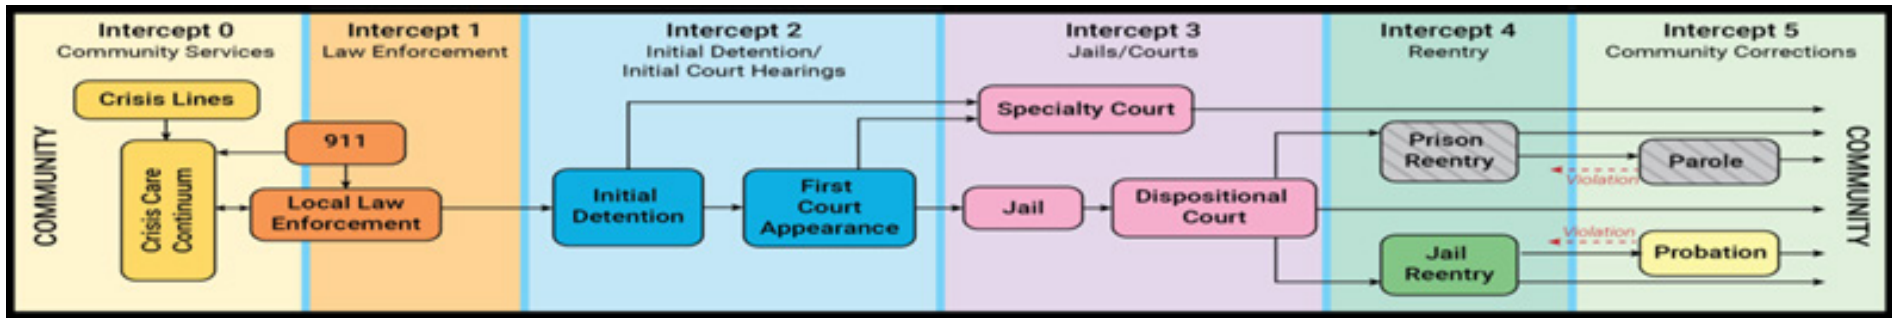

A. Opioid use is the primary substance being addressed. However, CBT has also been known to be effective with alcohol and methamphetamine use, particularly MRT.

Q. Is Medicated-Assisted Treatments (MAT) being offered?

A. San Miguel implemented a MAT program in 2018 to inmates/detainees identified as having co-occurring disorders. They have used IDP funding to expand their current program to individuals in the general population. MAT is also available as part of the continuum of care available to detainees and as part of the service package in Grant County.

Intervention Demonstration Project

Sequential Intercept Model

Supportive Housing

What is supportive housing?

Supportive Housing is a comprehensive approach using evidence-based models that surrounds an individual or family with supports so they can attain and retain permanent housing. It contributes to a holistic focus on improved health outcomes and reduced inpatient care utilization. Housing provides the basis for people to focus on other recovery and stabilization tasks.

Incremental budget request: \$4 million

- Expands linkages rental assistance funding.
- Program would increase from 153 to 328 eligible households served.
- Increases linkages support services.
- Increases funding for Medicaid supportive housing.
- Increases funding for move-in assistance and eviction prevention grants. Increase from 227 to 544 grants.
- Supports approximately 50 certified peer support workers in receiving specialized supportive housing certification.
- Supports increased training and technical assistance to supportive housing providers.

General Fund and Federal Fund (FY 2020, 2021, difference)

	FY 2020	FY 2021	Difference
General Fund	\$2,815,852	\$6,815,852	\$4 million

How does Supportive Housing work?

Linkages is a tenant-based permanent supportive housing program that serves homeless adults (and their families) diagnosed with a severe mental illness, are functionally impaired, and have extremely low income. Linkages has two components: rental assistance and support services.

The Move-In Assistance and Eviction Prevention program provides one-time grants to help eligible consumers get and keep their housing.

- Grants are typically used for rent, deposits, and utilities.
- Participants must be receiving behavioral health services to be eligible.

Benefits to New Mexicans

- Reduced homelessness.
- Better population health outcomes.
- Housing stability – On average, 88% of individuals in the state Linkages program remain housed after one year.
- Federal compliance – with the U.S. Supreme Court's decision in *Olmstead v. L.C.* that individuals with disabilities must be afforded the ability to live in the most integrated setting possible.

Financial benefits to New Mexico

Cost efficiency – A 2013 UNM study of Albuquerque supportive housing showed cost savings of \$12,831.68 per person through reduced use of shelters, emergency rooms, crisis services, and detention facilities¹.

Frequently Asked Questions

Q. Why does HSD have several different housing programs?

A. Experience and evidence shows that it is important to meet consumers where they are and to provide housing options that meet their specific situations and needs. For that reason, HSD supports a range of supportive housing interventions from short-term to permanent housing.

- Crisis housing.
- Move-in assistance and eviction prevention.
- Oxford houses.
- Almost Home case management.
- Rapid re-housing.
- Linkages permanent supportive housing.
- Local lead agency set-aside housing.
- Training/technical assistance.

¹ Guerin, Paul and Alexandra Tonigan, Report in Brief: City of Albuquerque Heading Home Cost Study, University of New Mexico Institute for Social Research, September 2013.

Supportive Housing

Behavioral Health Support Division Program FY 2021 expansion Request

\$4,000.0 Total Request

Supportive housing combines affordable housing assistance with evidence-based wrap-around services for people and families experiencing homelessness.

FY 2021 funding would increase capacity from 153 to 328 households, including new and existing counties.

FY 2021 funding would increase move-in assistance and eviction prevention grants from 227 to 544.

Hospitalization by Housing Status New Mexico Medicaid MCO Data			
	Hospital days per 1,000	Average cost per hospitalization	Average length of stay

Employment Related Services for ABAWD

Employment and Training Expansion

This FY 2021 request permits New Mexico Works (NMW) to support for Able Bodied Adults without Dependents (ABAWD). New Mexico currently has a statewide waiver for ABAWD work requirements to receive Supplemental Nutrition Assistance Program (SNAP), however the waiver expires Feb. 29, 2020.

The U.S. Food and Nutrition Service enacted a new rule Dec. 4, 2019, ending statewide waivers for ABAWDs. Without the waiver, 35,741 New Mexicans are at risk of losing their SNAP food benefits if they cannot find employment or a voluntary position that meets the new rule's requirement.

The new rule impacts adults ages 18-49, without a dependent, and without a disability to 3 months of food assistance in a 36-month period unless the individual is working or participating in a work program for at least 80 hours per month or volunteering.

Expanding the NMW contract will provide the ABAWD population: job skills, employment services, activities to meet the work requirement, and engagement and outreach to participants and community partners.

Incremental Budget Request: \$3,703.0

General Fund and Federal Fund (FY 2020, 2021, Difference)

	FY 2020	FY 2021	Difference
General Fund	\$0	\$3,703.0	\$3,703.0
Federal Fund	\$0	\$3,703.0	\$3,703.0
Combined	\$0	\$7,460.0	\$7,460.0

Cost to State	Potential Annual Earnings of Participant	Additional State Payroll Tax Receipts	Overall Impact to the Economy	Jobs Created	Net Benefit	Return on Investment
\$3,703.0	\$60,347.5	\$746.4	\$95,561.9	717	\$92,605.3	\$25 for every \$1 in GF

Financial benefits to New Mexico

HSD can help mitigate the potential food insecurity for 35,741 New Mexicans by helping them meet their work requirement, receive food benefits, gain job skills, and hopefully gainful employment.

The benefits generated by the newly served ABAWD group includes \$60,347.5 in potential annual earnings and \$746.4 in additional state payroll tax receipts. The impact to the overall economy is estimated to be \$95,56.9 with 717 jobs created for a net benefit of \$92,605.3.

Benefits to New Mexicans

New Mexicans would see a return of \$25 to the state's economy for every \$1 in general funds invested.

Frequently Asked Questions

Q. How does Employment and Training expansion work?

A. The existing NMW contract would be expanded to provide services to the SNAP ABAWD population. Currently, the NMW contract supports only Temporary Assistance for Needy Families recipients. Additionally, the employment and training components would be expanded to reimburse employment-related out-of-pocket expenses for participating ABAWD recipients and an additional 500 voluntary SNAP recipients. The contract would be increased to implement the new program case management and data reporting initiatives.

Employment Related Services for ABAWD

Source: New Mexico Human Services Department, Income Support Division estimate of the number of eligible Able Bodied Adults without Dependents (ABAWD) for Employment and Training (E&T) Program as of June 2019.

Cash Assistance Transition Bonus Program (TBP)

Cash Assistance Transition Bonus Program (TBP)

TBP reinstates a voluntary program discontinued in 2011 that provides an incentive bonus to working families who lose eligibility for Temporary Assistance to Needy Families (TANF) because their earnings are too high. TBP gives these families \$200 per month for up to 18 months to supplement their income and steps-up their benefits to eliminate the cliff effect. The goal of this program is to convert the cliff into a ramp that allows more time to achieve self-sufficiency. HSD estimates that 3% (759) of TANF recipients would participate in TBP annually. Additionally:

- Families must maintain at least 30 hours per-week in paid employment.
- The maximum bonus allotted per family is \$200 regardless of the number of people employed.
- Assuming all TBP participants finish the program, an estimated 50% (380) will become self-sufficient and not return to TANF even if there are months remaining on their lifetime limit.

Financial benefits to New Mexico

Given modest economic conditions, a \$1,821.6 general fund investment annually for about 379 families would yield the following returns:

FY 2021 Budget Request: \$1,821.6

\$1,821.6 in general fund for FY 2021. There is no federal match for this program. HSD has not provided this program in the past eight years.

Spending a Little Gets a Lot: \$11.6 Million Potential Annual Earnings, 146 Jobs Created, \$18 Million Net Benefit, \$10:1 ROI

Cost to State	Savings to State in Reduced Case Management Cost	Potential Annual Earnings of TBP participants	Additional state payroll tax receipts	Overall impact to the economy	Jobs created	Net Benefit	Return on Investment
\$1,821.6	\$543.0	\$11,651.0	\$227.8	\$19,419.4	146	\$18,368.60	\$10 for every \$1 in GF

Benefits to New Mexico

The TBP incentive has been shown to assist families to become self-sufficient and improves the quality of life for parents and children by increasing family income, resources, and support. There are many hidden costs in self-sufficiency for a family losing TANF. A family may see co-pays for child care and increased costs for subsidized housing. The TBP provides an 18-month ramp for these families rather than the cliff from immediate termination of support. It is estimated that TBP would remove about 280 families from TANF rolls permanently each year.

Frequently Asked Questions

Q. What is the cliff effect?

A. Abruptly terminates cash assistance when employment income exceeds eligibility requirements.

Q. What is the positive impact of this program?

A. This reduces the cliff effect and increases the opportunity to become self-sufficient and maintain self-sufficiency. This payment is provided up to 18 months.

Cost and Benefit to State**

Supplemental Nutrition Assistance Program (SNAP) Heat and Eat Option

SNAP Heat and Eat Option

NM has the highest child food insecurity rate in the nation. SNAP Heat and Eat is a new program request from the Children's Cabinet Hunger Initiative. Enacted in the 2018 US Farm Bill, it allows the state to fund \$21/year/family in energy assistance payments to 39,342 eligible SNAP households in New Mexico; thereby, increasing the allowable income deduction for each household. This income deduction qualifies households for a larger monthly SNAP benefit (estimated average \$480/year), giving each eligible household an average total of \$501 more to spend for the year for food.

Prevalence of household-level food insecurity and very low food security, average 2016-18

Rank	State	Average # 2016-18	Food Insecurity (low or very low)	Food Insecurity (very low)
1	NM	836,000	16.8	5.8
2	MS	1,180,000	15.9	6.3
3	LA	1,859,000	15.8	6.8
4	WV	758,000	15.7	5.9
5	OK	1,539,000	15.6	6.1

Financial benefits to New Mexico

Given modest economic conditions, the \$1,485.0 general fund investment for 39,342 (about 18% of all SNAP households) would yield a very high return:

More for New Mexico: 501 SNAP benefits per eligible household, \$18,840.0 Federal Funds, 6.5 million additional meals, \$21:1 ROI

Cost to general fund	Federal Funds	H&E Eligible Households	H&E Additional Benefits	H&E Additional Meals	Jobs Created	Impact to State Gross Domestic Product	Net Benefit	Return on Investment
\$1,485.0	\$18,840.2	39,342	\$19,710.3	6,867.8	361	\$32,266.0	\$30,781.0	\$21 for every \$1 in general fund FY 2021 \$38 for every \$1 in general fund for subsequent years

FY 2021 Budget Request: \$2,143.8.

The program did not exist in FY 2020.

- \$1,485.0 general fund – includes \$825.2 SNAP benefits to households and \$658.8 for IT Start-Up
- \$658.8 Federal Funds for IT Start-Up

Benefits to New Mexicans

SNAP Heat and Eat will give more than \$19,710.0 each year to qualified New Mexicans to buy food, which we expect will reduce food insecurity and take New Mexico off the top of another list where we prefer not to be number one. Additional SNAP funds will give participants the opportunity to choose a healthier diet, purchase a greater variety and amount of food, and reduce hunger. It would also improve quality of life and reduce medical costs for these families who live in our communities.

Frequently Asked Questions

Q. What will the recipients do with the \$21?

A. The recipient can utilize this as a cash benefit on their EBT card to pay utilities for non-SNAP products or any other items they may need.

Q. Why \$21?

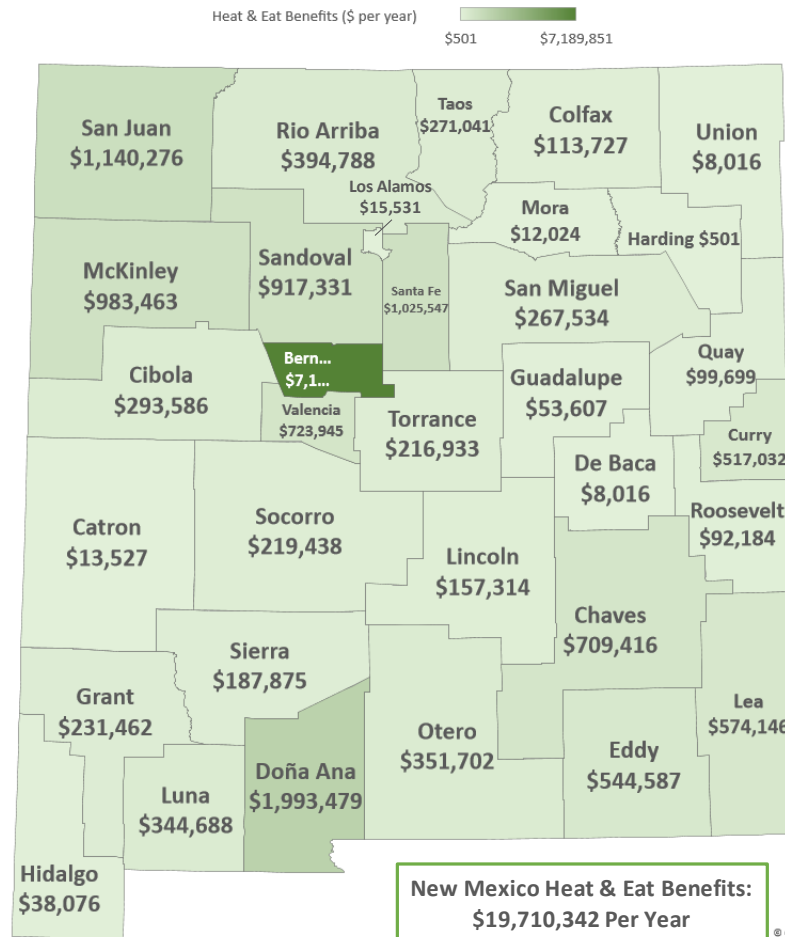

A. The 2018 Farm Bill states that a utility assistance payment of more than \$20 entitles the household to the Heating and Cooling Standard Utility Deduction.

Supplemental Nutrition Assistance Program (SNAP) Heat and Eat Option

Heat and eat: \$19.7 M = 6.9 M meals per year

Heat & Eat Program Benefits by County

Source: New Mexico Human Services Department, Income Support Division estimate of the number of eligible households as of June 2019. The Heat & Eat program provides \$21 per year in energy assistance to eligible households which results in an average of \$40 per month in additional Supplemental Nutrition Assistance Program (SNAP) benefits for the household.

Supplemental Nutrition Assistance Program (SNAP) Heat and Eat Option

Heat and eat: \$19.7 M = 6.9 M meals per year

Heat & Eat Program Meals by County

Source: New Mexico Human Services Department, Income Support Division estimate of the number of eligible households as of June 2019. The Heat & Eat program provides \$21 per year in energy assistance to eligible households which results in an average of \$40 per month in additional Supplemental Nutrition Assistance Program (SNAP) benefits for the household. The calculation of meals used the 2017 county level meal cost estimates for New Mexico by Gundersen, C., A. Dewey, M. Kato, A. Crumbaugh & M. Strayer. Map the Meal Gap 2019: A Report on County and Congressional District Food Insecurity and County Food Cost in the United States in 2017. Feeding America, 2019. New Mexico value used a state-level cost per meal calculation and therefore does not equal the sum of the county meals. Meals calculation assumes total Heat & Eat benefits used on food.

Graduate Medical Education Expansion Grant Program

The Graduate Medical Education (GME) Expansion Grant Program was established by House Bill 480. GME is the physician training period after medical school and before independent practice; and, research demonstrates 50-75% of medical residents will stay within 100 miles of their residency program¹.

With a specific focus on Family Medicine, General Internal Medicine, General Psychiatry, and General Pediatrics, the Program provides funding to establish new GME programs, fund existing GME programs, and, provide one-time planning grants. The law also creates a governing body to oversee the program and make funding recommendations to HSD, and directs HSD to create a five-year strategic plan for statewide GME expansion.

General Fund and Federal Fund (FY 2020, 2021, Difference)

	FY 2020	FY 2021	Difference
General Fund	\$879.7	\$1,290.1	\$410.4
Federal Fund	\$1,427.8	\$3,560.0	\$2,132.2

Financial benefits to New Mexico

Investment in the primary care physician workforce yields significant economic returns. For example, each physician supports \$3,166,901 in output, an average of 17.07 jobs, ~\$1.4 million in total wages and benefits, and \$126,000 in state and local tax revenues. The primary care physician workforce propels economic growth in other aspects of the healthcare system as well, generating \$784,752 in direct, billed charges for a hospital and \$241,276 in professional fees for the other specialty consultants². The 126 additional residents proposed in the strategic plan will generate an estimated \$399 million in economic output and ~2,150 jobs.

Benefits to New Mexicans

Findings from the NM GME Expansion Strategic Plan project significant growth during the next five years as GME primary care programs will grow from 8 to 13 (63% increase). Additionally, the number of primary care residents in

training will grow from 142 to 291 (105% increase) and the number of graduates each year will grow from 48 to 94 (starting in 2025), representing a 96% increase. This expansion will have positive impact on population health, because people who identify a primary care physician as their primary source of care are healthier, regardless of health status or demographics.

Frequently Asked Questions

Q Why is GME expansion important for population health?

A. GME programs increase healthcare access. An increase in one primary care physician per 10,000 individuals results in: 1) an 11% decrease in emergency room visits; 2) 6% decrease in hospital inpatient admissions; and, 3) 7% decrease in surgery utilization³. An adequate supply of primary care physicians promotes increased rural hospital viability, community-based care (particularly in rural and frontier communities), and access to preventive services (including behavioral health).

Q: Will residents stay in NM post-residency?

A. In applying for funding, GME programs are required to submit a workplan to HSD that:

1. Incentivizes residents to remain in primary care post-residency;
2. Incentivizes residents to remain in NM post-residency, particularly in rural, frontier, and/or underserved communities; and,
3. Details the GME program's commitment to serve Medicaid beneficiaries.

ACKNOWLEDGEMENTS

The HSD Data Book is made possible by the contributions, wisdom, and talents of our esteemed colleagues. Jodi McGinnis Porter and Ashley Espinoza led report design and organization. Erica Archuleta, Christopher Baca, Abdelhamid Benhalim, Paoze Her, Pei Huang, Jee Hwang, Susan Keelin, LouDonna Larranaga, Shane Shariff, Carlos Ulibarri, Elisa Walker-Moran, and Anthony Webb were instrumental in map development as well as in data collection and analysis. Sally Jameson, Ryan O'Connor, and Alex Castillo Smith provided writing and research services, Alysia Beltram and Michelle Trujillo provided administrative support. Michael Valdez handled printing and binding at HSD Business Operations Center. Finally, HSD leadership provided strategic direction and guidance, including Cabinet Secretary David R. Scrase M.D., Deputy Cabinet Secretary Angela Medrano, Neal Bowen, Nicole Comeaux, Karmela Martinez, Jeremy Toulouse, Sean Pearson, and Danny Sandoval.

Every effort has been made to make the information in this HSD Data Book as accurate and up-to-date as possible. We regret any omissions or inaccuracies.

Comments, additions or corrections may be sent to: Jodi McGinnis Porter at jodi.mcginis-porter@state.nm.us.
