## Findings required for rulemaking adoption:

### Findings MUST include:

- Reasons for adopting rule, including any findings otherwise required by law of the agency, and a summary of any independent analysis done by the agency;
- Reasons for any change between the published proposed rule and the final rule; and
- Reasons for not accepting substantive arguments made through public comment.

The purpose of amending 8.320.6 NMAC is to add the following:

1. Coverage for services provided under a Section 504 Accommodation Plan pursuant to 34 C.F.R. 104 Subpart D (504 Plan), an Individual Health Care Plan (IHCP), or are otherwise medically necessary as appropriate for each covered service. This addition will bring this allow participating schools to seek reimbursement for covered services that are provided outside of an individualized education program (IEP) or an individualized family service plan (IFSP).
2. Add unlicensed school personnel providing delegated nursing services in accordance with the New Mexico Board of Nursing under the supervision of a RN to the list of allowable providers. Add Delegated nursing services which are tasks in accordance with the New Mexico Board of Nursing that may be delegated by the RN to unlicensed school personnel. Delegated staff may include, but is not limited to, school or contracted staff, such as health assistants, teachers, teacher assistants, therapists, school administrators, administrative staff, cafeteria staff, or personal care aides. This addition will allow unlicensed personnel who have been delegated nursing services in accordance with the New Mexico Board of Nursing to seek reimbursement for services they provide. This will allow school-based providers in rural and under-served areas access to an increased pool of eligible practitioners which can bill for services.
3. Add other determination of medical necessity to the requirement for evaluation and determination of need for services. This addition will allow schools to establish medical necessity for services through evaluations or other determinations for services provided under 504 Plan, Individual Health Care Plan (IHCP) or other care plan.
4. Add language to clarify that an annual PCP notification or documentation of a good faith effort is only required for services provided through an IEP/IFSP. This addition will clarify that services provided under a 504 Plan, Individual Health Care Plan (IHCP) or other care plan are not subject to the requirement for an annual PCP notification or documentation of a good faith effort.
5. Add that 504 Plans, IHCPs or other care plans should be reviewed annually to establish ongoing medical necessity for services. This addition will ensure that school-based providers are regularly reviewing the eligible recipient's plan of care to establish the ongoing medical need for services.
6. Add clarifying language to reiterate that the good faith effort to notify the eligible recipient's PCP of the services to be provided will only be required for those services provided under an IEP or IFSP. This clarification will reduce the administrative burden for schools who choose to provide additional services under a 504 Plan, Individual Health Care Plan (IHCP) or other care plan.

Minor changes have been made to the proposed rule to correct citations and provide additional clarification of program requirements.

Several comments were received around suggested additions to the rule for additional behavioral health services and providers for Applied Behavior Analysis.

The Department has confirmed with the NM Public Education Department that ABA Therapy is not recognized as a related service under the Individuals with Disabilities Education Act (IDEA). As such ABA Therapy is not covered under the existing MSBS program. Further, the Department has clarified through Provider Supplement 22-02 that ABA Therapy can be provided by outside providers in the school setting and billed through the child's regular Medicaid benefits. The Supplement states that ABA services should "support access to, and participation in, services afforded through the Individuals with Disabilities Education Act (IDEA), including Part C for infants and toddlers and Part B for pre-school-aged children." This supports that fact that if deemed appropriate, outside ABA providers can work with the school to come on campus (via MOUs or other agreements) and provide their services to the child. The provider would use their regular method for billing and the school is not responsible for paying them. Because the mechanism exists for billing ABA services outside of MSBS, the department is not looking to add ABA services as part of the MSBS expansion.

A comment was received around including 504 Plans and IHCPs to the list of allowable plans for specialized transportation.

The department has decided that Transportation Services are being maintained as an IEP-only service. Medicaid reimbursement for transportation is intended to cover transportation when a Medicaid recipient receives a covered service. In the case of school-based services, Medicaid transportation only covers days on which a child receives a service covered by their IEP. Further, federal Medicaid rules require that transportation be provided in a specially modified bus for disabled students (wheelchair lift, seatbelts or harnesses, etc.) and that the need for such transportation is medically necessary.

[8.320.6.14 NMAC - Rp, 8.320.6.14 NMAC, 7/1/2015; A, 7/1/2022]

**8.320.6.15 NON-COVERED SERVICES:** MAD school-based services billed in school settings are subject to the limitations and coverage restrictions that exist for other MAD services; see 8.301.3 NMAC. MAD does not cover the following services.

E. Services that duplicate services billed outside the school setting unless determined to be medically necessary and MAD or its designee gave prior authorization for the service.

F. Services not identified in the eligible recipient's IEP, ~~IFSP~~ IFSP, 504 plan, IHCP or other care plan.

G. Transportation services listed below:

- (1) transportation that a MAP eligible recipient would otherwise receive in the course of attending school;

[8.320.6.15 NMAC - Rp, 8.320.6.16 NMAC, 7/1/2015; A, 7/1/2022]

**8.320.6.16 PRIOR AUTHORIZATION AND UTILIZATION REVIEW:** Certain procedures or services identified in the UR instructions may require prior authorization from MAD or its designee. Services for which prior authorization was obtained remain subject to UR at any point in the payment process. All services are subject to UR for medical necessity and program compliance. Reviews can be performed before services are furnished,

2022 JUN -7 PM 1:52

after services are furnished and before payment is made, or after payment is made. When services are billed to and paid by a coordinated services contractor authorized by HSD, the provider must follow that contractor's instructions for authorization of services. A specific service may have additional prior authorization requirements listed in the service's prior authorization section. The prior authorization of a service does not guarantee that an individual is eligible for a MAD service. A provider must verify that an individual is eligible for a specific MAD service at the time the service is furnished and must determine if the eligible recipient has other health insurance. A provider who disagrees with the denial of a prior authorization request or other review decision can request a reconsideration. [8.320.6.16 NMAC - Rp, 8.320.6.17 NMAC, 7/1/2015]

**8.320.6.17 REIMBURSEMENT:** Reimbursement to the LEA, REC, or SFEA is not contingent upon billing a third party payer first when the eligible recipient has other insurance. MAD is generally the payer of last resort. However, if medical services are included in the eligible recipient's IEP, ~~[or]~~ IFSP, 504 plan, IHCP or other care plan, and an exception is created under 42 USE 1396b(c), 20 USC 1412(a)(12) and 34 CFR 300.142., and the services are otherwise covered by MAD, then MAD is authorized to pay for such services. The LEA, REC, or other SFEA must submit claims for reimbursement on the 837P electronic format or its successor unless it received written permission from MAD to bill on paper.

A. Interim payment to the LEA, REC or other SFEA for covered services are made at the MAD fee schedule for the specific service.

B. The LEA, REC or other SFEA will complete an annual cost report utilized to reconcile interim payments with actual costs in accordance with CMS approved methodology. The LEA, REC or other SFEA must participate in the CMS approved quarterly random moment time study (RMTS).

C. A MAD school-based service that is in the eligible recipient's IEP, ~~[or]~~ IFSP, 504 plan, IHCP or other care plan must only be billed by the school. When the school utilizes a contractor to render the service, the school must submit the claim, not the contractor. It is the responsibility of the school to reimburse the contractor. [8.320.6.17 NMAC - Rp, 8.320.6.18 NMAC, 7/1/2015; A, 7/1/2022]
