MCO Smoking Cessation Initiatives

- ▶ Comprehensive Needs Assessments and Prenatal Assessments address the importance of smoking cessation, as well as the risk associated with second hand smoke.
- ▶ Care Coordination Programs include health promotion targeting tobacco use in members.
- ▶ Wellness benefits offer up to \$50 per year in health/wellness purchases, including smoking cessation classes.

MCO Smoking Cessation Initiatives

- ▶ Telephonic outreach to support smoking cessation needs of the members.
- ▶ Work with members to develop smoking cessation plan of care.
- ▶ Actively involve practitioners, members, families and other providers in planning, provision and evaluation of care.
- ▶ Promotion of cessation benefits in provider and member newsletter articles.
- ▶ Social media educational postings.

Expanded Initiatives

- ▶ MCO contracts contain new tracking measure requiring the MCOs to monitor smoking cessation products and counseling utilization.
- ▶ MCO contracts now include the requirement to educate Members on the risks associated with the use of alcohol, tobacco and other substances and available products and counseling, i.e. smoking cessation products.

Breast and Cervical Cancer Program

- ▶ Individuals enroll with Department of Health (DOH) Breast and Cervical Cancer (BCC) early detection program.
- ▶ DOH determines eligibility for COE 052 and ISD processes the application if diagnosis made and treatment is required.
- ▶ As of August 2016, there were approximately 231 individuals receiving treatment.
