HUMAN SERVICES DEPARTMENT

Michelle Lujan Grisham, Governor
David R. Scrase, M.D., Secretary
Nicole Comeaux, J.D., M.P.H., Director

Letter of Direction #33

Date: **May 12, 2020**

To: **Centennial Care 2.0 Managed Care Organizations**

From: **Nicole Comeaux, Director, Medical Assistance Division**

Subject: **Tracking Measure Reporting Requirements <u>Repeal & Replace LOD #22</u>**

Title: **Tracking Measure Reporting Requirements**

Pursuant to the Centennial Care 2.0 Professional Services Agreement, Centennial Care Managed Care Organizations (MCOs) are required to submit regular reports to the Human Services Department (HSD), Medical Assistance Division (MAD), Quality Bureau (QB) for the following Tracking Measures (TM):

TM #1 - Fall Risk Management
TM #2 - Diabetes Short-Term Complications Admission Rate
TM #3 - Screening for Clinical Depression and Follow-up Plan
TM #4 - Follow-up after Hospitalization for Mental Illness
TM #5 - Immunizations for Adolescents
TM #6 - Long Acting Reversible Contraceptive (LARC)
TM #7 - Smoking Cessation
TM #8 - Ambulatory Care
TM #9 - Annual Dental Visit
TM #10 - Controlling High Blood Pressure

Reporting elements and data are to be provided to HSD in the same format as the template in Attachment 1 of this Letter of Direction (LOD). The reporting period is based upon one (1) quarter of a calendar year (e.g., Q1 Total=January-March). For the measurement period, please refer to the relevant technical specifications. For the reporting period, the MCO must refresh data for the previous two (2) quarters of the current calendar year. If a report includes data which has been refreshed beyond two (2) quarters, the report will be rejected by HSD. The report must be submitted within twenty-five (25) calendar days from the end of each reporting period. If the twenty-fifth (25^{th}) calendar day is not a business day, then the report must be submitted the following business day. If HSD requests any revisions to reports previously submitted by the MCO, the MCO shall make the changes and re-submit the reports according to the time frame set forth by HSD. The naming convention for this report is: MCO.HSDLODX.QXCYXX.vX. If the proper naming convention is not used, the report will be rejected by HSD.

For HSD to remain compliant with reporting requirements of the Legislative Finance Committee, in addition to the LOD report specifications listed above, the data for Diabetes Short-Term Complications Admission Rate, must also be submitted on a separate reporting template within fifteen (15) calendar days from the end of each reporting period. If the fifteenth (15^{th}) calendar day is not a business day, then the report must be submitted the following business day. The template in Attachment 2 titled MCO.LFCPM Template will be used for this report. The naming convention for this submission is: MCO.LFCPM.QXCYXX.vX. A completed attestation form is required with every submission.

The following specifications shall be used for reporting on TM #1 - Fall Risk Management: The percentage of Medicaid Members, sixty-five (65) years of age and older, who had a fall or had problems with balance or walking in the past twelve (12) months, who were seen by a practitioner in the past twelve (12) months and who received fall risk intervention from their current practitioner.

Numerator: Number of Medicaid Members, sixty-five (65) years of age and older, that have a claim with a date of service in the measurement period with an ICD/CPT code in Attachment 3, Fall Risk Management Codes.

Denominator: Number of Medicaid Members, sixty-five (65) years of age and older, during the measurement period.

See Attachment 3 for Fall Risk Management Codes.

The following specifications shall be used for reporting TM #2, Diabetes Short-Term Complications Admission Rate: The number of inpatient hospital admissions with ICD-10 principal diagnosis code for short-term complications of diabetes (ketoacidosis, hyperosmolarity, coma) for Medicaid Members age eighteen (18) and older. The MCO must use the CMS Core Set of Adult Health Care Quality Measures for Medicaid Technical Specifications and Resource Manual for relevant reporting year.

The following specifications shall be used for reporting TM #3, Screening for Clinical Depression and Follow-Up Plan: The percentage of Medicaid Members age eighteen (18) and older screened for clinical depression using a standardized depression screening tool, and if positive, a follow-up plan is documented on the date of the positive screen. The MCO must use the CMS Core Set of Adult Health Care Quality Measures for Medicaid Technical Specifications and Resource Manual for the relevant reporting year.

The following specifications shall be used for reporting TM #4, Follow-up after Hospitalization for Mental Illness: Percent of seven-day follow-up visits into community-based behavioral health care for child and for adult Members released from inpatient psychiatric hospitalizations stays of four (4) or more days.

Inpatient Psychiatric Facility/Unit (IPF) – Discharges: Discharges for Members, six (6) years of age or older at the time of discharge, who were hospitalized for treatment of mental health disorders for a continuous period of four (4) days or more (i.e., discharge date more than three days after admission date). Includes only psychiatric units in general hospitals and freestanding psychiatric hospitals. For tracking discharges and follow-ups, claims data should be used.

Follow-up after Hospitalization for Mental Illness: Discharges for Members six years of age or older at the time of discharge, who were hospitalized for treatment of mental health disorders for a continuous period of four (4) days or more and who had at least one follow-up visit with a mental health practitioner on or after the discharge date, within seven (7) calendar days of discharge. The follow-up service can be any service considered as outpatient, intensive outpatient or recovery treatment.

The following specifications shall be used for reporting TM #5, Immunizations for Adolescents: The percentage of adolescents thirteen (13) years of age who had one dose of meningococcal vaccine, and one tetanus, diphtheria toxoids and acellular pertussis vaccine (Tdap), or one tetanus, diphtheria toxoids vaccine (Td), by their thirteenth (13^{th}) birthday. Report rates for each vaccine and the Combination 1 rate using the most current HEDIS technical specifications for the relevant reporting year, excluding the human papillomavirus (HPV) vaccine.

The following specifications shall be used for reporting TM #6, Long Acting Reversible Contraceptive (LARC): The MCO shall measure the use of Long-Acting Reversible Contraceptives (LARC) among Members ages fifteen (15) to nineteen (19). The MCO shall report LARC insertion/utilization data for this measure to the HSD on a quarterly and annual basis using ICD 10, CPT, HCPCS and NDC codes in Attachment 4, LARC Utilization Codes.

See Attachment 4 for LARC Utilization Codes.

The following specifications shall be used for reporting TM #7, Smoking Cessation: The MCO shall monitor the use of smoking cessation products and counseling utilized as identified in Attachment 5, Smoking Cessation Product and Service Utilization.

See Attachment 5 for Smoking Cessation Product and Service Utilization.

The following specifications shall be used for reporting TM #8, Ambulatory Care: Utilization of outpatient visits, including telehealth, and emergency department (ED) visits reported by all Member months for the measurement year. The MCO must use current HEDIS technical specifications for the relevant reporting year.

The following specifications shall be used for reporting TM #9, Annual Dental Visit: The percentage of enrolled Members ages two (2) to twenty (20) years who had at least one (1) dental visit during the measurement year. The MCO must use current HEDIS technical specifications for the relevant reporting year.

The following specifications shall be used for reporting TM #10, Controlling High Blood Pressure: The percentage of Members ages eighteen (18) to eighty-five (85) who had a diagnosis of hypertension and whose blood pressure was adequately controlled (<140/90 mm Hg) during the measurement year. The MCO must use current HEDIS technical specifications for the relevant reporting year.

TRACKING MEASURE #4

FOLLOW-UP AFTER HOSPITALIZATION FOR MENTAL ILLNESS

DESCRIPTION

The percentage of discharges for members 6 years of age and older who were hospitalized for treatment of mental health disorders for four days or more and who had a follow-up visit with a mental health practitioner on or after the discharge date, within seven calendar days of discharge. Measure should be reported for two member age groups:

1. The percentage of discharges for members ages 6-17 (as of the day of discharge) which the member received follow-up within 7 days of discharge.

2. The percentage of discharges for members 18 and older (as of the day of discharge) which the member received follow-up within 7 days of discharge.

ELIGIBLE POPULATION

Medicaid beneficiaries who are enrolled with a Managed Care Organization (MCO) within Centennial Care state plan. The beneficiary must be enrolled within an MCO at the time of discharge.

Note: Members in hospice are excluded from the eligible population. Refer to General Guideline 20: Members in Hospice.

Age

Six (6) years and older at of the date the member was discharged

Event/Diagnosis

An acute inpatient discharge following a hospitalization for treatment of a mental health disorders (using the Mental Illness Value Set) for a continuous period of four (4) days or more (discharge date more than three days after admission date) during the measurement year.

To identify acute inpatient discharges:

1. Identify all hospitalizations from the "Inpatient Hospitalization – Psychiatric Free Standing or Psych. Unit (INPATIENT Category) code set table from Addendum A of HSD UM Report #41 (Table DSIT-1).
2. Identify the discharge date for hospital stays for a period of four or more continuous days.

The denominator for this measure is based on discharges for hospitalizations four days or longer, not on members. If members have more than one discharge, include all discharges on or between January 1 and December 24 of the measurement year. Table DSIT-1: Inpatient Hospitalization – Psychiatric Free Standing or Psych. Unit (INPATIENT Category) code set

Codes: Rev/CPT/ HCPC	Description	Type and/or Age Category
Inpatient Services Category		
Inpatient Hospitalization - Psychiatric Fee Standing or Psych. Unit (INPATIENT CATEGORY)		
0114	Inpatient - Room & Board	Provider Type: 204 & 205

0124	Inpatient - Room & Board	Provider Type: 204 & 205
0134	Inpatient - Room & Board	Provider Type: 204 & 205
0144	Inpatient - Room & Board	Provider Type: 204 & 205
0154	Inpatient - Room & Board	Provider Type: 204 & 205
0204	Inpatient - Psych. ICU service	Provider Type: 201, 204, and 205

Reference: Centennial Care Reporting Instructions *Utilization Management - Report#41, Appendix A,* page 15.

Acute readmission or direct transfer

If the discharge is followed by readmission or direct transfer to an inpatient psychiatric unit of a hospital or free standing inpatient psychiatric facility (Table DSIT-1) within the 7-day follow-up period, the last discharge if the subsequent inpatient stay covered at least 4 continuous days. In the case where a member is readmitted within 7 days of discharge date but is then discharged after less than 4 continuous days both the original discharge (due to readmission within 7 days) and the readmission are excluded from the report (second stay was for less than 4 days) Exclude both the initial discharge and the readmission/direct transfer discharge if the last discharge occurs after December 24 of the measurement year.

To identify readmissions and direct transfers to an inpatient psychiatric unit of a hospital or free standing inpatient psychiatric facility:

1. Identify the admission date for the stay.

Exclusions

Exclude discharges followed by readmission or direct transfer to any acute or nonacute out of home based care including behavioral health residential treatment programs, group homes, foster care treatment and nursing facilities, within the 7-day follow-up period, regardless of principal diagnosis for the readmission. To identify readmissions and direct transfers to a nonacute inpatient care setting:

1. Identify all acute and nonacute inpatient stays (Inpatient Stay Value Set).
2. Confirm the stay was for nonacute care based on the presence of a nonacute code (Nonacute Inpatient Stay Value Set) or Treatment Foster Care (HCPCS code (S5145) on the claim.
3. Identify the admission date for the stay.

Exclude discharges followed by readmission or direct transfer to an acute inpatient care setting within the 7-day follow-up period if the principal diagnosis was for non-mental health (any principal diagnosis code other than those included in the Mental Health Diagnosis Value Set). To identify readmissions and direct transfers to an acute inpatient care setting:

1. Identify all acute and nonacute inpatient stays (Inpatient Stay Value Set).
2. Exclude nonacute inpatient stays (Nonacute Inpatient Stay Value Set).
3. Identify the admission date for the stay.

These discharges are excluded from the measure because rehospitalization or direct transfer may prevent an outpatient follow-up visit from taking place.

ADMINISTRATIVE SPECIFICATION

Denominators

Ages six (6) to seventeen (17): The eligible population stated above.

Ages eighteen (18) and above: The eligible population state above.

Numerators

Seven (7) Day Follow-up for Ages six (6) to seventeen (17): A follow-up visit with a mental health practitioner within 7 days after discharge. Include visits that occur on the date of discharge.

Seven (7) Day Follow-up for Ages eighteen (18) and above: A follow-up visit with a mental health practitioner within 7 days after discharge. Include visits that occur on the date of discharge.

For both indicators, any of the following meet criteria for a follow-up visit:

- A visit (FUH Stand Alone Visits Value Set) with a mental health practitioner.
- A visit (FUH Visits Group 1 Value Set **AND** FUH POS Group 1 Value Set) with a mental health practitioner.
- A visit (FUH Visits Group 2 Value Set **AND** FUH POS Group 2 Value Set) with a mental health practitioner.
- A visit in a behavioral healthcare setting (FUH Rev Codes Group 1 Value Set).
- A visit in a non-behavioral healthcare setting (FUH Rev Codes Group 2 Value Set) with a mental health practitioner.
- A visit in a non-behavioral healthcare setting (FUH Rev Codes Group 2 Value Set) with a diagnosis of mental illness (Mental Illness Value Set).
- Transitional care management services (TCM 7 Day Value Set), where the date of service on the claim is 29 days after the eligible population event/diagnosis date of discharge.

Centennial Care Follow-Up Service Criteria: The follow-up service can be any service considered as outpatient, intensive outpatient, or recovery treatment as they are classified in Addendum A to the Report 41 Instructions.

(See Report 41, Addendum A pages 19-32 for the table of applicable services and codes)

- A visit with a Centennial Care follow-up service code. These are service codes not included in the HEDIS FUH specification but included in Addendum A to the Report 41 Instructions (Table DSIT-2).

Table DSIT-2: Centennial Care follow-up visit code set

Code	Procedure Code Description

LOD #33 Attachment 1 - TM #4 - Follow-up after Hospitalization for Mental Illness

The percent of seven-day follow-up visits into community-based Behavioral Health care for child and for adult members released from inpatient psychiatric hospitalizations stays of four or more days.

Note: This inpatient follow-up measure is **NOT calculated as a HEDIS measure**. It focuses on a smaller, targeted cohort of individuals who have had 4 or more days of hospitalization. The report will be submitted on a quarterly basis due 30 days afer the close of the quarter.

The CY19 Q1 data submission should include refreshed data for the prior year's (CY18 Q1-Q4) baseline. Subsequently, the quarterly submission will refresh all prior quarterly data of CY19.

Measure	CY17 Q1			CY17 Q1-Q2			CY17 Q1-Q3			CY18 Q1-Q4			CY19 Q1			CY19 Q1-Q2			CY19 Q1-Q3			CY19 Q1-Q4

NOT HEDIS MEASURE: Follow-Up after release from inpatient psychiatric hospitalization stays of four or more days.																								
7- Day follow-up after release from inpatient psychiatirc hospitalization stays of four or more days for Mental Illness- within 7 days (6-17)																								
7- Day follow-up after release from inpatient psychiatirc hospitalization stays of four or more days for Mental Illness- within 7 days (18+)																								

TM #4 - Follow-up after Hospitalization for Mental Illness

Reporting Period	through
MCO Name	
Report Run Date	

1. Identify any changes from the previous reporting period, as well as trends identified over time.	
2. Explanation of changes (positive or negative).	
3. Discuss action plans implemented for performance improvement activities addressing any negative changes.	
4. Provide additional information pertinent to the reporting period.	
5. Was there a 5% or more shift in the data provided compared to the previous quarter? If so, what was the cause?	
6. Please provide the name and title of the individual who populated the data provided.	
7. Please provide the name and title of the individual who validated the data provided.	
8. Was there a quality check completed before being submitted? If so, please provide the name and title of the individual who completed it.	

LOD #33 Attachment 1 - TM #5 - Immunizations for Adolescents (IMA)

The percentage of adolescents thirteen years of age who had one dose of meningococcal vaccine and one tetanus, diphtheria toxoids and a cellular pertussis vaccine (Tdap) or one tetanus, diphtheria toxoids vaccine (Td) by their 13th birthday.

2019 Please Note: Data cannot be refreshed beyond the two (2) quarters of the calendar year which precede the reporting period.	**Q1** Jan - March	**Q2** Jan - June	**Q3** Jan - Sept	**Q4** Jan - Dec
Number of adolescent Medicaid Members, who have received vaccines for meningococcal conjugate, Tdap, or combination 1 (meningococcal and Tdap) who turn 13 years of age during the measurement year. Please refer to relevant reporting year HEDIS Technical Specifications For Health Plans, excluding the human papillomavirus (HPV) vaccine. (Numerator)				
Number of adolescent Medicaid Members, who turn 13 years of age during the measurement year. Please refer to relevant reporting year HEDIS Technical Specifications For Health Plans. (Denominator)				
Percentages	#DIV/0!	#DIV/0!	#DIV/0!	#DIV/0!

2020 Please Note: Data cannot be refreshed beyond the two (2) quarters of the calendar year which precede the reporting period.	**Q1** Jan - March	**Q2** Jan - June	**Q3** Jan - Sept	**Q4** Jan - Dec
Number of adolescent Medicaid Members, who have received vaccines for meningococcal conjugate, Tdap, or combination 1 (meningococcal and Tdap) who turn 13 years of age during the measurement year. Please refer to relevant reporting year HEDIS Technical Specifications For Health Plans, excluding the human papillomavirus (HPV) vaccine. (Numerator)

LOD #33 Attachment 1 - TM #6 - Long Acting Reversible Contraceptive (LARC)

Utilization of Long Acting Reversible Contraceptives (LARCs)

2019 Please Note: Data cannot be refreshed beyond the two (2) quarters of the calendar year which precede the reporting period.	**Q1** Jan - March	**Q2** Jan - June	**Q3** Jan - Sept	**Q4** Jan - Dec
Number of LARCs utilized in female Medicaid Members, 15 - 19 years of age. Please refer to Crosswalk tab for TM 6 Utilization of Long Acting Reversible Contraceptive utilization codes.				

2020 Please Note: Data cannot be refreshed beyond the two (2) quarters of the calendar year which precede the reporting period.	**Q1** Jan - March	**Q2** Jan - June	**Q3** Jan - Sept	**Q4** Jan - Dec
Number of LARCs utilized in female Medicaid Members, 15 - 19 years of age. Please refer to Crosswalk tab for TM 6 Utilization of Long Acting Reversible Contraceptive utilization codes.				

2021 Please Note: Data cannot be refreshed beyond the two (2) quarters of the calendar year which precede the reporting period.	**Q1** Jan - March	**Q2** Jan - June	**Q3** Jan - Sept	**Q4** Jan - Dec
Number of LARCs utilized in female Medicaid Members, 15 - 19 years of age. Please refer to Crosswalk tab for TM 6 Utilization of Long Acting Reversible Contraceptive utilization codes.				

2022 Please Note: Data cannot be refreshed beyond the two (2) quarters of the calendar year which precede the reporting period.	**Q1** Jan - March	**Q2** Jan - June	**Q3** Jan - Sept	**Q4** Jan - Dec
Number of LARCs utilized in female Medicaid Members, 15 - 19 years of age. Please refer to Crosswalk tab for TM 6 Utilization of Long Acting Reversible Contraceptive utilization codes.				

LOD #33 Attachment 1 - TM #7- Smoking Cessation

Utilization of smoking and tobacco cessation products and counseling services.

2019 Please Note: Data cannot be refreshed beyond the two (2) quarters of the calendar year which precede the reporting period.	**Q1** Jan - March	**Q2** Jan - June	**Q3** Jan - Sept	**Q4** Jan - Dec
1. Total number of unduplicated members receiving smoking and tobacco cessation products/services (Nicotine replacement, Counseling Services, Quit Line and Medications). Please refer to the Crosswalk tab for TM7 Smoking Cessation utilization codes.				
2.Total number of units for smoking and tobacco cessation products/services (NRT etc.) Please refer to the Crosswalk tab for TM7 Smoking Cessation utilization codes.				
3.Total dollar amount for smoking and tobacco cessation products/services (NRT etc.) Please refer to the Crosswalk tab for TM7 Smoking Cessation utilization codes.				

2020 Please Note: Data cannot be refreshed beyond the two (2) quarters of the calendar year which precede the reporting period.	**Q1** Jan - March	**Q2** Jan - June	**Q3** Jan - Sept	**Q4** Jan - Dec
1. Total number of unduplicated members receiving smoking and tobacco cessation products/services (Nicotine replacement, Counseling Services, Quit Line and Medications). Please refer to the Crosswalk tab for TM7 Smoking Cessation utilization codes.				
2.Total number of units for smoking and tobacco cessation products/services (NRT etc.) Please refer to the Crosswalk tab for TM7 Smoking Cessation utilization codes.				
3.Total dollar amount for smoking and tobacco cessation products/services (NRT etc.) Please refer to the Crosswalk tab for TM7 Smoking Cessation utilization codes.				

2021 Please Note: Data cannot be refreshed beyond the two (2) quarters of the calendar year which precede the reporting period.	**Q1** Jan - March	**Q2** Jan - June	**Q3** Jan - Sept	**Q4** Jan - Dec
1. Total number of unduplicated members receiving smoking and tobacco cessation products/services (Nicotine replacement, Counseling Services, Quit Line and Medications). Please refer to the Crosswalk tab for TM7 Smoking Cessation utilization codes.				
2.Total number of units for smoking and tobacco cessation products/services (NRT etc.) Please refer to the Crosswalk tab for TM7 Smoking Cessation utilization codes.				
3.Total dollar amount for smoking and tobacco cessation products/services (NRT etc.) Please refer to the Crosswalk tab for TM7 Smoking Cessation utilization codes.				

2022 Please Note: Data cannot be refreshed beyond the two (2) quarters of the calendar year which precede the reporting period.	**Q1** Jan - March	**Q2** Jan - June	**Q3** Jan - Sept	**Q4** Jan - Dec
1. Total number of unduplicated members receiving smoking and tobacco cessation products/services (Nicotine replacement, Counseling Services, Quit Line and Medications). Please refer to the Crosswalk tab for TM7 Smoking Cessation utilization codes.				
2.Total number of units for smoking and tobacco cessation products/services (NRT etc.) Please refer to the Crosswalk tab for TM7 Smoking Cessation utilization codes.				
3.Total dollar amount for smoking and tobacco cessation products/services (NRT etc.) Please refer to the Crosswalk tab for TM7 Smoking Cessation utilization codes.				

LOD #33 Attachment 1 TM #7- Smoking Cessation					
Provide details on the tobacco cessation services and products offered. Indicate if the service or product listed below is provided along with requirements and limitations, length of coverage, frequency and barriers to access.					
	MCO Name:				
Service	**Requirements**	**Limitations**	**Length of Coverage**	**Frequency**	**Barriers to Access**
Nicotine Gum					
Nicotine Patch					
Nicotine Nasal Spray					
Nicotine Inhaler					
Nicotine Lozenge					
Chantix

LOD #33 Attachment 1 - TM #10 - Controlling High Blood Pressure (CBP)

The percentage of adults ages 18 to 85 who had a diagnosis of hypertension (HTN) and whose blood pressure was adequately controlled (<140/90) during the measurement year.

2019 Please Note: Data cannot be refreshed beyond the two (2) quarters of the calendar year which precede the reporting period.	**Q1** Jan - March	**Q2** Jan - June	**Q3** Jan - Sept	**Q4** Jan - Dec
The member is numerator compliant if the BP is <140/90 mm Hg. The member is not compliant if the BP is ≥140/90 mm Hg, if there is no BP reading during the measurement year or if the reading is incomplete (e.g., the systolic or diastolic level is missing). If there are multiple BPs on the same date of service, use the lowest systolic and lowest diastolic BP on that date as the representative BP. Please refer to relevant reporting year HEDIS Technical Specifications for health plans. (Numerator)				
Medicaid Members who had at least two visits on different dates of service with a diagnosis of hypertension during the measurement year or the year prior to the measurement year (count services that occur over both years). Please refer to relevant reporting year HEDIS Technical Specifications For Health Plans. (Denominator)				
Percentages	#DIV/0!	#DIV/0!	#DIV/0!	#DIV/0!

2020 Please Note: Data cannot be refreshed beyond the two (2) quarters of the calendar year which precede the reporting period.	**Q1** Jan - March	**Q2** Jan - June	**Q3** Jan - Sept	**Q4** Jan - Dec

TM #10 - Controlling High Blood Pressure

Reporting Period		through	
MCO Name			
Report Run Date			

1. Identify any changes from the previous reporting period, as well as trends identified over time.	
2. Explanation of changes (positive or negative).	
3. Discuss action plans implemented for performance improvement activities addressing any negative changes.	
4. Provide additional information pertinent to the reporting period.	
5. Was there a 5% or more shift in the data provided compared to the previous quarter? If so, what was the cause?	
6. Please provide the name and title of the individual who populated the data provided.	
7. Please provide the name and title of the individual who validated the data provided.	
8. Was there a quality check completed before being submitted? If so, please provide the name and title of the individual who completed it.	

LOD #33 Attachment 2 - LFCPM - Diabetes Short-Term Complications Admission Rate		
Reporting Period	through	
MCO Name		
Report Run Date		

Number of inpatient hospital admissions for diabetes short-term complications per 100,000 enrollee months for Medicaid enrollees age 18 and older.

2019	Q1 Total Jan-Mar	Q2 Total Jan-Jun	Q3 Total Jan-Sep	Q4 Total Jan-Dec
All inpatient hospital admissions with ICD-10 principal diagnosis code for short-term complications of diabetes (ketoacidosis, hyperosmolarity, coma) for members 18 and older. Please refer to CMS Core Set of Adult Health Care Quality Measures for Medicaid Technical Specifications and Resource Manual for relevant reporting year. (Numerator)				
Number of months of Medicaid enrollment for enrollees age 18 and older during the measurement period. Please refer to CMS Core Set of Adult Health Care Quality Measures for Medicaid Technical Specifications and Resource Manual for relevant reporting year. (Denominator)				
Rate per 100,000 member months	#DIV/0!	#DIV/0!	#DIV/0!	#DIV/0!

2020	Q1 Total Jan-Mar	Q2 Total Jan-Jun	Q3 Total Jan-Sep	Q4 Total Jan-Dec
