SUBJECT: BILLING FOR MI VIA CONSULTANT SERVICES

Effective 11/1/10, for consultant/support guide services provided to Mi Via participants who have not yet completed the Medicaid eligibility process, providers will bill a pre-eligible monthly rate of \$143.00 for a maximum of three (3) months using procedure code S5190. Providers should use the temporary Medicaid ID, which is the participant's COE plus two zeros plus the client's SSN, (09x00xxxxxxxx), for billing. Providers should bill each service month separately to ACS.

If the participant attains Medicaid eligibility, but not waiver (categories of eligibility [COE] 090-096) eligibility, then the provider should continue to bill S5190 using the client's Medicaid ID. A client is considered pre-eligible unless he/she has waiver eligibility. If the client already has Medicaid eligibility prior to his/her waiver allocation, but not waiver eligibility, then the provider should bill S5190, but use the client's Medicaid ID for billing instead of the temporary Medicaid ID.

When a participant has waiver eligibility (COE 090-096), providers should bill the monthly rate of \$215.00 using procedure code T2025.

Please note that consultant provider agencies who are classified as for-profit providers may bill for the appropriate gross receipts tax (GRT) in addition to the rates stated above.

The State will adjust any previously paid claims that were billed incorrectly since 11/1/10.

Please refer to the Mi Via consultant/support guide service standards for additional information regarding required timeframes for Mi Via service and support plan (SSP) implementation.
