IV. ACTION

FINAL RULE REPEALS AND REPLACEMENTS

V. BACKGROUND SUMMARY

The Human Services Department (HSD) is finalizing repeal and replacement of regulations that were proposed in Human Register (HSR) Vol. 47 No. 13. By statute, the Department will become the New Mexico Health Care Authority (HCA) on July 1, 2024. The Department proposed repealing and replacing the rules listed at the end of this notice to bring the New Mexico Administrative Code (NMAC) into full alignment with this change.

Section 9-8-6 NMSA 1978, authorizes the Department Secretary to promulgate rules and regulations that may be necessary to carry out the duties of the Department and its divisions.

VI. CONCISE EXPLANATORY STATEMENT

The hearing for these rules was held on June 7, 2024. Matt Ortiz of the State Records Center and Archives (SRCA) provided a statement that requested HSD to enter a finding that SRCA staff may make non-substantive, style changes to the rules and that such changes be within the scope of the rulemaking. HSD so finds and SRCA is authorized to make such changes.

DocuSign Envelope ID: C981798E-58C7-4141-A646-27EDA1FE4B4E

The hearing officer read the following statement into the record, explaining that during the process of updating the rules the Department made some additional style and formatting updates to the rules:

> Consistent with all other rules converted from the Human Services Department to the Health Care Authority, throughout this rule, if found: “department” is changed to “authority” or “HCA”; “HSD” is changed to “HCA” and that acronym is generally first introduced in the third section of the rule; “alien” is changed to “non-citizen”; “child support enforcement division” is changed to “child support services division”; “CSED” is changed to “CSSD”; and style and formatting have been updated to conform with current NM State Records Center guidelines.

Two rules, 8.2.2 NMAC and 8.2.3 NMAC, were determined to be Children, Youth and Families Department rules and therefore outside the scope of this project. Those rules were not changed. In addition, a set of 10 rules were not submitted to the NM Register in time to be published in Issue 12 along with the bulk of the rules being changed. Those rules were also not changed at this time.

No other public comment was received. Therefore the rules are repealed and new versions are adopted.

VII. RULE

The final register and rule language is available on the HSD website at: https://www.hsd.state.nm.us/lookingforinformation/registers/. If you do not have internet access, a copy of the final register and rules may be requested by contacting HSD Office of the Secretary at (505) 827-7750.

8.50.107.8 DETERMINATION OF PARENTAGE: A determination of parentage is necessary for the establishment of child support. The Title IV-D agency extends full faith and credit to a determination of parentage made by another jurisdiction, whether established through voluntary acknowledgment or through administrative or judicial process. Alleged fathers may initiate parentage actions through the Title IV-D agency. The Title IV-D agency may petition a court of competent jurisdiction to establish parentage so long as the dependent child is still under the age of majority.

A. Federal time-frames and requirements for establishment of parentage. C. The Title IV-D agency may identify and use laboratories that perform, at reasonable cost, legally and medically acceptable genetic tests that tend to identify the biological parent or exclude the alleged biological parent. The IV-D agency may make available a list of such laboratories to appropriate courts and law enforcement officials, and to the public upon request.

Any order or stipulation will include a requirement that the minor non-custodial parent will notify the Title IV-D agency of their employment and educational status on a regular basis. In uncontested cases, the Title IV-D agency may seek the concurrence of the minor biological parent's parent(s), legal guardian, or attorney. The Title IV-D agency will seek the admission into evidence, for purposes of establishing parentage, the results of a genetic test that are performed by a laboratory contracted with the Title IV-D agency to provide this specific service, unless the results are otherwise stipulated to by the parties. Any party to a Title IV-D case may seek genetic testing outside of the Title IV-D agency, at their own expense, and obtain a genetic test and report in compliance with Sections 40-11A-503 to 504 et seq., NMSA 1978. The Title IV-D agency will not present or introduce into evidence the results of a genetic test report obtained through a laboratory not contracted with the Title IV-D agency.

B. The Title IV-D agency may charge any individual who is not a recipient of state aid for the cost of genetic testing in accordance with the fee schedule in 8.50.125 NMAC. The Title IV-D agency may advance the cost of the fee if the IV-D agency is a party in a pending court case and is providing full services. If the Title IV-D agency is not a party in a pending court case and is not providing full services, the Title IV-D agency may require payment of the fee from any or all parties prior to scheduling the genetic testing. If a party paying any or all of the genetic testing fee wants reimbursement from the other party, they must seek a court order against that party.

C. The Title IV-D agency will charge a father for genetic testing when parentage is already presumed by law or has already been adjudicated, regardless of the results of the paternity test. The Title IV-D agency will charge an alleged father for genetic testing when parentage is not presumed by law or adjudicated and the results of the test show the alleged father to be the biological father. The Title IV-D agency will charge the mother for genetic testing when parentage is not presumed by law or adjudicated and the results of the test show the alleged father not to be the biological father.

The further purpose of the program is to increase family income through family employment and child support and by viewing financial assistance as a support service to enable and assist parents to participate in employment.

(2) The program accomplishes this purpose by providing cash assistance, medical assistance, and work program services, including education, job training, and transportation to assist recipients in obtaining and keeping employment that is sufficient to sustain their families thereby ensuring the dignity of those who receive assistance and strengthening families and the families' support for their children.

(3) Legal basis: The New Mexico Works Act assigns responsibility for administration of the New Mexico works program to the health care authority. (3) The provisions of the child support enforcement program are contained in Title IV-D of the Social Security Act, and the agency responsible for its implementation is frequently referred to as the IV-D agency. In New Mexico, the IV-D agency is the HCA child support services division (CSSD).

B. "Confidential information" includes all information about an applicant for or recipient of program assistance contained in division records, as well as information obtained by division employees in their official capacity, whether such information is recorded or not. The term also includes records of division evaluations of recorded information. The term does not include general information of a statistical nature that cannot be identified with a particular individual or family group.

C. A. ISD case record:

(1) ISD case records, consisting of forms, records, narrative material, correspondence and documents, are scanned into electronic format and maintained in the HCA's secure electronic data management system. Documents submitted in person will be electronically scanned and returned to the individual. Information contained in the case record(s) is confidential and is released only under the limited circumstances and conditions as provided in federal and state laws and regulations, including Sections 13 through 15, 8.100.100 NMAC. Case records and their contents must remain in the possession of the HCA, its contractors, or approved federal employees. Copies of case records may be released in accordance with federal and state laws and regulations or pursuant to a court order.

(3) Electronic eligibility system information: Client information stored on the HCA's electronic eligibility system is subject to the same guidelines for release of information as the HCA's case record.

B. Persons with access to confidential information:

(1) Client: The name of an individual(s) providing confidential information to the HCA regarding a client is not released to a client or the client's authorized representative. The release of all other case information is subject to the following conditions:

(a) A client or their authorized representative must complete a request for access to a case record each time they wish to have access to the case record. If the client wishes to have their authorized representative review the record in their absence, the client must provide formal documentation authorizing the named individual(s) to access the identified case information for a specified purpose and time frame. This includes an individual(s) acting as the client's authorized representative in a fair hearing. Only the client or the client's authorized representative may authorize another individual(s) to review the record.

(b) The record must be reviewed in the presence of the county director or designee.

(c) If a client disagrees with information contained in the case record, he or she may make a written rebuttal which is made part of the case record. Contested material may not be removed from the case record.

(2) Inquiries on client's behalf: Inquiries made on behalf of a client regarding eligibility for or amount of assistance received are treated as coming from private individuals, regardless of whether they come from a private citizen, elected official, or public or private agency. The HCA must receive formal documentation from the client or the client's authorized representative permitting the release of information.

(3) HCA employees: Confidential information is available to employees or agents of the HCA who need it in connection with the various services and public assistance programs administered by the HCA. This includes field and central office staff, representatives of the child support services division (CSSD) and medical assistance division (MAD), and private firms or other agencies under contract with the HCA that perform work or provide services related to public assistance programs. Confidential information is also available to employees of the federal government concerned with the public assistance programs administered by the HCA.

(4) Non-HCA employees: Confidential information about applicants for and recipients of public assistance may be released to other agencies or individuals including law enforcement officers that meet all of the following standards:

(5) Funding agencies/auditors: The HCA's public assistance programs' funding agencies and auditors may have access to and use of client information and is subject to the confidentiality requirements specified above and in accordance with federal and state laws and regulations.

(a) the welfare tax credit (NMW recipient during the three month period consisting of the month hired and the two months immediately preceding the date of hire); or

(b) the targeted jobs tax credit (recipient of GA who received GA for at least 30 days, ending within the 60 day period which ends on the hiring date). Such releases are to be made on a case by case basis and must be accompanied by a consent to release information signed by the client.

C. Medical records: Medical reports and medical information in the HCA's possession, regardless of how they were obtained, may not be shown to a client, unless they are released as part of a fair hearing. Because of the potentially upsetting nature of the facts contained in some reports and because a physician's knowledge is frequently necessary to interpret those facts, a client shall be referred to their physician regarding any questions.

D. Court proceedings:

(1) Program-related court cases:

(a) Criminal or civil court proceedings involving the establishment of paternity and enforcement of child and medical support for recipients, prosecution for fraud, suits for recovery of fraudulently obtained public assistance benefits, third-party recovery, and custody hearings regarding custody of children for whom public assistance is being provided are considered part of the public assistance programs administered by the HCA. The HCA or its interests may be represented in such cases by an attorney from the office of general counsel (OGC), CSSD, CYFD, by a local district attorney, by a representative of the attorney general's office or by a federal prosecutor.

(b) If information contained in a case record or known to an HCA employee is needed in preparation for or as part of a court proceeding, the HCA employee(s) will cooperate in making sure that needed information is supplied. Although employees may receive a subpoena to testify in such a court proceeding, a subpoena is not needed if the court proceeding relates to the public assistance programs administered by the HCA. To the extent possible, attorneys responsible for a case, or other persons helping in preparing the case for court action, will notify the HCA, or other custodian of a case record, in advance and in writing, of the need for court

testimony, whether the record should be brought, and of the time, date and place of hearing. If there is not enough time before the hearing to provide written notice, a phone call that the HCA logs in the narrative section of the case record, is sufficient. If it is not clear whether a court proceeding relates to the public assistance programs administered by the HCA, the local county office may contact the OGC or the appropriate division director's office for help.

(2) Non-program related court cases: Any person or attorney seeking confidential information from a case record for a non-program related court case should direct a properly issued subpoena to the appropriate local county office with a copy also sent to the HCA's OGC. The HCA will seek to preserve the confidentiality of the case record unless the release of the information is expressly authorized by federal and state laws and regulations or is otherwise ordered by a court of competent jurisdiction.

[8.100.110.6 NMAC - Rp 8.100.110.6 NMAC, 7/1/2024]

8.100.110.7 DEFINITIONS: [**RESERVED**]
[8.100.110.7 NMAC - Rp 8.100.110.7 NMAC, 7/1/2024]

8.100.110.8 RIGHT TO APPLY: Each individual shall have the opportunity to apply for public assistance programs administered by the HCA or to have an authorized representative do so on their behalf. Paper application forms must be readily accessible in the ISD local office lobby and provided to any person who requests the form. Applications are made in a format prescribed by the HCA to include paper forms or electronic submissions. All forms and notices will be accessible to individuals with limited-English proficiency or disabilities. ISD will post signs in local field offices which explain the application processing standards and the right to file an application on the day of initial contact.
A. Screening: Every applicant shall have the opportunity to meet, face to face or telephonically, with ISD when an application is submitted during regular business hours. ISD will review the application, assist the applicant in completing the application, if it is incomplete or assistance is otherwise necessary, and will assist in identifying the public assistance program(s) for which the applicant wishes to apply.
(1) Screening for supplemental nutrition assistance program (SNAP) expedited service: ISD will screen SNAP applicants for entitlement to expedited processing, using the standard formula and documenting the application, at the time the household requests assistance.
(a) If the applicant is eligible for expedited service, the SNAP application will be processed in accordance with 8.139.110.16 NMAC.
(b) If expedited SNAP processing is denied, the applicant will be informed of the right to request an agency review conference to be held within two days of the request unless the household requests a later date pursuant to Paragraph (4) of Subsection E of 8.100.970.10 NMAC.
(2) Proof checklist: ISD shall provide each household at the time of application for certification and recertification with a notice that informs the household of the verification requirements the household must meet as part of the application process. The notice shall also inform the household of ISD's responsibility to assist the household in obtaining required verification provided the household is cooperating with

ISD as specified in 7 C.F.R. 273.2(d)(1) and Section F of 8.139.110.11 NMAC. The notice shall be written in clear and simple language and shall meet the bilingual requirements designated in 7 C.F.R. 272.4(b). At a minimum, the notice shall contain examples of the types of documents the household should provide and explain the period of time the documents should cover.

(3) Scheduling the appointment: ISD must schedule an interview for all applicant households who are not interviewed on the day their application is received by ISD. An interview should be held within 10 working days from the date the application is received by ISD and, to the extent possible, convenient for both the applicant and ISD. To the extent practicable, ISD must schedule the interview to accommodate the needs of groups with special circumstances, including working households. ISD must schedule all interviews as promptly as possible to ensure eligible households receive an opportunity to participate within 30 days after the application is filed. ISD will send an appointment letter for an interview that includes contact information for ISD, date, time and place of the appointment. ISD must notify each household that misses its interview appointment that it missed the scheduled interview and that the household is responsible for rescheduling a missed interview. If the household contacts ISD within the 30-day application processing period, ISD must schedule a second interview. ISD may not deny a household's application prior to the 30th day after application if the household fails to appear for the first scheduled interview. If the household requests a second interview during the 30-day application processing period and is determined eligible, ISD must issue prorated benefits from the date of application.

B. Alternative interviews: Specific requirements for telephone and out of office interviews are outlined in each program's chapter on this topic.

C. Screening applications received by alternative means: ISD will screen applications for all public assistance programs and for expedited SNAP eligibility which includes applications received by alternative means. Alternative means include mail, fax, online, electronic transmission, or through an authorized representative.
[8.100.110.8 NMAC - Rp 8.100.110.8 NMAC, 7/1/2024]

8.100.110.9 SUBMISSION OF FORMS: Applicants may submit forms to a local county office in person or through an authorized representative, through the approved HCA web portal, by fax or by mail. The date the application and forms are received by ISD will be documented on the form. Applications submitted after regular business hours shall be considered received after business hours.

A. Incomplete application: An applicant has the right to file an incomplete form as long as the form contains the applicant's name, address and the signature of a responsible household or benefit group member or the household or benefit group's authorized representative, if one is designated.

B. Requesting application forms: When ISD receives a request for an application for assistance, ISD will mail, fax or hand deliver a paper application and provide the approved web portal address (for online applications), as indicated by the requestor, on the same day the request is received.

C. ISD shall provide households that complete an on-line electronic application in person at the ISD office the opportunity to review the information that has been recorded electronically and provide them with a copy of that information for their records, upon request.

8.100.110.10 INTERVIEWS: Specific requirements for the interview are outlined in each program's chapter on this topic. Related verification issues for the interview are located in the verification section.
[8.100.110.10 NMAC - Rp 8.100.110.10 NMAC, 7/1/2024]

8.100.110.11 PROCESSING APPLICATIONS:

A. Cash Assistance (CA)/SNAP combined cases: To facilitate participation in SNAP, the Food Stamp Act requires that individuals applying for CA be able to apply for SNAP benefits at the same time.

(1) Application: A household applying jointly for CA and SNAP is required to file only one application on a form prescribed by ISD. The application contains the information necessary to complete the application process whether it was submitted by paper format or electronically online. If it is unclear to ISD whether the applicant intends to apply for SNAP, ISD will ask the applicant during the CA interview or other contact may be made with the applicant. An application for SNAP will be processed in accordance with time standards and procedures set forth in federal and state laws and regulations governing SNAP, including expedited processing provisions.

(2) Single interview: Whenever possible, a single interview will be held with an applicant who applies jointly for CA and SNAP benefits.

(3) Categorical eligibility: A SNAP household that meets criteria set forth in 8.139.420.8 NMAC is categorically eligible. If a household does not meet SNAP eligibility criteria, but is potentially categorically eligible, ISD must postpone denying the SNAP application until the 30th day.

(4) Application processing: Shall be processed in accordance with 7 C.F.R 273.2 j(1)(iv). As a result of differences in CA and SNAP application processing procedures and timeliness standards, eligibility for SNAP benefits may be determined prior to CA eligibility determination. Action on a SNAP application may be postponed until categorical eligibility is established to afford the household any benefits of this provision. However, SNAP approval may not exceed the applicable SNAP expedited or regular application processing timeliness standards.

(5) Application is denied: If a CA application is denied, an applicant is not required to file a new SNAP application. SNAP eligibility will be determined on the basis of the original application filed jointly for CA and SNAP, as well as any other documentation and information obtained in the course of the CA determination that is relevant to SNAP eligibility and benefit amount. A SNAP application may not be denied based on a CA denial reason, but must be based on the SNAP eligibility criteria.

(6) Denial retrieval: A SNAP application that is denied on the 30th day must be readily retrievable for another 30 days, in case the household is later determined eligible for CA or supplemental security income (SSI) benefits. When this occurs, ISD will use the original SNAP application, update any information and approve the SNAP case with prorated benefits as of the date of CA or SSI approval or payment effective date, whichever is later. A second interview is not necessary, however, the applicant or authorized representative should initial all changes and sign and date the verification of the changes.

B. Reporting changes: All participants in public assistance programs administered by the HCA are required to report any changed circumstances that relate to their eligibility for assistance or level of benefits. Each participant is provided with a list of the specific information they are required to report and the reporting time limits. When a change is reported, ISD must ensure that adjustments are made in the client's eligibility status or allotment for those months that the reported change is in effect, in accordance with each program's chapter on this topic.

(1) Notice: Whenever a client's benefits are altered as a result of changes, or whenever a certification period is shortened to reflect changes in the household's circumstances, the client is notified of the action by ISD in accordance with the notice requirements found in 8.100.180.10 NMAC and 8.100.180.11 NMAC. If the certification period is shortened, the household's certification period may not end any earlier than the second month following the month ISD determines the certification period should end. This allows adequate time to send a notice of expiration and for the household to timely reapply. If CA benefits are terminated, but the household is still eligible for SNAP benefits, members of the household must be informed about SNAP employment & training and ABAWD requirements, if applicable.

(2) CA reduction or termination within SNAP certification period: Whenever a reported change results in the reduction or termination of a client's CA benefits within the SNAP certification period, action will be taken to determine how the change affects the client's SNAP eligibility and benefit levels.

(a) Sufficient information: When there is sufficient information to determine how the change affects SNAP eligibility and benefit levels, the following actions will be taken:

(i) Reduction/termination of SNAP benefits: A change that reduces or terminates SNAP, CA or both benefits will generate a notice of adverse action for each category of assistance that is sent to the household and authorized representative. The notice(s) of adverse action will inform the household of its fair hearing rights and method for requesting continuation of benefits.

(ii) Increase in SNAP benefits: If the reduction/termination of CA benefits results in the increase of SNAP benefits, the increase in SNAP benefits occurs after the CA notice period expires and the CA grant is actually reduced or terminated.

(b) Insufficient information: Whenever there is insufficient information to determine how the CA change affects the client's SNAP eligibility and benefit level, the following actions shall be taken:

(i) CA notice of adverse action required: Where a CA notice of adverse action has been sent and the client requests a fair hearing and CA benefits are continued pending the appeal, the household's SNAP benefits will be continued on the same basis. However, the household must recertify for SNAP benefits if the SNAP certification period expires before the fair hearing process is completed.

(ii) CA notice of adverse action not required: If a CA notice of adverse action is not required, or the client decides not to request a fair hearing and continuation of CA benefits, the household must be notified that its certification period will expire at the end of the month following the month the notice of expiration is sent, and that it must reapply if it wishes to continue to participate in the SNAP. The notice of

expiration will also explain to the household that the certification period is expiring because of changes in its circumstances that may affect its SNAP eligibility and benefit level.

(3) Certification periods: ISD will assign CA and SNAP certification periods that expire at the same time. In no event are CA and SNAP benefits to be continued beyond the end of a certification period.

(4) Recertification: Households in which all members are contained in a single CA grant or in a single general assistance (GA) grant will have their SNAP interviews for recertification, to the extent possible, at the same time they are redetermined for CA.

(5) Reopened cases: If the CA and SNAP cases are closed or the SNAP certification expires, and the former recipient reapplies for one or both programs for the month following closure or expiration, benefits are prorated from the date of application for SNAP. If reapplication is made for CA or SNAP or both, following a break of one full month or more, SNAP and CA benefits for the month of application will be determined prospectively under beginning month provisions.

C. Other processing standards:

(1) SSI Households: Households in which all members are applying for SSI benefits are handled in the same manner as CA households with respect to the postponement of SNAP approval or denial and the retrieval of denied SNAP applications.

(a) Since ISD cannot monitor the progress of the SSI application, and if the SNAP application is denied on the 30th day, the household must be advised to reapply for SNAP when it has been notified of SSI approval.

(b) SSI households are also entitled to apply for SNAP and be recertified at the social security administration (SSA) offices. SSA will accept the application and forward the completed application, transmittal form, and any available verification to the designated local ISD field office. When SSA accepts and refers the application, the household is not required to appear at a second office interview, although ISD may request additional verification or information needed to make an eligibility determination. Processing time limits begin when the SNAP application is registered at the SSA office.

(2) GA households: Households in which all members are applying for state administered GA are to be processed jointly for GA and SNAP benefits. However, since these households are not, nor will they become categorically eligible, the provisions to postpone approval or denial and to retrieve denied SNAP applications do not apply.

(3) Mixed households: Households in which some but not all of the household members are applying for NMW benefits will file separate applications for CA and SNAP benefits. Applications will be handled under the same processing provisions required for nonfinancial assistance households. However, if those not applying for CA benefits are recipients of SSI, the SNAP application would be jointly processed, because SSI recipients are already considered CA recipients.

(4) Application processing standards joint applications other than CA/SNAP: Each type of benefit applied for will be processed according to its specific procedures and timeliness standards. No benefit's processing will be delayed waiting for other benefit's requirements.
[8.100.110.11 NMAC - Rp 8.100.110.11 NMAC, 7/1/2024]

8.100.110.12 TIME LIMITATIONS: A decision shall be made promptly on applications in accordance with the timeliness standards set forth in 8.100.130.11 NMAC. These deadlines ensure that eligibility decisions are made promptly without restricting the applicant's right to supply verification of eligibility factors throughout the application processing period.

8.100.130.7 DEFINITIONS: [Reserved]
[8.100.130.7 NMAC - Rp 8.100.130.7 NMAC, 7/1/2024]

8.100.130.8 PRINCIPLES OF ELIGIBILITY: The income support division (ISD) is responsible for administering food, cash, energy, and medical assistance programs. These programs are funded through federal or state sources and provide assistance to individuals who meet certain eligibility factors. State and federal regulations determine eligibility factors for each program. ISD determines if an individual qualifies for a program, and ensures that eligible individuals receive the assistance as quickly as possible and, in any event, within the application time frames for the applicable program.
A. Proof of eligibility: Determining eligibility for assistance requires that certain verification regarding an applicant/recipient's circumstances be made available to ISD. This verification is retained in the case record or noted in the case narrative.
(1) Applicant/recipient responsibility: The applicant/recipient is responsible to provide and obtain the verification necessary to determine eligibility.
(2) ISD responsibility: ISD is responsible for the following:
(a) to explain program participation requirements and the program specific eligibility factors to applicants/recipients;
(b) to explain the information and documents that must be provided to establish eligibility under each eligibility factor for a specific program;
(c) to offer and provide assistance in obtaining verification of an eligibility factor when the applicant/recipient indicates that verification may be difficult or costly to obtain; difficulty in obtaining verification may arise as a result of such circumstances as an applicant/recipient's limited ability to read, speak or understand the English language, mental impairments, physical illness, disability, lack of funds, lack of transportation or lack of knowledge about how to obtain the information; assistance by ISD includes explaining written information orally in the applicant/recipient's language, providing an interpreter, providing an address or

telephone number of a person or agency, making telephone or written inquiries, allowing an applicant/recipient to use the telephone, locating a document, instructing an applicant in obtaining a document, requesting a document on behalf of an applicant/recipient or contacting a collateral contact; the assistance offered and provided is based on the particular needs of the applicant and ISD's ability to address those needs;

(d) to inform applicants/recipients in writing of their responsibility to provide necessary verification.

(3) Incomplete information: When available information is inconclusive, incomplete or indefinite, ISD shall be responsible for explaining, in writing, what questions remain and how they can be resolved. The explanation must make it clear that eligibility cannot be established without the information or documents and that failure to provide them shall result in denial, reduction or termination of assistance.

(a) The applicant/recipient shall also be informed they may reapply at any time but that the information, documentation or actions may affect the reapplication. If the applicant/recipient does not provide all of the verification needed, a decision shall be made to the extent possible, based on the existing verified information.

(b) For MAGI medicaid purposes, reasonable compatibility will be effectuated in accordance with 42 CFR 435.952.

(c) When assistance is denied, reduced, delayed or terminated due to failure to provide information or documents as requested, the case record must contain the explanation that such failure is the basis for the action. The client shall be informed in writing of the action.

B. Failure to provide verification: An applicant/recipient cannot be considered eligible for assistance until necessary verification is obtained. To the extent possible, ISD shall make eligibility determinations based on verified eligibility issues rather than failure to provide information.

C. Applicants/recipients may submit documentary evidence in person, by mail, facsimile, or other electronic device or through an authorized representative.

[8.100.130.8 NMAC - Rp 8.100.130.8 NMAC, 7/1/2024]

8.100.130.9 METHODS OF VERIFICATION:

A. Verification to determine eligibility and benefit level is obtained through six methods. Not all methods will necessarily be used in each case. The six methods are outlined in Subsections B through G of this section as well as the circumstance in which they may be used.

B. Prior case data not subject to change: Verification of an eligibility factor not subject to change which previously has been verified is accepted. At the application interview, ISD shall advise the applicant/recipient of any eligibility factors which have previously been established through documents in ISD's possession and that are not subject to change. ISD shall not require further verification of any eligibility factors already established. Such factors include: U.S. citizenship, permanent residency, birth date, relationship, social security enumeration and deprivation due to the death of a parent.

C. Electronic data: Every applicant/recipient shall be informed that the information provided is subject to verification through federal, state, local and contracted data systems. ISD shall review the information received from the data source with the applicant/recipient and not require additional verification of such information unless it is disputed by the applicant/recipient, the information is otherwise questionable, or the information does not comply with specific benefit requirements. Questionable information is defined in 8.100.130.12 NMAC. Electronic data checks are automatically made and are not considered to be collateral contacts. The electronic data checked includes, but is not limited to:

(1) SSA and SSI information through the beneficiary data exchange (BENDEX) and the state data exchange (SDX) systems:

(a) the household shall be given an opportunity to verify the information from another source if the SDX or BENDEX information is contrary to the information provided by the household or is unavailable;

(b) eligibility and benefit level determination shall not be delayed past the application processing standards of 8.100.130.11 NMAC of this part if SDX or BENDEX data is unavailable;

(2) wage data and unemployment compensation benefits (UCB) through the interface with the New Mexico department of workforce solutions (NMDWS) - unemployment insurance database;

(3) interest, dividends, unearned income and self-employment wages through interfaces with the BENDEX wage data and internal revenue service (IRS) available through income and eligibility verification systems (IEVS):

(a) if the IEVS-obtained information is questionable, this information shall be

considered unverified upon receipt and ISD shall take action to request verification of the information;

D. Documentary evidence: ISD shall use documentary evidence as the primary source of verification for all items except residency and household size. These items may be verified either through readily available documentary evidence, collateral contact or data from federal, state, local or contracted data sources, without a requirement being imposed that documentary evidence must be the primary source of verification. Documentary evidence consists of a written confirmation of a household's circumstances. Although documentary evidence shall be the primary source of verification, acceptable verification shall not be limited to any single type of document and may be obtained through the household or other source. Whenever documentary evidence cannot be obtained or is insufficient to make a determination of eligibility or benefit level, the eligibility worker may require collateral contacts or home visits. ISD is responsible for obtaining verification from acceptable collateral contacts. If a collateral contact is not available, a sworn statement shall be accepted from the household. ISD shall provide applicants/recipients with receipts for verification documents provided.

E. Collateral contacts: A collateral contact is an oral or written confirmation of a household's circumstances by a person outside the household. ISD shall document the reason for utilizing a collateral contact in the case file.

(a) ISD may select a collateral contact only if the household fails to designate one or designates one who lacks knowledge of the applicant/ recipient's circumstances or cannot give accurate information. If the applicant/recipient does not agree to the collateral contact and does not designate an acceptable collateral contact, the application may, in appropriate circumstances, be denied for failure to verify.

(b) A collateral contact shall not be rejected solely based on the following criteria:

(i) they are related to the applicant/recipient;

(ii) they are a recipient of public assistance; or

(iii) they do not have a telephone.

(3) Failure on the part of a collateral contact: ISD shall not deny or delay an eligibility decision solely because of failure of a collateral contact to provide information. ISD shall decide the applicant/recipient's eligibility and benefit amounts based on all readily available information.

F. Home visits: Home visits may be used as verification only when electronic data or documentary evidence is insufficient to make a firm determination of eligibility or benefit level, or cannot be obtained. Home visits shall be selected as a method of verification with the applicant/recipient's consent. ISD shall schedule the home visit with the applicant/recipient in advance during normal business hours. ISD shall document the reason for the home visit in the case record.

G. Sworn statements:

(1) If the applicant/recipient has an immediate need for assistance, ISD shall accept and, if necessary, assist the applicant/recipient to identify necessary factors to be included in the statement, an applicant/recipient's sworn statement to verify one or more eligibility factors when there is:

(a) a reasonable explanation as to why electronic data documentary verification or a collateral contact is not readily available to establish the factors; and

(b) the applicant/recipient's statement does not contradict other credible information received by ISD; in such instances where the statement contradicts the other information, ISD may require additional verification within a reasonable time after approval and authorization of assistance: an applicant/recipient who objects to such an additional request for information shall have the right to request and receive a fair hearing.

(2) A sworn statement is defined as the applicant/recipient's statement signed under penalty of perjury.

8.100.130.10 SELECTION OF VERIFICATION: Verification shall be requested only when necessary to establish a specific eligibility factor or benefit amount for a program and is not available or acceptable from an electronic source, in accordance with other benefit requirements. The method of verification which is selected to establish eligibility on a factor is determined through discussion between ISD and the applicant/recipient.

A. Only necessary verification: ISD shall only request verification which is necessary to establish eligibility or benefit amounts for the assistance program(s) for which the applicant/recipient has applied.

B. Ready availability: The determination that verification is readily available will be made through discussion with the applicant/recipient. A readily available document is one which can be obtained by the applicant/recipient within five working days and at no cost to the applicant/recipient.

C. Verification of a negative statement: Verification, other than by sworn statement, of a negative statement shall not be required unless the statement is or becomes questionable as defined in 8.100.130.12 NMAC and at least one specific method of verifying the statement is readily available. (5) Procedural denials:

(a) Lack of verification: In cases where ISD was able to conduct an interview and request all necessary verification on the same day or any day before the 30th day after the application was filed, and no subsequent requests for verification have been made, ISD may deny the application on the 30th day. Following the day of application, if ISD provided assistance to the household in obtaining the verification in accordance with 7 CFR 273.2(f)(5), but the household failed to provide the requested verification, ISD may deny the application on the 30th day after the application was filed.

The household will be given an additional 30 days to take the required action.

(i) If the household takes the required action within 60 days following the date of application, the case shall be reopened without requiring a new application. If the household is found eligible during the second 30 day period, benefits shall be provided only from the month following the month of application. The household is not entitled to benefits for the month of application when the delay was the fault of the household.

(ii) If the household is at fault for not completing the application process within 60 days following the date of initial application, ISD shall deny the application and require the household to file a new application if it wishes to participate.

(b) ISD caused:

(i) Whenever a delay in the initial 30 day period is the fault of ISD, immediate corrective action shall be taken. If the household is found to be eligible during the second 30 day period, the household shall be entitled to benefits retroactive to the date of application. If, however, the household is found to be ineligible, ISD shall deny the application.

(ii) If ISD is at fault for not completing the application process by the end of the second 30-day period, and the case is otherwise complete, ISD shall continue to process the original application until an eligibility determination is reached.

(iii) If ISD is at fault for not completing the application process by the end of the second 30-day period, but the case is not complete enough to reach an eligibility determination, ISD may continue to process the original application, If ISD was also at fault for the delay in the initial 30 days, the amount of benefits lost would be calculated from the month following the month of application.

(1) If the relative is other than a parent, the relationship must be traced.

(2) In situations involving both parents in the home and the father is not the legal father, where paternity has not been established by operation of law or determined through court order, it will be necessary to establish the relationship of the child to the father by completion of the CSSD acknowledgment of paternity packet.

(3) If the child is living with a relative of the alleged father, it will also be necessary to establish the father-child relationship. The preferred method of proving the relationship will be through acknowledgment of paternity, although other documents will be acceptable means of establishing relationship.

B. Fleeing felon, probation or parole violator:

(1) Fleeing Felon: An individual determined to be a fleeing felon shall be an ineligible household member. To establish an individual as a fleeing felon ISD must verify that an individual is a fleeing felon. A federal, state, or local law enforcement officer acting in their official capacity must present an outstanding felony arrest warrant that conforms to one of the following national crime information center uniform offense

classification codes, to the department to obtain information on the location of and other information about the individual named in the warrant:

(a) escape (4901); or

(b) flight to avoid prosecution, confinement, etc. (4902); or

(c) flight-escape (4999).

(2) Probation or parole violator: An individual determined a parole or probation violator shall not be considered to be an eligible household member. To be considered a probation or parole violator, an impartial party, as designated by ISD, must determine that the individual violated a condition of their probation or parole imposed under federal or state law and that federal, state, or local law enforcement authorities are actively seeking the individual to enforce the conditions of the probation or parole. Actively seeking is defined as:

(a) a federal, state, or local law enforcement agency informs ISD that it intends to enforce an outstanding felony warrant or to arrest an individual for a probation or parole violation within 20 days of submitting a request for information about the individual to ISD; or

(b) a federal, state, or local law enforcement agency presents a felony arrest warrant as provided in Paragraph (1) of Subsection B of this section; or

(4) Response time: ISD shall give the law enforcement agency 20 days to respond to a request for information about the conditions of a felony warrant or a probation or parole violation, and whether the law enforcement agency intends to actively pursue the individual. If the law enforcement agency does not indicate that it intends to enforce the felony warrant or arrest the individual for the probation or parole violation within 30 days of the date of ISD's request for information about the warrant, ISD shall determine that the individual is not a fleeing felon or a probation or parole violator and document the household's case file accordingly. If the law enforcement agency indicates that it does intend to enforce the felony warrant or arrest the individual for the probation or parole violation within 30 days of the date of ISD's request for information, ISD will postpone taking any action on the case until the 30-day period has expired. Once the 30-day period has expired, ISD shall verify with the law enforcement agency whether it has attempted to execute the felony warrant or arrest the probation or parole violator. If it has, ISD shall take appropriate action to deny an applicant or terminate a participant who has been determined to be a fleeing felon or a probation or parole violator. (5) Application processing: ISD shall continue to process the application while awaiting verification of fleeing felon or probation or parole violator status. 8.100.180.11 CONCURRENT NOTICE: A concurrent notice is one which is mailed no later than the date the benefit is or would have been received. It is also referred to as an adequate notice.
A. Food stamps: HCA notifies a household that its FS benefits are reduced or terminated no later than the date the household receives, or would have received, its allotment, in the following circumstances:
(1) the household reports the information which results in the reduction or termination;
(2) the reported information is in writing and signed by an adult household member;
(3) HCA can determine the household's allotment or ineligibility based solely upon the household's written information;
(4) the household retains its right to a fair hearing;
(5) the household retains its right to continued benefits by requesting a fair hearing within the time period provided by the adverse action notice;
(6) HCA continues (or supplements) the household's previous benefit level, if necessary, within five working days of the household's request for a fair hearing.
B. FA and medical: HCA notifies a benefit group that its benefits are reduced or terminated by no later than the date the group receives, or would have received, its benefit in the following circumstances.
(1) Death: Termination or reduction of assistance is necessary because of the death of an FA benefit group member or a MA recipient whose death is documented.
(2) Admission to institution: Reduction of assistance is necessary because the client enters a skilled nursing home or intermediate care facility, or termination is necessary because of the client's admission to an institution which makes him/her ineligible for payment.
(3) Client request: The client requests in writing that the FA or MA assistance be reduced or terminated; the client gives information in a signed statement that causes a termination or reduction of services and the client indicates in writing that the client understands this is the consequence of supplying such information.
(4) Whereabouts unknown: Withholding FA or MA assistance is necessary because of the unknown whereabouts of the client, as evidenced by agency mail to the client's last known address having been returned to the ISD as undeliverable.
(5) Other assistance: The client is accepted for FA or MA assistance in another county or state, or under another jurisdiction (including SSI) and the effective date of coverage has been established.
(6) Removal of child: Termination or reduction of FA is necessary because of the removal of a recipient child from the home through judicial determination or the voluntary placement of the child in foster care by the legal guardian or specified relative.
(7) Change in medical care: A change in a client's level of medical care is prescribed by their physician.

(8) Special allowance: A special allowance granted to a client for a specific period of time is terminated and the client has been informed at the time the allowance was granted that it would terminate at a specific time.

(11) Sanction: An FA payment is being reduced or terminated because an individual is not cooperating with the child support enforcement program or is failing to meet work program requirements.

(12) A client is also informed of their right to request a hearing on the action, the way to make such a request, and the conditions under which assistance will be continued if a hearing is requested. In any contact with the county office or in a hearing, the client may speak for themselves, or be represented by legal counsel or a friend or other spokesperson.

[8.100.180.11 NMAC - Rp 8.100.180.11 NMAC, 7/1/2024]

8.100.180.12 FOOD STAMP EXCEPTIONS: Adverse action notices are not required under the following conditions.

A. Mass changes: The state initiates a mass change.

B. Death: The ISS determines, based on reliable information, that all members of a household have died.

C. Move from project area: The ISS determines, based on reliable information, that the household has moved from the project area, or will move before the next FS issue.

D. Completion of restoration of lost benefits: The client has been receiving an increased allotment to restore benefits, the restoration is complete, and the client has been previously notified in writing when the increased allotment would end.

E. Anticipated changes in monthly benefit amount: A household's allotment varies from month to month within the certification period to take into account changes which are anticipated at the time of certification, and the household was notified at the time of certification of the allotment variations.

F. Benefit reduction upon approval of household's FA application: The household jointly applied for FA and FS benefits, and has been receiving food stamps pending the approval of the FA grant, and was notified at the time of certification that FS benefits would be reduced upon approval of the FA grant.

G. Household member disqualified for intentional program violation: The benefits of the remaining household members are reduced or terminated to reflect the disqualification of a household member.

H. Benefits contingent upon providing postponed verification: The ISS has assigned a normal certification period to a household certified on an expedited basis, for whom verification was postponed, and the household was given a written notice that the receipt of benefits beyond the month of application was contingent upon its providing the required verification.

I. Conversion: Converting a household from cash or FS benefit recovery to recoupment (benefit reduction) because of failure to make agreed-upon repayment.

J. Loss of certification by drug or alcoholic treatment center or group living arrangement.: The ISS terminates the eligibility of a resident of a drug or alcoholic treatment center or a group living arrangement because the facility loses either its certification from the New Mexico health department or other appropriate state agency, or has its status as an authorized representative suspended because FCS has disqualified it as a retailer.

K. Transfer between FSP and food distribution programs: If a local office is notified by the appropriate Indian tribal organization (ITO) that a participating household wishes to switch programs, the ISS:

(1) advises the ITO of the earliest date that program transfer may occur without risk of dual participation;

(2) closes the FS case without advance notice; and

(3) follows up with the appropriate ITO-provided form.

L. Household requests termination:

[8.100.180.12 NMAC - Rp 8.100.180.12 NMAC, 7/1/2024]

8.100.180.13 FRAUD: If the agency obtains facts indicating that FA or MA should be suspended, terminated or reduced because of probable fraud by the recipient which has been verified, if possible, by collateral sources, notice of the action being taken is mailed at least five days before the action is to become effective.

[8.100.180.13 NMAC - Rp 8.100.180.13 NMAC, 7/1/2024]

8.100.180.14 CONTINUATION OF BENEFITS: If a fair hearing request is filed, benefits are continued, under the circumstances described below, until the fair hearing determination is completed.

A. Timely requests:

(1) Advance notice: If a household requests a fair hearing within the advance notice period provided by the advance adverse action notice, and its certification period has not expired, the household's participation in the program is continued on the same basis authorized immediately before the adverse action notice, unless the household specifically waives a continuation of benefits.

(2) All fair hearing request forms contain a space for a household to indicate whether or not continuation of benefits is requested. If the form does not positively indicate that the household has waived continuation of benefits, the ISS assumes that continuation of benefits is desired and the benefits are issued accordingly. Such benefits are continued until the end of the certification period or the resolution of the fair hearing, whichever is first.

B. Concurrent notice: If a benefit group requests a fair hearing within 13 days of issuance of a concurrent adverse action notice, and its certification period has not expired, cash assistance, food stamps and medicaid benefits are reinstated. Unless other intervening changes occur, assistance is not reduced or terminated, nor may the manner or form of payment be changed to a protective payment, during the period until the hearing decision is rendered, except as provided in regulations at 8.100.180.10 and 8.100.180.15.

(1) Additionally, receipt of continued benefits ends if a determination is made at the hearing that the sole issue is one of federal policy or law, or change in such policy or law, and not one of incorrect grant computation.

(2) If a later change affecting the client's grant occurs while the hearing decision is pending and the client does not request a hearing regarding the change, the payment which the client continues to receive during the hearing period is adjusted only by the amount required by the change.

(3) If assistance is to be continued, it is continued through the end of the month in which a decision on the hearing is reached.

(4) If hearing decisions are delayed, assistance is continued only if the delay is caused by HCA or if a delay of five days or less is requested by the client because of unusual circumstances beyond the client's control.

C. Late requests:

(1) If a hearing request is not made within the period provided by the adverse action notice, benefits are reduced or terminated as provided in the notice.

(2) If a client demonstrates that failure to make the request within the advance notice period was for good cause, benefits are reinstated to the previous level. The hearing unit supervisor decides if the failure was for good cause.

[8.100.180.14 NMAC - Rp 8.100.180.14 NMAC, 7/1/2024]

8.100.180.15 MASS CHANGES

A. General: Certain changes initiated by the state or federal government may affect the entire caseload or significant portions of it. These changes include, but are not limited to, increases or decreases in eligibility or payment standards changes in excluded or deducted items or amounts. Mass changes affecting income include annual adjustments of Social Security, SSI, and other federal benefit programs, and any other changes in eligibility criteria based on legislative or regulatory actions.

B. Notice of mass changes: Adverse action notices are required for mass changes resulting from statutory or regulatory changes in eligibility or payment standards, benefit, changes in excluded or deducted items or amounts for purposes of eligibility or calculation of benefit levels. The HCA will either provide concurrent notice to affected households of the mass change no later than the date the household receives, or would have received, its benefit issuance, or the affected cases will be notified through the media, and posters in county offices.

C. Appeal rights: Notice of the change will include the recipient's right to appeal. A hearing is not available, and benefits are not continued, when automatic benefit adjustments are required by federal or state law unless the specific, express basis for the hearing request is incorrect benefit computation. If the recipient requests a fair hearing within the advance notice period, benefits will be continued at the former amount. If the appeal results in a decision that the reduction or closure was incorrect, the difference between what the recipient received pending the appeal decision and the amount that should have been received will be restored to the recipient.

8.100.180.16 DISPUTED CONTINUATION OF BENEFITS: If a client and the ISS disagree about the continuation of benefits, the client may request a fair hearing. Adverse action defined. "Adverse action" is action taken by HCA which adversely affects the amount of benefits a client receives. Such actions include holding mailing of assistance warrants, and suspension, reduction or termination of benefits.
[8.100.180.16 NMAC - Rp 8.100.180.16 NMAC, 7/1/2024]

8.100.180.17 HOME VISIT NOTICE: The worker shall give advance notice to an applicant or recipient of any visit to the applicant's or recipient's home.

A. Verbal notice: The advance notice may be in the form of a verbal communication between the worker and the applicant or recipient. The time and date of the visit must be mutually agreeable and should, in most cases, be made at least one day in advance of the visit. The worker shall provide an explanation of the need for the visit to the applicant or recipient. The worker shall document the discussion in the case narrative and provide a justification if the period of advance notice is any less than one day.

B. Written notice: The home visit notice may be written. The written notice shall be mailed at least 10 days in advance of the intended visit. The notice shall indicate the time, date, and purpose of the visit. The notice shall request the applicant or recipient to confirm the appointment date with the worker. In the absence of a response from the applicant or recipient, the visit shall take place and the applicant or recipient is expected to be at home for the visit.

8.100.390.8 FORMS ANALYSIS, DESIGN, MANAGEMENT
A. Official form defined: An official form is any form with the HCA logo and a number assigned in central office. An official form must include a statement as to the purpose of the form and instructions for completion, distribution, and retention of the form.
(1) All statements regarding participant rights and responsibilities which appear on forms must be exactly as they are in the policy manual.
(2) Forms used in ISD field offices will be indexed in the forms manual.
B. Forms covered by these procedures and forms not covered by these procedures: All forms used in ISD county offices and intended for public use are to be developed in accordance with these procedures. Forms intended for internal office use only may be developed by an office without using these procedures. Internal use forms are forms not sent out of the office and not used, received, or reviewed by program participants.
C. Sources for new and revised forms and pamphlets: New forms and pamphlets, and revisions to existing forms and pamphlets, may be proposed and developed by each division, as well as other HCA staff. In addition, the public information officer may also initiate new pamphlets and revisions to existing pamphlets in coordination with the appropriate program staff.
D. Assigning form numbers: Each division is responsible for developing its own forms numbering system. Numbering systems should appear in some reasonable order. It is recommended that this be done in the order in which forms are used in case processing. Sufficient space should be left between form numbers to allow for expansion of the system.
E. Responsibilities:
(1) Forms - program specific: The division, or program area responsible for the policy which is addressed by a form will have primary responsibility for the development and revision of the form. Each division will assign its own form numbers and maintain a log of its form numbers. A central log of all form numbers will

also be kept by the graphics unit.

(2) ISD forms - program shared: Forms which are shared by more than one program and forms which do not involve any specific program will be assigned the suffix "ISD." The ISD form numbers log will be maintained by the ISD forms manager. The division or program area which proposes a new form or revision to an existing form will have primary responsibility for developing the new form or revising the existing form. The cost of producing the new or revised form will be prorated among the program areas which rely on the form. This proration will be based on caseload size.

(3) Forms - other sources: If the proposal for a new form or a revision comes from a field staff person or unit, the appropriate program, or division will review and approve the form prior to submission to the forms advisory team

(4) Pamphlets: Pamphlets should provide information and improve access to HCA programs. The most common purposes for the development of pamphlets are:

(a) HCA implements new programs;

(b) HCA makes significant policy changes; or

(c) auxiliary services are available.

(5) Responsibility for each pamphlet will reside with the which has primary responsibility for the policy issues addressed in the pamphlet. The unit which originates and develops the pamphlet will have responsibility for the distribution of the pamphlet within the HCA and elsewhere as required by the governing federal oversight agency. The public information officer will handle any other distribution of the pamphlet.

(6) All other situations: In the absence of clear responsibility, the forms advisory team will assign responsibility for the design and development of the new or revised form. The division forms manager is available for consultation on forms manual issues.

F. Forms review procedures: All proposed new forms will be typed or printed in draft for review. Drafts of revisions to existing forms will be submitted on copies of the existing forms with changes marked clearly in red. Once the draft of the form and its instructions are complete, it may be necessary for the draft and instructions to be submitted to various agencies for review. Not all forms will be reviewed. Some will be reviewed in all four areas below and some will receive no review in these areas.

(1) Literacy review: All applications and forms pertaining to the eligibility process must be reviewed for appropriate literacy level. This will be accomplished by the office which develops the new form or revises an existing form.

(2) Review by general counsel: Any form to be sent to or completed by HCA clients or applicants must be reviewed by the HCA Office of general counsel in order to assure compliance with current legal standards. All drafts of pamphlets and informational items for general distribution to the public must also be reviewed by the office of general counsel before being sent to the public information officer for final approval.

(3) Approval by the public information officer: Following review by the office of general counsel, all drafts of pamphlets and informational items for general distribution to the public will be sent to the public information officer for final approval (see PIO-033.1).

(4) Review by inspector general: Forms authorizing certain payment, e.g. client medical travel expense, may also require review by the office of the inspector general. This requirement may change periodically. Those developing or revising forms of this nature should first consult with the OIG. Forms requiring review in any of these areas must be returned for re-review if any changes are made.

G. Forms advisory team review: After the new or revised form has been given all necessary review, the form and its instructions will be forwarded to the ISD forms manager. The forms manager will acknowledge receipt of the form and notify the primary program of the date of the review by the forms advisory team. A member of the program staff should be present when the forms advisory team meets to review the new or revised form.

(1) For new and revised forms, the forms advisory team will consider:

(a) Does the form address a new policy or program change?

(b) Does the form address a significant policy change?

(c) Is a form necessary or would clear procedural instructions meet the needs of implementation?

(d) If the form is necessary, is it user friendly and time efficient, and will it enhance the accuracy rate of the HCA?

(2) For revised forms, the forms advisory team will also require that one of the following three conditions be met:

(a) the current form no longer addresses all policy issues;

(b) the revision will streamline the user's completion of the form; or

(c) the revision is necessary to comply with audit/accountability/program policy requirements.

(3) Once the form has been reviewed and approved by the forms advisory team, it will be returned to the originating staff for submission to the graphics unit for printing.
[8.100.390.8 NMAC - Rp 8.100.390.8 NMAC, 7/1/2024]

8.100.390.9 GRAPHICS UNIT PROCESS:

A. The originating staff will complete a request/format approval form HCA 053 (green copy), attach the approved draft, and submit to the graphics unit. All drafts of proposed new forms submitted to the graphics unit must be typed or printed. The request/format approval form must include:

(1) quantity;
(2) dimensions;
(3) weight and type of paper;
(4) color of paper and inks;
(5) multiple copies;
(6) padding;
(7) stapling;
(8) drilling;
(9) stitching;
(10) wrapping;
(11) and any other special instructions.

B. The graphics unit will prepare a camera ready copy and contact the GSD state printing facility to obtain a price quote for the preparation of the procurement document. The graphics unit will return the price quote with the specifications to the originating staff who will prepare the procurement document. A copy of the camera ready will be reviewed, approved, and signed for by the originating staff. After approval and signature by the originating staff, the graphics unit will submit the camera ready to the GSD's state printing facility for printing. In some instances, camera readies may be copied at the HCA copy center. This decision will be made by the originating staff.

8.100.390.11 HCA SUPPLY: For forms stored at the HCA central warehouse, originating staff should consult the warehouse manager to determine: inventory status of the form; status of outstanding orders; and estimated date the form supply will be exhausted. This information will be used to determine the quantity of revised forms to be ordered and the revision date to be indicated on the revised form. The warehouse will notify the originating staff within 24 hours of receipt of the revised form/pamphlet. The originating staff will not release the form or pamphlet to the field offices until the warehouse has stock from which the field can order.
[8.100.390.11 NMAC - Rp 8.100.390.11 NMAC, 7/1/2024]

8.100.390.12 RELEASE OF MANUAL REVISION: Once notified by the warehouse that a supply of the new or revised form is available, the originating staff will prepare the manual revision cover memo. A copy of the completed manual revision, form, and instructions will be submitted to the ISD forms manager. The forms manager will update the forms manual indexes and submit the manual revision to the director's office for signature and numbering. The signed and numbered manual revision will be returned by the director's office to the originating staff for distribution to the field.
[8.100.390.12 NMAC - Rp 8.100.390.12 NMAC, 7/1/2024]

8.100.390.13 REORDERING FORMS: To re-order forms, the originating staff member fills out a form order/re-order memo and submits it to the warehouse manager for processing. The warehouse manager will complete the purchase document and return it to the program staff for signature.
[8.100.390.13 NMAC - Rp 8.100.390.13 NMAC, 7/1/2024]

8.100.390.14 DISCONTINUATION OF FORMS: If an originating staff member determines a form is to be

discontinued and destroyed, the originating staff will first consult with the forms advisory team. When the discontinuation or destruction of a form is agreed on, the originating staff will fill out a form discontinuation memo and submit it to the forms manager for processing along with a copy of the manual revision deleting the form from the forms manual. This will ensure the updating of the index. The forms manager will then submit the documents to the warehouse manager.

There shall be a prospective determination beginning the month following the month the certification expires.

(3) The caseworker shall ensure that CSSD has been notified of all pertinent information regarding any non-custodial parent who has a child in the benefit group, including but not limited to the current address and work place of the non-custodial parent.

A household member or authorized representative that attends an interview and provides all necessary verification by the end of the household's current certification period, will have the opportunity to participate by the household's normal issuance cycle in the month following the end of the current certification period, if all eligibility factors have been met.

(1) At processing the interim report form, eligibility and amount of payment shall be determined prospectively for the six months following the month the interim report form is due.

(2) In determining a benefit group's eligibility and payment amount, the income already received shall be used to prospectively anticipate income the benefit group expects to receive during the certification period according to the following schedule:

(a) Weekly: For income received weekly the participant benefit group must submit and ISD shall accept as verification income received from any consecutive past 30-day period that includes 60 days prior to the month the interim report form is due.

(g) Income received less frequently than monthly: The amount of monthly gross income that is received less frequently than monthly shall be determined by dividing the total income by the number of months the income is intended to cover. This includes, but is not limited to, income from sharecropping, farming, and self-employment. It also includes contract income and income for a tenured teacher who may not have a contract.

(3) Self-employment:

(a) Requirements for determination of self- employment income are set forth at Subsection E of 8.139.520.10 NMAC, and the verification standards for business and self-employment income are set forth at 8.100.130.25 NMAC.

ISD shall process the report if all other mandatory verification has been provided.

(4) Use of conversion factors: Whenever a full month's income is anticipated and is received on a weekly or biweekly basis, the income shall be converted to monthly amount as follows:

(b) income received on a biweekly basis is averaged and multiplied by two;

(c) averaged income shall be rounded to the nearest whole dollar prior to application of the conversion factor; amounts resulting in $0.50 or more are rounded up; amounts resulting in $0.49 or lower are rounded down.

I. Action on changes reported between reporting periods for benefit groups assigned to simplified reporting: In addition to changes that must be reported in accordance with Subsection H of 8.102.120.11 NMAC, ISD must act on changes in between interim report forms, if it would increase the household's benefits. ISD shall not act on changes that would result in a decrease in the household's benefits unless:

(1) The household has voluntarily requested that its case be closed;

(2) ISD has information about the household's circumstances considered verified upon receipt. Verified upon receipt is defined as:

(a) information is not questionable; and

(b) the provider of the information is the primary source of information;
(c) the trusted data sources must be pulling their own data not from third party information; or
(d) the recipient's attestation exactly matches the information received from a third party.
(3) A newborn shall be added to the benefit group effective the month following the month the report is received.
(4) The loss of earned income shall be considered for eligibility in the second month after the loss and ongoing until the next scheduled interim report or end of certification whichever is first, provided that:

(6) A household member has been identified as a fleeing felon or probation violator in accordance with 8.102.410.15 NMAC.
J. Responsibilities on reported changes outside of the interim report: When a household reports a change, ISD shall take action to determine the household's eligibility or TANF benefit amount within 10 working days of the date the change is reported.
(1) Decreased or termination of benefits: For changes that result in a decrease or termination of household benefits, ISD shall act on the change as follows:
(a) if the household's benefit level decreases or the household becomes ineligible as a result of the change, ISD shall issue a notice of adverse action within 10 calendar days of the date the change was reported unless one of the exemptions to the notice of adverse action in 7 CFR 273.13 (a)(3) or (b) applies.
(b) when a notice of adverse action is used, the decrease in the benefit level shall be made effective no later than the allotment for the month following the month in which the notice of adverse action period has expired, provided a fair hearing and continuation of benefits have not been requested.
(c) when a notice of adverse action is not used due to one of the exemptions in 7 CFR 273.13 (a)(3) or (b), the decrease shall be made effective no later than the month following the change. Verification which is required by 7 CFR 273.2(f) must be obtained prior to recertification.
(2) Increased benefits: For changes that result in an increase of household benefits, ISD shall act on the change as follows:
(a) for changes which result in an increase in a household's benefits, other than changes described in Subparagraph (b) of this section, ISD shall make the change effective no later than the first allotment issued 10 calendar days after the date the change was reported to ISD.
(b) for changes which result in an increase in a household's benefits due to the addition of a new household member who is not a member of another certified household, or due to a decrease of $50 or more in the household's gross monthly income, ISD shall make the change effective not later than the first allotment issued 10 calendar days after the date the change was reported.
(i) in no event shall these changes take effect any later than the month following the month in which the change is reported.
(ii) if the change is reported after the last day to make changes and it is too late for ISD to adjust the following month's allotment, ISD shall issue a supplement or otherwise provide an opportunity for the household to obtain the increase in benefits by the 10th calendar day of the following month, or the household's normal issuance cycle in that month, whichever is later.
(3) No change in TANF benefit amount: When a reported change has no effect on the TANF benefit amount, ISD shall document the change in the case file and notify the household of the receipt of the report.
(4) Providing verification: The household shall be allowed 10 calendar days from the date a change is reported to provide verification, if necessary. If verification is provided at the time a change is reported or by the deadline date, the increase in benefits shall be effective in accordance with Subparagraph (a) and (b) of Paragraph (2) above. If the household fails to provide the verification by the deadline date, but does provide it at a later date, the increase shall be effective in the month following the month the verification is provided. If the household fails to provide necessary verification, its SNAP benefit amount shall revert to the original benefit amount.
K. Resolving unclear information:

(1) During the certification period, ISD may obtain information about changes in a household's circumstances from which ISD cannot readily determine the effect of the change on the household's benefit amount. The information may be received from a third party or from the household itself. ISD must pursue clarification and verification of household circumstances using the following procedure if unclear information received outside the periodic report is:

(a) information fewer than 60 days old relative to the current month of participation; and,

(b) if accurate, would have been required to be reported under simplified reporting rules, in accordance with 8.102.120.11 NMAC.

(c) ISD must pursue clarification and verification of household circumstances in accordance with the process outlined in Subsection B of 8.100.130.12 NMAC, for any unclear information that appears to present significantly conflicting information from that used by ISD, at the time of certification.

(2) Unclear information resulting from certain data matches:

(a) if the HCA receives match information from a trusted data source as described in 7 CFR 272.13 or 7 CFR 272.14, ISD shall send a notice in accordance with Subsection B of 8.100.130.12 NMAC in accordance with 7 CFR 272.13(b)(4) and 7 CFR 272.14 (c)(4). The notices must clearly explain what information is needed from the household and the consequences of failing to respond to the notice.

(b) if the household fails to respond to the notice or does respond but refuses to provide sufficient information to clarify its circumstances, ISD shall remove the individual and the individual's income from the household and adjust benefits accordingly. As appropriate, ISD shall issue a notice of adverse action.

L. Failure to report changes: If ISD discovers that the household failed to report a change as required, ISD shall evaluate the change to determine whether the household received benefits to which it was not entitled or if the household is entitled to an increased benefit amount.

(1) Decreased benefit amount: After verifying the change, ISD shall initiate a claim against the household for any month in which the household was over issued TANF benefits. The first month of the over issuance is the month following the month the adverse action notice time limit would have expired had the household timely reported the change. If the discovery is made within the certification period, the household is entitled to a notice of adverse action if its benefits will be reduced.

(2) Increased benefit amount: When a household fails to timely report a change which will result in an increased TANF benefit amount, the household is not entitled to a supplement for any month prior to and including the month in which the change was reported. The household is entitled to an increased benefit amount effective no later than the first benefit amount issued 10 calendar days after the date the change was reported.

M. Non-reporting sanctions: A benefit group assigned to simplified reporting shall be subject to a non-reporting sanction in accordance with regulations at 8.102.620.11 NMAC for failure to provide accurate change information on the interim report form or for failure to report by the tenth calendar day of the month following the month that household income exceeds eighty-five percent of federal poverty guidelines for the size of the benefit group.

8.102.400.12 SPECIAL MEMBERS

A. Minor unmarried parents:

(1) A minor unmarried parent and child who live with the minor unmarried parent's parent or other adults shall be included as dependent children in the larger NMW benefit group if there is one. A minor unmarried parent and child living with parent(s) may constitute a benefit group in their own right if the minor parent is the primary caretaker for the child and the parent(s) are not receiving NMW. The minor parent's parent shall be the applicant and payee for the benefit.

(2) Limitations regarding minor unmarried parents:

(a) Living arrangements: An unmarried minor parent and the dependent child in her care must reside in the household of a parent, legal guardian, or other adult relative unless:

(i) the child is living in a second-chance home, maternity home, or other appropriate adult-supervised supportive living arrangement which takes into account the needs and concerns of the minor unmarried parent;

(ii) the minor parent has no living parent or legal guardian whose whereabouts is known, and there are no other appropriate adult-supervised supportive living arrangements available;

(iii) no living parent or legal guardian of the minor parent allows the minor parent to live in the minor parent's home and there are no other appropriate adult-supervised supportive living arrangements available;

(iv) the minor unmarried parent is or has been subjected to serious physical or emotional harm, sexual abuse, or exploitation in the home of the parent, legal guardian or other adult relative and there are no other appropriate adult-supervised supportive living arrangements available;

(v) there is substantial evidence of an act or failure to act that presents an imminent or serious harm to the minor unmarried parent or the child of the minor unmarried parent if they live in the same residence with the parent legal guardian or other appropriate adult and there are no other appropriate adult-supervised supportive living arrangements available; if a minor parent makes allegations supporting the conclusion that the physical or emotional health or safety of the minor unmarried parent or the dependent child(ren) will be jeopardized, the caseworker shall file any documentation regarding this allegation in the case record and grant the exemption; acceptable documentation will include written reports and statements from the children, youth, and families department, other social service agencies, and police reports; if no written documentation exists, the caseworker should summarize the client's statement in a memo to the ISD director or designee and a determination shall be made.

(vi) the HCA determines there is otherwise good cause for the minor parent and dependent child to receive assistance while living apart from the minor parent's parent, legal guardian, or other adult relative, or an adult-supervised supportive living arrangement; an adult-supervised supportive living arrangement is defined as a private family setting or other living arrangement (not including a public institution), which is maintained as a family setting, as evidenced by the assumption of responsibility for the care and control of the minor parent and dependent child or the provision of supportive services, such as counseling, guidance, or supervision; for example, foster homes and maternity home are adult-supervised supportive living arrangements.

(b) Notification: Minor applicants shall be informed about the eligibility requirements and their rights and obligations under this manual section. Minor applicants shall be advised of the possible exemptions and specifically asked whether one or more of these exemptions applies in their situation.

(c) Payment: If the minor parent lives with an adult receiving NMW, the minor parent and child shall be included in that NMW benefit group. If the minor parent and the minor parent's dependent child do not live with an adult who is receiving NMW, payment is made to the supervising adult in the form of a protective payment.

B. Pregnant woman:

(1) A pregnant woman who has no minor dependent children living with her can constitute a NMW benefit group during her last trimester of pregnancy. The woman is eligible only if the child, were it born, would be living with her and would be eligible for NMW. The pregnancy must be verified by a medical report.

(2) The needs, income and resources of an unborn child shall be considered in the determination of eligibility for NMW. The needs of the unborn child are not considered in the amount of payment.

(3) Father living with the pregnant woman: The needs, income and resources of the father of the unborn child shall be considered in determining eligibility and payment if the father lives in the home. The mother and the alleged father of the unborn child must provide the HCA with a written sworn statement attesting to paternity.

(4) A pregnant woman who has one or more dependent children living with her must meet the conditions of Subsection H of 8.102.400.9 NMAC; benefit groups containing dependent children.

C. Specified relative of SSI child: A specified relative whose only minor dependent child is an SSI recipient meets the requirement of living with a related minor child and constitutes a NMW benefit group. Other household members may also be included, subject to limitations set forth at 8.102.400.10 NMAC and 8.102.400.11 NMAC.

8.102.400.14 NMW LIVING ARRANGEMENTS - REQUIREMENTS:

A. For a NMW benefit group to exist, a dependent child must be living in the home of a parent or specified relative as specified in 8.102.400.15 NMAC. The relative must be the primary caretaker for the child and

must be within the fifth degree of relationship, as determined by New Mexico's Uniform Probate Practice Code (see Subsection A of 8.102.400.16 NMAC). To be considered as the caretaker, the specified relative in a NMW benefit group, the participant must be living, or considered to be living, in the home with the child.

B. A child or the caretaker relative may in certain situations be temporarily domiciled away from home, but nonetheless be considered as living at home. Such situations result when the parent or caretaker relative has decided to domicile the child elsewhere because of a specific need identified by the parent or caretaker relative and provided that the parent or caretaker relative remains responsible for providing care and support to the child and retains parental control over the child.

8.102.400.15 NMW LIVING IN THE HOME

A. Basic requirements:

(1) To be eligible for inclusion in the NMW cash assistance benefit group, the dependent child must live with a parent or a specified relative acting as the head of household. A child lives with a participant when:

(a) the participant's home is the primary place of residence for the child, as evidenced by the child's customary physical presence in the home;

(b) the participant may or may not be the child's parent or caretaker;

(c) the caretaker is the person taking primary responsibility for the care of the child, the caretaker will be a parent, relative or it may be an unrelated adult; the caretaker may or may not be the head of household.

(2) The determination of whether a given participant functions as the parent or caretaker relative for NMW purposes shall be made by the client unless other information known to the caseworker clearly indicates otherwise.

B. Extended living in the home:

(1) Under the circumstances described in this section, a child may be physically absent from the home for periods of time, but, because of the nature of the absence and because the parent or caretaker relative continues to exercise parental control over and to provide care for the child during the time the child is physically away from the family's home, the child nonetheless remains a regular on-going member of the benefit group. Similarly, under certain circumstances, the caretaker could be physically absent from the home and still retain membership status as caretaker for purposes of eligibility.

(2) The circumstances where this occurs are:

(a) attending boarding schools or college and

(b) inpatient treatment in medicaid facilities; in order for either the child or the caretaker to retain living-in-the-home status, the person acting as the caretaker must retain responsibilities for providing care, support and supervision for the child which are appropriate to the child's specific living arrangements.

(3) In considering whether the caretaker retains care and support responsibilities for a child who is hospitalized or at school, issues which shall be reviewed include the degree to which the parent:

(a) provides financial support to the child from the cash assistance payment;

(b) continues to maintain living quarters for the child until the child reestablishes full-time physical presence in the home; and

(c) continues to make decisions regarding the care and control of the child(ren), including decisions about medical care and treatment, class scheduling, and other similar parental decisions;

(d) maintains contact with the child through regular visits or telephone calls.

(4) The determination whether living-in-the-home status is retained is fully discussed with the caretaker and carefully documented in the case record.

(a) Boarding school: A child or caretaker relative who is attending school away from home lives in the home if the caretaker relative retains primary responsibility for the child relative.

(b) Medicaid:

(i) Caretaker: A caretaker receiving treatment in a Title XIX facility remains a member of the benefit group of which the caretaker was a member at the time of hospitalization until the caretaker leaves the facility and returns to that home or some other. If the caretaker does not return to the home following hospitalization, the living-in-the-home requirement shall be reassessed.

(ii) Dependent children: For the purposes of the cash assistance program, a child hospitalized for care or treatment in a Title XIX (medicaid) facility retains living-in-the-home status, without

regard to the length of hospitalization, provided that the caretaker continues to be the person with primary responsibility for control of the child and for meeting the child's physical and emotional needs. This includes children receiving treatment in acute care hospitals, freestanding psychiatric hospitals and rehabilitation hospitals as well as residential treatment centers and group homes reimbursed by medicaid for psychosocial rehabilitation services. Medical assistance division institutional care staff may be contacted to verify New Mexico medicaid provider status of RTCs and group homes.

(5) For a child to retain living-in-the-home status while receiving rehabilitation services, including psychosocial treatment services, certain conditions must be met. Treatment of the child is the primary objective, but the program should be family-based with one objective being strengthening of family ties. Treatment plans must provide for a significant level of continuing authority, responsibility, and participation by the caretaker. In order for children receiving treatment in a Title XIX facility to be "living in the home", the caretaker must retain the authority to decide when the child should leave the facility, grant authority for provision of necessary treatment, and retain responsibility for provision of pocket money, clothing, etc.

(6) A significant issue in determining whether a child retains living-in-the-home status is the authority of the caretaker to control the child's treatment and duration of stay. Under the state's mental health code, a court order placing the child in a psychiatric facility must be issued. The court findings serve to make sure that the child needs such treatment. Such orders do not prevent the specified relative from removing the child from the facility. These orders must be differentiated from correctional commitments or sentences. A child receiving treatment in a Title XIX facility, or placed in other substitute care living arrangements by juvenile authorities as the result of a sentence or commitment by a judicial authority does not meet the definition of actually living in the home, as the caretaker no longer has significant control over the child.

(7) A child may qualify for extended living-in-the-home provisions under these conditions:

(a) the child must have been living in the home before hospitalization;

(b) the child must have been living in the home before attending boarding school or college.

C. Joint custody: A child who is in the joint custody of divorced parents who are living apart and who is actually spending equal amounts of time with both parents shall not be considered to be living with the caretaker. If the divorce decree specifies equal joint custody, but the child is actually spending more time with one parent than the other, the child would be determined to be living with the parent with whom the child spends the most time.

D. Absence from the home:

(1) A minor child may remain in the benefit group and remain eligible for benefits for up to 45 days following the date of departure or expected absence from the home. Such a child may not simultaneously be in another NMW or GA benefit group.

(2) A child shall be considered to have left the home, when the child is physically absent from the home and is under the care, control, custody, of himself, another relative or another adult, social services or correctional agency, or other agency of state, local, or tribal government.

E. Reporting departure of child from the home: Pursuant to Section 408 (a)(10)(C) of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, the parent, relative, or caretaker of a minor child included in the NMW benefit group is ineligible to be included in the benefit group if the parent or relative or caretaker fails to report the absence from the home of a minor child who is a member of the benefit group. To be eligible, the adult must report the departure of the minor child by no later than five days after the adult becomes aware that the child is absent or will be absent in excess of the 45 days allowed under Subsection D of 8.102.400.15 NMAC. The adult shall remain ineligible for the number of months that the benefit group is sanctioned for non-reporting as provided for at 8.102.620.11 NMAC.

(d) grandmother, great-grandmother, great-great-grandmother, great-great-great grandmother;

8.102.420.3 STATUTORY AUTHORITY:

A. Articles 1 and 2 of Chapter 27 NMSA 1978 authorize the state to administer the aid to families with dependent children (AFDC), general assistance (GA), shelter care supplement, the burial assistance programs and such other public welfare functions as may be assumed by the state.

B. Federal legislation contained in the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 abolished the AFDC program. The federal act created the temporary assistance for needy families (TANF) block grant under Title IV of the Social Security Act. Through the New Mexico Works Act of 1998, the New Mexico works program was created to replace the aid to families with dependent children program.

C. Under authority granted to the governor by the federal Social Security Act, the health care authority (HCA) is designated as the state agency responsible for the TANF program in New Mexico.

D. Effective April 1, 1998, in accordance with the requirements of the New Mexico Works Act and Title IV-A of the federal Social Security Act, the HCA is creating the New Mexico works program as one of its cash assistance programs.

E. In close coordination with the NMW program, the HCA administers the food stamp employment and training program (E&T) pursuant to the Food Security Act of 1985 and federal regulations at Title 7, Code of Federal Regulations.

F. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified authority to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

8.102.420.6 OBJECTIVE:

A. The purpose of the New Mexico works (NMW) program is to improve the quality of life for parents and children by increasing family income, resources and support. The further purpose of the program is to increase family income through family employment and child support and by utilizing cash assistance as a support service to enable and assist parents to participate in employment.

B. The objective of education works program (EWP) is to provide cash assistance to a benefit group where at least one individual is enrolled in a post-secondary, graduate or post-graduate institution. Education and training are essential to long-term career development. The applicant or recipient benefit group would be otherwise eligible for NMW cash assistance but chooses to participate in EWP.

C. between 18 and 22 years of age and is receiving special education services regulated by the New

Mexico public education department (PED).

8.102.420.9 SCHOOL ATTENDANCE:

A. Requirement: A child of school age, as defined by PED, must attend school and have satisfactory attendance to meet the personal responsibility requirements of the parent, specified relative, or caretaker.

B. Student status:

(1) A dependent child of school age must be a full-time student at a certified educational facility or participating and fully complying with a home-schooling program approved by the New Mexico PED. School age means any dependent child who turns six years of age prior to September first and is under 18 years of age.

(2) A participant who is 18 years of age may be included in the NMW benefit group if the individual is enrolled in high school, or the high school equivalent level of vocational or technical training. Such an individual may be eligible to be included in the NMW benefit group until the end of the month in which the individual graduates or until the end of the month in which the individual turns 19 years of age, whichever occurs first.

(3) A student who is between 18 and 21 years of age may be included in the NMW benefit group as long as the student is enrolled in high school and is receiving special education services regulated by the PED. There must be a current valid individual education plan (IEP) for the student to verify the special education services.

(4) A dependent child age 17 years of age or younger who has graduated from high school or has obtained a GED shall be deemed to be a full-time student and to fulfill attendance requirements.

(5) A minor unmarried parent who does not have a child under the age of 12 weeks, must attend school full time to obtain a high school diploma or must participate in a GED program full-time or participate in approved alternate schooling unless the minor unmarried parent has already graduated from high school or obtained a GED.

C. School attendance:

(1) Full time attendance: A child is considered a full-time student based on the below criteria:

(a) School attendance is defined by the standards of the educational facility or program in which the child is enrolled including regularly scheduled vacations and breaks provided the child:

(i) has not been removed for non attendance; and

(ii) resumes attendance when classes start again;

(b) is currently enrolled in a home schooling programming approved by the New Mexico PED.

(2) Verification:

(a) Verification of school attendance must be provided at time application and certification for any:

(i) minor unmarried parent; and

(ii) dependent child 18 years of age and over.

(b) The statement of the parent or caretaker is acceptable verification of school attendance for all other dependent children, unless otherwise questionable.

D. Unsatisfactory attendance:

(1) A child shall be considered not meeting the school attendance requirement when the child:

(a) is not enrolled in school;

(b) has accumulated three unexcused absences in a grading period, but not on the same day;

(c) has dropped out of school during the current grading period; or

(d) has one or more unexcused absences during the time period covered by a current school attendance plan.

(2) Reporting requirement: Within 14 days of the date it becomes known, the parent, specified relative, or caretaker must report to ISD if a child is not enrolled in school, has accumulated three unexcused absences during the current grading period, or has dropped out of school. Failure to report that a child has not met school attendance requirements shall not result in a non-reporting sanction for the parent, or the specified relative or caretaker if included in the benefit group.

(3) Failure to meet: In the absence of good cause for failure to meet the school attendance requirements the conciliation process shall be initiated.

(a) Conciliation process: Prior to removing the child's needs from the benefit group's standard of need, the parent, specified relative or caretaker shall have a 10 working day conciliation period to address school non-attendance. The conciliation period is a 10 working day period affording an opportunity for the parent, child, and the school to develop a plan to ensure regular attendance by the child and comply with NMW requirements.

(i) Within 10 days of receipt of verification that a child has not met school attendance requirements, the caseworker shall take action to initiate a conciliation period by issuing a notice of action.

(ii) The benefit group shall have 10 working days from the date of issuance of the notice to provide a school attendance plan indicating the school's confirmation of satisfactory arrangements.

(iii) If a benefit group fails to provide a school attendance plan, a notice of adverse action shall be sent within five working days.

(iv) If the school confirms that satisfactory arrangements have been made to ensure regular attendance by the child, the child shall remain eligible.

(b) Benefit reduction:

(i) The child shall be removed from the benefit group effective the month following the month the notice of adverse action expires.

(ii) If there is one or more unexcused absence following successful submission of a school attendance plan (the school's confirmation of satisfactory arrangements), the caseworker shall remove the child from the benefit group effective the month following the month the notice of adverse action expires.

(c) Case closure: If the child is the only child included in the benefit group, the cash assistance case shall be subject to closure in the month following the notice of adverse action.

(4) Good cause: A child with unsatisfactory school attendance or enrollment shall be warranted good cause based on the following circumstances:

(a) periods of personal illness or convalescence;

(b) family emergencies, for a period not to exceed 30 days;

(c) participation in or attendance at cultural and religious activities as long as the child has parental consent; or

(d) a minor parent has a child under 12 weeks of age.

E. Regaining eligibility: Once a child has been removed from the benefit group due to failure to comply with school attendance requirements, the child can not be considered a member of any benefit group. Changes in school attendance must be reported by the parent/caretaker. Eligibility may be regained when:

(1) the child has attended school with no unexcused absences for the 30 days;

(2) circumstances of good cause apply as listed in Paragraph (4) of Subsection D; or

(3) during the summer months if the child is promoted, attending summer school or graduating.

8.102.420.10 [RESERVED]

8.102.420.11 NMW/TANF LIMITED WORK PARTICIPATION STATUS DETERMINATION PROCESS

A. Eligibility: To be eligible for a limited work participation status, a participant must meet at least one of the criteria below as verified by the HCA:

(1) Who is age 60 or older.

(2) A single parent, not living with the other parent of a child in the home, or caretaker relative with no spouse, with a child under the age of 12 months. A participant may be eligible for a limited work participation status using this qualification for no more than 12 months during the participant's lifetime.

(3) A single custodial parent caring for a child less than six years of age or who is a medically fragile child if the parent is unable to obtain child care for one or more of the following reasons and the children, youth and families department (CYFD) certifies as to the unavailability or unsuitability of child care:

(a) the unavailability of appropriate child care within a reasonable distance from the parent's home or work site; or

(b) the unavailability or unsuitability of appropriate and affordable formal child care by a relative or under other arrangements; or

(c) the unavailability of appropriate and affordable formal child care by a relative or under other arrangements;

(4) A participant who is a woman in her third trimester of pregnancy, or six weeks post partum.

(5) A participant whose personal circumstances preclude participation for a period not to exceed 30 consecutive days in a calendar year.

(6) A participant who demonstrates by reliable medical, psychological or mental reports, court orders, police reports, or personal affidavits (if no other evidence is available), that family violence or threat of family violence effectively bars the parent from employment.

(7) A participant who is completely impaired, either temporarily or permanently, as determined by IRU.

(8) A participant may be entitled to the family violence option (FVO). This option allows for a parent in a domestic violence environment to be in a limited work participation status for the length of time certified by a trained domestic violence counselor. The certification shall indicate that the parent is in a domestic violence environment which makes them eligible for a limited work participation status.

(a) A participant's FVO limited work participation status shall be reviewed every six months and shall be determined by IRU based on the domestic violence counselor's certification.

(b) A participant who can continue to comply with work requirements as certified by a trained domestic violence counselor may be eligible for a limited work participation status for 24 weeks as described in 8.102.461.15 NMAC.

(9) A participant who is the sole provider of the care for an ill or incapacitated person. In order to meet this exception, the participant must show that the parent is the sole caretaker for a disabled person and must demonstrate that the participant cannot be out of the home for the number of hours necessary to meet standard work participation hours. The following apply to caretaker conditions in determining if the standard work participation rate applies or if a limited work participation rate will be granted:

(a) Only those care activities around which work program activities cannot be scheduled are taken into consideration.

(b) Food purchase and preparation activities, home maintenance chores, etc. are activities which may be scheduled and performed at time other than work program participation hours and are not taken into consideration when determining the standard work participation rate.

(c) A requirement to be on call for the medical emergencies of a medically fragile person is taken into consideration in determining the standard work participation rate for the participant.

(10) A participant may demonstrate good cause for the need for the limited work participation status. A good cause limited work participation status may exist and shall be determined by the HCA based on the participant's existing condition(s) to include any barriers identified during the NMW assessment process that impair an individual's ability to comply with the standard work participation rate or capacity to work.

B. Determinations in general: The NMW/TANF determination for a limited work participation status is made independently of and using differing standards from those used for determining OASDI or SSI eligibility, general assistance, workman's compensation, veteran's compensation or in Americans with Disability Act (ADA) determinations. Medical and social information (as appropriate) used by the HCA's reviewers may differ between determinations for each type of program, and a participant's condition may improve or worsen over time. As a result, a participant may be classified disabled by one program, but not by another. A disability determination made for another program or purpose is immaterial to the NMW/TANF limited work participation status determination. NMW/TANF determinations shall be made by applying NMW/TANF regulations and medical and non-medical information (as appropriate) known to the HCA. An applicant/participant may have more than one condition to qualify for limited work participation status. The limited work participation rate and work activities will reflect accommodations for all identified and approved qualifying conditions.

C. Medical and non-medical based determinations:

(1) Medical conditions: The IRU shall review all documentation and make determinations for participants requesting a limited work participation status or hardship extension due to a medical condition. To be eligible for a limited work participation status from or for a hardship extension, based on a medical condition, the HCA must find:

(a) evidence of a physical or mental impairment(s) supported by medical documentation; and

(b) determine that the severity of the impairment(s), as supported by appropriate medical documentation is sufficient to significantly restrict the participant's capacity to fulfill the standard work participation rate or capacity to work; requests for limited work participation status or hardship extension must be supported by medical documentation, but may be supplemented by non-medical documentation provided by the applicant as requested by the IRU.

(2) Caretaker conditions: The IRU shall review all documentation and make determinations for participants requesting a limited work participation status or hardship extension due to caretaker conditions. To be eligible for a limited work participation status or for a hardship extension, as a caretaker, the HCA must find the participant is:

(a) the sole provider for an ill or incapacitated family member living in the home who does not attend school on a full time basis; and

(b) providing necessary care to the extent that otherwise precludes the participant's capacity to fulfill standard work participation rates or capacity to work.

(3) Non-medical conditions: The NMW service provider shall review documentation and make determinations regarding requests for limited work participation status for non-medical conditions. If a participant has a medical condition(s) in addition to non-medical conditions, the IRU shall review documentation and make determinations regarding requests for limited work participation status for medical and non-medical conditions. To be eligible for a limited work participation status from the NMW/TANF standard work participation rate based on conditions that are not medical in nature, the HCA must find the participant has one of the qualifications for a limited work participation status identified in Subsection A above.

D. Case development process: The caseworker shall be responsible for explaining hardship eligibility, work program requirements, standard work participation rates, and for referring all participants requesting a limited work participation status and hardship extensions to the IRU and NMW service provider, as appropriate. Participants must complete and return the requested information to request a limited work participation status within 30 days of the request.

(1) Limited work participation status requests for medical conditions: Requests for a limited work participation status based on a medical condition shall be sent to the IRU for determination and contain the following:

(a) a completed assessment that has been conducted by the NMW service provider within the six months prior to the date of the request for a change in status;

(b) a completed individual responsibility plan conducted by the NMW service provider;

(c) copies of relevant medical reports made within the last six months;

(d) a work participation agreement with the proposed activity(ies); and

(e) additional documents for evidence of other work related factors.

(2) Limited work participation status requests for non-medical conditions: The NMW service provider shall utilize the following documents to determine eligibility for the limited work participation status:

(a) a completed assessment that has been conducted by the NMW service provider within the six months prior to the date of the request for a change in status; and

(b) a completed individual responsibility plan conducted by the NMW service provider.

E. Provision of documentation: It shall be the responsibility of the participant requesting limited work participation status or hardship extension to provide recent (within the last six months) medical and non-medical information necessary to make a determination. Non-medical evidence will not be considered in the absence of medical documentation for requests based on medical conditions. A participant, who has not provided the necessary information as requested by the HCA, contractor or its designee to make a determination within 30 days of the request for the limited work participation status or hardship extension, shall be subject to meeting full participation requirements. Participants who fail to provide the requested documentation within 30 days of the request, but are also eligible for a limited work participation status on the basis of a non-medical condition, shall be referred to the NMW service provider to determine the limited work participation status based on the non-medical condition. The participant is not responsible for providing documentation produced by the HCA, its contractors, or its designee.

(1) Medical documents: Written paperwork must be submitted to verify the existence of physical, mental impairment(s) or both; as well as the extent of the caretaking needs. It is the responsibility of the participant to get all information to the IRU for review. Determinations are based on the written evidence provided

in a timely manner to IRU.

(a) Source: Medical documents must be obtained from approved source(s), limited to: medical doctors, physician assistants, doctors of osteopathy or podiatry, ophthalmologists, psychiatrists or psychologists, state-licensed providers, and individuals that meet the minimum mental health professional qualifications set by their community mental health services employer.

(b) HCA assistance: The HCA, contractor or its designee shall offer assistance to the participant to include obtaining medical documents or other reasonable accommodations as requested by the participant. If the HCA is assisting the participant with obtaining documentation or other accommodation, the participant is still responsible for providing accurate and timely information.

(c) Timeliness of report: The participant shall provide medical records from the past six months. Medical documents over six months old from the date of the request for the limited work participation status or hardship extension may be useful to support a pattern of recurring impairment, but must be accompanied by current medical documents.

(d) Independent medical review: The HCA may request additional documentation in order to make a determination regarding a participant's request for limited work participation status. The IRU may request additional documentation in the form of an independent medical review of the participant's condition(s). If the participant is also a recipient of medicaid, the HCA may assist with a referral to a medicaid provider, as appropriate.

(2) Non-medical information: Non-medical information may not be used for medical condition determinations without the provision of medical documents. Non-medical information may be submitted to the IRU or the NMW service provider and will be considered if the source is public and private agencies, schools, participants and caregivers, social workers and employers, and other relevant and independent sources to assist in the determination of whether the barriers are of sufficient severity to restrict the participant's capacity to fulfill the standard work participation rate, or that the need to care for an individual are so great as to limit or exclude participation.

F. Case disposition:

(1) Medical based conditions: The IRU shall have sole responsibility for reviewing all medical documents. When making a determination regarding a participant's capacity to fulfill the standard work participation hours, the IRU will within 30 calendar days of receipt complete the following:

(a) conduct a thorough review of the documentary evidence;

(b) make a determination as to whether a medical condition or caretaking need is supported by the evidence provided by the participant;

(c) determine the anticipated duration of the impairment;

(d) adopt or propose participation activities based on the work participation agreement submitted with the participants request packet; and

(e) establish the reduced limited work participation hours if a limited work participation status or hardship extension of the 60 month time limit is granted.

(2) Non-medical based impairments: The NMW service provider shall review all non-medical information and make a determination that a participant is eligible for a limited work participation status. The determination shall identify one of the criteria qualifying for a limited work participation status. The NMW service provider shall identify the non-medical barrier and establish the participation activity(ies) and the limited work participation rate to be included in the approved work participation agreement. All of the non-medical information is considered in assessing the participant's capacity to fulfill the standard work participation rate. Case disposition shall include:

(a) a thorough review of documentary evidence;

(b) a determination as to whether the claim of a non-medical impairment is supported; and

(c) the anticipated duration of the impairment.

(3) Duration of condition(s): The duration of the condition shall be evaluated based on documentation provided and must be expected to last at least 30 days in order to grant a limited work participation status.

(4) Evaluation of medical report(s): Reports shall be reviewed by the IRU for completeness and detail sufficient to identify the caretaking needs, limiting effects of impairment(s), probable duration of the impairment(s), and capacity to perform work program participation standards.

(a) Anatomical and physiological reports shall be reviewed for a description of the medical history, clinical findings, laboratory findings, diagnosis, prescribed treatment and prognosis, and to identify

the participant's ability to sit, stand, move, lift, carry, handle objects, hear, speak and travel.

(b) Psychological assessments shall be reviewed for a description of the participant's behavior, affect, orientation, capacity for appropriate decision-making, response to stress, cognitive function (awareness, memory and intellectual capacity), contact with reality and need for occupational, personal and social adjustment(s).

G. Notification: The HCA shall notify the participant regarding the disposition of their request for limited work participation status in compliance with the requirements of adequate notice and notice of adverse action, as applicable.

H. Re-evaluation of status: A participant's limited work participation status shall be re-evaluated on a periodic basis, as determined by the IRU or the NMW service provider, as appropriate. At the time of reevaluation, it shall be necessary to get an update of the medical or non-medical impairment, caretaking need, and any changes in other work-related factors. The IRU shall remain responsible for deciding whether a medical impairment or caretaking need still exists, and the date of the next re-evaluation for continued approval of limited work participation status. The NMW service provider shall remain responsible for deciding whether the non-medical impairment still exists and the date of the next evaluation for continued approval of limited work participation status.

I. Determining the limited work participation rate: after a participant is approved for limited work participation status either at the initial determination or re-evaluation, the IRU or NMW may prescribe conditional work program activities and requirements designed to assist the participant to help accommodate and eliminate barriers. The participant may be assigned to core, non-core and other activities which may include, but not be limited to, one of the contingencies below:

(1) follow treatment plans as prescribed by a physician or mental health provider;

(2) seek and utilize available community based resources;

(3) accept treatment as recommended by a physician or mental health provider;

(4) pursue a referral for DVR, or other available services;

(5) apply for SSI, if applicable; or

(6) any other activity specific to the participant's circumstance and conditions.

J. Transition of currently waived participants to the limited work participation status:

(1) Currently waived: Participants who are waived on or before the effective date of this regulation shall be evaluated for a limited work participation status at their next recertification for TANF benefits or at the next waiver review, whichever is earlier.

(2) Pending waiver determination: Participants who are pending a waiver determination on or before the effective date of this regulation shall be considered for a waiver of the work participation status. They will be determined for a limited work participation status at their next recertification for ongoing TANF benefits or at the next waiver review, whichever is earlier.

8.102.420.12 ASSESS CAPACITY FOR WORK

A. General: A medical or mental health condition that precludes a participant's capacity to fulfill the standard work participation rate or capacity to work shall be determined by evaluating the extent of the impairment and other work-related factors. A participant is eligible for a limited work participation status if there is a determination of impairment or condition by the IRU or NMW service provider, as appropriate.

B. Capacity to perform NMW program participation standards: If the participant is determined by IRU or the NMW service provider to have an impairment, the other work-related factors shall be considered. Although a participant may be determined to have some type of impairment, the existence of impairment does not necessarily result in a finding that the participant is incapable of fulfilling the standard work participation hours. A determination that a participant is a caretaker does not necessarily result in a finding that the need to care for an incapacitated or ill household family member is so great as to limit or exclude participation. Many participants with impairments are able to work and thus are not considered to have a medical condition requiring the granting of a limited work participation status according to the standards set forth in the NMW program.

(1) Sedentary work: Sedentary work involves lifting no more than ten pounds at a time and occasionally lifting or carrying articles like docket files, ledgers and small tools. Although a sedentary job is defined as one that involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and sedentary standards are met.

(2) Light work: Light work involves lifting no more than twenty pounds at a time, with frequent lifting or carrying of objects weighing up to ten pounds. Even though the weight lifted may be very little, a

job is placed in this category if it requires a good deal of walking or standing, or if it involves sitting most of the time with some pushing and pulling of arm or leg controls. To be considered capable of performing a full or wide range of light work, an individual must have the ability to do substantially all of these activities

(3) Medium work: Medium work involves lifting no more than 50 pounds at a time, with frequent lifting or carrying of objects weighing up to 25 pounds.

(4) Heavy work: Heavy work involves lifting no more than 100 pounds at a time, with frequent lifting or carrying of objects weighing up to 50 pounds.

(5) Very heavy work: Very heavy work involves lifting objects weighing more than 100 pounds at a time, with frequent lifting or carrying of objects weighing 50 pounds or more.

C. Psychological impairment: If psychological impairment is being assessed, a participant's mental ability to function at one of the above-mentioned levels shall be evaluated in the following areas:

(1) Judgment: A participant's ability to exercise appropriate decision-making processes in a work situation consistent with the participant's abilities.

(2) Stress reaction: Participant's ability to handle stress consistent with the level of employment.

(3) Cognitive function: Participant's awareness, memory, intellectual capacity and other cognitive functions.

D. Capacity for gainful employment: A participant's verified employment status shall be taken into consideration in determining impairment based on the type, nature, and duration of employment. Impairment may still be determined where the participant is employed minimally or for rehabilitative purposes.

(1) Minimal employment: An individual who is minimally employed may still be considered impaired if the individual cannot reasonably be expected to be self-supporting by at least the standard of need for the size of the benefit group.

(2) Rehabilitative employment: Work made available to an individual through the interest or compassion of others, or to rehabilitate an individual (as in a sheltered workshop), but which would not ordinarily exist on the open labor market, shall not be considered employment in an impairment determination.

E. Other work-related factors: Impairments together with other work-related factors may be considered to establish the participant's capacity to perform basic work program participation standards and engage in gainful employment. While these factors may present an impediment to obtaining employment, they are problems which can be overcome through work program participation. Where such impediments exist, the participant shall be expected to participate in activities which will overcome these barriers. Other work-related factors include but are not limited to the following:

(1) Language barriers: A participant's ability to speak, read, and write English.

(2) Educational level:

(a) Illiteracy: Inability to read or write English. Illiterate individuals are considered suitable for the general labor work force.

(b) Marginal: Eight years of education or less. Marginally-educated individuals are considered suitable for the semi-skilled work force.

(c) Limited: Lack of a high school diploma or GED, but more than eight years of education. Individuals with limited education are considered suitable for the semi-skilled to skilled work force.

(d) High school, GED and above: Indicates an individual's ability to compete in all levels of the job market.

(e) Training program: Completion of training in a particular field of employment may offset limited education in some instances.

(3) Job experience: Experience in a job field can overcome a lack of education, training or both. Jobs held in the last ten years shall be considered. Work experience shall be evaluated based on the type of work previously performed, the length of employment, and the potential for transferring the experience to other types of employment. Inability to continue working in one's prior field of work does not constitute a disability. Job experience is classified in the following categories.

(a) General labor: Does not require the ability to read or write.

(b) Semi-skilled labor: Requires a minimal ability to read, write and do simple calculations.

(c) Skilled labor: Ability to do work in which the ability to read, write and do calculations of a complex nature is needed. Specialized training in the area is also considered.

(4) Appearance: An individual's appearance is generally not the sole reason for an impairment determination. On rare occasions, impairment is disfiguring and may interfere with employment.

(5) Age: Age may affect participants with impairments. The older an individual is, generally, the harder it is for the person to overcome or recover from impairment. A participant's age may be considered when determining the extent of impairment and the support needed to assist a participant.

F. WPA following IRU determination of limited work participation status: After the IRU or NMW service provider, as appropriate, makes a determination to either grant or deny a request for a limited work participation status, the participant must act in accordance with the paragraphs below to ensure they are in compliance .

(1) Limited work participation status granted and adoption of the WPA: Upon approval for the limited work participation status, the participant shall continue to continue to participate in the assigned core or non-core activities or contingencies identified on the WPA submitted to IRU for determination. The WPA shall be considered finalized and the participant shall follow the WPA until the next evaluation date determined by the IRU or NMW service provider.

(2) Limited work participation status granted and modification of the WPA: If the participant is approved for a limited work participation status, but the IRU did not accept the WPA, the participant and the NMW service provider shall meet no later than 15 days following date of the limited work participation status approval to modify the WPA in accordance with the determination of the IRU. The modification will take into consideration the participant's impairment(s) and provide a limited work participation rate and suggested core and non-core work activities.

(3) Limited work participation status denial: If the IRU or NMW service provider, as appropriate, denies the participant's request for limited work participation status, the participant is required to develop a WPA with the NMW service provider no later than 15 days following the date of denial by the IRU or the NMW service provider. Failure to develop a WPA may be considered non-compliance in accordance with 8.102.460 NMAC.

8.102.420.14 CHILD SUPPORT:

A. Assignment: By state statute, Subsection F of Section 27-2-28 NMSA 1978, any participant who signs an application automatically assigns the participant’s child support rights to the HCA. The assignment shall be made with respect to the child for whom NMW is provided and shall be valid as long as the participant receives NMW payments on the child's behalf. The assignment shall also include any spousal support for which the applicant is or may become eligible.

B. Cooperation:

(1) The adult responsible for each child included in the benefit group must cooperate with the child support services division (CSSD) in obtaining child support for any dependent child included in the NMW benefit group. Failure to do so will result in payment sanctions. The adult shall be required to cooperate regardless of whether the adult is included in the benefit group.

(2) Failure to cooperate shall result in the personal ineligibility of the participant refusing to cooperate and in a payment sanction against the benefit group, as described in 8.102.620.10 NMAC.

(3) The determination as to whether the participant has cooperated with CSSD shall be made by CSSD based on CSSD requirements. The cooperation requirement may be partially or fully waived by CSSD upon demonstration of good cause by the specified relative as indicated in Subsection E of 8.102.420.14 NMAC.

(4) The caretaker relative must transmit to CSSD any child support, spousal or medical support payment which the caretaker relative receives directly.

C. Determining that cooperation exists: A caretaker relative who, on the application and certification forms, indicates a willingness to cooperate and who provides basic information determined by CSSD as necessary to establish and pursue support shall be considered to have met the cooperation requirement until such time as CSSD reports to the caseworker that the participant is failing to cooperate.

D. Action upon receiving notice of noncompliance: On notification by CSSD of failure to cooperate, the caseworker shall take immediate action to issue a conciliation notice or to impose a noncompliance sanction.

E. Good cause:

(1) In some situations, it is not in the best interests of the child or parent to pursue support or to require that the caretaker relative cooperate with CSSD in pursuing such support. Caretaker relatives therefore must be:

(a) notified that the requirement to cooperate may be waived;
(b) informed of the requirements involved in the waiver; and
(c) given an opportunity to request a waiver that would exempt them from the cooperation requirement.

(2) If a caretaker relative requests a waiver of the cooperation requirement, assistance shall not be delayed pending determination of good cause, nor may enforcement of support begin or continue while the waiver of the requirement is under consideration. An applicant who makes a waiver request shall not be included in the benefit group until the necessary corroborative information and documents are provided to ISD.

(3) Granting a good cause exemption: The decision whether to grant a good cause exemption shall be made according to the following methods.

(a) Domestic violence exemption: Exemption status shall be reviewed based on the following criteria.

(i) The New Mexico family violence option in the NM TANF state plan allows for exemption from cooperation with CSSD requirements due to a domestic violence environment. The ISD caseworker shall exempt a participant from cooperation requirements with CSSD where a trained domestic violence counselor has certified that cooperation would make it more difficult to escape the domestic violence or would unfairly penalize the participant in light of current experiences.

(ii) CSSD shall exempt a participant from cooperation requirements with CSSD when the participant has demonstrated by reliable medical, psychological or mental reports, court orders or police reports that they are subject to or at risk to domestic violence.

(iii) Upon approval of exemption the caseworker shall submit a memo regarding exemption status to CSSD and ISD central office.

(b) Other good cause exemptions: All other good cause exemptions, including but not limited to and exemption due to a domestic violence environment that is not certified by a trained domestic violence counselor, from cooperation with CSSD requirements shall be made by the director of the CSSD or designee.

(4) Notification:

(a) Approval: The caseworker shall send a written notice to the client whether the waiver has been granted and when it will be reviewed. The letter shall also tell the client whether CSSD has determined that support can be pursued without danger or risk to the client or child.

(b) Denial: If CSSD decides that good cause does not exist, the caseworker shall notify the client that the request has been denied and that the client is expected to cooperate fully in pursuing support, within 10 working days of the day the notice was issued. The notification shall also inform the client that a client has 60 days in which to request an administrative hearing, but that the client is expected to begin cooperating within 10 days after the date of the letter.

[8.102.510.8 NMAC - Rp 8.102.510.8 NMAC, 7/1/2024]

8.102.510.9 COUNTABLE RESOURCES:

A. Real property non-liquid:

(1) Real property means land and the structures and improvements affixed to it.

(2) The value of real property owned by or considered available to the benefit group, except as exempted in Subsection A of 8.102.510.10 NMAC, shall be considered in determining whether non-liquid resources exceed $2,000.

(3) Grazing permits are classified as real property.

B. Personal property (liquid or non-liquid): The value of personal property other than that exempted in Subsection B of 8.102.510.10 NMAC, belonging to, considered as belonging to, or available to the benefit group, is considered in determining whether the value of property exceeds the resource limits. Personal property is all property other than real property, and includes such possessions as bank accounts, cash (other than the current month's income), motor vehicles, livestock, tools, equipment, and rights to receive money, such as stocks, bonds, contract rights and insurance policies, etc. The types of personal property that must be counted in determining whether the benefit group's resources exceed the resource limits include, but are not limited to the following.

(1) Life insurance:

(a) Life insurance policies owned by a member of the benefit group shall be considered as a resource that may be converted into cash. The cash value of the life insurance policy shall be counted toward the liquid resource limit.

(b) Information about lapsed insurance shall be obtained since many lapsed policies have a cash value.

(2) Cash, bank accounts and other readily negotiable assets: "Other readily negotiable assets" include stocks, bonds, negotiable notes, purchase contracts and other similar assets. For purposes of cash assistance eligibility, the value of such assets is their current market value. These shall be counted toward the liquid resource limit.

(a) The equity value of all motor vehicles, equipment and tools is subject to consideration.

(b) The value of motor vehicles, equipment and tools, except as set forth in Paragraph (1) of Subsection B of 8.102.510.10 NMAC below, is subject to the non-liquid resource test.

(4) Asset conversion: Money received from one-time only or sporadic sales of real or personal property such as crops, rugs, jewelry, royalties etc. shall be considered an asset, rather than income, provided that the property is not sold or transferred in connection with a business or self-employment activity. Actual verified expenses associated with the purchase, sale or production of such items shall be deducted from payments received from the sale to arrive at "net asset". Assets converted into money are subject to the $1,500 liquid assets limitation, regardless of whether they were fully or partially exempt prior to conversion.

(5) Lump sum payments: Payments of a one-time nature, such as retroactive monthly payments, payments in the nature of a windfall, personal injury and worker's compensation awards, gambling winnings, etc, shall be considered to be a resource in the month received. Countable value is considered as a liquid resource. Resource eligibility is determined on the first moment of the first day of the month. Changes during the month do not affect the resource determination for that month; what is left at the first moment of the first day of the month following its receipt will be the countable amount.

[8.102.510.9 NMAC - Rp 8.102.510.9 NMAC, 7/1/2024]

8.102.510.10 RESOURCE EXCLUSIONS:

Farm machinery retains this exclusion for one year if the farmer ends self-employment.

(6) Livestock: The value of livestock is an excluded non-liquid resource.

C. Individual development account (IDA): As defined in the Individual Development Account Act 58-30 NMSA, 1978, funds in an IDA are exempt from consideration as resources in determining benefit group eligibility are subject to certain requirements. (2) IDA qualified uses: Allowable uses of the money withdrawn from an IDA are listed in Subparagraph (a) thru (f) of this subsection.

(a) Post-secondary education expenses: In order to be considered used for the qualified purpose, the post-secondary education funds must be paid from an IDA directly to an eligible education institution, as set forth in this section. 8.102.510.11 RESOURCE AVAILABILITY:

A. Availability: Resources that are actually available or which are considered to be available are considered in determining eligibility for assistance. For purposes of cash assistance eligibility, the countable

Subsequent changes shall not effect the determination of eligibility or ineligibility until the first moment of the first day of the following month.

B. The fact that specific property is not readily marketable on the client's terms is not a condition prohibiting transfer. The current value of property, which must be partitioned in order to be accessible, is not considered available if the net value (after estimated costs of partition and other closing costs) is less than the resource limit. If the amount likely to be derived from the applicant's or recipient's share of the property exceeds the resource limit, the applicant or recipient will be required to initiate attempts to obtain the recipient's share of the estate.

(a) it does not have the use of the resource;

(b) it did not make the purchase or down payment;

(c) it does not make the continuing loan payments; and

(d) the title is transferred to or retained by the other benefit group;

(e) if a benefit group can demonstrate that is has access to only a part of the resource, the value of that part is counted toward the benefit group's resource level; a resource will be considered totally inaccessible, if it cannot be practically subdivided and the benefit group's access to the value of the resource is dependent on the agreement of a joint owner who refuses to comply; for purposes of this provision, ineligible non-citizens or disqualified individuals residing with a benefit group are considered benefit group members.

(2) Joint bank accounts: If signatories to a joint bank account are separate benefit groups, the funds in the account are considered available to each benefit group to the extent that it has contributed to the account. C. Reasonable return: A reasonable return is considered to have been received when the person who made the transfer received compensation in cash or in kind equal to the value of the property at the time of transfer. The determination as to whether a reasonable return was received is based on the person's equity interest in the property at the time of the transfer.

D. Equity less than $2,000: If the value of the person's equity, plus all other countable resources, was less than $2,000, the transfer is not considered to be for the purpose of becoming eligible.

E. Reasonable value not received:

When the client is not willing to pursue a reasonable return, or to attempt to regain title to the property, the case shall not be eligible for six months from the month the HCA makes the determination that the transfer was made.

(a) failure by a benefit group member to meet NMW requirements; or

(b) failure by the adult responsible for children included in a benefit group to meet child support services division (CSSD) cooperation requirements or both;

(c) good cause will be evaluated based on the circumstances of each instance of non-cooperation.

(2) Occurrence of non-cooperation:

(a) Child support:

(i) A benefit group shall be subject to a payment sanction for failure to comply with CSSD cooperation requirements, even if the adult required to cooperate with child support requirements is not included in the benefit group.

(ii) Each benefit group member that fails to cooperate with the NMW requirement is subject to a sanction and shall affect the benefit group.

(iii) An occurrence of non-cooperation shall be applied when a sanction progresses to the next sanction level as a result of the noncompliance continuing for three consecutive months without the sanctioned participant reestablishing compliance. Progression to the next sanction level shall be effective in the fourth month.

(iv) A first or second level sanction is considered to be cured upon full cooperation by the sanctioned participant or a sanction shall be reversed based on a hearing decision when the sanction imposed is determined to be invalid.

(b) NMW:

(i) A benefit group is subject to a payment sanction when a participant in the benefit group fails to cooperate with the NMW requirements absent a finding of good cause.

(ii) In a two-parent benefit group, each mandatory benefit group member that fails to cooperate with the NMW requirements is subject to a sanction that affects the benefit group’s sanction level and payment.

(iii) A participant shall not be sanctioned for more than one NMW requirement element at one time. A participant may be sanctioned for the same or a different NMW requirement element only after the original sanction element is cured or reversed. A first or second level sanction may be cured upon full cooperation by the sanction participant and a sanction shall be reversed based on a hearing decision when the sanction imposed is determined to be invalid.

(iv) A participant with limited participation status may not be sanctioned for failure to meet hours or failure to provide a time sheet as identified on the approved work participation

agreement.

(v) An occurrence of non-cooperation shall be applied when a sanction progresses to the next sanction level as a result of the noncompliance continuing for three consecutive months without the sanctioned participant reestablishing compliance. Progression to the next sanction level shall be effective in the fourth month.

(4) Progressive sanctions:

(a) Non-cooperation sanctions are progressive to both the participant and to the benefit group and shall progress to the next level for the benefit group in which the sanctioned participant resides when:

(i) a participant fails to establish compliance in three-month increments; or

(ii) a participant fails to comply with NMW or CSSD requirements as a separate occurrence.

(b) A sanction that is not cured for three consecutive months shall progress until compliance is established by the participant.

(c) A participant's compliance cannot reverse the sanction level attributed to the benefit group. Any subsequent sanction is imposed at the next higher level, unless reversed by a hearing decision.

B. The conciliation process:

(1) When conciliation is available: Conciliation shall be available to a participant or applicant once during an occurrence of assistance. There must be a period of at least 12 months between occurrences of cash assistance in order for a conciliation to be available again to the benefit group. NMW conciliation and child support conciliation are independent and are counted separately from each other.

(2) Determining that noncompliance has occurred:

(a) The determination of noncompliance with child support shall be made by CSSD. The conciliation and sanctioning process for child support noncompliance is initiated upon receipt of notice from CSSD that the participant or applicant has failed to cooperate. Under 8.102.420 NMAC, the non-cooperative participant or applicant shall be individually disqualified from participation in the benefit group.

(b) The determination of noncompliance with NMW requirements shall be made by the caseworker. A finding of noncompliance shall be made if:

(i) the participant has not completed an assessment;

(ii) the participant fails or refuses to complete an IRP;

(iii) the participant fails or refuses to submit an approvable WPA;

(iv) the participant fails to submit timely documentation showing completion of required work hours;

(v) the participant's monthly attendance report shows fewer than the minimum required hours of participation and no other allowable hours of activity can be reasonably attributed by the caseworker towards the monthly participation requirement.

(3) Initiating conciliation: Within 10 days of determining that noncompliance exists, the caseworker shall take action to initiate a conciliation, if the participant's conciliation has not been used. A conciliation is initiated by the HCA or its designee issuing a conciliation notice. CSSD shall determine noncompliance and notify the caseworker who shall initiate the conciliation process.

(4) Conciliation period: Conciliation gives a participant a 30-calendar day period to correct

the current non-compliance for either a NMW participation or CSSD requirement.

(a) The conciliation process is established by the HCA, to address the noncompliance, identify good cause for noncompliance or barriers to compliance and shall occur only once prior to the imposition of the sanction.

(i) The participant shall have 10 working days from the date a conciliation notice is mailed to contact the HCA to initiate the conciliation process. A participant who fails to initiate the conciliation process shall have a notice of adverse action mailed to them after the 10th working day following the date on which the conciliation notice is mailed.

(ii) Participants who begin but do not complete the conciliation process shall be mailed a notice of adverse action 30 days from the date the original conciliation was initiated. The benefit group shall be subject to sanction in the month following the month the notice of adverse action expires.

(b) Non-cooperation with CSSD requirements: When the participant has initiated the conciliation process, it is the participant's responsibility to contact CSSD and to comply with requirements or to request a waiver from CSSD due to good cause. If the caseworker does not receive confirmation from CSSD within 30 days of issuing the conciliation notice that the participant is cooperating or has requested a waiver for good cause in accordance with 8.50.105.14 NMAC; the conciliation process shall be considered to have failed and the benefit group shall be subject to payment sanctioning.

(c) The caseworker shall make the determination whether arrangements have been made to meet NMW requirements or whether there is good cause for waiving the cooperation requirements. If arrangements to meet the requirement or to waive it have not been made by the 30th day following issuance of the conciliation notice, the conciliation shall be considered to have failed and the participant is subject to sanctioning.

C. Sanctioning:

(1) Within 10 days of determining that a participant has failed to meet a NMW requirement, HCA or its designee shall issue notice of adverse action that the payment shall be reduced. The payment reduction shall take place with the first payment following expiration of the notice of adverse action.

(2) Notice of adverse action shall apply to all NMW and child support noncompliance sanctions, including those relating to the conciliation process.

(3) A participant who corrects the failure of compliance with NMW or child support enforcement requirements during the notice of adverse action 13-day time period shall not have the sanction imposed against the benefit group or payment amount. The sanction shall not count as a cumulative or progressive sanction, since the reason for the sanction was corrected during the time period of the notice of adverse action and prior to a benefit reduction being imposed. A participant who has failed to meet work participation hours cannot correct the sanction during the notice of adverse action time period.

(4) Failure to comply during the notice of adverse action 13-day time period shall cause the sanction to become effective for a minimum of one month. If the participant later complies with the NMW compliance requirements, as determined by the HCA, the sanction may be removed, so long as the participant has received at least one month of reduced benefit due to sanction.

(a) A child support enforcement sanction shall be removed after CSSD notifies the caseworker that the participant is in compliance with child support enforcement requirements.

(b) A NMW sanction shall be removed after the caseworker receives verification that the participant has completed an assessment; or has completed an IRP; or has completed a WPA that indicates the appropriate number of monthly hours in work activities; or has met NMW participation hours for at least 30 days; or has good cause to waive work participation requirements.

D. Sanction levels:

(1) First-level sanction:

(a) The first level sanction for failure to comply shall result in a sanction of twenty-five percent of the standard of need. The benefit group shall be given notice of the imposition of the sanction.

(b) A first level sanction that is not cured for three consecutive months shall progress to a second level sanction.

(2) Second-level sanction:

(a) The second level of sanction for failure to comply shall result in a decrease of fifty percent of the standard of need. The second level shall be initiated by:

(i) failure to comply with NMW participation or child support enforcement requirements for more than three months; or

(ii) a second occurrence of noncompliance with a NMW or CSSD requirement by a participant; or

(iii) failure of a participant to comply with both CSSD and NMW participation requirements simultaneously. The group shall be given concurrent notice of imposition of the second-level sanction.

(b) A second level sanction that is not cured for three consecutive months shall progress to the third level as described below.

(3) Third-level sanction:

(a) The third sanction level is case closure for a period of not less than six months. The group shall be given notice of adverse action prior to imposition of the sanction.

(i) Once a participant is sanctioned at the third level, any subsequent occurrence of failure to comply with NMW or CSSD requirements shall immediately result in a third level sanction, and case ineligibility for six months.

(ii) The TANF grant will be counted as unearned income for SNAP benefits for the six month period of ineligibility in accordance with 8.139.520 NMAC.

(b) TANF applications received after a six month closure period will be reviewed for eligibility.

(i) Based on eligibility the TANF will be approved and all mandatory members will be required to meet the NMW compliance requirements set forth in 8.102.460 NMAC;

(ii) If ISD determines the applicant is still non-compliant with CSSD, the sanction will remain and the application will be denied.

E. Sanctions by other states or other programs: Participants in sanction status for failure to participate in other programs, such as the food stamp E&T program, or another state's or tribal TANF program, shall not carry that sanction status into NMW.

(b) The participant must meet with the NMW service provider prior to the end of the 30-day period to establish a WPA for the full participation standard beginning on day 31 or must request a limited work participation status prior to the end of the 30-day period. The participant may be subject to sanction for failure to complete a WPA if a new WPA has not been established by day 31.

(i) A participant with good cause for failure to meet the NMW requirements, who expects the cause of failure to continue for more than 30 days, must contact the HCA to review the participant's circumstances.

(ii) Under no conditions shall good cause be granted for more than 30 days during any given reporting period.

(3) Good cause shall be considered when the HCA has failed to submit a notice in accordance with the requirements of adverse action notices, to the participant or provide available support services that would adversely affect the participant's ability to timely meet work participation requirements.

(4) Good cause for refusal to cooperate with the child support enforcement requirements: In some cases it may be determined by the CSSD that the TANF/NMW applicant's/recipient' refusal to cooperate is with good cause in accordance with 8.50.105.14 NMAC. Any person requesting a good cause exemption to a TANF/NMW requirement to cooperate must complete a request for a good cause exemption on a form provided by the CSSD and provide any documentation requested by CSSD. The request for a good cause exemption will be reviewed by the CSSD and the requestor will be informed of the decision in writing. The requestor's failure or refusal to complete the form or provide the requested documentation will result in an automatic denial of the request.

The HCA may offer assistance to complete the form or obtain the necessary documentation, as appropriate.
(5) It is the applicant's/recipient's responsibility to inform the HCA if they are unable to meet the NMW compliance requirements or CSSD cooperation requirements.

(5) The service or employment site to which the individual is assigned must not be in violation of applicable federal, state, or local health and safety standards.

(6) Assignments may not be made that are discriminatory in terms of age, sex, race, creed, color, or national origin.

(7) Appropriate employment placements may be temporary, permanent, full-time, part-time, or seasonal employment if such employment meets the other standards of this section.

(8) The service or work site must comply with all applicable federal, state, and local labor laws and regulations.

(b) does not exceed one year's duration (including any time enrolled in such program in the U.S. prior to the refugee's application for assistance);

(c) is specifically intended to assist the professional in becoming relicensed in their profession; and if completed,

(d) can realistically be expected to result in such relicensing; and

(e) may only be made available to individuals who are employed.

C. Job offers: A job offer, if determined appropriate under the requirements of this section, must be accepted by the refugee without regard to whether such job would interrupt a program of services planned or in progress.

(2) Inability to communicate in English does not exempt a refugee from registration for employment services, participation in employability service programs, carrying out job search, and acceptance of appropriate offers of employment.

F. Refusal to accept or termination of employment:

(1) Applicants: An applicant is not eligible if 30 consecutive calendar days immediately prior to the receipt of aid, they have voluntarily quit a job without good cause, refused to apply for, or accept an appropriate offer of employment, as determined by HCA. The dependent family of such an ineligible applicant may, however, remain eligible for RCA.

(2) Recipients: An employable recipient must not have refused, without good cause, to go to a job interview which is arranged by the RSS provider or have, without good cause, voluntarily quit a job, or have refused to apply for or accept an appropriate offer of employment.

(3) Job search: An employable recipient shall attend job interviews, register for employment and comply with the terms of their IEP. Termination of employment, by a recipient, shall only be with good cause. Refusal by a recipient to fulfill the job search requirement, or termination of employment without good cause is noncompliance.

(4) Good cause: Determination of good cause for noncompliance is made by the HCA case worker and is based on the following documented circumstances:

(a) court required appearance or incarceration;

(b) an individual is already engaged in employment consistent with the work plan;

(c) a pregnant woman, starting with the 4th month of pregnancy, provided that the pregnancy and the expected date of birth have been medically verified;

(d) medically verified illness of the participant or the participant's infant child. An infant child is defined as a child under 12 months of age.

(5) The refugee must participate in the employment program once good cause for noncompliance has been remedied.

G. Disqualification: Disqualification will follow the procedures set forth below.

(1) Cause for disqualification: A refugee recipient, who refuses an offer of employment, voluntarily quits employment without good cause, as determined by HCA, or fails to comply with their IEP is eligible for disqualification.

(2) The refugee shall be provided with a notice of adverse action not less than 13 days prior to the termination date. Additionally, the refugee's sponsor or resettlement agency will be notified of the action taken. The notice of adverse action will follow the policy outlined in 8.100.180.10 NMAC. The notice may include more than one instance of noncompliance or there may be separate notices for each instance of noncompliance.

Each instance of noncompliance must be either resolved in a timely manner or a disqualification may occur.

(3) If the refugee regains compliance within the 30 day period after the initial date for noncompliance, assistance shall be continued without interruption so long as the refugee continues to meet the requirements of continued assistance.

(4) A disqualification consists of termination of assistance beginning 30 days after the date of the noncompliance. An employable RRP recipient is ineligible for benefits for the following periods when assistance is terminated due to noncompliance;

(a) for three payment months for the first occurrence.

(b) for six payment months for the second and subsequent occurrences.

C. Categorical eligibility: No household is categorically eligible to receive LIHEAP. Eligibility is determined during the application process.

D. Financial eligibility: Households must have income at or below one hundred fifty percent of the federal poverty guideline.

E. One hundred ten percent of state poverty level: Section 2605(b)(2)(B) of the ACF HHS OCS LIHEAP statute further states that no household may be excluded because of income if it has an income which is less than one hundred ten percent of the state poverty level.

F. Timely issuance of benefits: Section 2605(b)(5) of the ACF HHS OCS LIHEAP statute requires the LIHEAP grantee to provide energy assistance benefits in a timely manner as referenced in 8.100.130.11 NMAC.

G. Subsection (2) further requires the LIHEAP grantee to provide assistance within 18 hours, excluding weekends and holidays, to eligible households that apply for benefits in a life-threatening situation.

H. Energy need and vulnerable populations: Section 2605 (b)(5) of the ACF HHS OCS LIHEAP statute requires the LIHEAP grantee to take into account the energy needs of low income households, giving priority to those having members of vulnerable populations such as young children, older individuals and individuals with disabilities.

[8.150.410.6 NMAC - Rp 8.150.410.6 NMAC, 7/1/2024]

8.150.410.7 DEFINITIONS: [**RESERVED**]

8.150.410.8 HOUSEHOLD UNIT: For purposes of LIHEAP, a household is an individual, or group of individuals living together, who incurs a heating or cooling cost. The heating or cooling cost must be to meet residential, not business or industrial, heating or cooling needs.
[8.150.410.8 NMAC - Rp 8.150.410.8 NMAC, 7/1/2024]

8.150.410.9 ENERGY RESPONSIBILITY:

A. Energy cost: To be eligible for LIHEAP benefits, the household must incur an energy cost. The energy cost may be for a primary heat source, i.e., the energy source or fuel with which the household is predominantly heated, or for a secondary heat source. A secondary heat source is an energy source that is essential to the process of providing heat to the home. The energy cost may be for a cooling cost. The cooling cost may be for a primary source, i.e., evaporative cooling or refrigerated air, or secondary cooling. Secondary cooling is the use of energy to operate portable fans, ceiling fans, whole house fans, gable vent fans, or power attic vent fans.

B. Secondary heat source: Electricity to ignite a gas or steam furnace is the most common example of an allowable secondary heat source for LIHEAP purposes. Electricity used only for lighting purposes or to operate fans to distribute heat from a wood-burning stove is not considered an allowable secondary heat source for LIHEAP purposes.

C. Wood-gathering households: Households who use wood as a fuel to heat their home and gather the wood themselves are considered to have a heating responsibility. Regardless of whether a direct or indirect cost was incurred to obtain the wood the household meets this requirement.

D. Direct or indirect utility responsibility: The heating/cooling cost may be direct in the form of a utility payment or fuel purchase, or indirect in the form of a non-subsidized rent payment which either designates or does not designate the included utility cost, or costs associated with obtaining wood for heating households.

E. Crisis intervention: To be eligible for LIHEAP regular or life-threatening crisis intervention, the household must meet the eligibility criteria for regular benefits as specified in 8.150.500.8 NMAC, must not have received a LIHEAP benefit in the current federal fiscal year and, in addition, be able to provide verification that proves the applicant household is facing a current or impending energy crisis, established with any one of the following:

(1) current notice of disconnect for the household from a utility vendor; or

(2) applicant written or verbal statement of insufficient funds for the household to open an account with a utility vendor or meet the security deposit requirements of a utility vendor; or

(3) statement from the household's fuel vendor that fuel will not be provided without payment.

(4) Life-threatening crisis intervention: The applicant must meet the above criteria for a regular crisis intervention and in addition provide a written or verbal statement advising that the household faces an emergency which poses a threat to the health or safety of one or more members of the household.

F. Community referrals: In circumstances where the household is not eligible for crisis intervention, or if a balance remains after the crisis/life threatening intervention has been provided, the household shall be informed of other resources in the community, which may be able to assist the household in meeting its energy expenses.

8.150.410.11 HOUSING TYPE:

A. Non-subsidized rent: Non-subsidized rent is defined as an obligation to pay for shelter which is entirely the responsibility of the household incurring the expense.

(1) Separate direct costs: Households paying non-subsidized rent who incur a separate heating/cooling cost are eligible for LIHEAP.

(2) Utilities included in rent: Households paying non-subsidized rent whose utility costs are included in their rent, even if no such cost is designated, are eligible for LIHEAP.

B. Subsidized rent: Subsidized rent assistance is defined as a payment for shelter, or shelter and utilities, the cost of which has been reduced due to a subsidy from a housing or other assistance program. University housing does not meet this definition and is therefore not considered subsidized housing.

(1) Separate direct costs: Households receiving subsidized rent assistance who incur a separate direct cost for heating/cooling are eligible for LIHEAP benefits;

(2) Subsidized rent/utilities with additional separate utility cost: Households receiving subsidized rent assistance who receive a subsidy for utilities but who incur an additional out-of-pocket expense for utilities are eligible for LIHEAP;

(3) Subsidized rent with utilities included: Households receiving subsidized rent assistance whose heating/cooling cost is included in their subsidized rent and do not incur an additional out-of-pocket heating or cooling expense are not eligible for LIHEAP;

(4) Subsidized rent with rental cost: Households receiving subsidized rent assistance who pay rent but do not pay utilities are not eligible for LIHEAP; and,

(5) Subsidized rent with no cost: Households receiving subsidized rent assistance who pay no rent and no utilities are not eligible for LIHEAP;

C. Mortgaged or free and clear home: Households who pay a mortgage or own their own home and incur a separate heating/cooling cost are eligible for LIHEAP.

8.150.410.12 INDIAN TRIBAL ELIGIBILITY: In New Mexico, an Indian tribe may choose to administer its own LIHEAP program for tribal members and request from DHHS an allocation of the state's share of the LIHEAP grant award for this purpose. An Indian tribe is defined as a legal entity of a group of Native Americans living on tribal lands with a distinct and separate government. Residents of tribal land may be eligible for tribal administered LIHEAP or HCA-administered LIHEAP under the following circumstances.

A. Tribes that administer LIHEAP: Indian tribal members living on their tribe's tribal lands, whose tribe administers their own LIHEAP program, are not eligible for HCA-administered LIHEAP benefits.

B. Tribes not administering LIHEAP: Indian tribal members living on the tribal lands of tribes not administering their own LIHEAP program may be considered for HCA-administered LIHEAP benefits providing they meet income eligibility and heating/cooling responsibility requirements as specified in this policy.

C. Indians on other tribes' land: Households that are members of Indian tribes administering their own LIHEAP program but not living on their tribe's tribal lands, may be considered for HCA-administered LIHEAP

benefits providing they meet income eligibility and heating responsibility requirements, as specified in this policy, and they did not receive LIHEAP benefits from their tribal government for the current LIHEAP season.

D. Non-Indians and non-tribal members on tribal land: Non-Indians living on tribal lands and Indians living on tribal lands who are excluded from eligibility for LIHEAP by the Indian tribe administering their own LIHEAP program may be considered for HCA-administered LIHEAP benefits providing they meet income eligibility and heating/cooling responsibility requirements as specified in this policy.

E. At the direction of the HCA secretary, HCA may serve tribal members normally excluded due to Subsection A of 8.150.410.12 NMAC if they have not been or do not expect to be served by the tribal LIHEAP program.

8.150.520.8 EARNED GROSS INCOME:
A. Definitions: Earned gross income is defined as income received in the form of wages paid on a predetermined regular basis, pay received irregularly for work performed irregularly, or income resulting from self-employment activities. Income from rental property, if 20 hours or more per week are spent working as a landlord, is also countable as earned income.
B. Exclusions: The following are not counted as gross income:
(1) in-kind benefits: (i.e. good or services realized, provided or exchanged for non-monetary compensation);
(2) vendor payments: (i.e. payments made on behalf of a household to a third party);
(3) lump sum payments: see food stamp regulations on lump sum payments in 8.139.520.9 NMAC;
(4) loans;
(5) charitable contributions from nonprofit agencies to meet household expenses;
(6) earned income tax credits;
(7) value of food stamps;
(8) TANF annual clothing allowance;
(9) monies received for the care of a third party beneficiary who is not a household member; and
(10) monies excluded by federal statute, a listing of which can be found in food stamp policy citation 8.139 NMAC.

8.150.520.9 SELF EMPLOYMENT GROSS INCOME:
A. Definition: Ongoing self-employment income intended to support the household through the year, that is averaged over a 12 month period, even if the household earns the money in a concentrated period. Self-employment income intended to support the household only for a portion of the year must be averaged over the months it is intended to provide support.

B. Verification sources: Monthly business records detailing profits and expenses or the household's federal income tax return are needed to annualize the household's self-employment income.

C. Gross income calculation: For self-employment income, the net income of the business activity is considered the gross income of the household member. The net income of the business is derived by subtracting the allowable costs of doing business from the business's gross income.

D. Business expenses:

(1) Allowable costs are, generally, those required to produce the business's gross income. These include, but are not limited, to: raw materials, stock, labor, insurance premiums, interest paid on income producing property, taxes paid on income-producing property, transportation for business purposes.

(2) Costs specifically not allowed are payments on the principal of the purchase price of income-producing property, assets, equipment, or machinery, net losses from previous periods, personal income taxes, money set aside for personal expenses, transportation to and from work, charitable contributions, entertainment, and depreciation.

E. Annualizing income: From gross self-employment income, subtract allowable expenses to derive the net self-employment income. Divide the net self-employment income by 12 to produce a monthly (average) figure. This figure is the countable monthly gross income. To determine the household's total gross, this figure must be added to any other income the household receives.

[8.150.520.9 NMAC - Rp 8.150.520.9 NMAC, 7/1/2024]

8.150.520.10 GROSS INCOME OF INELIGIBLE NON-CITIZENS: The gross income received by any ineligible non-citizen household member must be prorated and counted to establish the benefit amount.

A. Definition: If any member of the household providing income to the household is an ineligible non-citizen for TANF purposes, that member's income is not counted in its entirety but is prorated. Prorating results in excluding a portion of the ineligible non-citizen household member's income from consideration because the ineligible non-citizen is not a recipient of public assistance benefits.

B. Proration calculation: Calculate the gross income of the ineligible non-citizen and divide the total by the number of members, eligible and ineligible, in the household. The resulting figure is the pro-rata portion of the income for each member, eligible and ineligible. To determine the portion of the income to be counted, multiply the pro rata portion by the remaining number of eligible household members.

[8.150.520.10 NMAC - Rp 8.150.520.10 NMAC, 7/1/2024]

8.150.520.11 GROSS INCOME OF MIGRANT HOUSEHOLDS:

A. Definition: A migrant household is a group that travels away from home on a regular basis with a group of laborers to seek employment in an agriculturally related activity.

B. Verification sources: The household's federal income tax return is needed to annualize the household's income.

C. Calculation: The household's annual income reported on their federal income tax return should be divided by 12 to determine the household's average monthly income.

[8.150.520.11 NMAC - Rp 8.150.520.11 NMAC, 7/1/2024]

8.150.520.12 GROSS INCOME DETERMINATION: Gross income of the household member is defined as all income received prior to deductions, including taxes, garnishments, whether voluntary or involuntary and net business income.

A. Income sources: Gross income includes income from both earned and unearned sources.

B. Countable income: The gross unearned income of all household members is counted in its entirety, and the gross earned income of all household members over the age of 18 is counted in its entirety, unless:

(1) the income is specifically exempted; or

(2) the income is self-employment, in which case the income is annualized (see LIHEAP 8.150.520.9 NMAC); or

(3) the income is that of an ineligible non-citizen, in which case the income is prorated (see LIHEAP policy 8.150.520.10 NMAC);

(4) the income is a full month's income and is anticipated to be received on a weekly or biweekly basis; in these circumstances, the income shall be converted to a monthly amount as follows:

(a) income received on a weekly basis is averaged and multiplied by four;

(b) income received on a biweekly basis is averaged and multiplied by two;

(c) averaged income shall be rounded to the nearest whole dollar prior to application of the conversion factor; amounts resulting in $0.50 or more are rounded up; amounts resulting in $0.49 or lower are rounded down.

C. Gross income receipt period: HCA shall establish income by utilizing the gross income of the household for the 30 day period immediately preceding the date on which LIHEAP eligibility is determined by ISD.

D. Current income verified in other public assistance programs: Current income that has been verified by ISD in another active public assistance programs may be used to verify income for the LIHEAP application, unless deemed questionable.

[8.150.520.12 NMAC - Rp 8.150.520.12 NMAC, 7/1/2024]

8.150.520.13 UNEARNED INCOME:

A. Definition: Unearned income is income received in the form of entitlement, disability, retirement, unemployment benefits or payments, including but not limited to the following:

(1) child support;

(2) alimony;

(3) temporary assistance to needy families (TANF) benefits;

(4) general assistance (GA) payments;

(5) royalties;

(6) dividends and interest; or

(7) tribal benefits.

B. Gross unearned income: The gross amount of the benefit or payment must be counted. In the case of OASDI benefits, the gross amount of the benefit includes the amount deducted for the medicare premium, if applicable.

C. Real estate contracts: Monthly payments resulting from the sale of property and contributions from family or friends are also countable unearned income.

D. Exclusions: The following are not counted as income:

(1) in-kind benefits (i.e. goods or services realized, provided or exchanged for non-monetary compensation);

(2) vendor payments (i.e. payments made on behalf of a household to a third party);

(3) lump sum payments: as defined in food stamp regulations at 8.139.520.9 NMAC;

(4) loans;

(5) charitable contributions from nonprofit agencies to meet household expenses;

(6) earned income tax credits;

(10) monies excluded by federal statute, as listed at 8.139.527 NMAC.

[8.150.520.13 NMAC - Rp 8.150.520.13 NMAC, 7/1/2024]

8.150.520.14 TOTAL GROSS INCOME: The household's total gross income is determined by adding countable earned and unearned income. Income received from self-employment and by ineligible non-citizens is not counted in full. The income of migrant households may be annualized and averaged. The household's total gross income must be equal to or less than income standards published annually in the LIHEAP state plan.

[8.150.520.14 NMAC - Rp 8.150.520.14 NMAC, 7/1/2024]

8.150.520.15 INCOME STANDARD: Income guidelines for eligibility will be updated at the beginning of each federal fiscal year as required by federal statute. The guidelines will be effective for the entire federal fiscal year beginning October 1 and ending September 30. The income guidelines will be determined by the secretary of the HCA before the beginning of the new federal fiscal year and published annually in the LIHEAP state plan.

[8.150.520.15 NMAC - Rp 8.150.520.15 NMAC, 7/1/2024]

8.150.520.16 CRISIS INTERVENTION STANDARDS: Households who are over the income standards but meet the crisis intervention requirements may be eligible for a crisis LIHEAP benefit. If a household is over the income standards, HCA staff should explore the household's financial circumstances and take into account any financial crisis in the household that may have resulted in the household's inability to meet its utility or fuel

expenses in the past 30 days. In these cases, the household's net income, rather than gross income, may be considered to determine income eligibility for LIHEAP benefits.
[8.150.520.16 NMAC - Rp 8.150.520.16 NMAC, 7/1/2024]

8.150.520.17 NET INCOME:
A. Definition: Net income, except for net business income, for the purposes of LIHEAP policy, is not gross income minus deductions. Rather, it is gross income minus household emergency expenses incurred and paid in 30 days prior to the application date or the initial payment, during that period, of a bill resulting from a recent household emergency.
B. Calculation: To determine the net income for a household, subtract any allowable household emergency expenses from the household's gross income.
C. No emergency expenses: If the household did not incur and pay household emergency expenses or an initial payment for a recent household emergency in the 30 days prior to the application date for LIHEAP benefits, gross income is to be used to make the determination of eligibility.
[8.150.520.17 NMAC - Rp 8.150.520.17 NMAC, 7/1/2024]

8.150.520.18 HOUSEHOLD EMERGENCY EXPENSES:
A. Definition: Household emergency expenses are defined as expenses incurred and paid in full or in part by the household in the 30 days prior to the application date.
B. Examples of emergency expenses include:
(1) hospital, ambulance, doctor and dental bills;
(2) laboratory and other testing bills;
(3) prescriptions and non-prescription items ordered by a licensed health care professional; and
(4) services provided or ordered by a licensed health care professional; or
(5) non-elective medical expenses;

(7) hospital bills; and
(8) ambulance bills;
(9) expenses resulting from the death of a household member or other major household crisis; or
(10) repair or replacement of the household's primary vehicle.
C. Licensure exemption: Native American practitioners (medicine men), though not licensed by the state, are specifically recognized by HCA as health care providers under this policy.
[8.150.520.18 NMAC - Rp 8.150.520.18 NMAC, 7/1/2024]

8.150.520.19 VERIFICATION: To be considered, the household must provide proof of the incurred expense(s) and proof of payment.

[8.150.620.5 NMAC - Rp 8.150.620.5 NMAC, 7/1/2024]

8.150.620.6 OBJECTIVE: The objective of these regulations is to provide policy and procedures for the administration of the low income home energy assistance program (LIHEAP).
[8.150.620.6 NMAC - Rp 8.150.620.6 NMAC, 7/1/2024]

8.150.620.7 DEFINITIONS: [**RESERVED**]

8.150.620.8 POINT SYSTEM: A point allocation system is used to ensure that the highest level of assistance is provided to those households with the highest energy needs, lowest income and largest household member size while giving priority to those households with vulnerable members.
[8.150.620.8 NMAC - Rp 8.150.620.8 NMAC, 7/1/2024]

8.150.620.9 CALCULATING THE BENEFIT/ASSIGNMENT OF POINTS: To determine the amount of the benefit for households with an energy cost, HCA assigns points for each following factors.

A. Energy costs points: Points are assigned based on the energy burden at the household's current residence for households that have a direct cost for heating or cooling expenses.

(1) Energy burden: Energy burden is "the expenditures of the household for home energy divided by the income of the household." Points are assigned to the household by determining the households' percentage of energy burden. The point allocation for energy burden is:

(a) Zero points for zero to five percent energy burden;
(b) One point for six to ten percent energy burden;
(c) Two points for eleven to fifteen percent energy burden; or
(d) Three points for sixteen percent or more energy burden.

(2) Additional energy burden: If the household's energy burden is for the use of propane, an additional two points will be allocated.

(3) Receipt of energy burden points: Certain households do not receive energy burden points:

(a) households whose utilities are included in the rent; or
(b) households that use wood to heat their home and do not purchase wood.

(4) Energy standard allowance (ESA): Each year an ESA will be determined. The standard amount will be based on the fuel and electricity standards calculated for the standard utility allowance (SUA) used in the New Mexico supplemental nutrition assistance program (SNAP). The ESA may be used when the monthly utility costs provided by the applicant are: a) less than the standard; or b) the applicant has new service and costs are not available.

B. Income points: HCA assigns income points using the household's monthly total countable gross income and the household size. The number of points is determined by identifying what percentage the household's income is of the federal poverty guidelines (FPG) for the LIHEAP FFY. For example, if the total monthly income is sixty percent of the FPG, the household will receive three income points. (See below.)

(1) Three points - income is zero to one hundred percent of the FPG

(2) Two points - income is one hundred to one hundred fifty percent of the FPG

C. Vulnerable population points: HCA assigns additional points for any household members in the following vulnerable groups.

(1) Age 60 and over: Two points are assigned to eligible households based on the inclusion of one or more household members age 60 or over as determined by birthdate data.

(2) Age five and under: Two points are assigned to eligible households based on the inclusion of one or more household members age five and under as determined by birthdate data.

(3) Disability: Two points are assigned to eligible households having one or more members with a disability. Disability is defined as physical or mental impairment resulting in substantial reduction in the ability of an individual to care for themselves or carry out normal activities. When one or more members receive disability based income, the household is entitled to the points. A doctor's statement of current disability will be required for assignment of the point for this factor if the disabled member does not receive disability-based income.
[8.150.620.9 NMAC - Rp 8.150.620.9 NMAC, 7/1/2024]

8.150.620.10 CALCULATION OF BENEFIT AMOUNT:

A. Prior to the start of the application period projections will be made to determine point value. Anticipated grant of award, potential applicants and the current economy of the state of New Mexico will be used to determine the point value. Households eligible for a LIHEAP benefit will have their point total multiplied times the point value. The product is the amount of payment that is issued to the utility vendor for credit on the household's account or is sent to the household.

B. Based on the availability of funds, benefits are issued for eligible applications received through September 30.

C. At the direction of the HCA secretary, the point value for energy cost points, income points, vulnerable population points, additional energy burden points, or any of their parts, may be adjusted as necessary taking into consideration the factors described in Subsection A of 8.150.620.10 NMAC.

8.240.400.9 QUALIFIED MEDICARE BENEFICIARIES (QMB) - CATEGORY 040: To be eligible for the qualified medicare beneficiaries program (QMB), an applicant/recipient must be covered by medicare part A. Medicare part A is a free entitlement to social security beneficiaries who are 65 years of age or older or who have received social security disability payments for 24 months. Fully or currently insured workers, or their dependents, who have end-stage renal disease are also covered under medicare. Most applicants/recipients 65 years of age or older who do not receive free medicare part A can voluntarily enroll for hospital insurance coverage, with payment of a monthly premium. Voluntary enrollees must also enroll for supplementary medical insurance, medicare part B, and pay that premium, as well.
[8.240.400.9 NMAC - Rp 8.240.400.9 NMAC, 7/1/2024]

8.240.400.10 BASIS FOR DEFINING THE GROUP: Applicants/recipients eligible for medicaid coverage under any other category may be eligible for coverage under QMB. QMB eligibility affords two advantages when an applicant/recipient is already eligible for medicaid:

A. medicare premium part A is payable by medicaid; and

B. medicaid receives federal matching funds for purchase of medicare part B.

8.240.400.13 CITIZENSHIP:

A. Refer to medical assistance program manual 8.200.410.11 NMAC.

B. Verification of citizenship: Citizenship determinations rendered by the social security administration (SSA) for SSI are final.

(1) Documentation of citizenship: Primary documentation of citizenship is a birth certificate. Secondary documentation includes:

(a) certificate of naturalization;

(b) citizenship certificate;

(c) other resident identification documents issued by the United States immigration and naturalization service, such as:

(i) U.S. passport issued by the U.S. state department;

(ii) consular report of birth;

(iii) certification of birth issued by the U.S. state department, proof of marriage to a U.S. citizen before September 2, 1922, or a card of identity and registration of a U.S. citizen; or

(iv) official communication from an American foreign service post indicating that an applicant/recipient is registered as a United States citizen.

(2) Declaration of citizenship, nationality, or immigration status: As a condition of eligibility, medicaid requires a declaration by the applicant/recipient or by another person on behalf of a child or an applicant/recipient who is mentally incapacitated, which specifies whether the applicant/recipient is a citizen or national of the United States. If not, the declaration must state that the applicant/recipient is in satisfactory immigration status. Eligibility is not denied solely because an applicant/recipient cannot legally sign the declaration and the individual who is legally able to do so refuses to sign on the applicant/recipient's behalf or to cooperate, as required.

[8.240.400.13 NMAC - Rp 8.240.400.13 NMAC, 7/1/2024]

8.240.400.14 RESIDENCE: An applicant/recipient must be physically present in New Mexico on the date of application or final determination of eligibility and have demonstrated intent to remain in the state. If the applicant/recipient does not have the present mental capacity to declare intent, the parent, guardian or adult child can assume responsibility for a declaration of intent. If there is no guardian or relative to assume responsibility for a declaration of intent, the state where the applicant/recipient is living is recognized as the state of residence. A temporary absence from the state does not prevent eligibility. A temporary absence exists if an applicant/recipient leaves the state for a specific purpose with a time-limited goal and intends to return to New Mexico when the purpose is accomplished.

8.240.400.17 RECIPIENT RIGHTS AND RESPONSIBILITIES: An applicant/recipient is responsible for establishing their eligibility for medicaid. As part of this responsibility, the applicant/recipient must provide required information and documents or take the actions necessary to establish eligibility. An applicant/recipient must also grant the HCA permission to contact other persons, agencies or sources of information which are necessary to establish eligibility.

[8.240.500.6 NMAC -Rp 8.240.500.6 NMAC, 7/1/2024]

8.240.500.7 DEFINITIONS: [**RESERVED**]

8.240.500.8 [**RESERVED**]

8.240.500.9 GENERAL NEED DETERMINATION: Applicants for, or recipients of, the qualified medicare beneficiaries (QMB) program must apply for and take all necessary steps to obtain any income or resources to which they may be entitled. Recipients of supplemental security income (SSI) or aid to families with dependent children (AFDC) who apply for QMB are excluded from this requirement. A victim of crime is not required to accept victim compensation payments from a state-administered fund established to aid crime victims as a condition of eligibility.
[8.240.500.9 NMAC -Rp 8.240.500.9 NMAC, 7/1/2024]

8.240.500.10 RESOURCE STANDARDS: The value of an applicant/recipient’s individual countable resources must not exceed the amount set forth in Section 8.200.510.14 NMAC, resource amounts for supplemental security income (SSI) related medicare savings programs (QMB and SLIMB/QI). The resource limit for an applicant couple is the amount set forth in Section 8.200.510.14 NMAC. An applicant/recipient with an ineligible spouse is eligible if the couple’s countable resources do not exceed the amount set forth in Section 8.200.510.14 NMAC, when resources are deemed. The resource determination is always made as of the first moment of the first day of the month. The applicant/recipient is ineligible for any month in which the countable resources exceed the current resource standard as of the first moment of the first day of the month. Changes in the amount of resources during a month do not affect eligibility for that month. See Section 8.215.500.13 NMAC, countable resources, and Section 8.215.500.14 NMAC, resource exclusions, for specific information on exclusions, disregards, and calculation of countable resources.
[8.240.500.10 NMAC -Rp 8.240.500.10 NMAC, 7/1/2024]

8.240.500.11 RESOURCE TRANSFERS: The social security administration excluded transfer of resources as a factor of eligibility for non-institutionalized SSI recipients. Transfer of resources is not a factor for consideration in categories that use SSI methodology in the eligibility determination.

[8.240.500.11 NMAC -Rp 8.240.500.11 NMAC, 7/1/2024]

8.240.500.12 TRUSTS: See Section 8.281.510 NMAC and following subsections.
[8.240.500.12 NMAC -Rp 8.240.500.12 NMAC, 7/1/2024]

8.240.500.13 INCOME STANDARDS: The income ceiling for QMB eligibility is one hundred percent of the federal income poverty guidelines. These guidelines are updated annually effective April 1st. See Section 8.200.520 NMAC, *Income Standards*. If the applicant is a minor child, income must be deemed from the parent(s). Income must be verified and documented in the case record. See Section 8.215.500.13 NMAC, *countable resources*, and Section 8.215.500.14 NMAC, *resource exclusions*, for specific information on exclusions, disregards, and calculation of countable income.
[8.240.500.13 NMAC -Rp 8.240.500.13 NMAC, 7/1/2024]

8.240.500.14 UNEARNED INCOME:

A. Unearned income exclusions: All social security and railroad retirement beneficiaries receive cost of living adjustments (COLAs) in January of each year. The ISD caseworker must disregard the COLA from January through March when (re)determining QMB eligibility. For redeterminations made in January, February and March and for new QMB applications registered in January, February or March, the ISD caseworker uses the December social security and railroad retirement benefit amounts. For QMB applications registered from April through December, total gross income including the new COLA figures are used to determine income and compared to the new April federal poverty levels. This exclusion does not apply to other types of income.

B. Evaluation of applicant/recipient's income: The ISD caseworker determines the amount of income available to the applicant/recipient using only the applicant/recipient's own income. A standard $20 disregard is allowed in accordance with Section 8.215.500.22 NMAC. The federal poverty level standard disregard is only given if the applicant/recipient lives with an ineligible spouse. See Section 8.240.500.15 NMAC for deemed income.
[8.240.500.14 NMAC -Rp 8.240.500.14 NMAC, 7/1/2024]

8.240.500.15 DEEMED INCOME:

A. Minor applicant/recipient living with parent(**s**): If the applicant/recipient is a minor who lives with a parent(s), deemed income from the parent(s) must be considered in accordance with Section 8.215.500.21 NMAC, *deemed income*, and applicable subsections.

B. Applicant/recipient living with an ineligible spouse: If an applicant/recipient is living in the same household with an ineligible spouse, the income of the applicant/recipient and the income of the ineligible spouse must be considered in accordance with the following paragraphs.

(1) Evaluation of applicant/recipient's income: The ISD caseworker determines the amount of income available to the applicant/recipient using only the applicant/recipient's own income. Allow the standard $20 disregard in accordance with instructions in Subsection B of Section 8.215.500.22 NMAC of the medical assistance division policy manual. If the applicant/recipient has earned income, allow the earned income disregard as specified in Subsection C of Section 8.215.500.22 NMAC. From the combined total of the applicant/recipient's remaining earned and unearned income, subtract up to the difference between one hundred percent of the federal income poverty level for two persons and one hundred percent of the federal income poverty level for one person. This is referred to as the FPL disregard. Compare the remaining countable income of the applicant/recipient to the individual income standard for the QMB program. If the applicant/recipient's remaining countable income is greater than the individual standard, they are ineligible for the QMB program. If the applicant/recipient's remaining countable income is less than the individual income standard, proceed to the following section.

(2) Evaluation of the ineligible spouse's gross income: The ISD caseworker determines the total gross earned and unearned income of the ineligible spouse. From this combined amount, subtract a living allowance for any ineligible minor dependent child(ren) of either member of the couple who live(s) in the home. The deductible amount of the ineligible child(ren)'s living allowance cannot exceed the ineligible spouse's total gross income. The amount of the living allowance for an ineligible child is determined by subtracting the child's gross income from the figure which represents the difference between one hundred percent of the federal income poverty level for two persons and one hundred percent of the federal income poverty level for one person. A "child" must be under 18 years of age or under 21 years of age if a full-time student at an institution of learning.

(3) Determination of countable income for eligibility purposes: The ISD caseworker adds the gross unearned income of the applicant/recipient (without applying any disregards) to the gross unearned income

of the ineligible spouse. The ISD caseworker then adds the total gross earned income of the applicant/recipient to the total gross earned income of the ineligible spouse. From the combined total gross earnings of the couple, the ISD caseworker subtracts one earned income disregard (the first $65 of the total earnings plus one half of the remainder). The resulting figure is the total combined countable earnings of the couple. Add the couple's total combined countable earned income to their total gross unearned income. From this figure subtract the standard $20 disregard determined in accordance with Subsection B of Section 8.215.500.22 NMAC. Next, subtract the amount of the FPL disregard which the applicant/recipient was allowed. Finally, subtract the amount of the ineligible child(ren)'s living allowance which was calculated in Paragraph (2) of Subsection B of Section 8.240.500.14 NMAC. The resulting figure is the countable income of the couple. Compare it to the couple standard for QMB. If the countable income of the couple exceeds the couple standard, the applicant/recipient is ineligible for the QMB program. If the countable income of the couple is less than the couple standard, the applicant/recipient is eligible for the QMB program of the factor of income.

8.248.500.3 STATUTORY AUTHORITY: The New Mexico medicaid program is administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act, as amended, and by the state health care authority pursuant to state statute. See 27-2-12 et. seq. NMSA 1978 (Repl. Pamp. 1991). The legal basis for the low-income subsidy (LIS) program is the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (MMA), Public Law 108-173. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.

8.248.500.7 DEFINITIONS: [**RESERVED**]

8.248.500.8 [**RESERVED**]

8.248.500.9 NEED DETERMINATION: This section describes the methodology to be used in determining countable resources and income for the low-income subsidy (LIS) program which is based in part on supplemental security income (SSI) methodology. These guidelines are used for initial and on-going eligibility for medicare beneficiaries enrolled in part A or part B medicare. LIS eligibility is determined prospectively. Applicants/recipients must meet, or expect to meet, all financial and non-financial eligibility criteria in the month for which a determination of eligibility is made.
[8.248.500.9 NMAC - Rp 8.248.500.9 NMAC, 7/1/2024]

8.248.500.10 APPLICATION PROCESS: The income support division (ISD) office is responsible for taking LIS applications from those individuals who do not want to submit their application to the social security administration either directly or through the ISD office.

A. Who does not have to apply: Certain groups of medicare beneficiaries who are also receiving medicaid do not have to apply for the LIS. These individuals are called "deemed eligible" and will automatically be put on the LIS:

(1) full-benefit dual eligibles, who are persons eligible for both medicare and have full medicaid benefits (including drug benefits);

(2) SSI recipients;

(3) medicare beneficiaries, who are participants in the medicare saving programs, which are: QMB, SLIMB, and QI-1;

(4) working disabled individuals (WDI) who are receiving medicare;

(5) HCBW recipients who are receiving medicare; and

(6) individuals screened for QMB, SLIMB, or QI-1 and determined eligible before the application for LIS is processed.

B. Who can apply: medicare beneficiaries who are not deemed eligible (See Paragraphs (1) through (6) above) and who insist on filing their application with the state rather than with social security administration (SSA).
[8.248.500.10 NMAC - Rp 8.248.500.10 NMAC, 7/1/2024]

8.248.500.11 RESOURCE STANDARDS: A "resource" is defined as cash and other assets that can be converted to cash within 20 days.

A. Resource determination: The resource determination is made as of the first moment of the first day of the month. An applicant/recipient is ineligible for any month in which their countable resources exceed the allowable resource standard as of the first moment of the first day of the month. Changes in the amount of countable resources during a month do not affect eligibility or ineligibility for that month.

B. Distinguishing between resources and income: Resources must be distinguished from income to avoid counting a single asset twice. As a general rule, ownership of a resource precedes the current month while income is received in the current month. Income held by an applicant/recipient until the following month becomes a resource.
[8.248.500.11 NMAC - Rp 8.248.500.11 NMAC, 7/1/2024]

8.248.500.12 APPLICABLE RESOURCE STANDARDS: The resource standard for the LIS is $10,000 for an individual and $20,000 for a couple. Resources belonging to other dependent family members are not considered.

A. Cash resources: The face value of cash, savings or checking accounts is considered in determining LIS eligibility.

(1) An applicant/recipient must provide verification of the value of all cash resources. The resource value of a bank account is customarily verified by a statement from the bank showing the account balance as of the first moment of the first day of the month in question. If an applicant/recipient cannot provide this verification, the ISD worker sends a bank or postal savings clearance to the appropriate institution(s).

(2) If the applicant/recipient can demonstrate that a check was written and delivered to a payee but not cashed by the payee prior to the first moment of the first day of the month, the amount of that check is subtracted from the applicant/recipient's checking account balance to arrive at the amount to be considered a countable resource.

B. Other resources: The value of other resources is evaluated according to the applicant/spouse's equity in the resource(s). The equity value of an item is defined as the price for which that item, minus any encumbrances, can reasonably be expected to sell on the open market in the particular geographic area. Other resources which can be converted to cash within 20 days include, but are not limited to: stocks, bonds, mutual fund shares, promissory notes, mortgages, whole life insurance policies, financial institution accounts (savings, checking, CDs, IRAs, 401(K) accounts, and annuities), and real property not contiguous with home property.
[8.248.500.12 NMAC - Rp 8.248.500.12 NMAC, 7/1/2024]

8.248.500.13 COUNTABLE RESOURCES: Before a resource can be considered countable, the three criteria listed below must be met.

A. Ownership interest: An applicant/recipient must have an ownership interest in a resource for it to be countable. The fact that an applicant/recipient has access to a resource, or has a legal right to use it, does not make it countable unless the applicant/recipient also has an ownership interest in it.

B. Legal right to convert resource to cash: An applicant/recipient must have the legal ability to spend the funds or to convert non-cash resources into cash.

(1) Physical possession of resource: The fact that an applicant/recipient does not have physical possession of a resource does not mean it is not their resource. If they have the legal ability to spend the funds or convert the resource to cash, the resource is considered countable. Physical possession of savings bonds is a legal requirement for cashing them.

(2) Unrestricted use of resource: An applicant/recipient is considered to have free access to the unrestricted use of a resource even if he can take those actions only through an agent, such as a representative payee or guardian.

(3) If there is a legal bar to the sale of a resource, such as a co-owner legally blocking the sale of jointly owned property, the resource is not countable. The applicant/recipient is not required to undertake litigation in order to accomplish the sale.

C. Legal ability to use a resource: If a legal restriction exists which prevents the use of a resource for

the applicant/recipient's own support and maintenance, the resource is not countable.

D. Jointly-held account: If the applicant/spouse is the only subsidy claimant or subsidy recipient who is an account holder on a jointly held account, the state will presume that all of the funds in the account belong to the applicant/spouse. If more than one subsidy claimant or subsidy recipient are account holders, the state will presume that the funds in the account belong to those individuals in equal shares. If the applicant/spouse disagrees with the ownership presumption described in this subsection, they may rebut the presumption. Rebuttal is a procedure that permits an individual to furnish evidence and establish that some or all of the funds in the jointly-held account do not belong to them.
[8.248.500.13 NMAC - Rp 8.248.500.13 NMAC, 7/1/2024]

8.248.500.14 RESOURCE EXCLUSIONS: The following resources are not to be considered for purposes of determining LIS eligibility:

A. Applicant's home: A home is any property in which the applicant and spouse have an ownership interest and which serves as the applicant's principal place of residence. The resource exclusion applies to any in-kind gift that is not converted to cash, or to a cash gift that does not exceed $2,000.

T. Funds received: Funds received from a government or nongovernmental agency, program, or health insurance policy whose purpose is to provide medical care or medical services or social services and conserved to pay for medical or social services.

[8.248.500.14 NMAC - Rp 8.248.500.14 NMAC, 7/1/2024]

8.248.500.15 INCOME STANDARDS: Income is anything the applicant/spouse receives in cash or in-kind that can be used to meet their needs for food or shelter. [8.248.500.15 NMAC - Rp 8.248.500.15 NMAC, 7/1/2024]

8.248.500.16 EARNED INCOME:

(4) royalties earned by an individual in connection with any publication of their work and any honoraria received for services rendered; and

B. Period under consideration: The period for which earned income is counted is, in 2006, the remainder of the calendar year, starting with the month of application for the subsidy. Adjust prospective earned income based on the number of months remaining in the calendar year. The income standard against which the income is measured should be adjusted to reflect the same number of months. For subsidy applications filed in 2005, eligibility cannot begin prior to January 1, 2006.

C. Earned income exclusions: Earned income exclusions apply in the order listed below:

[8.285.600.9 NMAC - Rp 8.285.600.9 NMAC, 7/1/2024]

8.285.600.10 BENEFIT DETERMINATION:

A. Subsequent to the receipt of emergency services, an applicant must apply through the local county income support division (ISD) office. The application must be filed at the ISD office no later than the last day of the third month following the month the presumed emergency services were received.

B. Documentation requirements: The applicant must bring a completed emergency medical services for non-citizens (EMSNC) referral for eligibility determination form (MAD 308) to the ISD office for the financial eligibility determination. The emergency services provider must complete the referral form.

C. Financial documents: The applicant must provide all necessary documentation to prove that they meet all financial and non-financial eligibility standards. Medical providers cannot submit eligibility applications on behalf of the applicant. The applicant is financially responsible for any services not covered by medicaid. A completed and signed application form must be submitted for each request for EMSNC.

8.285.600.11 INITIAL BENEFITS: Applications for medicaid must be acted on within 45 days of the date of application.

A. If an applicant is eligible for medicaid, the individual is sent a notice of case action (NOCA) form.

The approval of financial eligibility is not a guarantee that medicaid will pay for the services. The NOCA form also serves as notice of case closure, since medicaid covers only emergency services received during the specified term of the emergency. The provider is sent the decision for emergency medical services for non-citizens (EMSNC) application (MAD 778) form. The provider must use the MAD 778 form to submit claims to the medicaid utilization review contractor for emergency review.

B. If an applicant is ineligible for medicaid or a decision on the application is delayed beyond the 45 day time limit, the individual is sent a NOCA form regarding the application for EMSNC. The NOCA form explains the reason for denial or delay and informs the applicant of their right to an administrative hearing. If the application is denied, the applicant must notify providers of the denial.

C. The applicant is responsible for payment for the medical services if they fail to apply promptly for coverage, verify eligibility for coverage, or notify the provider of the approval or denial of the application.
[8.285.600.11 NMAC - Rp 8.285.600.11 NMAC, 7/1/2024]

The eligibility for the specific period will only cover the bona fide emergency services. A medicaid card is not issued. No separate notice of case closure is necessary. Notice of approval serves as notice of closure as it indicates the specific period of eligibility. Medicaid covers emergency services only for the duration of the emergency, as determined by medicaid utilization review contractor.

8.290.500.3 STATUTORY AUTHORITY: The New Mexico medicaid program is administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act, as amended, and by the state health care authority pursuant to state statute. See Sections 27-2-12 et. seq. NMSA 1978 (Repl. Pamp. 1991). Section 9-8-1 et seq. 8.290.500.6 OBJECTIVE: The objective of these regulations is to provide eligibility criteria for the medicaid program.
[8.290.500.6 NMAC - Rp 8.290.500.6 NMAC, 7/1/2024]

8.290.500.7 DEFINITIONS: See 8.290.400.7 NMAC.

8.290.500.8 MISSION: To reduce the impact of poverty on people living in New Mexico and to assure low income and disabled individuals in New Mexico equal participation in the life of their communities.
[8.290.500.8 NMAC - Rp 8.290.500.8 NMAC, 7/1/2024]

8.290.500.9 NEED DETERMINATION: Eligibility for the home and community-based services waiver programs is always prospective. Applicants/recipients must meet, or expect to meet, all financial eligibility criteria in the month for which a determination of eligibility is made. Applicants for and recipients of medicaid through one of the waiver programs must apply for, and take all necessary steps to obtain, any income or resources to which they may be entitled. Such steps must be taken within 30 days of the date the HCA furnishes notice of the potential entitlement.

A. Failure to apply for and take steps to determine eligibility for other benefits: Failure or refusal to apply for and take all necessary steps to determine eligibility for other benefits after notice is received results in an applicant/recipient becoming ineligible for medicaid.

B. Exceptions to general requirement: Applicants/recipients who have elected a lower VA payment do not need to reapply for veterans administration improved pension (VAIP) benefits. Crime victims are not required to accept victims compensation payments from a state-administered fund as a condition of medicaid eligibility.

8.290.500.11 APPLICABLE RESOURCE STANDARDS: An applicant/recipient is eligible for medicaid on the factor of resources if countable resources do not exceed $2,000.

A. Liquid resources: See Subsection A of 8.281.500.11 NMAC.

B. Nonliquid resources: See Subsection B of 8.281.500.11 NMAC and following subsections.

8.290.500.14 ASSET TRANSFERS: See 8.281.500.14 NMAC, *asset transfers*, and following subsections for rules governing transfers of assets. All provisions pertaining to transfers under institutional care medicaid apply to transfers under the waiver programs with the exception of the penalty for transfers of assets for less than fair market value. The penalty for transfers of assets for less than fair market value for waiver applicants/recipients is ineligibility for long term care medicaid services under the waiver programs. Federal regulations specify that, to be eligible for a waiver program, an individual must be receiving the waiver or long term care services. Because a waiver applicant/recipient is not eligible to receive these services under the medicaid program, they are ineligible for the HCBS waiver program. The period of ineligibility is based on when the assets were transferred during the look back period. After February 8, 2006, the look back period for transfers is 60 months prior to the date of application. As soon as the HCBS waiver applicant has no transfers for less than fair market value during the 60 months look back period, they are eligible to be reconsidered for HCBS provided all financial and non-financial criteria are met. If the transfer for less than fair market value is discovered after the applicant is approved for HCBS, the period of ineligibility begins the first day of the month in which the resources were transferred. If the applicant or recipient enters a nursing facility, a penalty period for the transfer of assets for less than fair market value is calculated based on 8.281.500.14, *asset transfers*. This penalty period runs whether or not the individual remains in the nursing facility.

8.300.1.7 DEFINITIONS: [**RESERVED**]

8.300.1.8 MISSION STATEMENT: The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of eligible recipients by furnishing payment for quality health services at levels comparable to private health plans.
[8.300.1.8 NMAC - Rp 8.300.1.8 NMAC, 7/1/2024]

8.300.1.9 GENERAL PROGRAM DESCRIPTION: The HCA, through MAD, is responsible for the administration of the medicaid program and other health care programs. This joint federal and state program provides payment for medically necessary health services furnished to eligible recipients.
[8.300.1.9 NMAC - Rp 8.300.1.9 NMAC, 7/1/2024]

8.300.1.10 RELATIONSHIP TO MEDICARE: MAD covers medically necessary health services furnished to eligible recipients who meet specific income, resource and eligibility standards. Medicare is a federal program which offers health insurance coverage to eligible recipients 65 years of age or older, to those who have received disability benefits for 24 consecutive months, to those who have end stage renal disease, and to other eligible recipients, as specified by other provisions of the Social Security Act.

A. The state of New Mexico has entered into an agreement with the social security administration to pay medicaid eligible recipient premiums for medicare part B, and under some circumstances, medicare part A premiums.

B. After medicare has made payment for services, the medicaid program pays for the medicare co-insurance and deductible amounts for all eligible medicaid recipients subject to the following medicaid reimbursement limitations.

(1) Medicaid payment for the co-insurance and deductible is limited such that the payment from medicare, plus the amount allowed by medicaid for the co-insurance and deductible, shall not exceed the medicaid allowed amount for the service. When the medicare payment exceeds the amount that medicaid would have allowed for the service, no payment is made for the co-insurance or deductible. The claim is considered paid in full. The provider may not collect any remaining portion of the medicare co-insurance or deductible from the

eligible recipient or their personal representative. For services for which medicare part B applies a fifty percent co-insurance rate, medicare co-insurance and deductible amounts may be paid at an amount that allows the provider to receive more than medicaid allowed amount, not to exceed a percentage determined by HCA.

(2) The medicaid program will pay toward the medicare co-insurance and deductible to the extent that the amount paid by medicare and the allowed medicare co-insurance and deductible together do not exceed the medicaid allowed amount. The medicaid program will pay the medicare co-insurance and deductible when the medicaid program does not have a specific amount allowed for the service.

8.301.5.3 STATUTORY AUTHORITY: The New Mexico medicaid program is administered pursuant to regulations promulgated by the federal department of health and human services under Title XIX of the Social Security Act, as amended, and by the state health care authority pursuant to state statute. See 27-2-12 et. seq. NMSA 1978 (Repl. Pamp. 1991). Section 9-8-1 et seq. [8.301.5.5 NMAC - Rp 8.301.5.5 NMAC, 7/1/2024]

8.301.5.6 OBJECTIVE: The objective of these regulations is to provide policies for the service portion of the New Mexico medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.
[8.301.5.6 NMAC - Rp 8.301.5.6 NMAC, 7/1/2024]

8.301.5.7 DEFINITIONS: [**RESERVED**]

8.301.5.8 MISSION STATEMENT: The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.
[8.301.5.8 NMAC - Rp 8.301.5.8 NMAC, 7/1/2024]

8.301.5.9 MEDICAL MANAGEMENT: The New Mexico medicaid program (medicaid) pays for medically necessary medical services furnished to medicaid recipients. To make sure that recipients receive only necessary services, the New Mexico medical assistance division (MAD) has developed the medical management program. The medical management program is designed to enhance the receipt of health care to a recipient by assigning a designated provider. This may also reduce the use of unnecessary services by medicaid recipients in certain instances. See 42 CFR 431.54(e). Medical management involves the identification of appropriate cases, selection of actual cases, documentation of the health care issue(s) necessitating management, development of assignment recommendations, and evaluation of the effectiveness of the assignments. The medical assistance division (MAD) medical director or another physician specifically appointed by MAD determines whether recipients are assigned to the medical management program.
[8.301.5.9 NMAC - Rp 8.301.5.9 NMAC, 7/1/2024]

8.301.5.10 SERVICES EXCLUDED FROM MEDICAL MANAGEMENT: Recipients can receive emergency services and inpatient services without referrals from their designated providers. These services are exempt from medical management. Emergency room claims for services provided to any recipient may be reviewed before or after payment. Inappropriate non-emergency use of emergency room services results in denial of payment by medicaid and liability of the recipient for payment.
[8.301.5.10 NMAC - Rp 8.301.5.10 NMAC, 7/1/2024]

8.301.5.11 IDENTIFICATION OF CANDIDATES: All medicaid recipients are potential candidates for inclusion in medical management, whether enrolled in Salud! or covered under medicaid fee-for-service. Recipients are identified as candidates for review by HCA, the MCO, a provider or other appropriate entities. The following situations may indicate a need for medical management:

A. individuals who overutilize medical services;

B. individuals who are habitually non-compliant and miss appointments, or who frequently seek unauthorized treatment or care; and

C. individuals who frequently change PCPs or simultaneously utilize multiple pharmacy providers;

D. individuals who regularly utilize emergency room services for inappropriate, non-emergency care.

[8.301.5.11 NMAC - Rp 8.301.5.11 NMAC, 7/1/2024]

8.301.5.12 SELECTION FOR MEDICAL MANAGEMENT: HCA staff analyzes appropriate reports and documentation to decide whether a recipient will be referred to the MAD medical director for medical management determination. After reviewing HCA staff recommendations and supporting documentation, the MAD medical director or another physician designated by MAD determines whether the recipient should be assigned to medical management. Once the determination is made by the physician, the assignment of the recipient to medical management is implemented by MAD. The assignment is subject to the notice requirements and hearing process described below in Section 15, *Recipient Notice* and Section 16, *Recipient Hearings*.

A. Notification of decision: The HCA staff notifies the recipient, the claims processing contractor, the income support division (ISD), and, if enrolled in Salud!, the MCO, of the medical management assignments. Providers are informed that a client is in medical management at the time the provider verifies the client's eligibility for the date the services are provided. Recipients placed in medical management receive medicaid identification cards which indicate "medical management" and the names of their "designated providers".

B. Assignments for recipients covered by third party insurers: Recipients who are eligible for medicare and medicaid services or recipients who have insurance can be assigned to a designated provider for services covered exclusively by medicaid. Recipients in managed care plans are assigned to designated providers who participate in the recipient's plan.

[8.301.5.12 NMAC - Rp 8.301.5.12 NMAC, 7/1/2024]

8.301.5.13 DESIGNATED PROVIDERS: Recipients who are in medical management are assigned to designated providers based on their specific health care situation. Recipients may be assigned to a designated provider who manages the recipient's overall receipt of health services by making referrals, a designated provider who furnishes only specialty services, or both. Medicaid payment for medical services is restricted to designated providers. Other providers can receive payment for services furnished to a recipient in medical management only with a referral from the designated provider. If a recipient is assigned a designated psychiatrist, only that psychiatrist is reimbursed by medicaid or the MCO for providing outpatient psychiatric services to the recipient, unless the designated psychiatrist determines that it is medically necessary for the recipient to be referred to a second psychiatrist. If a recipient is assigned a designated general provider, only that provider is reimbursed by medicaid or the MCO for providing outpatient services to the recipient, unless the designated general provider determines that it is medically necessary for the recipient to be referred to a secondary provider. If a recipient is assigned a designated pharmacy provider, only that provider is reimbursed by medicaid fee-for-service or the MCO.

A. Selection of designated providers: Providers of outpatient services are selected as "designated providers". The following guidelines are used to select a provider:

(1) the provider must be a medicaid fee-for-service or MCO contracted provider;

(2) the provider agrees to act in the capacity of a designated provider;

(3) the geographic location of the provider must not significantly impair or impede the recipient's access to services; and

(4) when feasible, the provider is one with whom the recipient has previously established a medically-beneficial relationship;

(5) if the designated provider is not the recipient's PCP, then the provider must coordinate with the recipient's PCP.

B. Changing designated providers: When any of the following circumstances occur, the MAD medical director or another physician designated by MAD can approve a request to change the designated providers permanently:

(1) the recipient moves from the geographic area of the designated provider;

(2) the recipient's medical condition changes and the designated provider is unable to furnish care or refer the recipient to an appropriate provider;

(3) the designated provider is no longer available or gives notice that they are no longer willing to serve as a designated provider; or

(4) the designated provider no longer participates in the medicaid program.

[8.301.5.13 NMAC - Rp 8.301.5.13 NMAC, 7/1/2024]

8.301.5.14 REEVALUATION OF ASSIGNMENT: Initial medical management assignments are reevaluated by the HCA staff within a year of the effective date of the assignment or from the date of reevaluation. The reevaluation focuses on whether assignments met the objectives identified in the HCA staff recommendation or whether the initial assignments need modification. A reevaluation is conducted using information similar to that used in the initial medical management assignment analysis. If continuation or modification of an assignment is necessary, the reasons for the action are documented in the case file. The MAD medical director or another physician designated by MAD makes the final decision as to whether the assignment needs to be continued, modified or removed.

A. Medicaid eligibility changes: Changes in recipient eligibility status do not affect the status of a recipient in medical management or the reevaluation process. If a recipient on medical management becomes ineligible for medicaid benefits but later becomes medicaid eligible within the assignment period, the recipient remains in medical management.

B. Removal from the medical management program: Recipients are removed from medical management by HCA staff when the specific situation necessitating medical management has been resolved.

[8.301.5.14 NMAC - Rp 8.301.5.14 NMAC, 7/1/2024]

8.301.5.15 RECIPIENT NOTICE: The medical assistance division gives a recipient and the MCO, if the recipient is enrolled in Salud!, 13 working days notice of the decision to place the recipient in medical management. Notice is given for the initial imposition of the assignment, modification of the assignment, or continuation of the assignment.

A. Time constraints: A recipient can submit a request for a hearing of their assignment into medical management, assignment of the designated providers, modification, or continuation of the assignment. If the recipient requests a hearing within the time frame established below in Section 16, *Recipient Hearing*, the proposed assignment shall remain imposed until a hearing decision states otherwise.

B. Information contained in the notice: The recipient notice contains the following information 42 CFR 431.210:

(1) statement describing the action MAD intends to take;

(2) reasons for the intended action;

(3) specific state or federal regulations supporting the action or change(s) in the law which require the action;

(4) explanation of the recipient's right to request an administrative hearing and the method and timetable by which the hearing can be requested;

(5) statement explaining the recipient's right to be represented at the administrative hearing by legal counsel, a friend, or other representative;

(6) explanation of the circumstances under which the benefits are continued; and

(7) effective date of the assignment.

[8.301.5.15 NMAC - Rp 8.301.5.15 NMAC, 7/1/2024]

8.301.5.16 RECIPIENT HEARING: A recipient has a right to request a hearing regarding the MAD decision to assign the recipient into medical management. The request must be submitted to the quality assurance bureau of MAD, the HCA hearing bureau or the local ISD office within 90 days of the date the notice of action was postmarked. See 8.352.2 NMAC, *Recipient Hearings*.

(a) an emergency condition that is a medical or behavioral health condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy, serious impairment to body function or serious dysfunction of any bodily organ or part; and

(b) "medical necessity" for ambulance services is established if the eligible recipient's condition is such that the use of any other method of transportation is contraindicated and would endanger the eligible recipient's health;

(2) scheduled, non-emergency ambulance services are ordered by a physician who certifies that the use of any other method of non-emergency transportation is contraindicated by the eligible recipient's medical condition; and

(3) MAD covers non-reusable items and oxygen required during transportation; coverage for these items are included in the base rate reimbursement for ground ambulance.

G. Lodging services: MAD covers lodging services if recipients are required to travel to receive medical services more than four hours one way and an overnight stay is required due to medical necessity or cost considerations. If medically justified and approved, lodging is initially set for up to five continuous days. For a longer stay, the need for lodging must be re-evaluated by the fifth day to authorize up to an additional 15 days. Re-evaluation must be made every 15 days for extended stays, prior to the expiration of the existing authorization. Approval of lodging is based on the medical provider's statement of need. Authorization forms for direct payment to medicaid lodging providers by MAD are available through local county income support division (ISD) offices.

H. Meal services: Medicaid covers meals if a recipient is required to leave their home community for eight hours or more to receive medical services. Authorization forms for direct payment to medicaid meal providers by MAD are available through local county ISD offices.

I. Coverage for attendants: MAD covers transportation, meals and lodging in the same manner as for an eligible recipient, for one attendant if the medical necessity for the attendant is certified in writing by the eligible recipient's medical provider or the eligible recipient who is receiving medical service is under 18 years of age. 8.302.1.10 ELIGIBLE PROVIDERS:

A. Upon the approval of a New Mexico MAD provider participation agreement by MAD or its designee, a licensed practitioner or facility that meets applicable requirements is eligible to be reimbursed for furnishing covered services to an eligible program recipient. A provider must be enrolled before submitting a claim for payment to the appropriate MAD claims processing contractor. MAD makes available on the HCA/MAD website, on other program-specific websites, or in hard copy format, information necessary to participate in health care programs administered by HCA or its authorized agents, including program rules, billings instructions, utilization review instructions, and other pertinent materials. When enrolled, providers receive instructions on how to access these documents. It is the provider's responsibility to access these instructions or ask for paper copies to be provided, to understand the information provided and to comply with the requirements. The provider must contact HCA or its authorized agents to request hard copies of any program rules manuals, billing and utilization review instructions, and other pertinent materials and to obtain answers to questions on or not covered by these materials. To be eligible for reimbursement, a provider is bound by the provisions of the MAD provider participation agreement and all applicable statutes, regulations and executive orders.

B. When services are billed to and paid by a coordinated services contractor authorized by HCA, the provider must also enroll as a provider with the coordinated services contractor and follow that contractor's instructions for billing and for authorization of services.

[8.302.1.10 NMAC - Rp, 8.302.1.10 NMAC, 7/1/2024]

8.302.1.11 PROVIDER RESPONSIBILITIES AND REQUIREMENTS: A provider who furnishes services to a medicaid eligible recipient agrees to comply with all federal and state laws, regulations, and executive orders relevant to the provision of services. A provider also must conform to MAD program rules, instructions, and program directions and billing instructions, as updated. A provider is also responsible for following coding manual guidelines and CMS correct coding initiatives, including not improperly unbundling or upcoding services. A provider must verify that individuals are eligible for a specific health care program administered by the HCA and its authorized agents and must verify the eligible recipient's enrollment status at the time services are furnished. A provider must determine if an eligible recipient has other health insurance. A provider must maintain records that are sufficient to fully disclose the extent and nature of the services provided to an eligible recipient.

A. Eligibility determination: A provider must verify recipient eligibility prior to providing services and verify that the recipient remains eligible throughout periods of continued or extended services.

(1) A provider may verify eligibility through several mechanisms, including using the automated voice response system, contacting MAD or designated contractor eligibility help desks, contracting with an eligibility verification system vendor, or by using the New Mexico medicaid portal.

(2) An eligible recipient becomes financially responsible for a provider claim if the eligible recipient:

(a) fails to identify themselves as a MAD eligible recipient; or

(b) fails to state that an eligibility determination is pending; or

(c) fails to furnish MAD identification before the service is rendered and MAD denies payment because of the resulting inability of the provider to be able to file a claim timely; or

(d) receives services from a provider that lacks MAD enrollment, is not eligible to provide the services or does not participate in MAD programs.

B. Requirements for updating information: A provider must furnish MAD or the appropriate MAD claims processing contractor with complete information on changes in their address, license, certification, board specialties, corporate name or corporate ownership, and a statement as to the continuing liability of the provider for any recoverable obligation to MAD which occurred or may have occurred prior to any sale, merger, consolidation, dissolution or other disposition of the provider or person. MAD or the appropriate MAD claims processing contractor must receive this information at least 60 calendar days before the change. Any payment made by MAD based upon erroneous or outdated information is subject to recoupment or provider repayment. The provider must provide MAD with information, in writing, updating their provider participation agreement of any conviction of delineated criminal or civil offenses against the provider or parties with direct or indirect ownership or controlling interest within 10 calendar days after the conviction.

C. Additional requirements: A provider must meet all other requirements stated in the program rules, billing instructions, manual revisions, supplements, and signed application forms or re-verification forms, as updated. MAD may require a letter of credit, a surety bond, or a combination thereof, from the provider. The letter of credit, surety bond or combination thereof may be required if any one of the following conditions is met:

(1) the provider is the subject of a state or federal sanction or of a criminal, civil, or departmental proceeding in any state;

(2) a letter of credit, surety bond, or any combination thereof is required for each provider of a designated provider type;

(3) the provider cannot reasonably demonstrate that they have assumed liability and are responsible for paying the amount of any outstanding recoveries to MAD as the result of any sale, merger, consolidation, dissolution, or other disposition of the provider or person; or

(4) the secretary determines that it is in the best interest of MAD to do so, specifying the reasons.

[8.302.1.11 NMAC - Rp, 8.302.1.11 NMAC, 7/1/2024]

8.302.1.12 ELIGIBLE MEDICAID RECIPIENTS: To comply with Title XIX of the Social Security Act, as amended, MAD is required to serve certain groups of eligible recipients and has the option of paying for services provided to other eligible recipient groups 42 CFR 435.1. MAD is also required to pay for emergency services furnished to non-citizens residing in New Mexico who are not lawfully admitted for permanent residence but who otherwise meet the eligibility requirements. Coverage is restricted to those services necessary to treat an emergency medical condition, which includes labor and delivery services. See 8.325.10.3 NMAC.

A. Recipient eligibility determination: To be eligible to receive MAD benefits, an applicant/recipient must meet general eligibility or resource and income requirements. These requirements vary by category of eligibility and may vary between health care programs. See 8.200 NMAC for information on medicaid eligibility requirements.

(1) An otherwise eligible recipient who is under the jurisdiction or control of the correctional system or resides in a public institution is not eligible for medicaid.

(2) MAD eligibility determinations are made by the following agencies:

(a) the staff of the income support division (ISD) county offices determines eligibility for medicaid categories of eligibility;

(b) the staff of the New Mexico children, youth and families department (CYFD) determines eligibility for child protective services, adoptive services and foster care children;

(c) the staff of the social security administration determines eligibility for social security income (SSI); and

(d) the staff of a federally qualified health center, a maternal and child health services block grant program, the Indian health service, and other designated agents make presumptive eligibility determinations.

B. Recipient freedom of choice: Unless otherwise restricted by specific health care program rules, an eligible recipient has the freedom of choice to obtain services from in-state and border providers who meet the requirements for MAD provider participation. Some restrictions to this freedom of choice apply to an eligible recipient who is assigned to a provider or providers in the medical management program (45 CFR 431.54 (e)). See 301.5 NMAC, *Medical Management.* Some restrictions to this freedom of choice may also apply to purchases of medical devices, and laboratory and radiology tests and other services and items as allowed by federal law (42 CFR 431.54 (d)).

C. Recipient identification: An eligible recipient must present all health program identification cards or other eligibility documentation before receiving services and with each case of continued or extended services.

(1) A provider must verify the eligibility of the recipient to assure the recipient is eligible on the date the services are provided. Verification of eligibility also permits the provider to be informed of any restrictions or limitations on services associated with the recipient's eligibility; of the applicability of co-payments on services; of the need for the eligible recipient's care to be coordinated with or provided through a managed care organization, a hospice provider, a PACE provider, a medical management provider, or similar health care plan or provider. Additionally, information on medicare eligibility and other insurance coverage may be provided.

(2) An eligible recipient whose health care program coverage or benefits may be limited include:

(a) qualified medicare beneficiary (QMB) recipient; and

(b) family planning benefits.

8.302.1.13 PATIENT SELF DETERMINATION ACT: A hospital, nursing facility, intermediate care facility for individuals with intellectual disabilities, hospice agency and home health agency is required to give an eligible recipient or personal representative information about their right to make their own health decisions, including the right to accept or refuse medical treatment, pursuant to the Omnibus Budget Reconciliation Act (OBRA) of 1990. An eligible recipient is not required by this legislation to execute advance directives. Advance directives, such as living wills or durable power of attorney documents, must be established in a manner which is recognized under New Mexico state law. See applicable state law. A health care provider cannot object on the basis of conscience when an eligible recipient or personal representative wishes to implement an advance directive.

A. Information requirements: At the time of admission, a provider is required to provide written information to an adult eligible recipient or personal representative concerning their right to do the following:

(1) make decisions about their medical care;

(2) accept or refuse medical or surgical treatment;

(3) execute advance directives;

(4) execute their rights under HIPAA; and

(5) if an eligible recipient who is already incapacitated is admitted, the provider must provide their personal representatives with this information; if an eligible recipient is no longer incapacitated, the provider must discuss these rights with the eligible recipient.

B. Policies, rules and procedures: A provider must give written information to an eligible adult recipient or their personal representative about provider rules and procedures concerning advance directive rights. A provider must verify that the advance directive complies with state law.

C. Documentation requirements: A provider must document in each eligible recipient's medical record whether their personal representative has established an advance directive. If the eligible recipient or their personal representative presents an advanced directive, a provider must comply with the terms of the document, as directed by state law. If an eligible recipient is incapacitated, unable to communicate, or their personal representative does not present an advance directive, the provider must document that the eligible recipient was unable to receive information or communicate whether advance directives exist. A provider must inform the eligible recipient or their personal representative that it furnishes information and proper forms for completion of advance directives.

D. Provision of care: A provider must not condition the provision of care or discriminate against an eligible recipient based on whether they have established advance directives. If an eligible recipient is entitled to necessary care ordered by a physician, which providers under normal procedures must furnish, care cannot be delayed while waiting for the execution of an advance directive. Once the existence of an advance directive is documented, the directive takes precedence over normal procedures.

E. Changing the advanced directives: A provider must inform an eligible recipient or their personal representative that they have a right to reaffirm an advance directive or change an advance directive at any time and in any manner, including oral statements.

[8.302.1.13 NMAC - Rp, 8.302.1.13 NMAC, 7/1/2024]

8.302.1.14 NONDISCRIMINATION: A provider must furnish covered services to an eligible recipient in the same scope, quality and manner as provided to the general public. Within the limits of medical assistance programs, a provider may not discriminate on the basis of race, color, national origin, sex, gender, age, ethnicity,

religion, sexual orientation, sexual preference, health status, disability, marital status, political belief, or source of payment, (45 CFR 80.3 (a)(b); 45 CFR 84.52 (a); 42 CFR 447.20; and PL 101-366, 104 Stat. 327 (1990)).

8.302.1.15 BILLING AND CLAIMS PROCESSING: Reimbursement to a provider for services or procedures is based on the MAD reimbursement fee schedule, reimbursement rate, or reimbursement methodology in place at the time the services were furnished by the provider. A provider who furnishes services to an eligible recipient agrees to accept the amount paid by MAD as payment in full, except as otherwise allowed by rule or regulation (42 CFR 447.15).

A. Requirements for reimbursement: A provider is reimbursed for performing a service or procedure only if any required prior authorization, documentation, certifications, or acknowledgements are submitted with the claim and the claim is received by the appropriate claims processing contractor within the filing limits.

B. Electronic billing requirements: Effective December 1, 2008, electronic billing of claims is mandatory unless an exemption has been allowed by MAD. Electronic billing improves the accuracy of claims submission and payment; provides consistency in billing information; and improves the speed of payment. Exemptions will be given on a case by case basis with consideration given to barriers the provider may face in billing electronically, including when volumes are so small that developing electronic submission capability is impractical. The requirement for electronic submission of claims does not apply to situations for which paper attachments must accompany the claim form.

C. Responsibility for claims: A provider is responsible for all claims submitted under their national provider identifier (NPI) or other provider number including responsibility for accurate coding that represents the services provided without inappropriately upcoding, unbundling, or billing mutually exclusive codes as indicated by published coding manuals, directives, and the CMS correct coding initiative.

D. No billing of recipients or third parties: With the exception of WDI and SCHIP or other specified program co-payments or cost-sharing, a provider may not bill, turn over to collection, or accept payment from an eligible recipient, their personal representative or other third parties determined to be legally responsible for the balance of a claim except as specifically allowed by MAD regulations. Following MAD payment, a provider cannot seek additional payment from an eligible recipient or their personal representative in addition to the amount paid by MAD. Following MAD denial of payment due to provider administrative error in filing a claim, a provider cannot seek payment from an eligible recipient or their personal representative or turn the balance over to collection. See 8.302.3 NMAC, *Third Party Liability Provider Responsibilities*.
[8.302.1.15 NMAC - Rp, 8.302.1.15 NMAC, 7/1/2024]

8.302.1.16 ACCEPTANCE OF RECIPIENT OR THIRD PARTY PAYMENTS: A provider may only bill an eligible recipient or accept payment for services if all of the following requirements are satisfied:

B. The eligible recipient is provided with information by the provider regarding the necessity, options, and charges for the service, and of the option of going to a provider who accepts MAD payment.

C. The eligible recipient still agrees in writing to have specific services provided with the knowledge that he will be financially responsible for payment.

(42 CFR 431.107(b)). Services billed to MAD not substantiated in the eligible recipient's records are subject to recoupment. Failure to maintain records for the required time period is a violation of the Medicaid Provider Act, Section 27-11-1, et. seq. NMSA 1978, and a crime punishable under the Medicaid Fraud Act, Section 30.44-5 NMSA 1978. See 8.351.2 NMAC, *Sanctions and Remedies*.

A. Detail required in records: Provider records must be sufficiently detailed to substantiate the date, time, eligible recipient name, rendering, attending, ordering or prescribing provider; level and quantity of services; length of a session of service billed, diagnosis and medical necessity of any service.

(1) When codes, such as the international classification of disease (ICD) or current procedural terminology (CPT), are used as the basis for reimbursement, provider records must be sufficiently detailed to substantiate the codes used on the claim form.

(2) Treatment plans or other plans of care must be sufficiently detailed to substantiate the level of need, supervision, and direction and service(s) needed by the eligible recipient.

B. Documentation of test results: Results of tests and services must be documented, which includes results of laboratory and radiology procedures or progress following therapy or treatment.

C. Services billed by units of time: Services billed on the basis of time units spent with an eligible recipient must be sufficiently detailed to document the actual time spent with the eligible recipient and the services provided during that time unit.

D. Recipient funds accounting systems: If an eligible recipient entrusts their personal funds to a nursing facility, intermediate care facility for the intellectually disabled, or swing bed hospital, or any other facility, the facility provider must establish and maintain an acceptable system of accounting. See 42 CFR 445.22.

E. Record retention: A provider who receives payment for treatment, services, or goods must retain all medical and business records relating to any of the following for a period of at least six years from the payment date:

Confidential medical information regarding medicaid information on the applicant or eligible recipient must be released by providers to MAD, and to other state or federal agencies, or their employees at no cost when:

A. the agency is involved in the administration of medicaid;

B. the information is to be used to establish eligibility, determine the amount of assistance or provide services related to medicaid;

C. the agency is subject to the same standards of confidentiality as MAD; and

D. the agency has the actual consent of applicant or eligible recipient or their personal representative for release of the information, or consent is obtained when an eligible recipient or their personal representative or a member of the assistance group makes application for benefits or services with the HCA.

[8.302.1.18 NMAC - Rp, 8.302.1.18 NMAC, 7/1/2024]

8.302.1.19 PROVIDER DISCLOSURE: A provider must furnish MAD with the following information. See 42 CFR 431.107(b)(2)(3): name and address of each person with an ownership or controlling interest in the entity or in any subcontractor in which the entity has a direct or indirect ownership interest totaling five percent or more, and any relationship (spouse, child or sibling) of these persons to another; name of any other entity in which a person with an ownership or controlling interest in the disclosing entity also has an ownership or controlling interest; name of any person with an ownership or controlling interest in the entity who has been convicted of a criminal offense related to that person's involvement in any program established under the medicare or medical assistance programs; and name of any provider who employs or uses the services of an individual who, at any time during the year preceding this employment, was employed in a managerial, accounting, auditing or similar capacity, by an agency or organization which currently serves or at any time during the preceding year served as a medicare or MAD fiscal intermediary or carrier for the provider. A provider must notify MAD of any change in the status of these disclosure provisions.

A. (3) MAD records and other documentation needed by MAD or its designee must be available within a defined period, upon request.

B. Penalties: MAD suspends payment for services until the required statements are furnished by the provider.

C. Conflict of interest: MAD does not enter into a provider participation agreement or other contract with a public officer, employee of the state, legislator, or business in which the individual has a substantial interest, unless the individual discloses their substantial interest and provider participation agreement is accepted by MAD and any other contract is awarded pursuant to the state procurement code [Section 10-16-7 NMSA 1978 (Repl. Pamp. 1993)].

[8.302.1.19 NMAC - Rp, 8.302.1.19 NMAC, 7/1/2024]

8.302.1.20 TERMINATION OF PROVIDER STATUS:

A. Provider status may be terminated if the provider or MAD gives the other written notice of termination at least 60 calendar days before the effective termination date.

(1) Facility provider must also give at least 15 calendar days notice to the public by publishing a statement of the date services are no longer available at the facility in one or more newspapers of general circulation within the affected county or region.

(2) Normal termination and notice limits do not apply if the state survey agency or health care financing administration determines that the health and safety of residents in a nursing facility or intermediate care facility for the intellectually disabled or the children, youth and families department determines that the health and safety of children or adolescents in a residential treatment center, group home, or treatment foster care are in jeopardy.

8.302.4.2 SCOPE: The rule applies to the general public.
[8.302.4.2 NMAC - Rp 8.302.4.2 NMAC, 7/1/2024]

8.302.4.3 STATUTORY AUTHORITY: The New Mexico medicaid program and other health care programs are administered pursuant to regulations promulgated by the federal department of health and human services under the Social Security Act as amended, or by state statute. See Section 27-2-12 et seq. NMSA 1978. Section 9-8-1 et seq. NMSA 1978 establishes the health care authority (HCA) as a single, unified department to administer laws and exercise functions relating to health care facility licensure and health care purchasing and regulation.
[8.302.4.3 NMAC - Rp 8.302.4.3 NMAC, 7/1/2024]

8.302.4.4 DURATION: Permanent.
[8.302.4.4 NMAC - Rp 8.302.4.4 NMAC, 7/1/2024]

8.302.4.5 EFFECTIVE DATE: July 1, 2024, unless a later date is cited at the end of a section.
[8.302.4.5 NMAC - Rp 8.302.4.5 NMAC, 7/1/2024]

8.302.4.6 OBJECTIVE: The objective of this rule is to provide instruction for the service portion of the New Mexico medical assistance programs.
[8.302.4.6 NMAC - Rp 8.302.4.6 NMAC, 7/1/2024]

8.302.4.7 DEFINITIONS: [**RESERVED**]

8.302.4.8 MISSION STATEMENT: To reduce the impact of poverty on people living in New Mexico and to assure low income and individuals with disabilities in New Mexico equal participation in the life of their communities.
[8.302.4.8 NMAC - Rp 8.302.4.8 NMAC, 7/1/2024]

8.302.4.9 OUT-OF-STATE AND BORDER AREA PROVIDERS: Border area services are those that are rendered within 100 miles of the New Mexico state border (Mexico excluded). Out-of-state services are those that are rendered in an area more than 100 miles from the New Mexico border (Mexico excluded). To help New Mexico eligible recipients receive medically necessary services, the medical assistance division (MAD) pays for border area services to the same extent and subject to the same rules and requirements that such services are covered when provided within the state. MAD pays for out-of-state services as described under 8.302.4.12 NMAC, *covered out-of-state services.*
[8.302.4.9 NMAC - Rp 8.302.4.9 NMAC, 7/1/2024]

8.302.4.10 ELIGIBLE PROVIDERS: Health care to eligible recipients is furnished by a variety of providers and provider groups. The reimbursement and billing for these services is administered by MAD. Upon approval of a New Mexico MAD provider participation agreement by MAD or its designee, licensed practitioners, facilities and other providers of services that meet applicable requirements are eligible to be reimbursed for furnishing covered services to eligible recipients. A provider must be enrolled before submitting a claim for payment to the MAD claims processing contractors. MAD makes available on the HCA/MAD website, on other program-specific websites, or in hard copy format, information necessary to participate in health care programs administered by HCA or its authorized agents, including program rules, billing instructions, utilization review instructions, and other pertinent materials. When enrolled, a provider receives instruction on how to access these documents. It is the provider's responsibility to access these instructions, to understand the information provided and to comply with the requirements. The provider must contact HCA or its authorized agents to obtain answers to questions related to the material or not covered by the material. To be eligible for reimbursement, a provider must

adhere to the provisions of the MAD provider participation agreement and all applicable statutes, regulations, and executive orders. MAD or its selected claims processing contractor issues payments to a provider using electronic funds transfer (EFT) only. The providers listed in Subsections A-C of 8.302.4.10 NMAC, *eligible providers*, are eligible for a provider participation agreement, bill and receive reimbursement for furnishing medical services:

A. Eligible providers include border area and out-of-state providers licensed by or certified by their respective states to practice medicine or osteopathy [42 CFR Section 440.50 (a)(1)(2)]; and other providers licensed or certified by their state to perform services equivalent to those covered by the medical assistance programs in New Mexico; practices or groups formed by these individuals may also receive reimbursement for services.

B. Eligible providers include border area providers within 100 miles of the New Mexico state border (Mexico excluded), subject to the rules governing the provision of services for an in-state provider.

C. Eligible providers include out-of-state providers more than 100 miles from the New Mexico state border (Mexico excluded), subject to the rules governing the provision of services for an in-state provider and any additional rules that may be specified for the specific services and providers within this manual.

[8.302.4.10 NMAC - Rp 8.302.4.10 NMAC, 7/1/2024]

8.302.4.11 PROVIDER RESPONSIBILITIES:

A. A provider who furnishes services to a medicaid or other health care program eligible recipient must comply with all federal and state laws, regulations and executive orders relevant to the provision of services as specified in the MAD provider participation agreement. A provider also must conform to MAD program rules and instructions as specified in the provider rules manual and its appendices, and program directions and billing instructions, as updated. A provider is also responsible for following coding manual guidelines and the centers for medicaid and medicare (CMS) correct coding initiatives, including not improperly unbundling or upcoding services. When services are billed to and paid by a coordinated services contractor authorized by HCA, the provider must follow that contractor's instructions for billing and for authorization of services.

B. A provider must verify that an individual is eligible for a specific health care program administered by the HCA and its authorized agents, and must verify the eligible recipient's enrollment status at the time services are furnished. A provider must determine if an eligible recipient has other health insurance. A provider must maintain records that are sufficient to fully disclose the extent and nature of the services provided to an eligible recipient.

C. When services are billed to and paid by a MAD fee-for-service coordinated services contractor authorized by HCA, under an administrative services contract, the provider must also enroll as a provider with the coordinated services contractor and follow that contractor's instructions for billing and for authorization of services.

[8.302.4.11 NMAC - Rp 8.302.4.11 NMAC, 7/1/2024]

8.302.4.12 COVERED OUT-OF-STATE SERVICES: MAD covers services and procedure furnished by a provider located within 100 geographical miles of the New Mexico border, even though the road miles may be greater than 100 miles, to the same extent and using the same coverage rules as for an in-state provider. See 8.302.4.9 NMAC, *out of state and border area providers*. When it is the general practice for an eligible recipient in a New Mexico locality to access medical services in a location more than 100 geographical miles from the New Mexico border, MAD will treat that out-of-state location as a border area. MAD covers services and procedures furnished by a provider more than 100 geographical miles from the New Mexico border, excluding Mexico, to the extent and using the same coverage rules as for in-state provider when one or more of the following conditions are met.

A. An eligible recipient is out-of-state at the time the services are needed and the delivery of services is of an emergent or urgent nature or if the eligible recipient's health would be endangered by traveling back to New Mexico. Services must be medically necessary to stabilize the eligible recipient's health and prevent significant adverse health effects, including preventable hospitalization. Claims for such services are subject to pre-payment or post-payment reviews to assure the emergent or urgent need or medical necessity of the services.

B. On-going-services provided by a medical assistance program within the state continue to be necessary when the eligible recipient is visiting another state.

C. Care is medically necessary for an eligible recipient that is placed by the state of New Mexico in foster care in an out-of-home placement or in an institution. Care is medically necessary for an eligible recipient that was adopted from New Mexico and resides out-of-state. If the agreement with the other state requires that state's medicaid program pay for covered services, MAD will only consider payment when a service is not covered by the other state and the eligible recipient would be eligible for that service if living in New Mexico.

D. Durable medical equipment, medical supplies, prosthetics or orthotics are purchased from out-of-state vendors.

E. Clinical laboratory tests, radiological interpretations, professional consultations or other services are performed by out-of-state laboratories but do not require the eligible recipient to leave the state.

F. Medical services or procedures considered medically necessary are not available in the state of New Mexico. All services that are not available in New Mexico require prior authorization when provided by an out-of-state provider. An out-of-state service may be limited to the closest provider or an otherwise economically prudent choice of provider capable of rendering the service.

G. Services, such as personal assistance, are needed by an eligible recipient out-of-state if that recipient is eligible to receive services through a medicaid home and community-based services waiver program and is traveling to another state.

[8.302.4.12 NMAC - Rp 8.302.4.12 NMAC, 7/1/2024]

8.302.4.13 NONCOVERED SERVICES: Services furnished by an out-of-state or border provider are subject to the limitations and coverage restrictions which exist for other services rendered in-state as stated in the relevant administrative, provider, and other services sections of the MAD program policy manual. In addition, MAD programs do not cover the following specific services when furnished by an out-of-state or border provider:

A. services furnished outside the boundaries of the United States; and

B. services furnished in an out-of-state or border area nursing facility or intermediate care facility for the mentally retarded.

[8.302.4.13 NMAC - Rp 8.302.4.13 NMAC, 7/1/2024]

8.302.4.14 OUT-OF-STATE HOSPITAL SERVICES: All out-of-state hospital, and other residential service claims are subject to prepayment review or periodic re-authorization by MAD or its designee for medical necessity and length of stay, in addition to requiring authorization for the initial placement.

[8.302.4.14 NMAC - Rp 8.302.4.14 NMAC, 7/1/2024]

8.302.4.15 PRIOR AUTHORIZATION AND UTILIZATION REVIEW: All MAD services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished, and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Authorization and Utilization Review*. Once enrolled, a provider receives instructions on how to access utilization review documents necessary for prior approval and claims processing.

A. Prior authorization: Certain procedures or services can require prior approval from MAD or its designee. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process. A service provided through an out-of-state or border provider is subject to the same prior authorization and utilization review requirements, which exist for the service when not provided out-of-state.

B. Eligibility determination: Prior authorization of services does not guarantee an individual is eligible for medicaid and other health care programs. A provider must verify that an individual is eligible for a specific program at the time services are furnished and must determine if the eligible recipient has other health insurance.

C. Reconsideration: A provider who disagrees with prior authorization request denials and other review decisions can request a re-review and a re-consideration. See 8.350.2 NMAC, *Reconsideration of Utilization Review Decisions.*

[8.302.4.15 NMAC - Rp 8.302.4.15 NMAC, 7/1/2024]

8.302.4.16 OUT-OF-STATE BILLING OFFICES: Services furnished within the state or border areas are subject to the rules for in-state providers even if the billing or administrative office is outside the state.

[8.302.4.16 NMAC - Rp 8.302.4.16 NMAC, 7/1/2024]

8.302.4.17 REIMBURSEMENT: Reimbursement to an out-of-state or border area provider is made at the same rate as for an in-state provider except as otherwise stated in the relevant specific providers and services sections of the MAD program rules manual.

A. Unless payment for a service is made using a diagnosis related group or outpatient prospective payment system rate, reimbursement to a provider for covered services is made at the lesser of the following:

(1) the billed change which must be the provider's usual and customary charge for service; "usual and customary charge" refers to the amount which the individual provider charges the general public in the majority of cases for a specific procedure or service; or

(2) the MAD fee schedule for the specific service or procedure.

B. When a provider and an MCO are unable to agree to terms or fail to execute an agreement for any reason, the MCO shall be obligated to pay, and the provider shall accept, one hundred percent of the "applicable reimbursement rate" based on the provider type for services rendered under both emergency and non-emergency situations. The "applicable reimbursement rate" is defined as the rate paid by HCA to a provider participating in medicaid or other medical assistance programs administered by HCA and excludes disproportionate share hospital and medical education payments.

(3) Inpatient hospital visits are those services furnished to an individual as a "patient" of the FQHC. Therefore, FQHC services furnished off-site (including those furnished to a person who is an inpatient of a hospital or nursing facility) will be considered FQHC services only if the physician's agreement with the FQHC requires that they seek compensation from the FQHC. (Section 4704 c of OBRA '90, amended Section 1905 1,2.) (HCFA Letter #91-18 dated March 1991.)

B. Mid-level practitioners: Services furnished by a nurse practitioner, physician assistant, nurse midwife, or specialized nurse practitioner are covered as an FQHC core service if the service is:

D. Visiting nurse services: Visiting nurse services are covered if the FQHC is located in an area identified by the secretary of health and human services as having a shortage of home health agencies. No additional certification is required beyond the FQHC certification. To be covered, visiting nurse services must be:

(1) rendered to clients who meet criteria for home health services;

(3) furnished under a written plan of treatment that is established and signed by a supervising physician; the plan may also be established by a nurse practitioner, physician assistant, nurse midwife, or specialized nurse practitioner employed by or under contract with the FQHC; the plan must be reviewed every 60 days by the supervising physician and revised as the client's condition warrants;

(4) visiting nurse services do not include household and housekeeping services or other services that constitute custodial care.

E. Preventive services:

(1) Preventive primary services that an FQHC may provide are those services as defined in the 42 CFR 405.2448 and include:

(a) medical social services;

(b) nutritional assessment and referral;

(c) individual preventive health education;

(d) well-child care, including periodic screening, to include children's eye and ear examinations;

(e) prenatal and postpartum care;

(f) immunizations for children and adults, including tetanus-diphtheria booster and influenza vaccine;

(g) family planning services;

(q) for women only: PAP smears; clinical breast exams; referral for mammography; and thyroid function tests.

(2) Documentation of any service provided by the FQHC must be available in the client's record.

(3) Preventive primary services do not include eyeglasses, hearing aids, group or mass information programs, health education classes, or group education activities, including media productions and publications.

F. Pharmacy services: Pharmacy services and medical supplies are covered services and are included as an allowable cost if dispensed from an FQHC. An FQHC encounter for the provision of medical, behavioral health, and dental services includes related pharmacy services. The FQHC shall not bill a separate encounter for the provision of pharmacy services. To dispense medications, the FQHC must be licensed as a licensed drug clinic under the Pharmacy Practice Act.

G. Dental services: See 8.310.7 NMAC, *Dental Services*, for benefit coverage and service limitation. Dentists and dental hygienists providing services for an FQHC must provide services within the scope of their license as defined in the New Mexico Dental Health Care Act.

H. Case management: Targeted case management services are covered services and are subject to the same requirements that apply to providers who furnish case management services. 8.326.2 NMAC through 8.326.8 NMAC (MAD-771 - MAD-779).

[8.310.4.12 NMAC - Rp 8.310.4.12 NMAC, 7/1/2024]

8.310.4.13 UTILIZATION REVIEW: All medicaid services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Approval and Utilization Review*. Once enrolled, providers receive instruction and documentation forms necessary for prior approval and claims processing.

A. Prior approval: Certain procedures and services can require prior approval from MAD or its designee. Services for which prior approval was obtained remain subject to utilization review at any point in the payment process.

B. Eligibility determination: Prior approval of services does not guarantee that the individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid clients have other health insurance.

C. Reconsideration: Providers who disagree with prior approval request denials or other review decisions can request a re-review and a reconsideration. See 8.350.2 NMAC, *Reconsideration of Utilization Review Decisions.*

[8.310.4.13 NMAC - Rp 8.310.4.13 NMAC, 7/1/2024]

8.310.4.14 NON-COVERED SERVICES AND SERVICE LIMITATION: FQHC services are covered when provided in outpatient settings only, including a client's place of residence, which may be a skilled nursing facility or a nursing facility or other institution used as a client's home. FQHC services are not covered in a hospital as defined in section 1861(e)(1) of the Act.

A. Service limitations: An FQHC may be compensated for provision of other "ambulatory services" covered in the medicaid fee-for-service program (per the Balanced Budget Act of 1997). However, an FQHC must meet licensing and certification requirements for those services as specified in the applicable MAD policy manual section for the specific service.

B. Location of clinic:

(1) Permanent unit: Objects, equipment, and supplies necessary for the provision of services furnished directly by the FQHC must be housed in a permanent structure. Each unit must have individual FQHC certification.

(2) Mobile unit: The objects, equipment, and supplies necessary for the provision of services furnished by the FQHC must be housed in an FQHC mobile structure which has fixed, scheduled locations.

C. Other restrictions: FQHC service providers are subject to the limitations and coverage restrictions which exist for other medicaid services. See 8.301.3 NMAC, *General Non-covered Services.*

[8.310.4.14 NMAC - Rp 8.310.4.14 NMAC, 7/1/2024]

8.310.4.15 REIMBURSEMENT: FQHCs must submit claims for reimbursement on the UB-92 claim form or its successor. See 8.302.2 NMAC, *Billing for Medicaid Services*. Once enrolled, providers receive instructions on documentation, billing, and claims processing. Interim reimbursement for services provided by an FQHC is made by MAD based on submitted claims.

A. Initial rates: The initial interim rate for new FQHC providers will be the interim rate set by medicare.

B. Cost settlement:

(1) FQHCs must submit cost reports on an annual basis to MAD or its designee within the time frames specified by medicare. FQHCs will not be granted an extension to the cost report filing time frames.

(2) A final cost settlement based on the audit data will be made in accordance with delineated medicaid requirements or applicable medicare cost reimbursement principles when medicaid requirements are not specified. Final cost settlements are based on the allowable cost as audited or desk reviewed costs by MAD or its designee. "Allowable costs" are costs incurred by an FQHC which are reasonable in amount, proper and necessary for the efficient delivery of services by the FQHC (MAD or its designee will follow the HCFA Pub. 15-1 in determining allowable costs). The supporting documentation for "allowable costs" must be available upon request from MAD or its designee.

(3) MAD or its designee may reopen cost reports per HCFA Pub. 15-1 Section 2931 through 2932.1. Providers will be notified on a case-by-case basis thirty (30) days prior to any reopening. MAD uses the productivity standards used in the medicare cost report. However, MAD does not use the costs limits imposed by medicare. If an FQHC disagrees with an audit settlement, the provider can request a reconsideration. See 8.350.4 NMAC, *Reconsideration of Audit Settlement.*

(4) HCA or its designee will complete their initial review of cost settlement materials within 150 days of the receipt of all required information.

C. What constitutes a visit: A visit is a face-to-face encounter between a center client and a physician, physician assistant, nurse practitioner, nurse midwife, visiting nurse, qualified clinical psychologist or qualified clinical social worker. Encounters with more than one health professional and multiple encounters with the same health professional on the same day and at a single location constitute a single visit, except when one of the following conditions exist:

(1) after the first encounter, the client suffers illness or injury requiring additional diagnosis or treatment;

(2) the client has a dental visit, or medical visit and another health visit (e.g., a face-to-face encounter between the client and a clinical psychologist, clinical social worker, or other health professional for mental health services listed in Subsection C of 8.310.4.12 NMAC

D. Supplemental agreements: FQHCs which executed specific agreements with HCA will receive supplemental payments for services rendered to clients enrolled in managed care in the manner and amount specified under the terms of that agreement.

E. Termination or change of ownership: The HCA reserves the right to withhold payment on all current and pending claims until HCA rights to recoup all or portions of such payments is determined from final cost reports when a change of ownership occurs. Payment will not be withheld if HCA is informed in writing the current (new) owner or the previous owner agrees to be responsible for any potential recoupment.

8.311.2.7 DEFINITIONS: [**RESERVED**]

8.311.2.8 MISSION STATEMENT: To reduce the impact of poverty on people living in New Mexico by providing support services that help families break the cycle of dependency on public assistance.
[8.311.2.7 NMAC - Rp 8.311.2.7 NMAC, 7/01/2024]

8.311.2.9 HOSPITAL SERVICES: The New Mexico medical assistance division (MAD) pays for medically necessary health services furnished to eligible recipients. To help New Mexico eligible recipients receive necessary services, MAD pays for inpatient, outpatient, and emergency services furnished in general hospital settings.
[8.311.2.8 NMAC - Rp 8.311.2.8 NMAC, 7/01/2024]

8.311.2.10 ELIGIBLE PROVIDERS: Health care to eligible recipients is furnished by a variety of providers and provider groups. The reimbursement and billing for these services is administered by MAD. Upon approval of a New Mexico MAD provider participation agreement by MAD or its designee, licensed practitioners, facilities and other providers of services that meet applicable requirements are eligible to be reimbursed for furnishing covered services to eligible recipients. A provider must be enrolled before submitting a claim for payment to the MAD claims processing contractors. MAD makes available on the HCA/MAD website, on other program-specific websites, or in hard copy format, information necessary to participate in health care programs administered by HCA or its authorized agents, including program rules, billing instructions, utilization review instructions, and other pertinent materials. When enrolled, a provider receives instruction on how to access these documents. It is the provider's responsibility to access these instructions, to understand the information provided and to comply with the requirements. The provider must contact HCA or its authorized agents to obtain answers to questions related to the material. To be eligible for reimbursement, a provider must adhere to the provisions of the MAD provider participation agreement and all applicable statutes, regulations, and executive orders. MAD or its selected claims processing contractor issues payments to a provider using electronic funds transfer (EFT) only. Eligible providers include:

A. a general acute care hospital, rehabilitation, extended care or other specialty hospital:

(1) licensed by the New Mexico department of health (DOH), and
(2) participating in the Title XVIII (medicare) program or accredited by the joint commission (previously known as JCAHO accreditation);

B. a rehabilitation inpatient unit or a psychiatric unit in an inpatient hospital (referred to as a prospective payment system exempt unit (PPS-exempt));

C. a free-standing psychiatric hospital may be reimbursed for providing inpatient and outpatient services to an eligible recipient under 21 years of age; see 8.321.2 NMAC*, Inpatient Psychiatric Care in Free-Standing Psychiatric Hospitals;*

D. a border area and out-of-state hospital is eligible to be reimbursed by MAD if its licensure and certification to participate in its state medicaid or medicare program is accepted in lieu of licensing and certification by MAD; and

E. a hospital certified only for emergency services is reimbursed for furnishing inpatient and outpatient emergency services for the period during which the emergency exists.
[8.311.2.10 NMAC - Rp 8.311.2.10 NMAC, 7/01/2024]

8.311.2.11 PROVIDER RESPONSIBILITIES:

A. A provider who furnishes services to an eligible recipient must comply with all federal and state laws, regulations and executive orders relevant to the provision of services as specified in the MAD provider participation agreement. A provider also must conform to MAD program rules and instructions as specified in the provider rules manual and its appendices, as well as current program directions and billing instructions, as updated. A provider is also responsible for following coding manual guidelines and CMS correct coding initiatives, including not improperly unbundling or upcoding services.

B. A provider must verify that an individual is eligible for a specific health care program administered by the HCA and its authorized agents and must verify the eligible recipient's enrollment status at the time services are furnished. A provider must determine if an eligible recipient has other health insurance. A provider must maintain records that are sufficient to fully disclose the extent and nature of the services provided to an eligible recipient. See 8.302.1 NMAC, *General Provider Policies*.

C. A provider agrees to be paid by the MAD managed care organizations (MCOs) at any amount mutually-agreed between the provider and MCOs when the provider enters into contracts with MCOs contracting with HCA for the provision of managed care services to the MAD population.

(1) If the provider and the MCOs are unable to agree to terms or fail to execute an agreement for any reason, the MCOs shall be obligated to pay, and the provider shall accept, one hundred percent of the "applicable reimbursement rate" based on the provider type for services rendered under both emergency and non-emergency situations.

(2) The "applicable reimbursement rate" is defined as the rate paid by HCA to the provider participating in medicaid or other medical assistance programs administered by HCA and excludes disproportionate share hospital and medical education payments.

D. When services are billed to and paid by a MAD fee-for-service coordinated services contractor authorized by HCA, under an administrative services contract, the provider must also enroll as a provider with the coordinated services contractor and follow that contractor's instructions for billing and for authorization of services.
[8.311.2.11 NMAC - Rp 8.311.2.11 NMAC, 7/01/2024]

8.311.2.12 COVERED SERVICES: MAD covers inpatient and outpatient hospital, and emergency services which are medically necessary for the diagnosis, the treatment of an illness or injury or as required by the condition of the eligible recipient. MAD covers items or services ordinarily furnished by a hospital for the care and treatment of an eligible recipient. These items or services must be furnished under the direction of an enrolled MAD physician, podiatrist, or dentist with staff privileges in a hospital which is an enrolled MAD provider. Services must be furnished within the scope and practice of the profession as defined by state laws and in accordance with applicable federal and state and local laws and regulations.
[8.311.2.12 NMAC - Rp 8.311.2.12 NMAC, 7/01/2024]

8.311.2.13 PRIOR AUTHORIZATION AND UTILIZATION REVIEW: All MAD services are subject to utilization review for medical necessity and program compliance. Reviews may be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Authorization and Utilization Review*. It is the provider's responsibility to access these instructions or ask for paper copies to be provided, to understand the information provided, to comply with the requirements, and to obtain

answers to questions not covered by these materials. When services are billed to and paid by a coordinated services contractor authorized by HCA, the provider must follow that contractor's instructions for authorization of services.

A. Prior authorization: Certain procedures or services may require prior authorization from MAD or its designee. A procedure that requires prior authorization is primarily one for which the medical necessity may be uncertain, which may be for cosmetic purposes, or which may be of questionable effectiveness or long-term benefit.

(1) All transfers from one acute care DRG reimbursed hospital to another DRG reimbursed hospital.

(2) All inpatient stays for a PPS-exempt psychiatric unit of a general acute care hospital requires admission and continued stay reviews.

(3) All inpatient stays in a rehabilitation hospital, a PPS-exempt rehabilitation unit in a general acute care hospital, and an extended care or other specialty hospital requires admission and continued stay reviews.

(4) Outpatient physical, occupational, and speech therapies services require prior authorization.

(5) Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process.

B. Eligibility determination: Prior authorization of services does not guarantee that an individual is eligible for MAD services. A provider must verify that an individual is eligible for the MAD services at the time services are furnished and determine if an eligible recipient has other health insurance.

C. Consideration: A provider who disagrees with a prior authorization request denial or another review decision may request a re-review and a reconsideration. See *MAD-953, Reconsideration of Utilization Review Decisions.*

[8.311.2.13 NMAC - Rp 8.311.2.13 NMAC, 7/01/2024]

8.311.2.14 INPATIENT SERVICES: MAD coverage of some inpatient services may be conditional or limited.

A. Medically warranted days: A general hospital is not reimbursed for days of acute level inpatient services furnished to an eligible recipient as a result of difficulty in securing alternative placement. A lack of nursing facility placement is not sufficient grounds for continued acute-level hospital care.

B. Awaiting placement days:

(1) When the MAD utilization review (UR) contractor determines that an eligible recipient no longer meets the care criteria in a rehabilitation, extended care or other specialty hospital or PPS exempt rehabilitation hospital but requires a nursing facility level of care which may not be immediately located, those days during which the eligible recipient is awaiting placement in a lower level of care facility are termed "awaiting placement days". Payment to the hospital for awaiting placement days is made at the weighted average rate paid by MAD for the level of nursing facility services required by the eligible recipient (high NF or low NF).

(2) When the MAD UR contractor determines that a recipient under 21 years of age no longer meets acute care criteria and it is verified that an appropriate reviewing authority has made a determination that the eligible recipient requires a residential level of care which may not be immediately located, those days during which the eligible recipient is awaiting placement to the lower level of care are termed "awaiting placement days". MAD does not cover residential care for individuals over 21 years of age.

(3) Payment to the hospital for awaiting placement days is made at the weighted average rate paid by MAD for residential services that may have different levels of classification based on the medical necessity for the placement of the eligible recipient. See 8.302.5 NMAC, *Prior Authorization and Utilization Review*. A separate claim form must be submitted for awaiting placement days.

(4) MAD does not pay for any ancillary services for "awaiting placement days". The rate paid is considered all inclusive. Medically necessary physician visits or**,** in the case of the eligible recipient under 21 years of age requiring residential services, licensed Ph.D. psychologist visits, are not included in this limitations.

C. Private rooms: A hospital is not reimbursed for the additional cost of a private room unless the private room is medically necessary to protect the health of the eligible recipient or others.

D. Services performed in an outpatient setting: MAD covers certain procedures performed in an office, clinic, or as an outpatient institutional service which are alternatives to hospitalization. Generally, these procedures are those for which an overnight stay in a hospital is seldom necessary.

(1) An eligible recipient may be hospitalized if there is an existing medical condition which predisposes the eligible recipient to complications even with minor procedures.

(2) All claims for one- or two-day stays for hospitalization are subject to pre-payment or post-payment review.

E. Observation stay: If a physician orders an eligible recipient to remain in the hospital for less than 24 hours, the stay is not covered as inpatient admission, but is classified as an observation stay. An observation stay is considered an outpatient service.

(1) The following are exemptions to the general observation stay definition:

(a) the eligible recipient dies;

(b) documentation in medical records indicates that the eligible recipient left against medical advice or was removed from the facility by their legal guardian against medical advice;

(c) an eligible recipient is transferred to another facility to obtain necessary medical care unavailable at the transferring facility; or

(d) an inpatient admission results in delivery of a child.

(2) MAD or its designee determines whether an eligible recipient's admission falls into one of the exempt categories or considers it to be a one- or two-day stay.

(a) If an admission is considered an observation stay, the admitting hospital is notified that the services are not covered as an inpatient admission.

(b) A hospital must bill these services as outpatient observation services. However, outpatient observation services must be medically necessary and must not involve premature discharge of an eligible recipient in an unstable medical condition.

(3) The hospital or attending physician can request a re-review and reconsideration of the observation stay decision. See MAD 953*, Reconsideration of Utilization Review Decisions.*

(4) The observation stay review does not replace the review of one- and two-day stays for medical necessity.

(5) MAD does not cover medically unnecessary admissions, regardless of length of stay.

F. Review of hospital admissions: All cases requiring a medical peer review decision on appropriate use of hospital resources, quality of care or appropriateness of admission, transfer into a different hospital, and readmission are reviewed by MAD or its designee. MAD or its designee performs a medical review to verify the following:

(1) admission to acute care hospital is medically necessary;

(2) all hospital services and surgical procedures furnished are appropriate to the eligible recipient's condition and are reasonable and necessary to the care of the eligible recipient;

(3) patterns of inappropriate admissions and transfers from one hospital to another are identified and are corrected; hospitals are not reimbursed for inappropriate admissions or transfers; and

(4) the method of payment and its application by a hospital does not jeopardize the quality of medical care.

G. Non-covered services: MAD does not cover the following specific inpatient benefits:

(1) a hospital service which is not considered medically necessary by MAD or its designee for the condition of the eligible recipient;

(2) a hospital service that requires prior authorization for which the approval was not requested except in cases with extenuating circumstances as granted by MAD or its designee;

(3) a hospital service which is furnished to an individual who was not eligible for MAD services on the date of service;

(4) an experimental or investigational procedure, technology or therapy and the service related to it, including hospitalization, anesthesiology, laboratory tests, and imaging services; see MAD-765*, Experimental or Investigational Procedures or Therapies*;

(5) a drug classified as "ineffective" by the federal food and drug administration;

(6) private duty or incremental nursing services;

(7) laboratory specimen handling or mailing charges; and

(8) formal educational or vocational training services which relate to traditional academic subjects or training for employment.

H. Covered services in hospitals certified for emergency services-only: Certain inpatient and outpatient services may be furnished by a hospital certified to participate in the Title XVIII (medicare) program as an emergency hospital. MAD reimburses a provider only for treatment of conditions considered to be medical or surgical emergencies. "Emergency" is defined as a condition which develops unexpectedly and needs immediate medical attention to prevent the death or serious health impairment of the eligible recipient which necessitates the use of the most accessible hospital equipped to furnish emergency services.

(1) MAD covers the full range of inpatient and outpatient services furnished to an eligible recipient in an emergency situation in a hospital which is certified for emergency services-only.

(2) MAD reimbursement for emergency services furnished in a hospital certified for an emergency services-only is made for the period during which the emergency exists.

(a) Documentation of the eligible recipient's condition, the physician's statement that emergency services were necessary, and the date when, in the physician's judgment, the emergency ceased, must be attached to the claim form.

(b) An emergency no longer exists when it becomes safe from a medical standpoint to move the eligible recipient to a certified inpatient hospital or to discharge the eligible recipient.

(c) Reimbursement for services in an emergency hospital is made at a percentage of reasonable charges as determined by HCA. No retroactive adjustments are made.

I. Patient self determination act: An adult eligible recipient must be informed of their right to make health decisions, including the right to accept or refuse medical treatment, as specified in the Patient Self-Determination Act. See 8.302.1 NMAC*, General Provider Policies*.

J. Psychiatric services furnished to an eligible recipient under 21 years of age in PPS-exempt units of acute care hospitals: Services furnished to an eligible recipient must be under the direction of a physician. In the case of psychiatric services furnished to an eligible recipient under 21 years of age, these services must be furnished under the direction of board eligible/board certified psychiatrist, or a licensed psychologist working in collaboration with a similarly qualified psychiatrist. The psychiatrist must conduct an evaluation of the eligible recipient, in person, within 24 hours of admission. In the case of an eligible recipient under 12 years of age, the psychiatrist must be board eligible/board certified in child or adolescent psychiatry. The requirement for the specified psychiatrist for an eligible recipient under age 12 and under 21 years of age may be waived when all of the following conditions are met:

(1) the need for admission is urgent or emergent, and transfer or referral to another provider poses an unacceptable risk for adverse patient outcomes; and

(2) at the time of admission, a board eligible/board certified psychiatrist, or in the case of an eligible recipient under 12 years of age, a child psychiatrist is not accessible in the community in which the facility is located; and

(3) another facility which is able to furnish a board eligible/board certified psychiatrist, or in the case of an eligible recipient under 12 years of age, a child psychiatrist, is not available or accessible in the community; and

(4) the admission is for stabilization only and transfer arrangements to the care of a board eligible/ board certified psychiatrist, or in the case of an eligible recipient under 12 years of age, a child psychiatrist is made as soon as possible with the understanding that if the eligible recipient needs to transfer to another facility, the actual transfer will occur as soon as the eligible recipient is stable for transfer, in accordance with professional standards.

K. Reimbursement for inpatient services: MAD reimburses for inpatient hospital services using different methodologies. See 8.311.3 NMAC, *Methods and Standards for Establishing Payment Rates - Inpatient Hospital Services.*

(1) All services or supplies furnished during the hospital stay are reimbursed by the hospital payment amount and no other provider may bill for services or supplies; an exception to this general rule applies to durable medical equipment delivered for discharge and ambulance transportation.

(2) A physician's services are not reimbursed to a hospital under hospital services regulations, but may be payable as a professional component of a service. See 8.310.2 NMAC, *Medical Services Providers*, for information on the professional component of services.

(3) Transportation services are billed as part of a hospital claim if the hospital is DRG reimbursed and transportation is necessary during the inpatient stay.

(a) Transportation is included in a DRG payment when an eligible recipient is transported to a different facility for procedure(s) not available at the hospital where the eligible recipient is a patient.

(b) Exceptions are considered for air ambulance services operated by a facility when air transportation constitutes an integral part of the medical services furnished by the facility. See 8.324.7 NMAC, *Transportation Services.*

L. Reimbursement limitations for capital costs: Reimbursement for capital costs follows the guidelines set forth in HIM-15. See P.L. 97-248 (TEFRA). In addition, MAD applies the following restrictions for new construction:

(1) The total basis of depreciable assets does not exceed the median cost of constructing a hospital as listed in an index acceptable to MAD, adjusted for New Mexico costs and for inflation in the construction industry from the date of publication to the date the provider is expected to become a MAD provider.

(2) The cost of construction is expected to include only the cost of buildings and fixed equipment.

(3) A reasonable value of land and major movable equipment is added to obtain the value of the entire facility.

[8.311.2.14 NMAC - Rp 8.311.2.14 NMAC, 7/01/2024]

8.311.2.15 OUTPATIENT SERVICES: MAD covers outpatient services which are medically necessary for prevention, diagnosis or rehabilitation as indicated by the condition of an eligible recipient. Services must be furnished within the scope and practice of a professional provider as defined by state laws and regulations.

A. Outpatient covered services: Covered hospital outpatient care includes the use of minor surgery or cast rooms, intravenous infusions, catheter changes, first aid care of injuries, laboratory and radiology services, and diagnostic and therapeutic radiation, including radioactive isotopes. A partial hospitalization program in a general hospital psychiatric unit is considered under outpatient services. See 8.321.5 NMAC, *Outpatient Psychiatric Services and Partial Hospitalization*.

B. Outpatient noncovered services: MAD does not cover the following specific outpatient benefits:

(1) outpatient hospital services not considered medically necessary for the condition of the eligible recipient;

(2) outpatient hospital services that require prior approval for which the approval was not requested except in cases with extenuating circumstances as granted by MAD or its designee;

(3) outpatient hospital services furnished to an individual who was not eligible for MAD services on the date of service;

(4) experimental or investigational procedures, technologies or therapies and the services related to them, including hospitalization, anesthesiology, laboratory tests, and imaging services; see 8.325.6 NMAC, *Experimental or Investigational Procedures or Therapies*;

(5) drugs classified as "ineffective" by the federal food and drug administration;

(6) laboratory specimen handling or mailing charges; and

(7) formal educational or vocational services which relate to traditional academic subjects or training for employment.

C. MCO payment rates: If a provider and an MCO are unable to agree to terms or fail to execute an agreement for any reason, the MCO shall be obliged to pay, and the provider shall accept, one hundred percent of the “applicable reimbursement rate” based on the provider type for services rendered under both emergency and non-emergency situations. The “applicable reimbursement rate” is defined as the rate paid by HCA to the provider participating in medicaid or other medical assistance programs administered by HCA and excludes disproportionate share hospital and medical education payments.

D. Prior authorization: Certain procedures or services performed in outpatient settings can require prior approval from MAD or its designee. Outpatient physical, occupational, and speech therapies services require prior authorization.

E. Reimbursement for outpatient services: Effective November 1, 2010, outpatient hospital services are reimbursed using outpatient prospective payment system (OPPS) rates. The OPPS rules for payment for packaged services, separately reimbursed services are based on the medicare ambulatory payment classification (APC) methodology.

(1) Reimbursement for laboratory services, radiology services, and drug items will not exceed maximum levels established by MAD. Hospitals must identify drugs items purchased at 340B prices.

(2) Services or supplies furnished by a provider under contract or through referral must meet the contract services requirements and be reimbursed based on approved methods. See 8.302.2 NMAC, *Billing For Medicaid Services.*

(3) For critical access hospital providers, the MAD outpatient prospective payment system (OPPS) fee-for-service rate will be set based on the provider’s reported cost to charge ratio reported in the provider’s most recently filed cost report prior to February 1, 2012.

(4) For services not reimbursed using the outpatient prospective payment system (OPPS) methodology or fee schedule, reimbursement for a MAD fee-for-service provider will be made using the medicare allowable cost method, reducing medicare allowable costs by three percent. An interim rate of payment is established by MAD. A rate of payment for providers not subject to the cost settlement process is also established

by MAD to equal or closely approximate the final payment rates that apply under the cost settlement TEFRA principals. If the provider is not cost settled, the reimbursement rate will be at the provider's cost to charge ratio reported in the provider's most recently filed cost report prior to February 1, 2012. Otherwise, rates are established after considering available cost to charge ratios, payment levels made by other payers, and MAD payment levels for services of similar cost, complexity and duration.
[8.311.2.15 NMAC - Rp 8.311.2.15 NMAC, 7/01/2024]

8.311.2.16 EMERGENCY ROOM SERVICES: MAD covers emergency room services which are medically necessary for the diagnosis and treatment of medical or surgical emergencies to an eligible recipient and which are within the scope of the MAD program.

A. Covered emergency services: An emergency condition is a medical or behavioral health condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine could reasonably expect the absence of immediate medical attention to result in placing the health of the individual (or with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy, serious impairment to body function or serious dysfunction of any bodily organ or part.

B. Retrospective review: An emergency room service may be subject to prepayment or post-payment review. A provider, including an enrolled provider, a non-enrolled provider, a managed care organization provider, or an out of network provider cannot bill an eligible recipient for emergency room services including diagnostic and ancillary services which have been denied due to lack of medical necessity or lack of being an emergency except as specifically allowed by 8.302.2 NMAC, *Billing for Medicaid Services*. When an eligible recipient has identified himself or herself to a provider as a medicaid eligible recipient and is enrolled in a managed care organization, the provider of services must accept and adhere to the provisions of 42 CFR 438 Subpart C Enrollee Rights and Protections which state the administrative and payment responsibilities of a managed care organization and limit the financial responsibilities that can be passed on to an eligible recipient. Payment may be limited to medically necessary diagnostic and treatment services to sufficiently assess the recipient's condition and need for emergency services, the duration of a condition, and available alternatives to emergency room services.

C. Prior authorization: Some services or procedures performed in an emergency room setting need prior approval from MAD or its designee. Procedures that require prior approval in non-emergency settings also require prior approval in emergency settings.

D. Noncovered emergency services: MAD does not cover the following specific emergency services:

(1) diagnostic and other ancillary services which are not considered medically necessary as emergency services;

(2) emergency services furnished to individuals who were not eligible for MAD services on the date of service;

(3) experimental or investigational procedures, technologies or therapies and the services related to them, including hospitalization, anesthesiology, laboratory tests and imaging services; see 8.325.6 NMAC, *Experimental or Investigational Procedures or Therapies*;

(4) drugs classified as "ineffective" by the federal food and drug administration; and

(5) laboratory specimen handling or mailing charges.

E. Reimbursement for emergency room service: An emergency service furnished by an eligible provider is reimbursed as outpatient hospital services. See Subsection D of 8.311.2.15 NMAC, *reimbursement for outpatient services*.

(1) An emergency room service furnished in a DRG-reimbursed hospital in conjunction with an inpatient admission is included with the charges for inpatient care. In this case, a payment for an emergency room service is included in the DRG rate.

(2) A physician's service furnished in an emergency room is not reimbursed to a hospital but may be paid as a professional component of a service. See 8.310.2 NMAC, *Medical Services Providers*.

(3) A service furnished in an urgent care center of a hospital which does not meet the definition of an emergency, may not be submitted as an emergency room service.

8.313.2.10 ELIGIBLE PROVIDERS:

A. Upon approval of New Mexico medical assistance program provider participation agreements by New Mexico medical assistance division (MAD), intermediate care facilities for the mentally retarded (ICF-MR) which meet the following conditions for participation are eligible to be reimbursed for providing services to eligible medicaid recipients:

(1) the ICF-MR must be licensed and certified by the division of health improvement, health facility licensing and certification bureau of the HCA to meet the intermediate care facility requirements. See 42 CFR 483 Subpart I;

(2) the ICF-MR must comply with 8.313.2.17 NMAC, *Recipient Personal Fund Accounts*; and

(3) the ICF-MR must participate in the MAD utilization review process and must agree to operate in accordance with all policies and procedures of that system, including the performance of discharge planning.

B. Once enrolled, providers receive instruction on how to access medicaid and other medical assistance provider program policies, billing instructions, utilization review instructions, and other pertinent material. It is the provider's responsibility to access these instructions or ask for paper copies to be provided, to understand the information provided and to comply with the requirements. A. Providers who furnish services to HCA/MAD program eligible recipients must comply with all specified HCA/MAD participation requirements. See Section MAD-701, *General Provider Policies*.

B. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. Providers must maintain all medical or business records as necessary to fully disclose the type and extent of services provided to recipients. See Section MAD-701, *General Provider Policies*.

8.313.2.14 REQUIRED SERVICES: Medicaid does not reimburse ICFs-MR for furnishing services, unless they provide at least the following, see 42 CFR 483.440(a):

A. room and board;

B. continuous active treatment program, including aggressive, consistent implementation of a program of specialized and generic training, treatment, health services and related services that are directed towards the following:

(1) acquisition of the behaviors necessary for the recipient to function with as much self determination and independence as possible; and

(2) prevention or deceleration of regression or loss of current functional status.

C. personal assistance services 24 hours a day, seven days a week; personal assistance services are those services, other than professional nursing services, which may be needed by an individual because of age, infirmity, physical or mental limitations, or dependence in accomplishing the activities of daily living.

B. Medicaid does not pay for residents with a primary diagnosis of mental retardation who are receiving care in a general nursing facility setting. Coverage of these residents is included only when they are residing in an ICF-MR facility or in a nursing facility when they have a medical condition which by and of itself would justify NF care.
[8.313.2.16 NMAC - Rp 8.313.2.16 NMAC, 7/1/2024]

8.313.2.17 RECIPIENT PERSONAL FUND ACCOUNTS:

A. As a condition for participation in medicaid, each ICF-MR must establish and maintain an acceptable system of accounting for a resident's personal funds when a Title XIX (medicaid) recipient requests that their personal funds be cared for by the facility. See 42 CFR 483.10(c).

(1) Requests for ICFs-MR to care or not care for a resident's funds must be made in writing and secured by a request to handle recipient's fund form or a letter signed by the resident or their representative. The form or letter is retained in the recipient's file at the facility.

(2) A recipient's personal fund consists of a monthly maintenance allowance established by MAD. If the resident receives any income in excess of this allowance, the excess is applied to the cost of the resident's medical care at the facility. This excess is reported as a medical care credit to the facility by the local county income support division (ISD) office, when applicable.

(3) All facilities must have procedures on the handling of medicaid residents' funds. These procedures must not allow the facility to commingle medicaid residents' funds with facility funds.

(4) Facilities should use these medicaid guidelines to develop procedures for handling resident funds.

(5) Residents have the right to manage their financial affairs and no facility can require residents to deposit their personal funds with the facility.

(6) Facilities must purchase a surety bond or provide self-insurance to ensure the security of all personal funds deposited with the facility.

B. Fund custodians: Facilities must designate a full-time employee and an alternate to serve as fund custodians for handling all medicaid residents' money on a daily basis. Another individual, other than those employees who have daily responsibility for the fund, must do the following:

(1) reconcile balances of the individual medicaid residents' accounts with the collective bank account;

(2) periodically audit and reconcile the petty cash fund;

(3) authorize checks for the withdrawal of funds from the bank account; and

(4) facilities must ensure that there is a full, complete and separate accounting, based on generally accepted accounting principles, of each resident's personal funds entrusted to facilities on the resident's behalf.

C. Bank account: Facilities must establish a bank account for the deposit of all medicaid residents who request the facility to handle their funds. Residents' personal funds are held separately and not commingled with facility funds.

(1) Facilities must deposit any resident's personal funds of more than $50 in an interest bearing account that is separate from any of the facility operating accounts and which credits all interest earned on the resident's account to that account.

(2) Facilities must maintain residents' personal fund up to $50 in a non-interest bearing account or a petty cash fund. Residents must have convenient access to these funds.

(3) Individual financial records must be available on the request of residents or their legal representatives.

(4) Within 30 days of the death of residents whose personal funds are deposited with the facility, the ICF-MR must convey the resident's funds and a final accounting of these funds promptly to the individual or probate jurisdiction administering the resident's estate.

D. Establishment of individual accounts: Facilities must establish accounts for each medicaid resident in which all transactions can be recorded. Accounts can be maintained in a general ledger book, card file, or looseleaf binder.

(1) For money received, the source, amount, and date must be recorded. Residents or their authorized representatives must be given receipts for the money. The facility must retain a copy of the deposit in the resident's individual account file.

(2) The purpose, amount and date of all disbursements to or on behalf of residents must be recorded. Any money spent either on behalf of residents or withdrawn by residents or their representatives must be validated by receipts or signatures on individual ledger sheets.

(3) Facilities must notify each medicaid resident when the account balance is $200 less than the supplemental security income (SSI) resource limit for one person, specified in Section 1611(a)(3)(B) of the Social Security Act. If the amount of the account and the value of the resident's other nonexempt resources reach the SSI resource limit for one person, the resident can lose eligibility for medicaid or SSI.

E. Personal fund reconciliation: Facilities must balance the individual accounts, the collective bank accounts and the petty cash fund at least once a month. The facility must provide medicaid residents or their

authorized representatives with an accounting of the resident's funds at least once a quarter. Copies of individual account records can be used to provide this information.

F. Petty cash fund: Facilities must maintain a cash fund to accommodate the small cash requirements of medicaid residents. Five dollars ($5.00) or less per individual recipient may be adequate. The amount of money maintained in the petty cash fund is determined by the number of residents using the service and the frequency and availability of bank service. A petty cash fund ledger must be established to record all actions regarding money in this fund.

(1) To establish the fund, the ICF-MR must withdraw money from the collective bank account and keep it in a locked cash box.

(2) To use the petty cash fund, the following procedures should be established:

(a) recipients or their authorized representatives request small amounts of spending money;

(b) the amount disbursed is entered on individual ledger record; and

(c) the resident or representative signs an account record and receives a receipt.

(3) To replenish the fund, the following procedures should be used:

(a) money in the cash box is counted and added to the total of all disbursements made since the last replenishment; and

(b) the total of the disbursements plus cash on hand equals the beginning amount;

(c) money equal to the amount of disbursements is withdrawn from the collective bank account.

(4) To reconcile the fund, the following procedures must be established and used at least once each month:

(a) count money on hand; and

(b) total cash disbursed either from receipts or individual account records; the cash on hand plus total disbursements equals the petty cash total.

(5) To close the resident's account, ICFs-MR should do the following:

(a) enter date of and reason for closing the account;

(b) write a check against the collective bank account for the balance shown on the individual account record;

(c) get signature of the recipient or their authorized representative on the individual recipient account record, as receipt of payment;

(d) notify the local ISD office if closure is caused by the death of the recipient so that action can be taken to terminate assistance; and

(e) within 30 days of the death of a resident who had no relatives, the ICF-MR conveys the resident's funds and a final accounting of the funds to the individual or probate jurisdiction administering the resident's estate; see 42 CFR 483.10(c)(6).

G. Retention of records: All account records other than financial and statistical cost reports must be retained until after an audit is complete or six years, whichever is greater. For details on retention of financial and statistical cost reports, see Subsection D of 8.313.3.12 NMAC *Retention of Records*.

H. Non-acceptable uses of recipients' personal funds:

(1) Facilities cannot impose charges against a resident's personal funds for any item or service for which payment is made by medicaid or for any item residents or their representatives did not request. Facilities must not require residents or representative to request any item or services as a condition of admission or continued stay.

(2) Facilities must inform residents or their representative requesting non-covered items or services that there is a charge for the item and the amount of the charge.

(3) Non-acceptable uses of residents' personal funds include the following:

(a) payment for services or supplies covered by medicaid or medicare; see 8.313.3 NMAC, *Cost Related Reimbursement of Intermediate Care Facilities for the Mentally Retarded*;

(b) difference between the facility billed charge and the medicaid payment; or

(c) payment for services or supplies routinely furnished by the facility, such as linens and nightgowns.

I. State monitoring of residents' personal funds: Facilities must make all files and records involving residents' personal funds available for inspection by authorized state personnel or federal auditors.

(1) The division of health improvement, health facility licensing & certification bureau of the HCA verifies that facilities have a system of accounting for residents' personal funds, including the components described above. Failure to provide an acceptable accounting system constitutes a deficiency that must be corrected.

(2) The HCA or its designee can complete a thorough audit of residents' personal fund accounts at HCA's discretion.

8.313.2.18 LEVEL OF CARE DETERMINATION: Medical necessity, level of care or length of stay determinations, and on-site review activities are carried out in accordance with the MAD utilization review policy and procedures, authorized under Title XIX of the Social Security Act. See 8.350.3 NMAC, *Abstract Submission for Level of Care Determinations*.

[8.313.2.18 NMAC - Rp 8.313.2.18 NMAC, 7/1/2024]

8.313.2.19 PRIOR AUTHORIZATION AND UTILIZATION REVIEW: All HCA/MAD program services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Authorization and Utilization Review*. Once enrolled, providers receive instructions and documentation forms necessary for prior authorization and claims processing.

A. Prior authorization: Certain procedures or services can require prior authorization from MAD or its designee. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process.

B. Eligibility determination: Prior authorization of services does not guarantee that individuals are eligible for HCA/MAD programs. Providers must verify that individuals are eligible for HCA/MAD programs at the time services are furnished and determine if HCA/MAD program recipients have other health insurance.

C. Reconsideration: Providers who disagree with prior authorization request denials or other review decisions can request a re-review and a reconsideration. See Section MAD-953, *Reconsideration Of Utilization Review Decisions*.

[8.313.2.19 NMAC - Rp 8.313.2.19 NMAC, 7/1/2024]

8.313.2.20 RESERVE BED DAYS: Medicaid pays to hold or reserve a bed for a resident of an ICF-MR for the following reasons: 1) to allow the resident to make home and community visits, e.g., vacations; 2) to adjust to a new living environment; or 3) for hospitalizations.

A. Coverage of reserve bed days: Without prior authorization, medicaid covers 65 reserve bed days per calendar year for every resident for family visits, vacations, home visits, hospitalizations and adjustment to a new living environment. Reserve bed days used under this section require documentation in the facility or the client records for all absences from the facility. If the absence from the facility is not documented in the facility or the client records, medicaid will recoup the reserve bed day payment. If the resident is away from the facility with facility staff supervision, the absence is not considered a reserve bed day.

B. Prior authorization: After the 65 days have been expended, medicaid covers, with prior authorization, an additional six reserve bed days per calendar year for discharge planning.

(1) A resident’s discharge plan must clearly state the objectives, including how visits to alternative placements relate to discharge plan implementation.

(2) To obtain medicaid prior authorization, the facility must submit the following information in writing to MAD:

(a) the resident’s name;

(b) social security number;

(c) requested approval dates;

(d) copy of the discharge plan;

(e) name and address of the individual who will care for the resident; and

(f) written physician order for trial placement.

(3) Documentation of the resident’s absence from the facility for these six additional reserve bed days must be in the facility or the client records.

C. Documentation of reserve bed days: If residents leave the ICF-MR for any reason, documentation of the absence from the facility must be in the facility or client records. Hospitalizations must be documented in the client records at the ICF-MR.

D. Reimbursement and billing for reserve bed days: Reimbursement for reserve bed days to the ICF-MR is limited to the provider's level III rate. Billing for reserve bed days is based on the facility census, which runs from midnight to midnight. Medicaid pays for the admission day but does not pay for the discharge day. To receive payment for the additional six reserve bed days, which require prior authorization, the provider must attach a copy of the written notification of approval by MAD to the claim.
[8.313.2.20 NMAC - Rp 8.313.2.20 NMAC, 7/1/2024]

8.313.2.21 Reimbursement: Intermediate care providers must submit claims for reimbursement on the long term care turn around documents (TAD) or its successor. See Section MAD-702, *Billing for Medicaid Services*. Once enrolled, providers receive instructions on documentation, billing, and claims processing.

A. MAD reimburses ICF-MR the lower of the following:

(1) the provider's billed charges; or

(2) the prospective rate as constrained by the ceilings established by MAD. See 8.313.3 NMAC, *Cost Related Reimbursement of Intermediate Care Facilities for the Mentally Retarded*.

B. Reimbursement limitations: Medicaid pays only those ICF-MRs which meet the conditions for participation, specified in this section. Payments to ICF-MRs for services are limited to those services which are included as allowable service costs under the approved state plan. All claims for payment submitted to MAD are subject to utilization review and control.

C. **Reimbursement methodology:** See 8.313.3 NMAC, *Cost Related Reimbursement of Intermediate Care Facilities for the Mentally Retarded*.

8.313.3.7 DEFINITIONS:

A. Accrual basis of accounting: Under the accrual basis of accounting, revenue is recorded in the period when it is earned, regardless of when it is collected. The expenditures for expense and asset items are recorded in the period in which they are incurred, regardless of when they are paid.

B. Cash basis of accounting: Under the cash basis of accounting, revenues are recognized only when cash is received and expenditures for expense and asset items are not recorded until cash is disbursed for them.

C. Governmental institution: A provider of services owned and operated by a federal, state or local governmental agency.

D. Allocable costs: An item or group of items of cost chargeable to one or more objects, processes, or operations in accordance with cost responsibilities, benefits received, or other identifiable measure of application or consumption.

E. Applicable credits: Those receipts or types of transactions which offset or reduce expense items that are allocable to cost centers as direct or indirect costs. Typical examples of such transactions are: purchase discounts, rebates, or allowances; recoveries or indemnities on losses; sales of scrap or incidental services; adjustments of over-payments or erroneous charges; and other income items which serve to reduce costs. In some instances, the amounts received from the federal government to finance hospital activities or service operations should be treated as applicable credits.

G. Cost finding: A determination of the cost of services by the use of informal procedures, i.e., without employing the regular processes of cost accounting on a continuous or formal basis. It is the determination of the cost of an operation by the allocation of direct costs and the proration of indirect costs.

H. Cost center: A division, department, or subdivision thereof, a group of services or employees or both, or any other unit or type of activity into which functions of an institution are divided for purposes of cost assignment and allocations.

I. General service cost centers: Those cost centers which are operated for the benefit of other

J. **Special service cost centers:** Commonly referred to as ancillary cost center. Such centers usually provide direct identifiable services to individual patients, and include departments such as the physical therapy and supply departments.

K. **Inpatient cost centers**: Cost centers established to accumulate costs applicable to providing routine and ancillary services to inpatients for the purposes of cost assignment and allocation.

L. **Provider:** The entity responsible for the provision of services. The provider must have entered into a valid agreement with the medicaid program for the provision of such services.

[8.313.3.9 NMAC - Rp 8.313.3.9 NMAC, 7/1/2024]

8.313.3.10 GENERAL REIMBURSEMENT POLICY: The HCA will reimbursement ICF/MR facilities the lower of the following, effective September 1, 1990:

A. billed charges;

B. the prospective rate as constrained by the ceilings established by the HCA as described in this plan.

[8.313.3.10 NMAC - Rp 8.313.3.10 NMAC, 7/1/2024]

8.313.3.11 DETERMINATION OF ACTUAL, ALLOWABLE AND REASONABLE COSTS AND SETTING OF PROSPECTIVE RATES:

A. **Adequate cost data:**

(1) Providers receiving payment on the basis of reimbursable cost must provide adequate cost data based on financial and statistical records which can be verified by qualified auditors. The cost data must be based on an approved method of cost finding and on the accrual basis of accounting. However, where governmental institutions operate on a cash basis of accounting, cost data on this basis will be acceptable, subject to appropriate treatment of capital expenditures.

(2) The cost finding method to be used by ICF-MR providers will be the step-down method. This method recognizes that services rendered by certain non-revenue producing departments or centers are utilized by certain other non-revenue producing centers. All cost of non-revenue producing centers are allocated to all centers which they serve, regardless of whether or not these centers produce revenue. The cost of the non-revenue producing center serving the greatest number of other centers, while receiving benefits from the least number of centers, is apportioned first. Following the apportionment of the cost of the non-revenue producing center, that center will be considered "closed" and no further costs will be apportioned to it. This applies even though it may have received some service from a center whose cost is apportioned later. Generally when two centers render services to an equal number, that center which has the greater amount of expense will be allocated first.

B. Reporting year: For the purpose of determining a prospective per diem rate related to cost for ICF-MR services, the reporting year is the provider's fiscal year. The provider will submit a cost report each fiscal year.

C. Cost reporting:

(1) At the end of each fiscal year the provider will provide to the state agency or its audit agent an itemized list of allowable costs (financial and statistical report) on the N.M. title XIX cost reporting form. This cost report must be submitted on an annual basis to MAD or its designee within the time frames specified by medicare. ICFs-MR will not be granted an extension to the cost report filing time frames. Failure to file a cost

report within the specified time frames will result in suspension of title XIX payments.

(2) In the case of a change of ownership, the previous provider must file a final cost report as of the date of the change of ownership in accordance with reporting requirements specified in this plan. The HCA will withhold the last two month's payment to the previous provider as security against any outstanding obligations to the HCA. The provider must notify the HCA 60 days prior to any change of ownership.

D. Retention of records:

(1) Each ICF-MR provider shall maintain financial and statistical records of the period covered by a cost report for a period of not less than four years following the date of submittal of the cost report to the state agency. These records must be accurate and in sufficient detail to substantiate the cost data reported. The provider shall make such records available upon demand to representatives of the state agency, the state audit agent, or the department of health and human services.

(2) The state agency or its audit agent will retain all cost reports submitted by providers for a period of not less than three years following the date of final settlement of such report.

E. Audits: Audits will be performed in accordance with 42 CFR 447.202.

(1) Desk audit: Each cost report submitted will be subject to a comprehensive desk audit by the state audit agent. This desk audit is for the purpose of analyzing the cost report. After each desk audit is performed, the audit agent will submit a complete report of the desk review to the state agency.

(2) Field audit: Field audits will be performed on all providers at least once every three years. The purpose of the field audit of the provider's financial and statistical records is to verify that the data submitted on the cost report are in fact accurate, complete and reasonable. The field audits are conducted in accordance with generally accepted auditing standards and of sufficient scope to determine that only proper items of cost applicable to the service furnished were included in the provider's calculation of its cost. The field audit will also determine whether the expenses attributable to such proper items of cost were reasonably and accurately determined. After each field audit is performed, the audit agent will submit a complete report of the audit to the state agency. This report will meet generally accepted auditing standards and shall declare the auditor's opinion as to whether, in all material respects, the costs reported by the provider are allowable, accurate and reasonable in accordance with the state plan. These audit reports will be retained by the state agency for a period of not less than three years from the date of final settlement of such reports.

F. Overpayments: All overpayments found in audits will be accounted for on the HCFA 64 report to HHS no later than the second quarter following the quarter in which found.

G. Allowable costs: The following identifies costs that are allowable in the determination of a provider's actual, allowable and reasonable costs. All costs are subject to all other terms stated in the medicare provider reimbursement manual (PRM 15-1) that are not modified by these regulations.

(1) Cost of meeting certification standards: These will include all items of expense that the provider must incur under:

(a) 42 CFR 442;

(b) Sections 1861(j) and 1902(a)(28) of the Social Security Act;

(c) standards included in 42 CFR 431.610;

(d) cost incurred to meet requirements for licensing under state law which are necessary to provide ICF-MR service.

(2) Costs of routine services: Allowable costs shall include all items of expense that providers incur to provide routine services, known as operating costs. Operating costs include such things as:

(a) regular room;

(b) dietary and nursing services;

(c) medical and surgical supplies (including but not limited to syringes, catheters, ileostomy, and colostomy supplies);

(d) use of equipment and facilities;

(e) general services, including administration of oxygen and related medications, hand feeding, incontinency care, tray service and enemas;

(f) items furnished routinely and relatively uniform to all patients, such as patient gowns, water pitchers, basins and bed pans;

(g) items stocked at nursing stations or on the floor in gross supply and distributed or used individually in small quantities, such as alcohol and body rubs, applicators, cotton balls, bandaids, laxatives and fecal softeners, aspirin, antacids, OTC ointments, and tongue depressors;

(h) items which are used by individual patients but which are reusable and expected to be available, such as ice bags, bed rails, canes, crutches, walkers, wheelchairs, traction equipment, oxygen

administration equipment, and other durable equipment;

(i) special dietary supplements used for tube feeding or oral feeding even if prescribed by a physician;

(j) laundry services other than for personal clothing;

(k) oxygen for emergency use--the HCA will allow two options for the purchase of oxygen for patients for whom the attending physician prescribes oxygen administration on a regular or on-going basis:

(i) the provider may purchase the oxygen and include it as a reimbursable cost in its cost report; this is the same as the method of reimbursement for oxygen administration equipment; or

(ii) the HCA will make payment directly to the medical equipment provider in accordance with procedures outlined in medical assistance manual Section 754, medical supplies, and subject to the limitations on rental payments contained in that section.

(l) all services delivered in relation to active treatment, such as physical therapy, occupational therapy, speech therapy, psychology services, recreational therapy, etc.;

(m) managerial, administrative, professional and other services related to the providers operation and rendered in connection with patient care.

(3) Facility cost, for the purpose of specific limitations included in this plan, include only depreciation, lease costs, and long term interest.

(a) Depreciation is the systematic distribution of the cost or other basis of tangible assets, less salvage value, over the estimated life of the assets.

(i) The basis for depreciation is the historical cost of purchased assets or the fair market value at the time of donation for donated assets.

(ii) Historical cost is the actual cost incurred in acquiring and preparing an asset for use.

(iii) Fair market value is the price for which an asset would have been purchased on the date of acquisition in an arms-length transaction between an informed buyer and seller, neither being under any compulsion to buy or sell. Fair market value shall be determined by a qualified appraiser who is a registered member of the American institute of real estate appraisers (MAI) and who is acceptable to the HCA

(iv) In determining the historical cost of assets where an on-going facility is purchased, the provisions of medicare provider reimbursement manual PRM 15-1 will apply.

(v) Depreciation will be calculated using the straight-line method and estimated useful lives approximating the guidelines published in American hospital association useful lives guide.

(b) Long-term interest is the cost incurred for the use of borrowed funds for capital purposes, such as the acquisition of facility, equipment, improvements, etc., where the original term of the loan is more than one year.

(c) Lease term will be considered a minimum of five years for purposes of determining allowable lease costs.

H. Non-allowable costs:

(1) Bad debts, charity, and courtesy allowances: Bad debts on non-title XIX program patients and charity and courtesy allowances shall not be included in allowable costs.

(2) Purchases from related organizations: Cost applicable to services, facilities, and supplies furnished to a provider by organizations related to the provider by common ownership or control shall not exceed the lower of the cost to the related organization or the price of comparable services, facilities or supplies purchased elsewhere. Providers shall identify such related organizations and costs in the states' cost reports.

(3) Return on equity capital.

(4) Other cost and expense items identified as unallowable in PRM 15-1.

(5) Interest paid on overpayments as per MAD-702, *Billing for Medicaid Services*.

(6) Any civil monetary penalties levied in connection with licensure, certification, or fraud regulations.

[8.313.3.11 NMAC - Rp 8.313.3.11 NMAC, 7/1/2024]

8.313.3.12 ESTABLISHMENT OF PROSPECTIVE PER DIEM RATES: Prospective per diem rates will be established as follows and will be the lower of the amount calculated using the following formulas, or any applicable ceiling:

A. Base year:

(1) For implementation year one (effective September 1, 1990), the providers base year will

be for cost reports filed for base year periods ending no later than June 30, 1990. Since these cost reports will not be audited at the time of implementation, an interim rate will be calculated and once the audited cost report is settled, a final prospective rate will be determined. Retrospective settlements of over or under payments resulting from the use of the interim rate will be made.

(2) Re-basing of the prospective per diem rate will take place every three years. Therefore, the operating years under this plan will be known as year one, year two, and year three. Since re-basing is done every three years, operating year four will again become year one.

(3) Costs incurred, reported, audited or desk reviewed for the provider's last fiscal year which falls in the calendar year prior to year one will be used to re-base the prospective per diem rate. Re-basing costs in excess of one hundred and ten percent of the previous year's reported cost per diem times the index (as described further on in these regulations) will not be recognized for calculation of the base year costs.

B. Inflation factor to recognize economic conditions and trends during the time period covered by the facility's prospective per diem rate. Pursuant to budget availability and at the HCA's discretion, an inflation factor may be used to recognize economic conditions and trends. A notice will be sent out every September informing each provider that:

(1) MBI will or will not be authorized for determining rates for the year; and

(2) the percentage increase if the MBI is authorized;

(3) if utilized, the index used to determine the inflation factor will be the center for medicare and medicaid services (CMS) market basket index (MBI);

(4) each provider's operating costs will be indexed to a mid-year point of February 28 for operating year 1;

(5) if utilized, the inflation factor will be the actual MBI for the previous calendar year.

C. Incentive to reduce increases in cost:

(1) As an incentive to reduce the increases in the administrative and general (A&G) and room and board (R&B) cost center, the HCA will share with the provider the savings below the A&G/R&B ceiling in accordance with the formula described below:

A = [1/2 (B-C)] < $1.00

(2) Where:

A = allowable Incentive per diem
B = A&G/R&B ceiling per diem
C = allowable A&G/R&B per diem from the base year's cost report

D. Cost centers for rate calculation: For the purpose of rate calculation, costs will be grouped into four major cost centers. These are:

(1) direct patient care (DPC)

(2) administration and general (A&G)

(3) room and board (R&B)

(4) facility costs (FC)

E. Case-mix adjustment:

(1) In assuring the prospective reimbursement system addresses the needs of residents of ICF-MR facilities, a case mix adjustment factor will be incorporated into the reimbursement system. The case-mix index (CMI) will be used to adjust the reimbursement levels in the direct patient care cost center. The key objective of the CMI is to link reimbursement to the acuity level of residents in a facility. To accomplish this objective, the HCA utilizes level of care criteria which classify ICF-MR residents into one of three levels, with level I representing the highest level of need. Corresponding to each level of care, the relative values are as follows:

level I	1.077
level II	0.953
level III	0.768

(2) Using these level specific relative values, a provider specific base year CMI will be calculated. The CMI represents the weighted average of the residents' level of care divided by the total number of residents in the facility. The CMI is calculated as follows:

[(A x 1.077)+(B x .953)+(C x .768)]/N = CMI

(3) WHERE: A = number of level I residents
B = number of level II residents
C = number of level III residents
N = total number of provider's residents

F. Calculation of the prospective per diem rate:

(1) A prospective per diem rate for each of the three levels of ICF-MR classification will be determined for each provider. Payment will be made based on the rate for the level of classification of the recipient.

(2) The provider's direct patient care (DPC) allowable cost will be divided by the provider's CMI to determine the cost at a value of 1.00 for the base year. The adjusted DPC is then multiplied by the relative value of the level of classification to determine the DPC component of the rate. To this, will be added the allowable A & G and R & B amount and the allowable facility cost. The formula for the rates will be as follows:

(3) The formula for year one is: (A1 x RV) + C1 + D + E = PR (year 1)

(4) The formula for year two is: [(A1 x RV) + C1) x (1 + MBI)] + D + E = PR (year 2)

(5) The formula for year three is: [(A2 x RV) + C2) x (1 + MBI)] + D + E = PR (year 3)

(6) Where:

A = allowable DPC per diem adjusted to a value of 1.00
B = the relative value of the level of classification.
C = allowable A&G and R&B per diem
D = allowable incentive per diem
E = allowable facility cost per diem
MBI = market basket index
PR = prospective rate
RV = the relative value for the level
"1"= the numerical subscript means the date of the data used in the formula; for example, "A1" means the base direct patient care costs established in the base year, while "A2" would refer to the base direct patient care costs adjusted by the MBI.

G. Effective dates of prospective rates: Rates will be effective September 1 of each year for each facility.

H. Calculation of rates for existing providers that do not have actuals as of June 30, 1990, and for new providers entering the program after September 1, 1990. For existing and for new providers entering the program that do not have actuals, the provider's interim prospective per diem rate will become the sum of:

(1) the state wide average patient care cost per diem for each level plus;

(2) the A&G and R&B ceiling per diem plus;

(3) facility cost per diem as determined by using the medicare principles of reimbursement;

(4) after six months of operation or at the provider's fiscal year end, whichever comes later, the provider will submit a completed cost report; this will be audited to determine the actual allowable and reasonable cost for the provider; a final prospective rate will be established at that time, and retroactive settlement will take place.

I. Changes of provider by sale of an existing facility: When a change of ownership occurs, the provider's prospective rate per diem will become the sum of:

(1) the patient care cost per diem for each level, established for the previous owner plus;

(2) the A&G and R&B per diem established for the previous owner; plus

(3) allowable facility costs determined by using the medicare principles of reimbursement.

J. Changes of ownership by lease of an existing facility: When a change of ownership occurs, the provider's prospective per diem rate will become the sum of:

(1) the patient care cost per diem for each level established for the previous owner; plus

(2) the A&G and R&B per diem established for the previous owner; plus

(3) the lower of allowable facility cost or the ceiling on lease cost as described by this plan.

K. Sale/leaseback of and existing facility: When a sale/leaseback of an existing facility occurs, the provider's prospective rate will remain the same as before the transaction.

[8.313.3.12 NMAC - Rp 8.313.3.12 NMAC, 7/1/2024]

8.313.3.13 ESTABLISHMENT OF CEILINGS: Ceilings on the four major cost centers will be established as follow:

A. Direct patient care: No ceiling will be imposed on this cost center.

B. A&G and R&B: The per diem costs for administration and general and for room and board will be grouped together for the establishment of a ceiling. This ceiling will be calculated at one hundred ten percent of the median of allowable costs for the base year, indexed to 12/31 of the base year. The ceiling will then be indexed to the mid-point of year one and set. For years two and three, the ceiling will not be recalculated, but rather will be

indexed forward using the appropriate inflation factor described earlier in these regulations.

C. Facility cost:

(1) No ceiling will be imposed on this cost center, except in relation to leases.

(2) Effective for leases executed and binding on both parties on or after September 1, 1990, total allowable lease costs for the entire term of the lease for each facility will be limited to an amount determined by a discounted cash flow technique which will provide the lessor and annual rate of return on the fair market value of the facility equal to one times the average of the rates of interest on special issues of public debt obligations issued to the federal hospital insurance trust fund for the twelve months prior to the date the facility became a provider in the New Mexico medicaid program. The rates of interest for this fund are published in both the federal register and the commerce clearing house (CCH).

(3) The rate of return described above will be exclusive of any escalator clauses contained in the lease. The effect of escalator clauses will be considered at the time they become effective, and the reasonableness of such clauses will be determined by the inflation factor described in Subsection B of 8.313.3.12 NMAC of these regulations.

(4) Any appraisal necessary to determine the fair market value of the facility will be the sole responsibility of the provider and is not an allowable cost for reimbursement under the program. The appraisals must be conducted by an appraiser certified by a nationally recognized entity, and such appraiser must be familiar with the health care industry, specifically long term care, and must be familiar with geographic area in which the facility is located. Prior to the appraisal taking place, the provider must submit to the HCA the name of the appraiser, a copy of their certification, and a brief description of the appraiser's relevant experience. The use of a particular appraiser is subject to the approval of the HCA.

[8.313.3.13 NMAC - Rp 8.313.3.13 NMAC, 7/1/2024]

8.313.3.14 ADJUSTMENTS TO BASE YEAR COSTS: Since rebasing of the prospective per diem rate will take place every three years, the HCA recognizes that certain circumstances may warrant an adjustment to the base rate. Therefore, the provider may request such an adjustment for the following reasons:

A. Additional costs incurred to meet new requirements imposed by government regulatory agencies, taxation authorities, or applicable law (e.g. minimum staffing requirements, minimum wage change, property tax increases, etc.)

B. Additional costs incurred as a result of uninsurable losses from catastrophic occurrences.

C. Additional costs of approved expansion, remodeling or purchase of equipment.

D. Such additional costs must reach minimum of $5,000 for facilities with 16 or more beds and $1,000 for facilities with 15 or less beds, of incurred cost per year for rebasing to be considered. The provider may request consideration of such rebasing no more than twice in its fiscal year. The provider is encouraged to submit such rebasing requests before the cost is actually incurred if possible. The HCA will approve or disapprove the rebasing request in a timely manner. If the rebasing is approved, the resulting increase in the prospective per diem rate will go into effect:

(1) beginning with the month the cost was actually incurred if prior approval was obtained, or

(2) no later than 30 days from the date of receipt of the request if retroactive approval was obtained. At no time will rebasing in excess of any applicable ceilings be allowed.

[8.313.3.14 NMAC - Rp 8.313.3.14 NMAC, 7/1/2024]

8.313.3.15 RESERVE BED DAYS: Reserve bed days will be paid using the provider's level III rate.

[8.313.3.15 NMAC - Rp 8.313.3.15 NMAC, 7/1/2024]

8.313.3.16 CAREGIVERS CRIMINAL HISTORY SCREENING: The MAD will reimburse providers for the medicaid portion of the billed amount that providers paid to the New Mexico department of health (DOH). The following is the billing format.

A. Each ICF-MR will pay DOH by check according to DOH regulations.

B. A copy of the check(s) that the ICF-MR sent to DOH will be submitted to medicaid for payment on a quarterly basis on a medicaid reimbursement voucher (available at MAD or at MAD's designee).

C. Medicaid will only be responsible for the medicaid portion of the billed amount.

D. There will be a one-time charge to medicaid for fingerprinting equipment. Ongoing supplies, such as ink, rubber gloves, and other supplies, will be accounted for on the provider's cost report.

[8.313.3.16 NMAC - Rp 8.313.3.16 NMAC, 7/1/2024]

8.313.3.17 RECONSIDERATION PROCEDURES FOR BASE YEAR DETERMINATIONS

A. A provider who is dissatisfied with the base year rate determination or the final settlement (in the case of a change of ownership) may request a reconsideration of the determination by addressing a request for reconsideration to: Director, Medical Assistance Division, P.O. Box 2348, Santa Fe, NM 87504

B. The filing of a request for reconsideration will not affect the imposition of the determination.

C. A request for reconsideration, to be timely, must be filed with or received by the medical assistance division no later than 30 days after the date of the determination notice to the provider.

D. The written request for reconsideration must identify each point on which it takes issue with the audit agent and must include all documentation, citation of HCA, and argument on which the request is based. Any point not raised in the original filed request may not be raised later.

E. The medical assistance division will submit copies of the request and supporting material to the audit agent. A copy of the transmittal letter to the audit agent will be sent to the provider. A written response from the audit agent must be filed with or received by the medical assistance division no later than 30 days after the date of the transmittal letter.

F. The medical assistance division will submit copies of the audit agent's response and supporting material to the provider. A copy of the transmittal letter to the provider will be sent to the audit agent. Both parties may then come up with additional submittals on the point(s) at issue. Such follow-up submittals must be filed with or received by the medical assistance division no later than 15 days after the date of the transmittal letter to the provider.

G. The request for reconsideration and supporting materials, the response and supporting materials, and any additional submittal will be delivered by the medical assistance division director to the secretary, or their designee, within five days after the closing date for final submittals.

H. The secretary, or their designee, may secure all information and call on all expertise they believe necessary to decide the issues.

I. The secretary, or their designee, will make a determination on each point at issue, with written findings and will mail a copy of the determinations to each party within 30 days of the delivery of the material to him. The secretary's determinations on appeals will be made in accordance with the applicable provisions of the plan. The secretary's decision will be final and changes to the original determination will be implemented pursuant to that decision.

A. Provider's cost reports submitted by participating providers as a basis for reimbursement as required by law are available to the public upon receipt of a written request to the medical assistance division. Information thus disclosed is limited to cost report documents required by social security administration regulations and, in the case of a settled cost report, the notice of program settlement.

B. The request must identify the provider and the specific report(s) requested.

C. The cost for copying will be charged to the requestor.

8.324.10.6 OBJECTIVE: The objective of these regulations is to provide policies for the service portion of the New Mexico medicaid program. These policies describe eligible providers, covered services, noncovered services, utilization review, and provider reimbursement.
[8.324.10.6 NMAC - Rp 8.324.10.6 NMAC, 7/1/2024]

8.324.10.7 DEFINITIONS: [**RESERVED**]

8.324.10.8 MISSION STATEMENT: The mission of the New Mexico medical assistance division (MAD) is to maximize the health status of medicaid-eligible individuals by furnishing payment for quality health services at levels comparable to private health plans.
[8.324.10.8 NMAC - Rp 8.324.10.8 NMAC, 7/1/2024]

8.324.10.9 AMBULATORY SURGICAL CENTER SERVICES: New Mexico medicaid program (medicaid) pays for medically necessary health services furnished to eligible recipients, including covered services furnished in ambulatory surgical centers 42 CFR Section 440.20(a). This part describes eligible providers, covered services, service limitations and general reimbursement methodology.
[8.324.10.9 NMAC - Rp 8.324.10.9 NMAC, 7/1/2024]

8.324.10.10 ELIGIBLE PROVIDERS:

A. Upon approval of New Mexico medical assistance program provider participation application by the New Mexico medical assistance division (MAD), ambulatory surgical centers certified to participate in medicare under Title XVIII of the Social Security Act as free-standing ambulatory surgical centers are eligible to be reimbursed by medicaid for providing services as ambulatory surgical centers.

(1) The centers for medicare and medicaid (CMS) certify ambulatory surgical centers based on surveys and recommendations submitted by the licensing and certification bureau of the New Mexico department of health (DOH).

(2) Ambulatory surgical centers which are not free-standing but are part of an accredited and certified hospital are subject to 8.311.2 NMAC, *Hospital Services*.

B. Once enrolled, providers receive and are responsible for maintenance of a packet of information, including medicaid program policies, billing instructions, utilization review instructions and other pertinent material from MAD. To be eligible for medicaid reimbursement, providers are bound by MAD policies, procedures, billing instructions, reimbursement rates, and all audit, recoupment and withholding provisions unless superceded by

federal law, federal regulation or the specific written approval of the MAD director. Providers must be enrolled as medicaid providers before submitting a claim for payment to MAD claims processing contractor.
[8.324.10.10 NMAC - Rp 8.324.10.10 NMAC, 7/1/2024]

8.324.10.11 PROVIDER RESPONSIBILITIES: Providers who furnish services to medicaid recipients must comply with all federal and state laws and regulations relevant to the provision of medical services, including but not limited to, Title XIX of the Social Security Act, the Medicare and Medicaid Anti-Fraud Act, and the state Medicaid Fraud Act. Providers also agree to conform to MAD policies and instructions as specified in this manual and its appendices, as updated. See 8.302.1 NMAC, *General Provider Policies*.

A. Recipient eligibility determination: Providers must verify that services they furnish are provided to eligible recipients.

(1) Providers may verify eligibility through several mechanisms, including the use of an automated voice response system, contacting the medicaid fiscal agent contractor eligibility help desk, contracting with a medicaid eligibility verification system (MEVS) vendor, or contracting with a medicaid magnetic swipe card vendor.

(2) Providers must verify that recipients are eligible for medicaid throughout periods of continued or extended services. By verifying client eligibility, a provider is informed of restrictions that may apply to a recipient's eligibility.

B. Requirements for updating information: Providers must furnish in writing to MAD or MAD claims processing contractor with complete information on changes in their address, license, certification, board specialties, corporate name or corporate ownership, and a statement as to the continuing liability for the provider for any dissolution of other disposition of the health care provider or person. MAD or the MAD claims processing contractor must receive this information at least 60 days before the change. Any payment made by MAD based upon erroneous or outdated information is subject to recoupment.

C. Documentation requirements: Providers must maintain records to fully disclose the nature, quality, amount, and medical necessity of the services furnished to recipients who are currently receiving or who have received medical services in the past 42 CFR 431.107(b). Documentation supporting medical necessity must be legible and available to medicaid upon request. See 8.302.1 NMAC, *General Provider Policies.*
[8.324.10.11 NMAC - Rp 8.324.10.11 NMAC, 7/1/2024]

8.324.10.12 COVERED SERVICES:

A. Medicaid covers ambulatory surgical center facility services, as required by the condition of the recipient and if the following conditions are met:

(1) the surgical procedure and use of the facility are medically necessary and are covered by medicaid; and

(2) all medicaid requirements for the surgery, such as applicable consent forms or prior authorization requirements, are met by the physician.

B. See 8.310.2 NMAC, *Medical Services Providers*.
[8.324.10.12 NMAC - Rp 8.324.10.12 NMAC, 7/1/2024]

8.324.10.13 NONCOVERED SERVICES: Ambulatory surgical center services are subject to the limitations and coverage restrictions which exist for other medicaid services. If the surgery is non-covered, the anesthesia is non-covered. See 8.301.3 NMAC, *General Noncovered Services*.

A. Direct payment to physician. Ambulatory surgical centers are not reimbursed by medicaid for physician fees. Reimbursement for physician fees is made directly to the provider of the service.

B. Services furnished to dual eligible recipients. By federal regulation, the medicare program pays ambulatory surgical centers only for an approved list of specific surgical procedures. Medicare is the primary payment source for individuals who are eligible for both medicare and medicaid. For these recipients, medicaid will not pay an ambulatory surgical center for a surgical procedure denied by medicare. Ambulatory surgical centers must refer these recipients to facilities which medicare pays for the surgical procedure, such as an outpatient hospital.
[8.324.10.13 NMAC - Rp 8.324.10.13 NMAC, 7/1/2024]

8.324.10.14 PRIOR AUTHORIZATION AND UTILIZATION REVIEW: All medicaid services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See

8.302.5 NMAC, *Prior Authorization and Utilization Review*. Once enrolled, providers receive instructions and documentation forms necessary for prior authorization and claims processing.

A. Prior authorization: Certain procedures or services can require prior authorization from MAD or its designee. Services for which prior authorization was obtained remain subject to utilization review at any point in the payment process.

B. Eligibility determination: Prior authorization of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. Reconsideration: Providers who disagree with prior authorization request denials or other review decisions can request a re-review and a reconsideration. See 8.350.2 NMAC, *Reconsideration of Utilization Review Decisions*.

[8.324.10.14 NMAC - Rp 8.324.10.14 NMAC, 7/1/2024]

8.324.10.15 REIMBURSEMENT: Ambulatory surgical centers must submit claims for reimbursement on the CMS-1500 claim form or its successor. See 8.302.2 NMAC, *Billing for Medicaid Services*. Once enrolled, providers receive instructions on documentation, billing and claims processing.

A. Inclusion of all services in the facility fee: All services furnished by the facility are considered reimbursed in the facility fee and cannot be billed separately. The amount paid will be the lesser of the facility's usual and customary charge or the maximum allowed by medicaid.

B. Reimbursement methodology: The facility fee maximum is established at a level which considers the surgical procedure and the area in which the facility is located. Each surgical procedure is assigned to one of nine surgical groups, based on the complexity of the procedure. Each of these surgical groups has a separate reimbursement level. The level of reimbursement is determined by medicaid by utilizing the medicare carrier for procedures payable to ambulatory surgical centers by medicare regulations. The list of surgeries payable under medicare regulations also designates the assigned surgical group for payment purposes. The list is available from the medicare carrier.

(1) For those procedures for which medicare has not established a reimbursement level, MAD assigns the procedure to one of the nine surgical groups. The assignment is based upon the complexity of the procedure or its similarity to procedures within the surgical groups developed by medicare.

(2) Reimbursement is made at the level established by medicaid for that surgical group.

C. Reimbursement for multiple procedures: When more than one covered surgical procedure is performed during the same surgical encounter, reimbursement is made at the rate for the most complex procedure plus fifty percent of the applicable rate for any additional procedures.

D. Reimbursement for laboratory services:

(1) The following laboratory services are considered included in the facility fee and are not reimbursed separately:

(a) hematocrit;

(b) hemoglobin (colorimetric); and

(c) routine urinalysis, without microscopy.

(2) For an ambulatory surgical center to be reimbursed for laboratory tests which are not included in the facility fee, the following conditions must be met:

(a) ambulatory surgical center laboratories must be separately certified and enrolled as clinical laboratories with valid CLIA numbers;

(b) laboratory tests billed must fall within the approved laboratory specialties/ subspecialties for which the laboratory has been certified;

(c) laboratories must have separate New Mexico medical assistance program provider participation applications approved by MAD to bill for laboratory tests not included in the facility fee; and

(d) laboratory tests must be performed on the premises of ambulatory surgical centers and not sent out to reference laboratories. See 8.324.2 NMAC, *Laboratory Services*.

E. Reimbursement for diagnostic imaging and therapeutic radiology services: Diagnostic radiological, diagnostic ultrasound, peripheral vascular flow measurements and nuclear medicine studies furnished by a facility are considered covered services, but payment is considered to be made within the facility fee and are not separately reimbursed services. See 8.324.3 NMAC, *Diagnostic Imaging and Therapeutic Radiology Services*.

8.325.4.11 PROVIDER RESPONSIBILITIES: Providers who furnish services to medicaid recipients must comply with all federal and state laws and regulations relevant to the provision of medical services, including but not limited to Title XIX of the Social Security Act, the Medicare and Medicaid Anti-Fraud Act, and the state Medicaid Fraud Act. Providers also agree to conform to MAD policies and instructions as specified in this manual and it appendices, as updated. See, 8.302.1 NMAC, *General Provider Policies*. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance. Providers must maintain records to fully disclose the nature, quality, amount, and medical necessity of the services furnished to recipients who are currently receiving or who have received medical services in the past 42 CFR 431.107(B). Documentation supporting medical necessity must be legible and available to medicaid upon request. See 8.302.1 NMAC, *General Provider Policies*.

8.325.4.12 ELIGIBLE RECIPIENTS: To be eligible for hospice care, a physician must provide a written certification that the recipient has a terminal illness. Recipients must elect to receive hospice care for the duration of the election period.

A. Certification of terminal illness: The hospice must obtain a written certification statement signed by the hospice medical director, physician member of the hospice interdisciplinary team or recipient's attending physician that the recipient is terminally ill. The physician must sign the written certification within seven calendar days of the date services are initiated. Certification statements must include information that is based on the recipient's medical prognosis, and the life expectancy is six months or less if the terminal illness runs its typical course.

(1) If a recipient receives hospice benefits beyond 210 days, the hospice must obtain a written recertification statement from the hospice medical director or the physician member of the hospice interdisciplinary group before the 210-day period expires.

(2) Hospice benefits furnished beyond the 210-day period may be subject to medical review.

B. Election of hospice care: Recipients who are eligible for hospice care must elect to receive hospice services. Recipients or their legal representatives elect hospice services by filing an election statement with a particular hospice designee.

(1) For the duration of the election, recipients who elect hospice care, waive their right to medicaid payment for the following services:

(a) services related to treatment of the terminal condition or related condition for which hospice care was elected; and

(b) services equivalent to hospice care, such as home health services, and private duty nursing services under enhanced early and periodic screening, diagnosis and treatment (EPSDT).

(2) Recipients who are receiving home and community based waiver services or other in-home services based on a plan of care must have the plan of care coordinated with the hospice provider and adjusted as necessary to avoid duplicative or unnecessary services.

(3) Hospice coverage continues for 210-day time periods, as long as recipients remain in hospice care and do not cancel the election.

(4) Recipients or their representatives can designate an effective date for the election. The effective date begins with the first or any subsequent day of hospice services.

C. Election statement: The election statement must include the following elements:

(1) designation of the hospice that will provide care;

(2) designation of the recipient's attending physician;

(3) acknowledgement that the recipients or representatives has been given a full understanding of the palliative rather than curative nature of hospice care;

(4) effective date of the election; and

(5) the recipient's or the representative's signature.

D. Revocation of hospice care services:

(1) A recipient or representative can cancel the election of hospice care at any time by filing a statement with MAD or its designee. The statement must include the following information:

(a) recipient is revoking their election for medicaid coverage of hospice care;

(b) effective date of the revocation, which is not earlier than the actual date of the revocation; and

(c) the recipient's or the representative's signature.

(2) Upon revocation of the election of hospice services, recipients are no longer covered for medicaid hospice services.

(3) Recipients can elect to receive hospice care services again at any time. The same process for approval of services must be followed when the second election occurs. A new plan of care, certification statement, and election statement must be submitted to MAD or its designee.

E. Change of designated hospice:

(1) Recipients or their representatives can change designated hospice providers by filing statements with MAD or its designee. A statement must contain the following information:

(a) name of the hospice the recipient is leaving;

(b) name of the hospice the recipient is entering; and

(c) effective date of the change.

(2) A change in ownership or name of a hospice is not considered a change in the recipient's designated hospice.

[8.325.4.12 NMAC - Rp 8.325.4.12 NMAC, 7/1/2024]

8.325.4.13 COVERED SERVICES AND SERVICE LIMITATIONS: For recipients electing hospice care, medicaid covers hospice core services furnished to eligible recipients that are reasonable and necessary for the palliation or symptom management of a recipient's terminal illness and related conditions. Hospice core services include the medications, durable medical equipment and medical supplies needed to deliver palliative care. Hospice providers are reimbursed for the delivery of core services based on daily rate.

A. The hospice services necessary for a specific recipient must be documented in an individualized treatment plan. The plan must be developed by attending physicians, medical directors and interdisciplinary groups and must meet certain requirements: See 42 CFR 418.50 et. seq.

(1) Hospices must designate a registered nurse to coordinate the implementation of each recipient's plan of care.

(2) The interdisciplinary group, including nursing services, medical social services, physician services and counseling services practitioners are responsible for the following:

(a) developing the plan of care;

(b) providing or supervising hospice care and services;

(c) reviewing and updating the plan of care;

(d) establishing policies for daily provision of hospice care and services; and

(e) coordinating with other medicaid support service providers such that the plan of care is not duplicative of hospice services.

(3) All hospice services must be available 24 hours per day to the extent necessary to meet the needs of the terminally ill recipients.

B. Core services: Medicaid covers the following nursing, medical social service, physician and counseling services as core hospice services:

(1) nursing services furnished by or under the supervision of registered nurses and based on the treatment plan and recognized standards of practice;

(2) medical social services furnished by a qualified social worker under the direction of a physician;

(3) physician services performed by a doctor of medicine or osteopathy, including palliation and management of terminal illness and related conditions and the recipient's general medical needs not met by the recipient's attending physician;

(4) counseling services available to recipients and family members; counseling can be furnished for training families to provide care and preparing recipients and families to adjust to the recipient's approaching death; counseling includes dietary, spiritual and other counseling for recipients and families and bereavement counseling furnished after a recipient's death; the following counseling services must be furnished by hospices:

(a) organized program of bereavement services under the supervision of qualified professionals; the plan of care for these services must reflect family needs and provide a clear outline of the type, frequency and duration of counseling; bereavement counseling is a required but non-reimbursed service;

(b) dietary counseling, when applicable, furnished by qualified professionals;

(c) spiritual counseling, including notice to recipients of the availability of clergy; and

(d) other counseling, furnished by members of the interdisciplinary group or other qualified professionals.

(5) home health aide and homemaker services at frequencies sufficient to meet the needs of recipients; home health aides must meet training and qualification requirements; see 42 CFR 484.36; registered nurses must visit a recipient's residence every two weeks to assess the performance of the aide or homemaker services;

(6) physical therapy, occupational therapy and speech-language therapy must be available if needed to control symptoms or maintain activities of daily living;

(7) durable medical equipment, medical supplies, and pharmacy services related to the palliation and management of the terminal illness and related conditions:

(a) See 8.324.5 NMAC, *Durable Medical Equipment and Medical Supplies*.

(b) Medicaid covers only drugs and biologicals defined in Section 1861 (t) of the Social Security Act and used primarily for pain relief and symptom control related to terminal illness. All drugs and biologicals must be administered in accordance with accepted standards of practice.

(c) Every hospice must have a policy for the disposal of controlled drugs kept in the recipient's home when those drugs are no longer needed.

(d) Drugs and biologicals are to be administered only by the following individuals:

(i) a licensed nurse or physician;

(ii) the recipient with the approval of the attending physician; and

(iii) any other individual in accordance with applicable state and local laws; the individual and each drug and biological they are authorized to administer must be specified in the recipient's plan of care.

(8) short-term inpatient services for pain control and symptom management delivered in a facility which is a medicaid provider; and

(9) short-term inpatient respite services furnished in a facility which is a medicaid provider; medicaid covers five consecutive days of inpatient respite care which can be needed on an infrequent basis to provide respite for the recipient's family or primary caregivers.

(a) The need for and duration of inpatient respite services must be specified in the treatment plan.

(b) Inpatient respite must be furnished by a hospice facility, hospital, or nursing facility that meets the requirements in 42 CFR Section 418.100.

C. Continuous nursing care services: Medicaid covers continuous nursing care required to achieve pain control and symptom management. Continuous care can be covered during a period of crisis if the recipient needs such care to achieve palliation and manage acute medical symptoms at home.

(1) To be considered continuous care, nursing care must be furnished for eight consecutive hours in a 24 hour period. Medicaid covers the homemaker or aide services furnished during the other 16 hours as routine home care.

(2) Medicaid covers continuous nursing services for a maximum of 72 consecutive hours.

[8.325.4.13 NMAC - Rp 8.325.4.13 NMAC, 7/1/2024]

8.325.4.14 PRIOR AUTHORIZATION AND UTILIZATION REVIEW: Hospice services are subject to utilization review for medical necessity and program compliance. These reviews can be performed before services are furnished, after services are furnished and before payment is made, after payment is made, or at any point in the service or payment process. See 8.302.5 NMAC, *Prior Authorization and Utilization Review*. Once enrolled, providers receive utilization review instructions and documentation forms which assists in the receipt of prior authorization and claims processing.

A. Prior authorization: Hospice services do not require prior authorization. Services remain subject to review at any point in the payment process for medical necessity.

B. Eligibility determination: Prior authorization of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. Reconsideration: Providers who are dissatisfied with a utilization review decision or action can request a re-review and a reconsideration. See 8.350.2 NMAC, *Reconsideration of Utilization Review Decisions*.

[8.325.4.14 NMAC - Rp 8.325.4.14 NMAC, 7/1/2024]

8.325.4.15 NONCOVERED SERVICES: Hospice services are subject to the limitations and coverage restrictions that exist for other medicaid services. See 8.301.3 NMAC, *General Noncovered Services*. Medicaid does not cover the following hospice services.

A. Core services furnished by nonemployees. Core services when furnished routinely by non-employees or contracted staff are not covered by medicaid. A hospice can bill only for contracted staff necessary to supplement hospice employees in meeting recipient needs during periods of peak patient loads.

B. Bereavement counseling furnished to families after a recipient's death is a required hospice service, however, hospice agencies are not paid an additional amount for furnishing these services.

C. Inpatient respite care for more than five consecutive days. After five days, additional inpatient respite care is reimbursed as routine home care. Respite care cannot be furnished if the recipient lives in a long-term care facility.

D. Hospice services furnished by nondesignated hospices are not a covered benefit.

[8.325.4.15 NMAC - Rp 8.325.4.15 NMAC, 7/1/2024]

8.325.4.16 PATIENT SELF DETERMINATION ACT: All adult recipients must be informed of their right to make health decisions, including the right to accept or refuse medical treatment, as specified in the Patient Self-Determination Act. See 8.302.1 NMAC, *General Provider Policies*.

[8.325.4.16 NMAC - Rp 8.325.4.16 NMAC, 7/1/2024]

8.325.4.17 REIMBURSEMENT: Hospice providers must submit claims for reimbursement on the UB-92 claim form or its successor. Election documentation must be submitted with the initial claim. See 8.302.2 NMAC, *Billing for Medicaid Services*. Once enrolled, providers receive instructions on documentation, billing and claims processing. Medicaid reimbursement for hospice care is made at one of four prospective daily rates, depending on the level of care furnished. The only retroactive adjustment to reimbursement is the year-end application of the limitation on inpatient care payment. Physician services are reimbursed separately from the hospice daily rate.

A. Payment for hospice care:

(1) Payment rates for hospice care services are determined by the centers for medicare and medicaid services (CMS), with local adjustments for wage differences within each category. Reimbursement for hospice services is based on one of four all-inclusive daily rate categories. The daily rate for each category includes all services necessary for palliative care, such as the purchase of needed medications, durable medical equipment, and medical supplies. The following are basic categories of hospice care:

(a) "routine home care day" defined as a day on which the recipient receives hospice care at home that is not defined as continuous care;

(b) "continuous home care day" defined as a day on which the recipient is not in an inpatient facility and receives nursing services for eight consecutive hours in a 24 hour period; this care is furnished only during brief periods of crisis to maintain the recipient at home; home health aide or homemaker services can also be furnished on a continuous basis, but these services are considered routine care;

(c) "inpatient respite care day" defined as a day on which a recipient receives care in approved facilities on a short-term basis to provider respite for the recipient's family or primary caregiver; and

(d) "general inpatient care day" defined as a day on which a recipient receives care in inpatient facilities for pain control or acute or chronic symptom management that cannot be managed in other settings.

(2) Reimbursement is made to a hospice for each day on which recipients are eligible for hospice care. Reimbursement is based on the appropriate payment amount for each day, regardless of the category of services furnished on any given day.

(3) Reimbursement for a continuous home care day varies, depending on the number of hours of continuous nursing services furnished. The continuous home care rate is divided by 24 to yield an hourly rate. The number of hours of care furnished during the continuous home care day is multiplied by the hourly rate to yield the continuous home care payment for that day. Medicaid reimbursement for continuous home care is limited to a maximum of 72 consecutive hours of service.

(4) The inpatient reimbursement rate for approved facility for short-term inpatient care depends on the category of care furnished, either inpatient respite or general inpatient.

(a) Reimbursement for inpatient respite care is limited to a maximum of five consecutive days at a time. Medicaid pays for the sixth and any subsequent day of respite care at the routine home care rate.

(b) Medicaid pays the inpatient rate for the admission date and all subsequent inpatient days. For the discharge day, the applicable home care rate is reimbursed. Reimbursement for the discharge day when the recipient is discharged deceased is made at the inpatient rate.

(c) Reimbursement for all inpatient care is subject to a limitation that total inpatient care days for medicaid recipients cannot exceed twenty percent of the total days for which these recipients elected hospice care. The calculation and any necessary retroactive adjustment of overall payments per provider is completed during the cap period. See 42 CFR 418.302 (f).

B. Reimbursement for physician services:

(1) Medicaid covers the following services performed by hospice physicians as part of the general reimbursement rate for hospice care services:

(a) general supervisory services of the medical director; and

(b) participation in establishing, reviewing and updating plans of care, supervision of care and services, and establishment of governing policies by the physician member of the interdisciplinary group.

(2) For direct patient care services furnished by a hospice employee or a physician working under arrangement with the hospice, not listed above, medicaid reimburses the hospice for each procedure at the lesser of the medicaid fee schedule or the amount billed.

(3) Medicaid does not pay for physician services furnished on a volunteer basis.

(4) Medicaid does not cover physician services furnished by the recipient's attending physician as a hospice service, if he or she is not an employee of the hospice or providing services under arrangements with the hospice. Only the attending physician can bill for these services.

[8.325.4.17 NMAC - Rp 8.325.4.17 NMAC, 7/1/2024]

8.325.4.18 HOSPICE SERVICES FOR RECIPIENTS IN NURSING FACILITIES: If a recipient does not have family or friends to provide the necessary care to allow the recipient to remain at home (home does not include an adult foster care setting or a home for the aged), a recipient living in a nursing facility (NF) can elect to receive hospice care. The NF is considered the recipient's place of residence. The NF and the designated hospice must sign a cooperative agreement that the hospice is responsible for the professional management of the recipient's hospice care and the NF provides room and board.

A. Room and board services: The agreement must specify that the NF provides the following room and board services:

(1) perform personal care services;

(2) help with activities of daily living;

(3) provide socializing activities;

(4) administer medication;

(5) maintain room cleanliness; and

(6) supervise the use of durable medical equipment and prescribed therapies.

B. Reimbursement for nursing facility room and board: For medicaid recipients living in a NF who elect hospice care, medicaid pays the hospice an additional per diem amount for routine home care and continuous home care days for the NF room and board services.

(1) The room and board reimbursement is ninety-five percent of the medicaid rate paid to the specific NF for that recipient.

(2) For dual-eligible medicare/medicaid recipients who live in an NF and elect the medicare hospice benefit, medicaid pays the hospice for the NF room and board services if the hospice and NF have a written agreement delineating responsibilities for hospice care and room and board services.

(a) For dual-eligible recipients, medicaid pays any coinsurance amounts for drugs, biological and respite care. See 42 CFR Section 418.400.

(b) For dual-eligible recipients, direct medicaid payment for service to the NF is discontinued.

B. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. Providers shall have written policies concerning the acceptance of recipients and the feasibility of meeting the recipient's needs in the home care setting, which include, but are not limited to:

(1) an evaluation visit in the recipient's residence to consider the physical facilities available, capabilities and attitudes of the recipient, family members or significant others, the availability of care givers, if any, to help in the care of the patient, and the appropriateness of home health care for meeting the recipient's needs in a safe environment;

[8.325.9.11 NMAC - 8.325.9.11 NMAC, 7/1/2024]

8.325.9.12 ELIGIBLE RECIPIENTS:

A. Recipients must have a medical need to receive care at home to be eligible for home health agency services and must be certified as such by their attending physicians. A medical need to receive care at home means that the recipient has a condition caused by illness or injury which renders him/her unable to leave the home to obtain necessary medical care and treatment (i.e., is essentially homebound) or that the medical need for care at home is more appropriate and cost-effective and will prevent or delay institutionalization. Recipients do not need to be bedridden to be considered as having a medical need to receive care at home. Recipients may be considered eligible to receive care at home if they meet one or more of the following criteria:

(1) recipients who cannot leave their residences without the use of wheelchairs, crutches, walkers or assistance from another individual;

(2) recipients who because of severe physical or mental illness or injury must comply with doctor's orders and avoid all stressful physical activity;

(3) recipients who cannot leave their residences because of danger caused by a mental condition;

(4) recipients who have just returned to their residence after hospital stays for severe illness or surgical procedures and whose activities are restricted by their physicians because of pain, suffering, medical limitation or danger of infection.;

(c) live in an isolated area.

B. Infrequent periods away from residence: Recipients can leave their residences occasionally for medical treatment or personal errands and be eligible to receive home health care.

C. Determination of medical need to receive care at home: MAD or its designee reviews information submitted by the provider and determines whether recipients are considered eligible for home health service. Coverage is granted when the home health agency can demonstrate that care at home is appropriate to the medical needs of the recipient, the needed service is not otherwise available, and not receiving care would result in lack of access to health care services, institutionalization of the recipient and greater costs to the medicaid program.

D. Documentation of medical need to receive care at home: The home health agency is responsible for documenting on the written plan of care evidence of the recipient's medical need for home health care.

(6) registered nurses or other appropriate professional staff members must make a supervisory visit to the recipient's residence at least every two weeks to observe and decide whether goals are being met. The recipient's record must contain documentation that, at least every two weeks or more often if necessary, there has been communication between the home health aide and the supervisory nurse or other appropriate professional staff member regarding the recipient's condition; and

(7) services must be furnished directly through the home health agency staff or by contractual arrangement.

E. Durable medical equipment and medical supplies: Medicaid covers medically necessary durable medical equipment and medical supplies which are specified in the plan of care. See 8.324.5 NMAC, *Durable Medical Equipment and Medical Supplies*.

(1) Reimbursement is made to the home health agency and is limited to medical supplies necessary during the course of the plan of care. The following durable medical equipment and medical supplies are covered as specified:

(a) Medicaid does not cover stock or routine items, such as band-aids, cotton balls, thermometers, lotion, personal care items, tape and alcohol.

(b) Non-routine supplies, such as catheters, ostomy supplies, feeding tubes, intravenous supplies, dressing supplies, ointments, solutions, chux diapers and home testing kits must be ordered as part of the plan of care.

(2) Utilization review, including retrospective review, can be made by MAD or its designee to assess the medical necessity for durable medical equipment and medical supplies and program compliance. If MAD determines that the equipment and supplies that were billed were not medically necessary or a covered service for the care of that recipient, the MAD payments are recouped.

F. Maternal/child services: Medicaid covers perinatal and pediatric home health services if the following conditions are met:

(1) the service is prescribed by the recipient's attending physician and is included in the plan of care established by the recipient's physician in consultation with home health agency staff;

(2) if the recipient has a medical need to receive care at home, in the sense that care in the home is more appropriate to the needs of the recipient, safe, cost-effective and will prevent or delay institutionalization;

(3) the services are reasonable and medically necessary to treat a high risk pregnancy, at-risk infant, illness, injury and to prevent infection. To be considered reasonable and medically necessary, the services furnished shall be:

(a) consistent with the recipient's particular medical needs as determined by the recipient's attending physician;

B. home health services which are not skilled, intermittent and medically necessary;

C. services furnished to recipients who do not meet the eligibility criteria for home health services;

D. services furnished to recipients in places other than their place of residence;

[8.325.9.14 NMAC - 8.325.9.14 NMAC, 7/1/2024]

8.325.9.15 PRIOR APPROVAL AND UTILIZATION REVIEW: All medicaid services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, *Prior Approval and Utilization Review*. Once enrolled, providers receive instructions and documentation forms necessary for prior approval and claims processing.

A. Prior approval: All home health services beyond initial visits for evaluation purposes, require prior approval from MAD or its designee. Services for which prior approval was obtained remain subject to utilization review at any point in the payment process. Prior approval does not guarantee payment, if upon utilization review after payment has occurred, recipients are determined to be ineligible or medical necessity is not found.

B. Eligibility determination: Prior approval of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. Reconsideration: Providers who disagree with prior approval can request a re-review and a reconsideration. See 8.350.2 NMAC, *Reconsideration of Utilization Review Decisions*.

D. Effect of hospitalization: If a recipient is hospitalized during the certification period and a significant change in condition or course of treatment occurs, the home health agency must treat the recipient as a new patient and submit a new prior approval request and new plan of care. If there is no significant change in the recipient's condition or course of treatment, an agency can resume care under the existing plan of care.

8.325.9.17 REIMBURSEMENT: Home health agencies assume responsibility for any and all claims submitted on behalf of the provider and under the provider's number. Home health agencies must submit claims for reimbursement on the UB-92 claim form or its successor. See 8.302.2 NMAC, *Billing for Medicaid Services*. Once enrolled, providers receive instructions on documentation, billing and claims processing. Reimbursement is made based on the Title XVIII (medicare) cost-finding procedures and reimbursement methodology. Charges are paid at an interim rate basis established under the medicaid guidelines by the medicare audit agent, subject to retroactive settlement when the cost report is final. Cost reports on appropriate forms must be submitted to the audit agent within 90 days of the close of the provider's fiscal accounting period. Failure to provide timely cost reports results in suspension of payments.

[8.325.9.17 NMAC - 8.325.9.17 NMAC, 7/1/2024]

8.325.9.18 REIMBURSEMENT LIMITATIONS: The following limitations apply to reimbursement made to home health agencies:

B. the established percentage relationship of the agency's cost to charges per unity of services includes all services;

C. out-of-state providers are reimbursed at seventy percent of billed charges. Out-of-state home health services are approved only in very unusual circumstances, since home health services are furnished in the recipient's residence and that residence must be in New Mexico; and

(1) statement of the nature of the specific problem and needs of the recipient;

(2) description of the functional level of the recipient, including an assessment and evaluation of the following:

(a) mental status assessment;

(b) intellectual function assessment;

(c) psychological assessment;

(d) educational assessment;

(e) vocational assessment;

(f) social assessment;

(g) medication assessment; and

(h) physical assessment.

(3) description of the intermediate and long-range goals and placement options with the projected timetable for their attainment, including information on the duration and scope of services; and

(4) statement and rationale of the plan of treatment for achieving these intermediate and long-range goals, including review and modification of the plan.

[8.326.2.15 NMAC - Rp 8.326.2.15 NMAC, 7/1/2024]

8.326.2.16 PRIOR APPROVAL AND UTILIZATION REVIEW: All medicaid services are subject to utilization review for medical necessity and program compliance. Reviews can be performed before services are furnished, after services are furnished and before payment is made, or after payment is made. See 8.302.5 NMAC, Prior Approval and Utilization Review. Once enrolled, providers receive instructions and documentation forms necessary for prior approval and claims processing.

A. Prior approval: Certain procedures or services which are part of the recipients' plan of care can require prior approval from MAD or its designee. Services for which prior approval was obtained remain subject to utilization review at any point in the payment process.

B. Eligibility determination: Prior approval of services does not guarantee that individuals are eligible for medicaid. Providers must verify that individuals are eligible for medicaid at the time services are furnished and determine if medicaid recipients have other health insurance.

C. Reconsideration: Providers who disagree with prior approval request denials or other review decisions can request a re-review and a reconsideration. See 8.350.2 NMAC, Reconsideration of Utilization Review Decisions.

[8.326.2.16 NMAC - Rp 8.326.2.16 NMAC, 7/1/2024]

8.326.2.17 REIMBURSEMENT:

A. Case management providers must submit claims for reimbursement on the HCFA-1500 claim form or its successor. See 8.302.2 NMAC, Billing for Medicaid Services. Instructions on documentation, billing and claims processing are sent to approved medicaid providers. Reimbursement for covered case management services is made at the lesser of the following:

(1) the provider's billed charge; or

(2) the MAD fee schedule for the specific service or procedure.

B. The provider's billed charge must be their usual and customary charge for an average month of services to individuals who are part of the target population. Monthly charges are based on a cost analysis conducted periodically by the HCA.

C. "Usual and customary charge" refers to the amount which the individual providers charge the general public in the majority of cases for a specific procedure or service.

D. For case management services furnished by an institution, costs associated with case management must be removed from their cost reports prior to cost settlement or rebasing.

B. A grievance is a recipient's expression of dissatisfaction about any matter or aspect of the CSC or its operation, other than a CSC's action, as defined below.

C. An appeal is a request for review by the CSC of a CSC's action.
